WEC Energy Group reports second-quarter results

MILWAUKEE – WEC Energy Group (NYSE: WEC) today reported net income of $245.4 million, or 76 cents per share, for the second quarter of 2025 - up from $211.3 million, or 67 cents per share, in last year's second quarter.

For the first six months of 2025, the company recorded net income of $969.6 million, or $3.02 per share – up from $833.6 million, or $2.64 per share, in the corresponding period a year ago.

Consolidated revenues totaled $5.2 billion, up $706.8 million from the first half of 2024.

“A warm start to the summer, steady execution of our capital plan and a continued focus on operating efficiency were major factors that shaped a strong quarter,” said Scott Lauber, president and CEO.

Retail deliveries of electricity – excluding the iron ore mine in Michigan’s Upper Peninsula – were up by 1.0 percent in the second quarter of 2025, compared to the second quarter last year.

Electricity consumption by small commercial and industrial customers was 0.6 percent higher. Electricity use by large commercial and industrial customers – excluding the iron ore mine – increased by 0.8 percent.

Residential electricity use rose by 1.6 percent.

On a weather-normal basis, retail deliveries of electricity during the second quarter of this year – excluding the iron ore mine – increased by 1.1 percent.

The company is reaffirming its 2025 earnings guidance of $5.17 to $5.27 per share. This assumes normal weather for the remainder of the year.

Earnings per share listed in this news release are on a fully diluted basis.

Conference call

A conference call is scheduled for 1 p.m. Central time, Wednesday, July 30. The call will review 2025 second-quarter earnings and the company's outlook for the future.

All interested parties, including stockholders, news media and the general public, are invited to listen. Access the call at 888-330-2443 up to 15 minutes before it begins. The number for international callers is 240-789-2728. The conference ID is 3088105.

Conference call access also is available at wecenergygroup.com. Under 'Webcasts,' select 'Q2 Earnings.' In conjunction with this earnings announcement, WEC Energy Group will post on its website a package of detailed financial information on its second-quarter performance. The materials will be available at 6:30 a.m. Central time, Wednesday, July 30.

Replay

A replay will be available on the website and by phone. Access to the webcast replay will be available on the website about two hours after the call. Access to a phone replay also will be available approximately two hours after the call and remain accessible through Aug. 13, 2025. Domestic callers should dial 800-770-2030. International callers should dial 647-362-9199. The replay conference ID is 3088105.

WEC Energy Group (NYSE: WEC), based in Milwaukee, is one of the nation's premier energy companies, serving 4.7 million customers in Wisconsin, Illinois, Michigan and Minnesota.

The company's principal utilities are We Energies, Wisconsin Public Service, Peoples Gas, North Shore Gas, Michigan Gas Utilities, Minnesota Energy Resources and Upper Michigan Energy Resources. Another major subsidiary, We Power, designs, builds and owns electric generating plants. In addition, WEC Infrastructure LLC owns a fleet of renewable generation facilities in states ranging from South Dakota to Texas.

WEC Energy Group (wecenergygroup.com) is a Fortune 500 company and a component of the S&P 500. The company has approximately 33,000 stockholders of record, 7,000 employees and more than $48 billion of assets.

Forward-looking statements

Certain statements contained in this press release are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These statements are based upon management's current expectations and are subject to risks and uncertainties that could cause our actual results to differ materially from those contemplated in the statements. Readers are cautioned not to place undue reliance on these statements. Forward-looking statements include, among other things, statements concerning management's expectations and projections regarding earnings, earnings growth rates, dividend payments and future results. In some cases, forward-looking statements may be identified by reference to a future period or periods or by the use of forward-looking terminology such as

“anticipates,” “believes,” “estimates,” “expects,” “forecasts,” “guidance,” “intends,” “may,” “objectives,” “plans,” “possible,” “potential,” “projects,” “should,” “targets,” “will” or similar terms or variations of these terms.

Factors that could cause actual results to differ materially from those contemplated in any forward-looking statements include, but are not limited to: general economic conditions, including business and competitive conditions in the company’s service territories; timing, resolution and impact of rate cases and other regulatory decisions, including rider reconciliations; the company’s ability to continue to successfully integrate the operations of its subsidiaries; availability of the company’s generating facilities and/or distribution systems; unanticipated changes in fuel and purchased power costs; key personnel changes; unusual, varying or severe weather conditions; continued industry restructuring and consolidation; continued advances in, and adoption of, new technologies that produce power or reduce power consumption; energy and environmental conservation efforts; electrification initiatives, mandates and other efforts to reduce the use of natural gas; the company’s ability to successfully acquire and/or dispose of assets and projects and to execute on its capital plan; terrorist, physical or cyber-security threats or attacks and data security breaches; construction risks; labor disruptions; equity and bond market fluctuations; changes in the company’s and its subsidiaries’ ability to access the capital markets; changes in tax legislation or our ability to use certain tax benefits and carryforwards; changes in and uncertainty around federal, state, and local legislation and regulation, including changes resulting from the current U.S. presidential administration, as well as in rate-setting policies or procedures and environmental standards, in the enforcement of these laws and regulations and in the interpretation of regulations or permit conditions by regulatory agencies; supply chain disruptions; inflation; political or geopolitical developments impacting the global economy, supply chain and fuel prices generally, including as a result of changes to U.S. and foreign government trade policies or from ongoing, escalating, or expanding regional or international conflicts; the impact from any health crises, including epidemics and pandemics; current and future litigation and regulatory investigations, proceedings or inquiries; the ability of the Company to successfully and/or timely adopt new technologies, including artificial intelligence; changes in accounting standards; the financial performance of the American Transmission Company as well as projects in which the company’s energy infrastructure business invests; the ability of the company to obtain additional generating capacity at competitive prices; goodwill and its possible impairment; and other factors described under the heading “Factors Affecting Results, Liquidity and Capital Resources” in Management’s Discussion and Analysis of Financial Condition and Results of Operations and under the headings “Cautionary Statement Regarding Forward-Looking Information” and “Risk Factors” contained in the company’s Form 10-K for the year ended December 31, 2024, and in subsequent reports filed with the Securities and Exchange Commission. Except as may be required by law, the company expressly disclaims any obligation to publicly update or revise any forward-looking information.

	Three Months Ended June 30		
(in millions)	**2025**	**2024**	**B (W)**
Operation and maintenance not included in the line items below	**$ 177.1**	$ 169.5	$ (7.6)
Transmission [1]	**147.0**	135.7	(11.3)
Regulatory amortizations and other pass through expenses [2]	**61.2**	51.7	(9.5)
We Power [3]	**32.5**	33.1	0.6
Earnings sharing mechanisms	**(1.8)**	(0.8)	1.0
Total other operation and maintenance	**$ 416.0**	$ 389.2	$ (26.8)

[1] Represents transmission expense that our electric utilities are authorized to collect in rates. The Public Service Commission of Wisconsin (PSCW) has approved escrow accounting for American Transmission Company LLC and Midcontinent Independent System Operator Inc. network transmission expenses for Wisconsin Electric Power Company (WE) and Wisconsin Public Service Corporation (WPS). As a result, WE and WPS defer as a regulatory asset or liability, the difference between actual transmission costs and those included in rates until recovery or refund is authorized in a future rate proceeding. During the second quarter of 2025 and 2024, $159.9 million and $140.0 million, respectively, of costs were billed to our electric utilities by transmission providers.

[2] Regulatory amortizations and other pass through expenses are substantially offset in margins and therefore do not have a significant impact on net income.

[3] Represents costs associated with the W.E. Power, LLC (We Power) generation units, including operating and maintenance costs recognized by WE. During the second quarter of 2025 and 2024, $32.9 million and $29.3 million, respectively, of costs were billed to or incurred by WE related to the We Power generation units, with the difference in costs billed or incurred and expenses recognized, either deferred or deducted from the regulatory asset.
