**BOSTON PIZZA ROYALTIES INCOME FUND ANNOUNCES 2016 FOURTH QUARTER
AND ANNUAL RESULTS INCLUDING DISTRIBUTABLE CASH PER UNIT OF \$1.388 FOR THE YEAR, AN
INCREASE OF 1.8%**

***Payout ratio of 98.9% for the Year despite weaker general economic conditions
in regions affected by the oil and gas industry.***

Highlights

- System-Wide Gross Sales¹ of \$270.8 million for the Period and \$1.08 billion for the Year.
- Franchise Sales² from royalty pool restaurants of \$204.1 million for the Period and \$828.6 million for the Year, representing a decrease of 0.6% for the Period and an increase of 1.8% for the Year, versus the same periods one year ago.
- Distributable Cash³ per Unit decreased 2.6% for the Period and increased 1.8% for the Year.
- Payout Ratio⁴ of 101.1% for the Period and 98.9% for the Year. Fund's cash balance at the end of the Year was \$3.5 million, an increase of \$0.3 million from the prior year.
- Same Store Sales Growth of negative 3.1% for the Period and negative 0.3% for the Year.
- Boston Pizza opened 11 net new full service restaurants and completed 50 restaurant renovations in 2016.
- On February 8, 2017, the Trustees declared January 2017 distributions to unitholders of 11.5 cents per Unit payable on February 28, 2017.

VANCOUVER, BC, February 16, 2017 - Boston Pizza Royalties Income Fund (the "Fund") and Boston Pizza International Inc. ("BPI") reported financial results today for the fourth quarter period from October 1, 2016 to December 31, 2016 (the "Period") and January 1, 2016 to December 31, 2016 (the "Year"). A copy of this press release, the annual consolidated financial statements and related Management's Discussion and Analysis ("MD&A") of the Fund and BPI are available at www.sedar.com and www.bpincomefund.com. The Fund will host a conference call to discuss the results on February 16, 2017 at 8:30 am Pacific Time (11:30 am Eastern Time). The call can be accessed by dialling 1-800-319-4610 or 604-638-5340. A replay will be available until March 16, 2017 by dialling 1-855-669-9658 or 604-674-8052 and entering the access code: 1134 followed by the # sign.

Same store sales growth ("SSSG"), a key driver of distribution growth for unitholders of the Fund, was negative 3.1% for the Period and negative 0.3% for the Year compared to positive 2.2% and positive 1.8%, respectively, for the same periods in 2015. Franchise Sales, the basis upon which Royalty⁵ and Distribution Income⁵ are paid to the Fund, exclude revenue from the sale of liquor, beer, wine and approved national promotions and discounts. On a Franchise Sales basis, SSSG was negative 3.1% for the Period and negative 0.5% for the Year compared to positive 1.8% and positive 1.7%, respectively, for the same periods in 2015. The negative SSSG for the Period and Year was principally due to the progressively weaker general economic conditions in regions directly connected to the Canadian oil and gas industry, partially offset by menu re-pricing and higher sales as a result of Boston Pizza's nachos promotion. Franchise Sales of restaurants in the Fund's royalty pool were \$204.1 million for the Period and \$828.6 million for the Year compared to \$205.4 million and \$814.0 million, respectively, for the same periods in 2015. The decrease in Franchise Sales for the Period was primarily due to negative SSSG partially offset by the additional Franchise Sales from six net new restaurants added to the royalty pool on January 1, 2016. The increase in Franchise Sales for the Year was primarily due to the additional Franchise Sales from six net new restaurants added to the royalty pool on January 1, 2016 partially offset by negative SSSG.

"We are pleased to have achieved an increase in Distributable Cash per Unit of 1.8% for the Year, a Payout Ratio of 98.9% for the Year, and an increase in System-wide Gross Sales of 2.0% to over \$1.08 billion for the Year, despite the impact of weaker economic conditions in regions connected to the oil and gas industry. We also opened 13 new Boston Pizza restaurants and renovated 50 locations in 2016", said Mark Pacinda, President and CEO of BPI. "While the impact of progressively weaker general economic conditions in regions directly connected to the Canadian oil and gas industry has presented challenges, we saw strength in other parts of Canada, including Ontario and British Columbia".

The Fund's net and comprehensive income was \$8.7 million for the Period, relatively unchanged from the fourth quarter of 2015. The Fund's net and comprehensive income was \$37.8 million for the Year compared to net and comprehensive income of \$19.2 million in 2015. The \$18.6 million increase in the Fund's net and comprehensive

income for the Year compared to 2015 was primarily due to a net \$19.4 million change in fair value adjustments and an increase in Distribution Income of \$2.5 million and Royalty income of \$0.5 million, partially offset by an increase in income taxes of \$2.6 million and an increase in interest and financing expense of \$1.3 million. For a detailed discussion on the Fund's net and comprehensive income, please see the "Operating Results – Net and Comprehensive Income / Basic and Diluted Earnings" section in the Fund's MD&A for the Period and the Year. The Fund's net income under International Financial Reporting Standards ("IFRS") contains non-cash items, such as the fair value adjustments on financial instruments and deferred income taxes, that do not affect the Fund's business operations or its ability to pay distributions to unitholders. In the Fund's view, net income is not the only or most meaningful measurement of the Fund's ability to pay distributions. Consequently, the Fund reports the non-IFRS metrics of Distributable Cash and Payout Ratio to provide investors with more meaningful information regarding the amount of cash that the Fund has generated to pay distributions and the extent to which the Fund has distributed that cash. Readers are cautioned that Distributable Cash and Payout Ratio are non-IFRS financial measures that do not have standardized meanings prescribed by IFRS and therefore may not be comparable to similar measures presented by other issuers. For a reconciliation between cash flow from operating activities (the most directly comparable IFRS measure) and Distributable Cash see the "Financial Summary" section of this press release. For a detailed discussion on the Fund's Distributable Cash and Payout Ratio, please see the "Operating Results – Distributable Cash / Payout Ratio" section in the Fund's MD&A for the Period and the Year.

The Fund's Distributable Cash was \$6.9 million for the Period compared to \$7.2 million for the same period in 2015. The decrease in Distributable Cash of \$0.3 million, or 3.3% was primarily due to higher interest expense on Class B Unit and Class C Unit liabilities of \$0.3 million. The Fund generated Distributable Cash of \$28.2 million for the Year compared to \$25.6 million in 2015. The increase in Distributable Cash of \$2.6 million, or 10.2%, is primarily comprised of (a) a \$2.5 million increase due to the Fund having completed the Transaction⁶ and receiving \$2.5 million more Distribution Income for the Year than in 2015, (b) a \$0.9 million increase related to the Fund having incurred an initial change in working capital of \$0.9 million (the "**Initial Working Capital Change**") in 2015 in connection with completing the Transaction with no corresponding change to working capital for the Year, (c) \$0.5 million increase due to higher Royalty income of \$0.5 million, partially offset by (d) \$0.9 million of higher interest expense on Class B Units, and (e) \$0.4 million of higher interest expense on long-term debt. Please see the "Distributable Cash / Payout Ratio" section in the Fund's MD&A for the Period and the Year for details regarding the Initial Working Capital Change.

The Fund's Distributable Cash per unit of the Fund ("**Unit**") was \$0.341 for the Period and \$1.388 for the Year compared to \$0.350 and \$1.364, respectively, for the same periods in 2015. The decrease in Distributable Cash per Unit of \$0.009 or 2.6% for the Period was primarily attributable to the combined effects of lower Distributable Cash for the Period compared to the fourth quarter of 2015 and there being fewer Units issued and outstanding during the Period compared to the fourth quarter of 2015 due to the repurchase and cancellation of Units under the Fund's normal course issuer bids. The increase in Distributable Cash per Unit of \$0.024 or 1.8% for the Year is primarily attributable to the accretive effects of the Transaction and the Fund having incurred the Initial Working Capital Change in 2015 with no corresponding change to working capital for the Year, partially offset by the Fund issuing 5,047,613 Units on May 6, 2015 in connection with the Transaction. The percentage increase in Distributable Cash for the Year was larger than the percentage increase in Distributable Cash per Unit for the Year due to the combined effect of the Fund receiving higher Distribution Income, the Initial Working Capital Change, and the Fund issuing 5,047,613 Units on May 6, 2015.

The Fund's Payout Ratio was 101.1% for the Period and 98.9% for the Year compared to 92.8% and 94.0%, respectively, for the same periods one year ago. The increase in the Fund's Payout Ratio for the Period compared to the same period in 2015 was due to the combined effects of Distributable Cash for the Period decreasing by \$0.3 million, or 3.3%, and distributions paid during the Period increasing by \$0.4 million, or 5.4%. The increase in distributions paid during the Period compared to the fourth quarter of 2015 was due to the Fund increasing the monthly distribution from 10.83 cents per Unit to 11.50 cents per Unit beginning with the January 2016 distribution, which was paid on February 29, 2016 (the "**2016 Distribution Increase**"). The increase in the Fund's Payout Ratio for the Year compared to 2015 was due to the increase in Distributable Cash for the Year, as discussed above, being less than the \$3.8 million or 16.0% increase in distributions paid for the Year. The increase in distributions paid for the Year was due to the Fund increasing the monthly distribution from 10.20 cents per Unit to 10.83 cents per Unit beginning with the April 2015 distribution, which was paid on May 29, 2015 (the "**2015 Distribution Increase**"), the 2016 Distribution Increase and the Fund issuing 5,047,613 Units on May 6, 2015 in connection with the Transaction. The Fund was able to make the 2015 Distribution Increase and 2016 Distribution Increase because of the accretive effect of the Transaction. The Fund strives to provide unitholders with consistent monthly distributions, and as a result, the Fund will generally experience seasonal fluctuations in its Payout Ratio. The Fund's Payout Ratio is likely to be higher in the first and fourth quarters each year compared to the second and third quarters each year since Boston Pizza restaurants generally experience higher Franchise Sales during the

summer months when restaurants open their patios and benefit from increased tourist traffic. Higher Franchise Sales generally result in increases in Distributable Cash. A key feature of the Fund is that it is a “top line” structure, in which BPI and BP Canada LP pay the Fund an amount based on Franchise Sales from restaurants in the Fund’s royalty pool. Accordingly, Fund unitholders are not directly exposed to changes in the operating costs or profitability of BPI, BP Canada LP or individual Boston Pizza restaurants. Given this structure, and that the Fund has no current mandate to retain capital for other purposes, it is expected that the Fund will maintain a Payout Ratio close to 100% over time as the trustees of the Fund continue to distribute all available cash in order to maximize returns to unitholders.

On February 8, 2017 the trustees of the Fund approved a cash distribution to unitholders of 11.5 cents per Unit for January 2017. The distribution is payable to unitholders of record at the close of business on February 21, 2017 and will be paid on February 28, 2017. The Fund periodically reviews distribution levels based on its policy of stable and sustainable distribution flow to unitholders. Including the January 2017 distribution, which will be paid in February 2017, the Fund will have paid out 175 consecutive monthly distributions totalling \$250.2 million or \$18.00 per Unit since the Fund’s initial public offering in 2002.

Notes:

- "System-Wide Gross Sales" means the gross revenue: (i) of the corporate Boston Pizza restaurants in Canada owned by BPI; and (ii) reported to BPI or BP Canada LP, as applicable, by franchised Boston Pizza restaurants in Canada, without audit or other form of independent assurance, and in the case of both (i) and (ii), including revenue from the sale of liquor, beer, wine and revenue from BPI or BP Canada LP, as applicable, approved national promotions and discounts and excluding applicable sales and similar taxes.
- "Franchise Sales" is the basis upon which Royalty and Distribution Income are payable, and means the gross revenue: (i) of the corporate Boston Pizza restaurants in Canada owned by BPI; and (ii) reported to BPI or BP Canada LP, applicable, by franchised Boston Pizza restaurants in Canada, without audit or other form of independent assurance, and in the case of both (i) and (ii), after deducting revenue from the sale of liquor, beer, wine and revenue from BPI or BP Canada LP approved national promotions and discounts and excluding applicable sales and similar taxes. Nevertheless, BPI or BP Canada LP periodically conducts audits of the Franchise Sales reported to it by its franchisees, and the Franchise Sales reported herein include results from sales audits of earlier periods.
- Distributable Cash is a non-IFRS financial measure that does not have a standardized meaning prescribed by IFRS and therefore may not be comparable to similar measures presented by other issuers. This non-IFRS financial measure provides useful information to investors regarding the amount of cash the Fund has generated for distribution on the Units. The preceding table provides a reconciliation from this non-IFRS financial measure to cash flows from operating activities, which is the most directly comparable IFRS measure. Investors are cautioned that this should not be construed as an alternative to cash flows from operating activities. For additional information regarding this financial metric, see the heading "Description of Non-IFRS and Additional IFRS Measures" in the Fund's MD&A for the Period and the Year.
- Payout Ratio is calculated by dividing the distributions paid by the Fund during a period by the Distributable Cash generated in that period. Payout Ratio is a non-IFRS financial measure that does not have a standardized meaning prescribed by IFRS and therefore may not be comparable to similar measures presented by other issuers. This non-IFRS financial measure provides investors with useful information regarding the extent to which the Fund distributes cash on the Units. Investors are cautioned that this should not be construed as an alternative net income measure of profitability. As the Payout Ratio is calculated from a formula which includes Distributable Cash, which is a non-IFRS measure, a reconciliation of Payout Ratio to an IFRS measure is not possible. For additional information regarding this financial metric, see the heading "Description of Non-IFRS and Additional IFRS Measures" in the Fund's MD&A for the Period and the Year.
- The Fund licenses BPI the right to use various Boston Pizza trademarks in return for BPI paying the Fund a royalty equal to 4% of Franchise Sales of Boston Pizza restaurants in the Fund's royalty pool ("Royalty"). "Distribution Income" is income received by the Fund from the investment in BP Canada LP it completed on May 6, 2015. See the "General – Purpose of Fund / Sources of Revenue" section of the Fund's MD&A for the Period and the Year for more details.
- "Transaction" means the transaction on May 6, 2015, where the Fund, indirectly through Holdings LP, completed an investment in BP Canada LP to effectively increase the Fund's interest in Franchise Sales of Boston Pizza restaurants in the royalty pool by 1.5%, from 4.0% to 5.5% less the pro rata portion payable to BPI in respect of its retained interest in the Fund.
- Profit before fair value adjustments and income taxes is an additional IFRS measure. For additional information regarding these financial metrics, see the heading "Description of Non-IFRS and Additional IFRS Measures" in the Fund's MD&A for the Period and the Year.
- Other capitalized terms used in these tables are defined in the Fund's MD&A for the Period and the Year.

OUTLOOK

Boston Pizza is well positioned for future growth and should continue to strengthen its position as the number one casual dining brand in Canada by achieving positive SSSG and opening new Boston Pizza locations across Canada.

The two principal factors that affect SSSG are changes in customer traffic and changes in average guest cheque. BPI's and BP Canada LP's strategies to drive higher guest traffic include attracting a wide variety of guests into the restaurant, sports bar and take-out/delivery parts of each location, offering a compelling value proposition to guests and leveraging a larger marketing budget versus the previous year along with a revised calendar of national and local store promotions. Increased average cheque levels are expected to be achieved through a combination of culinary innovation and annual menu re-pricing. In addition, the franchise agreement governing each Boston Pizza Restaurant requires a complete store renovation every seven years. Restaurants typically close for two to three weeks to complete the renovation and experience an incremental sales increase in the year following the re-opening.

Boston Pizza remains well positioned for future expansion as evidenced by the 11 net new restaurants that opened in 2016 and the two new locations currently under construction. BPI's management believes that Boston Pizza will

continue to serve more guests in more locations than any other casual dining brand in Canada by pursuing further restaurant development opportunities across the country.
