Cautionary Statement on Forward Looking Statements

Certain statements contained herein, regarding matters that are not historical facts, may be forward-looking statements (as defined in the U.S. Private Securities Litigation Reform Act of 1995). Such forward-looking statements include statements regarding management's intentions, plans, beliefs, expectations, financial results, or forecasts for the future, including among other things: discussions of future operations; expected or estimated operating results and financial performance; and statements regarding our positioning, including our ability to drive sustainable long-term growth, and other non-historical statements. Words such as "plans," "expects," "will," "anticipates," "estimates," and similar words, or the negatives thereof, are intended to identify estimates and forward-looking statements. The reader is cautioned not to rely on these forward-looking statements. These forward-looking statements are based on current expectations of future events, including with respect to future market conditions, company performance and financial results, operational investments, business prospects, new strategies and growth initiatives, the competitive environment, and other events. If the underlying assumptions prove inaccurate or known or unknown risks or uncertainties materialize, actual results could vary materially from the expectations and projections of the Company. Such risks and uncertainties include, but are not limited to: our ability to successfully develop, license, acquire and commercialize new products on a timely basis; the competition we face in the pharmaceutical industry from brand and generic drug product companies, and the impact of that competition on our ability to set prices; our ability to obtain exclusive marketing rights for our products; our revenues are derived from the sales of a limited number of products, a substantial portion of which are through a limited number of customers; the impact of a prolonged business interruption within our supply chain; the continuing trend of consolidation of certain customer groups; our dependence on third-party suppliers and distributors for raw materials for our products and certain finished goods; our dependence on third-party agreements for a portion of our product offerings; legal, regulatory and legislative efforts by our brand competitors to deter competition from our generic alternatives; our dependence on information technology systems and infrastructure and the potential for cybersecurity incidents; our ability to attract, hire and retain highly skilled personnel; risks related to federal regulation of arrangements between manufacturers of branded and generic products; our reliance on certain licenses to proprietary technologies from time to time; the significant amount of resources we expend on research and development; the risk of claims brought against us by third parties; risks related to changes in the regulatory environment, including U.S. federal and state laws related to healthcare fraud abuse and health information privacy and security and changes in such laws; changes to Food and Drug Administration product approval requirements; the impact of healthcare reform and changes in coverage and reimbursement levels by governmental authorities and other third-party payers; our substantial amount of indebtedness and our ability to generate sufficient cash to service our indebtedness in the future, and the impact of interest rate fluctuations on such indebtedness; our potential expansion into additional international markets subjecting us to increased regulatory, economic, social and political uncertainties, including recent events affecting the financial services industry; our ability to identify, make and integrate acquisitions or investments in complementary businesses and products on advantageous terms; the impact of global economic, political or other catastrophic events; our obligations under a tax receivable agreement may be significant; and the high concentration of ownership of our Class A Common Stock and the fact that we are controlled by the Amneal Group. The forward-looking statements contained herein are also subject generally to other risks and uncertainties that are described from time to time in the Company's filings with the Securities and Exchange Commission, including under Item 1A, "Risk Factors" in the Company's most recent Annual Report on Form 10-K and in its subsequent reports on Forms 10-Q and 8-K. Investors are cautioned not to place undue reliance on any such forward-looking statements, which speak only as of the date they are made. Forward-looking statements included herein speak only as of the date hereof and we undertake no obligation to revise or update such statements to reflect the occurrence of events or circumstances after the date hereof.

Non-GAAP Financial Measures

This release includes certain non-GAAP financial measures, including EBITDA, adjusted EBITDA, adjusted net income, and adjusted diluted EPS, which are intended as supplemental measures of the Company's performance that are not required by or presented in accordance with GAAP. Adjusted diluted EPS reflects diluted earnings per share based on adjusted net income, which is net loss adjusted to (A) exclude (i) non-cash interest, (ii) GAAP provision for (benefit from) income taxes, (iii) amortization, (iv) stock-based compensation, (v) acquisition, site closure expenses, and idle facility expenses, (vi) restructuring and other charges, (vii) loss on refinancing, (viii) charges related to certain legal matters, including interest, net, (ix) asset impairment charges, (x) regulatory approval milestone, (xi) change in fair value of contingent consideration, (xii) insurance recoveries for property losses and associated expenses (xiii) increase in tax receivable agreement liability, (xiv) system implementation expense, (xv) reorganization expenses, (xvi) other and (xvii) net income attributable to non-controlling interests not associated with class B common stock, and (B) include non-GAAP provision for income taxes. Non-GAAP adjusted EPS for 2023 and prior periods is calculated assuming the weighted average diluted shares outstanding of class A and class B common stock under the if-converted method. Management uses these non-GAAP measures internally to evaluate and manage the Company's operations and to better understand its business because they facilitate a comparative assessment of the Company's operating performance relative to its performance based on results calculated under GAAP. These non-GAAP measures also isolate the effects of some items that vary from period to period without any correlation to core operating performance and eliminate certain charges that management believes do not reflect the Company's operations and underlying operational performance. The compensation committee of the Company's board of directors also uses certain of these measures to evaluate management's performance and set its compensation. The Company believes that these non-GAAP measures also provide useful information to investors regarding certain financial and business trends relating to the Company's financial condition and operating results facilitates an evaluation of the financial performance of the Company and its operations on a consistent basis. Providing this information therefore allows investors to make independent assessments of the Company's financial performance, results of operations and trends while viewing the information through the eyes of management. These non-GAAP measures are subject to limitations. The non-GAAP measures presented in this release may not be comparable to similarly titled measures used by other companies because other companies may not calculate one or more in the same manner. Additionally, the non-GAAP performance measures exclude significant expenses and income that are required by GAAP to be recorded in the Company's financial statements; do not reflect changes in, or cash requirements for, working capital needs; and do not reflect interest expense, or the requirements necessary to service interest or principal payments on debt. Further, our historical adjusted results are not intended to project our adjusted results of operations or financial position for any future period. To compensate for these limitations, management presents and considers these non-GAAP measures in conjunction with the Company's GAAP results; no non-GAAP measure should be considered in isolation from or as alternatives to any measure determined in accordance with GAAP.

Q4 2023 key highlights

Accelerated full year 2023 growth	• **2023 net revenue of $2.4B +8% growth** and **adjusted EBITDA of $558M +9% growth** reflects broad-based revenue strength with all three segments growing • **Driven by key catalysts**: Record year of 39 new retail and injectables launches; Biosimilars ramp exceeded plan; AvKARE revenue +31%; continued Specialty growth
Robust 2024 outlook	• **Expect continued strong revenue and adjusted EBITDA growth in 2024** with full year guidance of $2.55B to $2.65B revenues and $580M to $620M adjusted EBITDA • IPX203 complete response resubmission; On-track for Q3 launch, pending FDA approval
Continued deleveraging	• **Reduced net leverage to 4.8x at end of 2023**, down from 5.3x at end of 2022, driven by higher profitability and cash generation allowing for gross debt reduction over time

Executing on Amneal's four pillars of value creation

Key Pillar		Metric	2019	2023	Growth projection[2]
#1	Increased diversification	OSD[1] Gx % of revenue	53%	25%	<20% of revenue by 2027
#2	Strong financial performance	Revenues	$1.6B	$2.4B	High single-digit growth
		Adjusted EBITDA	$339M	$558M	Meaningful acceleration
#3	Cash generation	Operating Cash Flow	$2M	$346M	Sustained higher levels of cash flow generation
#4	Deleveraging	Net Leverage	7.4x	4.8x	< 4x in 2025, < 3x thereafter

(1) OSD = Oral Solid. AvKARE sales of Amneal label products, royalty income and international revenues are included within Generics Non-OSD consistent with how the Company manages its portfolio. Projection excludes select high-value OSD products that are highly complex with limited competition.
(2) Growth projection reflects the potential outcomes of delivering our long-term strategy and is based on the current macro environment and expected product pipeline launches, among other assumptions.

Global diversified pharmaceutical company with a clear strategy for sustainable growth

Business area	2023 Net Revenue	Strategy for growth	Growth projection[1]

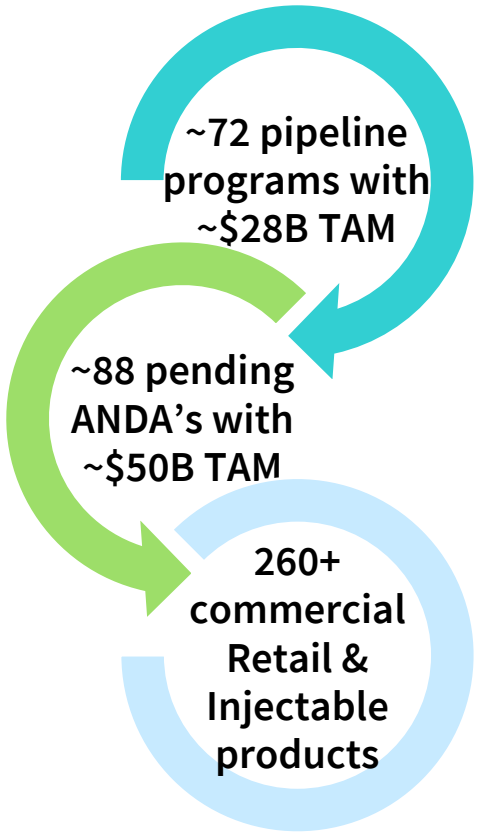
Note: Total may not add due to rounding.

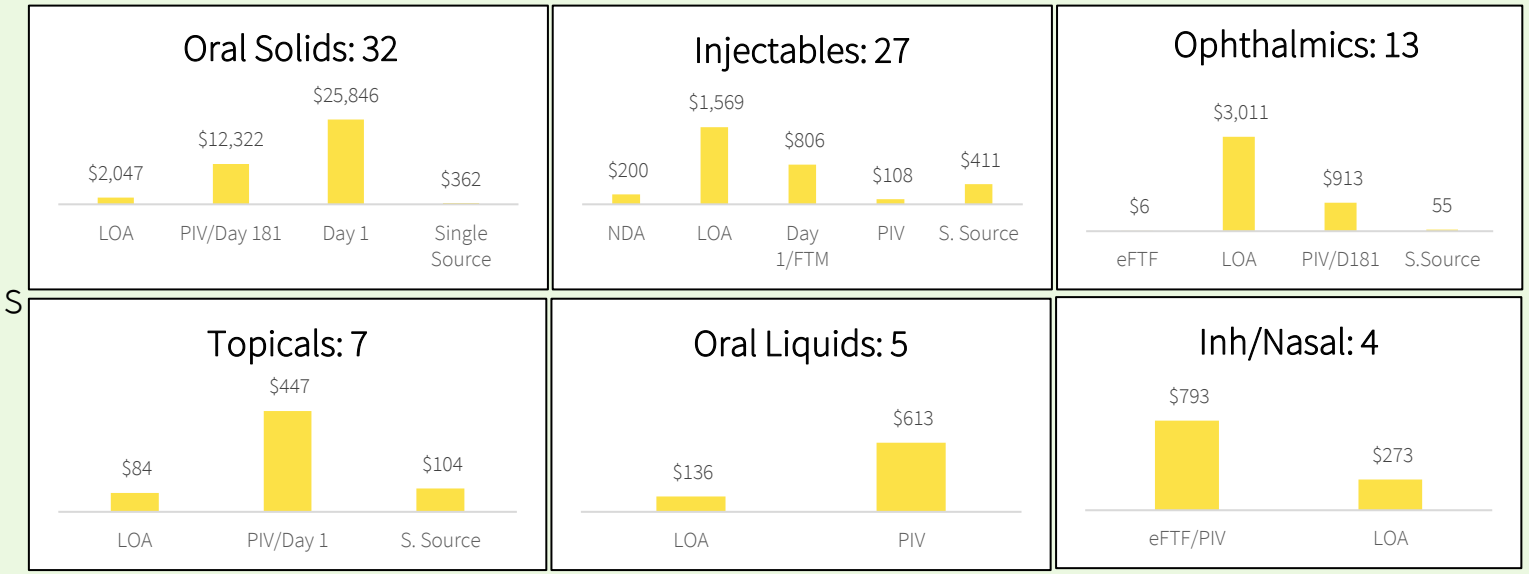
(1) AvKARE sales of Amneal label products, royalty income and international revenues are included within Generics Non-OSD consistent with how the Company manages its portfolio.

Deep pipeline as our wheel of innovation keeps turning



Developing pipeline across increasingly complex dosage forms with **94% non-oral solids**

Pending ANDA's across dosage forms with **64% non-oral solids**



Refreshing pipeline by filing **25-30 ANDA's** and launching **30+ new products each year**

Note: Total Addressable market (TAM) are approximate IQVIA (brand + active generics) MAT December 2023 sales ($ in millions).
For ANDA charts, Single Source: One active player other than RLD / RS. FTM: First to market (No IP/ No Generic). PIV: Paragraph IV certification. LOA: Launch upon approval. eFTF: exclusive first to file. High Value: large size opportunity for Amneal.

Scaling our injectables portfolio to drive substantial growth

Significant U.S. injectables market needs	• Notable supply chain disruptions across various players • Chronic shortages, including in oncology medicines • 78 injectables currently on U.S. FDA shortage list[(1)]

Differentiated portfolio

- **Expand portfolio of 30+ products** by launching **10+ new injectables each year**
- **Focused in complex areas**, such as drug/device, peptides, long-acting injectables and LVP bags
- **Differentiated 505(b)(2) and branded portfolio**, including Pemrydi Q2 launch

Enhanced commercial capabilities

- **Deep commercial capabilities** across both hospital and oncology market segments to drive differentiated value proposition
- Broad contracting ability across channels

Expanded manufacturing capacity

- **Expanded capacity from ~20M to ~60M units** across 4 manufacturing sites with overlapping capabilities and redundancy
- Capabilities across dosage forms with vials, bottles, pre-mixed bags, pre-filled syringes and cytotoxic oncology products

Expect $300M+ injectables revenues by 2025

(1) Per U.S. FDA shortage list as of February 2024.

Rapidly growing biosimilars with key oncology medicines

Biosimilar highlights

- **Our 3 biosimilars delivered 2023 revenue of $66M** in their first commercial year and above our expectations of $40-60M
- **Expect to grow to $125M+ in 2024,** driven by our strong commercial trajectory and growing market share
- **Added 2 biosimilars to enhance our pipeline** with denosumab biosimilar candidates for Prolia® and XGEVA®
- **Focus on medical benefit products** with more stable pricing dynamics
- **Portfolio of oncology based 505(b)(2) products** – synergistic with current pipeline
- Look to **add 2 to 3 more in-licensing biosimilar opportunities** in 2024

Strong biosimilar uptake in 1st year

ALYMSYS®
bevacizumab-maly
(Avastin®)

FYLNETRA®
pegfilgrastim-pbbk
(Neulasta®)

RELEUKO®
filgrastim-ayow
(Neupogen®)

Rapidly growing pharma market

- **U.S. Biosimilar market expected to grow to ~$50B by 2030**[(1)]
- **~$141B branded products losing exclusivity 2023-2027**[(2)], including key biologic medicines
- **Growing adoption of biosimilars** with categories like Bevacizumab reaching ~80%+ biosimilar adoption[(1)]

Expect $200M+ in 2025 biosimilars revenues from initial portfolio and continuing to expand our pipeline

amneal

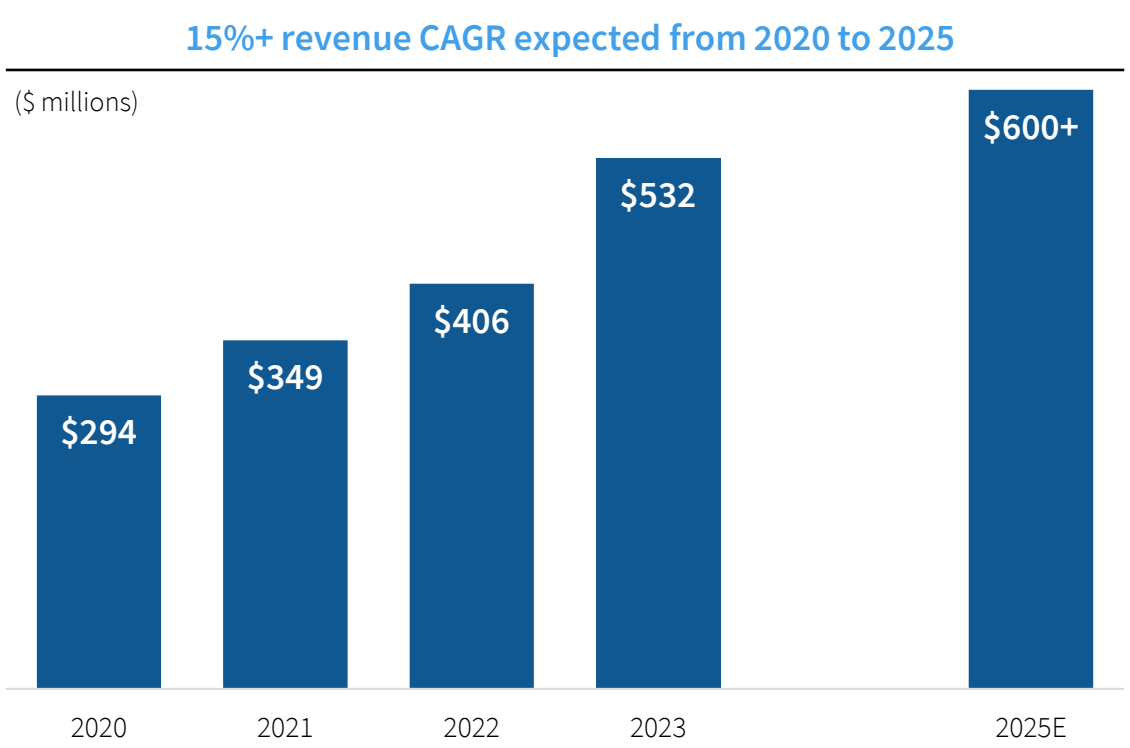
Delivering continued double-digit growth in AvKARE



AvKARE strategic focus areas

- **Operates as a contract administrator** (wholesaler and re-packager selling to hospitals and U.S. Government agencies) with 3 sales channels:
  - **Government (VA & DOD)** with long-term contracts
  - **Distribution** focused on public health institutions and retail pharmacies
  - **Unit Dose** through novel re-packaging solutions

Well-positioned for long-term growth driven by new products and new customer channels

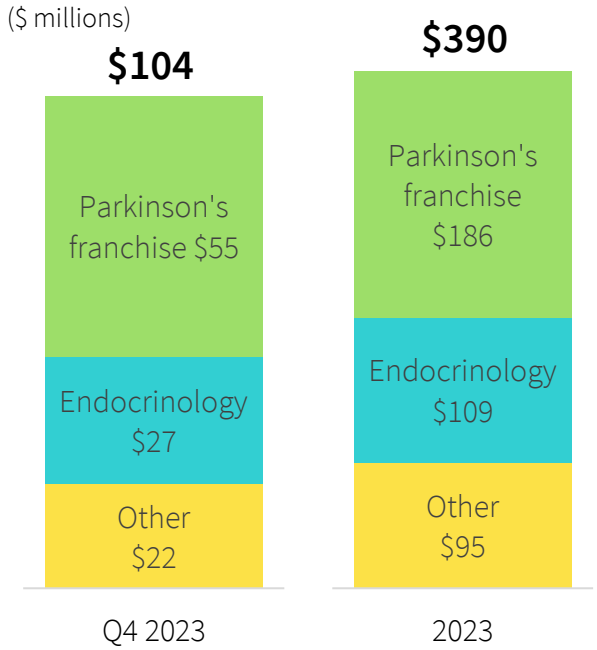
Note: Figures above exclude Amneal label generic products sold through AvKARE, which are included in our Generics segment results.

Expanding our Specialty business with new branded products

Specialty highlights

- Therapeutic focus on **Neurology** and **Endocrinology**
- **Added ONGENTYS®**, an adjunctive therapy for Parkinson's Disease
- Look to **add more Specialty assets** through business development

Key brands continue to grow



Expected specialty pipeline launches (1)

(1) OCF ex-discrete items in 2024 does not contemplate one-time and non-recurring items such as legal settlements and other discrete items. OCF ex-discrete items excludes $86M in 2023 and $146M in 2022 in legal settlement payments and associated legal and other professional services fees, primarily related to the settlements of the Opana ER® antitrust litigation.

(2) 2023 benefited from strong AR collections (105% of net sales) which added ~$125M to 2023 operating cash flow.

(3) Includes Term Loan B (TLB) maturities due in 2025 and 2028, borrowings under the revolving credit facilities due in 2027, and Rondo sellers note.

(4) Includes cash and cash equivalents.

(5) Net debt = Gross debt less total cash.

(6) Please see the language under the heading "Non-GAAP Financial Measures" in today's presentation for a discussion of these Non-GAAP measures and the Appendix to this presentation for a reconciliation thereof to the most directly comparable GAAP measures.
