CAUTIONARY STATEMENTS

This presentation contains forward-looking statements that involve a number of risks and uncertainties, including statements regarding the outlook for CT Real Estate Investment Trust's ("CT REIT" or the "REIT") business and results of operations. Forward-looking statements are provided for the purposes of providing information about CT REIT's future outlook and anticipated events or results and may include statements regarding known and unknown risks and uncertainties and other factors that may cause the actual results to differ materially from those indicated. Such factors include, but are not limited to, general economic conditions, the financial position, business strategy, budgets, capital expenditures, financial results, distributions, taxes, plans and objectives of or involving CT REIT. Particularly, statements regarding future results, performance, achievements, prospects or opportunities for CT REIT or the real estate industry are forward-looking statements. In some cases, forward-looking information can be identified by terms such as "may", "might", "will", "could", "should", "would", "occur", "expect", "plan", "anticipate", "believe", "intend", "estimate", "predict", "potential", "continue", "likely", "schedule", or the negative thereof or other similar expressions concerning matters that are not historical facts. Some of the specific forward-looking statements in this presentation include, but are not limited to, statements with respect to the following: CT REIT's relationship with Canadian Tire Corporation, Limited, ("CTC", which term refers to Canadian Tire Corporation, Limited and its subsidiaries unless the context otherwise requires); CT REIT's ability to execute its growth strategies; CT REIT's distribution policy and the distributions to be paid to its unitholders; CT REIT's capital structure strategy and its impact on the financial performance of the REIT and distributions to be paid to its unitholders; CT REIT's access to available sources of debt and/or equity financing; the expected tax treatment of CT REIT and its distributions to its unitholders; including the REIT's ability to qualify as a "mutual fund trust", as defined in the *Income Tax Act* (Canada), and as a "real estate investment trust", as defined in the rules applicable to SIFT trusts and SIFT partnerships in *the Income Tax Act* (Canada); CT REIT's ability to meet its stated obligations; CT REIT's ability to expand its asset base, make accretive acquisitions, develop or intensify its property and participate with CTC in the development or intensification of the properties; interest rates and the future interest rate environment. CT REIT has based these forward-looking statements on factors and assumptions about future events and financial trends that it believes may affect its financial condition, results of operations, business strategy and financial needs, including that the Canadian economy will remain stable over the next 12 months, that inflation will remain relatively low, that tax laws and the interpretation and enforcement thereof remain unchanged, that conditions within the real estate market, including competition for acquisitions, will be consistent with the current climate, that the Canadian capital markets will provide CT REIT with access to equity and/or debt at reasonable rates when required and that CTC will continue its involvement with the REIT in a manner that is consistent with its past involvement. Although the forward-looking statements contained in this presentation are based upon assumptions that management of CT REIT believes are reasonable based on information currently available to management, there can be no assurance that actual results will be consistent with these forward-looking statements. Forward-looking statements necessarily involve known and unknown risks and uncertainties, many of which are beyond the REIT's control, that may cause CT REIT's or the industry's actual results, performance, achievements, prospects and opportunities in future periods to differ materially from those expressed or implied by such forward-looking statements. These considerations, risks and uncertainties include, among other things, the factors discussed in our Annual Information Form dated February 11, 2019 ("Forward Looking Information" and "Risk Factors") and Management's Discussion and Analysis for the period ended June 30, 2019 (see "Section 13 – Forward Looking Information" and "Section 11 – Enterprise Risk Management). For more information on the risks, uncertainties and assumptions that could cause CT REIT's actual results to differ from current expectations, please also refer to CT REIT's public filings available on SEDAR at www.sedar.com and at www.ctreit.com. CT REIT cautions that the foregoing list of important factors and assumptions and those risks, uncertainties and assumptions referred to in CT REIT's public filings are not exhaustive and other factors could also materially adversely affect its results. Investors and other readers are urged to consider the foregoing risks, uncertainties, factors and assumptions carefully in evaluating the forward-looking information and are cautioned not to place undue reliance on such forward-looking information. Statements that include forward-looking information do not take into account the effect that transactions or non-recurring or other special items announced or occurring after the statements are made have on CT REIT's business. For example, they do not include the effect of any dispositions, acquisitions, asset write-downs or other charges announced or occurring after such statements are made. The forward-looking information in this presentation is based on certain factors and assumptions made as of the date hereof. CT REIT does not undertake to update the forward-looking information, whether written or oral, that may be made from time to time by it or on its behalf, to reflect new information, future events or otherwise, except as required by applicable securities laws.

NON-GAAP MEASURES

FFO:	CT REIT defines "FFO" consistently with the definition presented in the white paper on funds from operations prepared by the Real Property Association of Canada ("REALpac"). FFO is calculated as net income in accordance with GAAP, adjusted by removing the impact of (i) fair value adjustments on investment properties; (ii) other fair value adjustments; (iii) gains and losses on the sale of investment properties; and (iv) amortization of tenant incentives. The GAAP measurement most directly comparable to FFO is net income.
AFFO:	CT REIT defines "AFFO" consistently with the definition presented in the white paper on adjusted funds from operations prepared by REALpac. CT REIT calculates AFFO by adjusting FFO for non-cash income and expense items, such as adjustments to (a) remove the impact of: (i) adjusting for any differences resulting from recognizing property rental revenues or expenses on a straightline basis; and (ii) initial one-time costs to establish the REIT; and (b) deduct a reserve for normalized maintenance capital expenditures, tenant inducements and leasing commissions.
AFFO per Unit:	"AFFO per Unit" is defined as AFFO divided by the number of Units outstanding where the total Units consists of REIT Units and Class B LP Units outstanding. Total Units also includes diluted Units used in calculating non-GAAP measures and include restricted and deferred units issued under various plans and exclude the effect of assuming that all of the Class C LP Units will be settled with Class B LP Units.

FFO and AFFO are not measures defined under IFRS. FFO and AFFO are not intended to represent operating profits for the period nor should any of these measures be viewed as an alternative to net income, cash flow from operating activities or other measures of financial performance calculated in accordance with GAAP. Readers should be further cautioned that these measures may not be comparable to similar measures presented by other issuers.
