**NOTE: Amounts may not add across due to rounding.**

Financial information includes non-GAAP measures, which include or exclude certain items. These non-GAAP measures differ from reported GAAP results and are intended to illustrate what management believes are relevant period-over-period comparisons and are helpful to investors as an additional tool for further understanding and assessing the Company's ongoing operating performance. Exclusion of items in the Company's non-GAAP presentation should not be considered an inference that these items are unusual, infrequent or non-recurring.

### Definitions

**Adjusted EBITDA:** Represents net income excluding interest expense, depreciation and amortization, impairment charges, restructuring and related charges, contract termination costs, transaction-related expenses (acquisition-, disposition-, or separation-related), foreign currency impacts of highly inflationary countries, stock-based compensation expense, early extinguishment of debt costs and income taxes. Beginning with the third quarter of 2018, our calculation of adjusted EBITDA excludes the currency effects of highly inflationary countries. Adjusted EBITDA is a financial measure that is not recognized under U.S. GAAP and should not be considered as an alternative to net income or other measures of financial performance or liquidity derived in accordance with U.S. GAAP. In addition, our definition of Adjusted EBITDA may not be comparable to similarly titled measures of other companies. Please see Table 5 of our second quarter 2019 earnings release for non-GAAP reconciliations.
