In accordance with the Safe Harbor provisions of the Private Securities Litigation Reform Act of 1995, McDermott cautions that statements in this presentation which are forward-looking, and provide other than historical information, involve risks, contingencies and uncertainties that may impact McDermott's actual results of operations. These forward-looking statements include, but are not limited to, statements about backlog, to the extent it may be viewed as an indicator of future revenues or profitability. Although we believe that the expectations reflected in those forward-looking statements are reasonable, we can give no assurance that those expectations will prove to have been correct. Those statements are made by using various underlying assumptions and are subject to numerous risks, contingencies and uncertainties, including, among others: adverse changes in the markets in which we operate or credit markets, our inability to successfully execute on contracts in backlog, changes in project design or schedules, the availability of qualified personnel, changes in the terms, scope or timing of contracts, contract cancellations, change orders and other modifications and actions by our customers and other business counterparties and changes in industry norms and adverse outcomes in legal or other dispute resolution proceedings. If one or more of these risks materialize, or if underlying assumptions prove incorrect, actual results may vary materially from those expected. You should not place undue reliance on forward-looking statements. For a more complete discussion of these and other risk factors, please see McDermott's annual and quarterly filings with the Securities and Exchange Commission, including its annual report on Form 10-K for the year ended December 31, 2016. This presentation reflects management's views as of the date hereof. Except to the extent required by applicable law, McDermott undertakes no obligation to update or revise any forward-looking statement.
## Executive Summary

### About McDermott
- Leading provider of integrated engineering, procurement, construction and installation services for oil and gas field developments worldwide
- At any given time, 40 or fewer active contracts typically spanning a duration of one to three years, performed in a variety of jurisdictions and each ranging from less than $50 million to more than $2 billion in total contract value

### Improved Financial and Operating Performance
- TSR for FY 2016 was 120%, versus 12% for proxy peer group and 12% for S&P 500
- FY 2016 operating income of $142.3 million, which exceeded FY 2015 of $112.7 million and FY 2014 of $16.4 million
- Order intake of $2.7 billion in FY 2016, resulted in 1.0x book-to-bill in a more competitive environment due to decreased customer capex budgets
- FYE 2016 backlog of $4.3 billion, slightly up compared to year-end 2015, provides a strong foundation for 2017 with approximately $3 billion of expected 2017 revenues already recorded in backlog as of December 31, 2016

### Independent and Engaged Board Oversees Execution of Business Strategy
- The Board is an invaluable source of perspective and insight, overseeing and engaging in our strategy for continued growth
- Committed to a thoughtful Board refreshment process which identifies and considers new director candidates who have expertise that would complement and enhance the current Board’s skills and experience
- Stockholder engagement remains a priority; it is shared among the full Board and is factored into the Board’s decision making processes
- Used independent third party facilitator in connection with annual Board and Committee evaluations for 2017

### Strong Compensation Practices
- Significant emphasis on variable, “at risk” compensation that aligns pay with performance
- Rigorous financial performance metrics directly linked to Company strategy with disclosed performance goals
- Compensation program reflects adherence to strong compensation governance practices

Long-Term Incentive Plan (LTIP) — Performance Units

- Efficiently allocate capital to profitable investments | Relative Return on Average Invested Capital

Performance metrics under the EICP have generally remained consistent since 2014
Performance metrics under the LTIP have remained consistent since 2016
Significant Majority of CEO Pay is At-Risk

McDermott’s compensation program is designed to align interests of executives with those of our stockholders with a focus on long-term performance results.

**CEO Target 2016 Compensation**

- **15% Annual Base**
  Fixed cash compensation recognizing an executive officer’s experience, skill and performance.

- **15% Annual Incentives**
  Variable compensation designed to reward achievement of short-term business goals and strategic objectives, while recognizing individual contributions.

- **85% At Risk**

- **70% Long-Term Incentives**
  Variable compensation designed to align interests of executives with those of our stockholders with a focus on long-term performance results.
Compensation and Governance Program Changes Informed by Stockholder Engagement

### Off-Season Engagement
- Outreach to stockholders and proxy advisory firms to understand their perspectives on a variety of topics including governance and compensation.

### Stockholder Feedback
- Feedback from these meetings is collected and shared with the full Board.
- The Board factors this feedback into its decision making process as detailed below.

### Board Evaluation of Feedback
- The Board is committed to understanding stockholder feedback and endeavors to integrate it where possible.

### In-Season Engagement
- Outreach to stockholders and proxy advisory firms in advance of Annual Meeting to provide additional context and answer any questions regarding proxy disclosures.
