

Corporate Presentation

Second Quarter 2018

Safe harbor statement

This presentation contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, that are intended to be covered by the "safe harbor" created by those sections. Forward-looking statements, which are based on certain assumptions and describe our future plans, strategies and expectations, can generally be identified by the use of forward-looking terms such as "believe," "expect," "may," "will," "should," "would," "could," "seek," "intend," "plan," "goal," "project," "estimate," "anticipate" or other comparable terms. All statements other than statements of historical facts included in this news release regarding our strategies, prospects, financial condition, operations, costs, plans and objectives are forward-looking statements. Examples of forward-looking statements include, among others, statements we make regarding expected future operating results, anticipated results of our sales and marketing efforts, expectations concerning payer reimbursement and the anticipated results of our product development efforts. Forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are based only on our current beliefs, expectations and assumptions regarding the future of our business, future plans and strategies, projections, anticipated events and trends, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict and many of which are outside of our control. Our actual results and financial condition may differ materially from those indicated in the forward-looking statements. Therefore, you should not rely on any of these forward-looking statements. Important factors that could cause our actual results and financial condition to differ materially from those indicated in the forward-looking statements include, among others, the following: our ability to successfully and profitably market our products and services; the acceptance of our products and services by patients and healthcare providers; our ability to meet demand for our products and services; the willingness of health insurance companies and other payers to cover Cologuard and adequately reimburse us for our performance of the Cologuard test; the amount and nature of competition from other cancer screening and diagnostic products and services; the effects of the adoption, modification or repeal of any healthcare reform law, rule, order, interpretation or policy; the effects of changes in pricing, coverage and reimbursement for our products and services, including without limitation as a result of the Protecting Access to Medicare Act of 2014; recommendations, guidelines and quality metrics issued by various organizations such as the U.S. Preventive Services Task Force, the American Cancer Society, and the National Committee for Quality Assurance regarding cancer screening or our products and services; our ability to successfully develop new products and services; our success establishing and maintaining collaborative, licensing and supplier arrangements; our ability to maintain regulatory approvals and comply with applicable regulations; and the other risks and uncertainties described in the Risk Factors and in Management's Discussion and Analysis of Financial Condition and Results of Operations sections of our most recently filed Annual Report on Form 10-K and our subsequently filed Quarterly Reports on Form 10-Q. We undertake no obligation to publicly update any forward-looking statement, whether written or oral, that may be made from time to time, whether as a result of new information, future developments or otherwise.

Our Vision

Exact Sciences is committed to helping win the war on cancer through early detection.

The Exact Approach

COMMAND
THE CORE BUSINESS

PREPARE
FOR FUTURE DEMAND

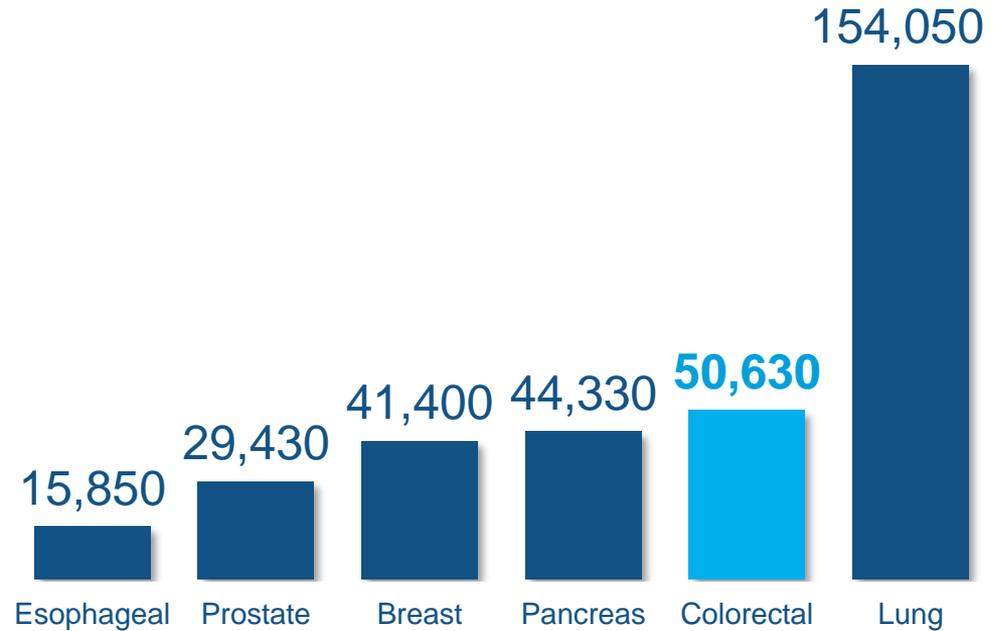

ADVANCE
THE PIPELINE

Colon cancer: America's second deadliest cancer

140,250
new diagnoses

50,630
deaths

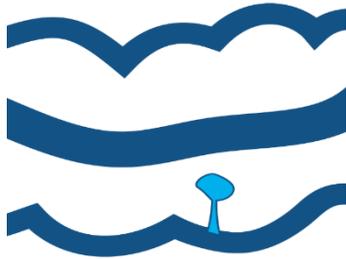

Annual Cancer Deaths

“The most preventable, yet least prevented form of cancer”

– *Journal of the National Cancer Institute*

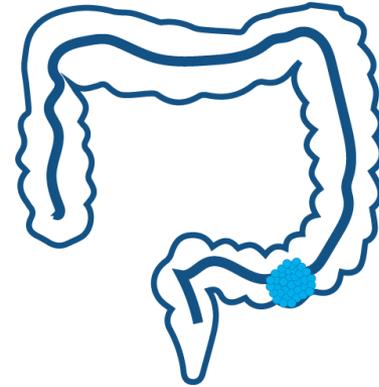

Pre-cancerous polyp

10+ years

Cancer

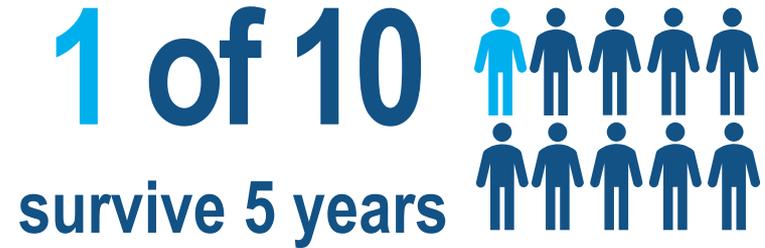

Detecting colorectal cancer early is critical

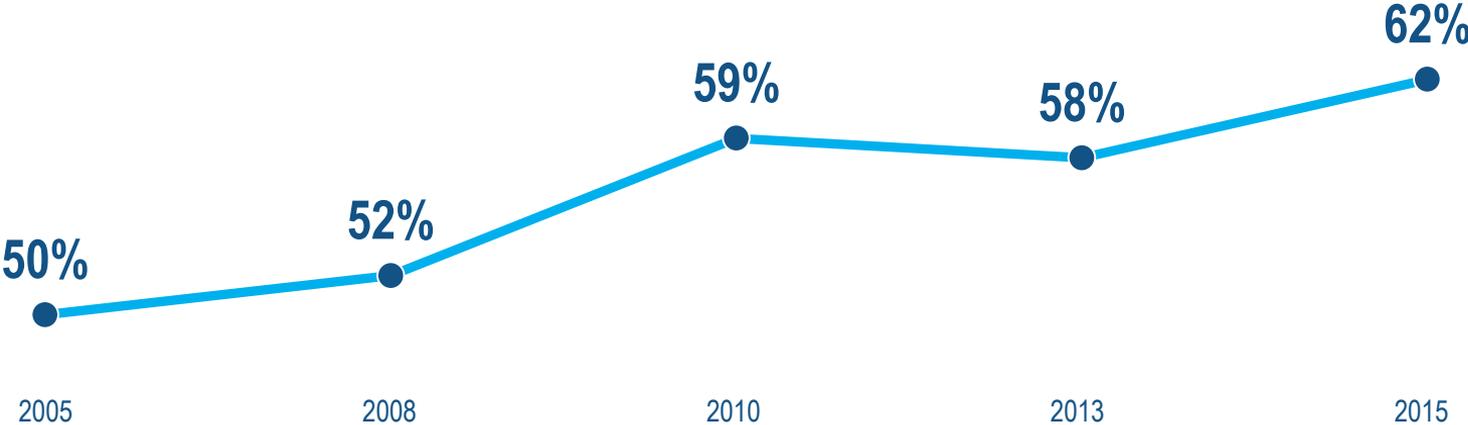

Diagnosed in Stages I or II

Diagnosed in Stage IV

America's stagnant colon cancer screening rate

Cologuard: Addressing the colon cancer challenge

developed with

MAYO CLINIC

- Easy to use
- Non-invasive
- No preparation
- No sedation
- No time off work

for adults 50 years or older and at average risk

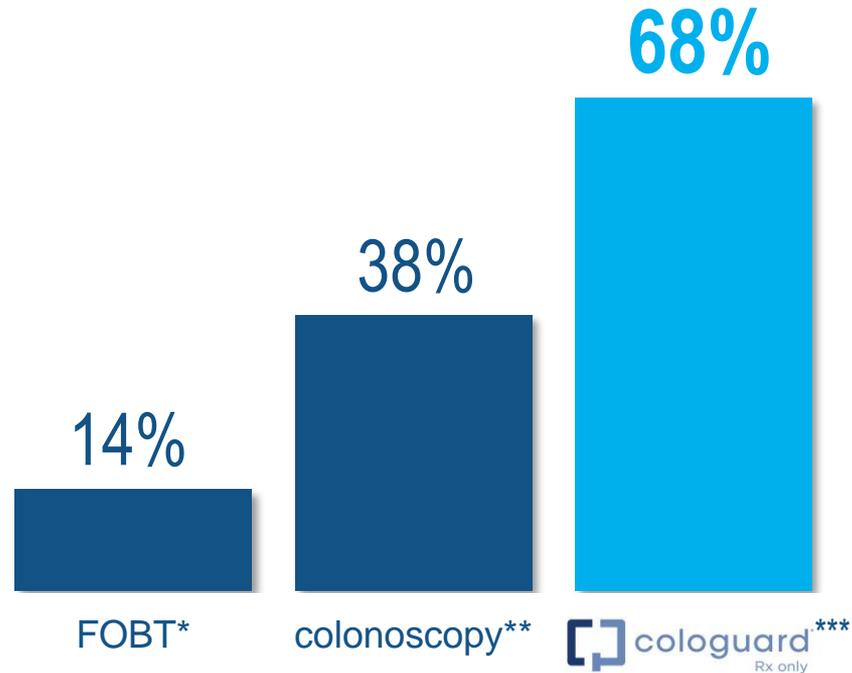

94%

early-stage cancer
sensitivity*

Driving patient compliance with colon cancer screening

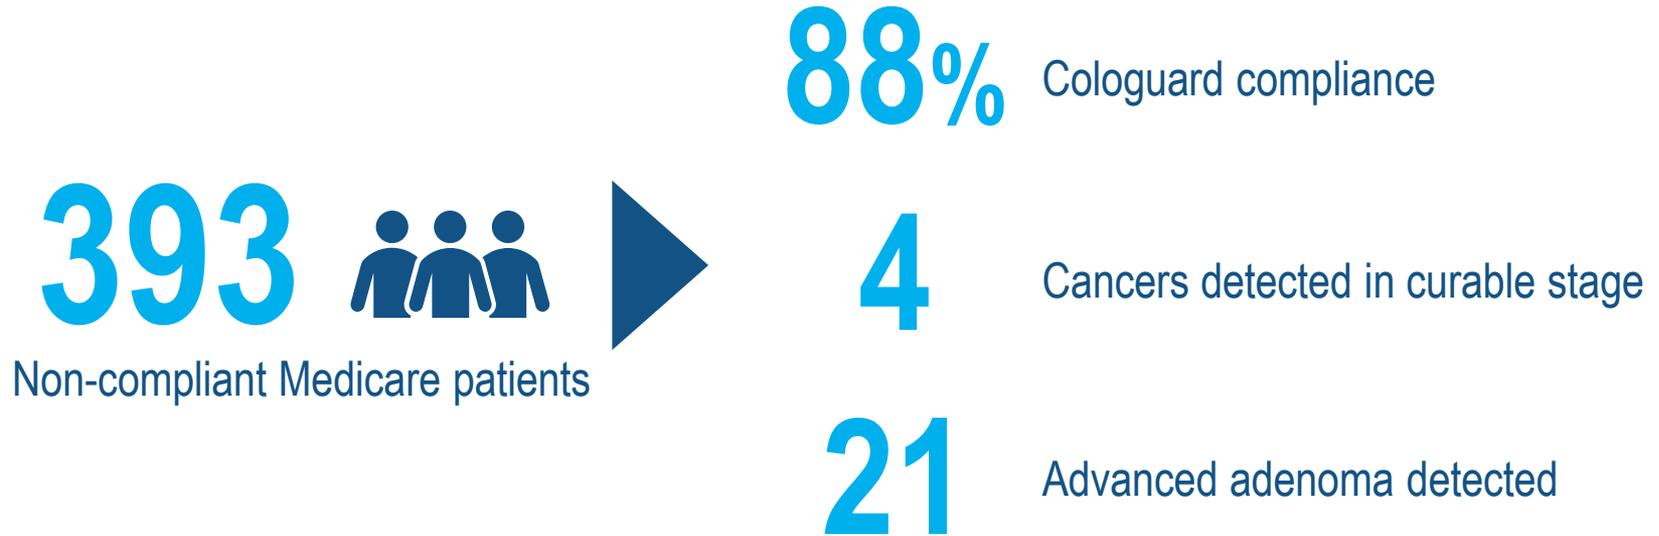

Impact of patient navigation service on compliance

Cologuard increases patient compliance

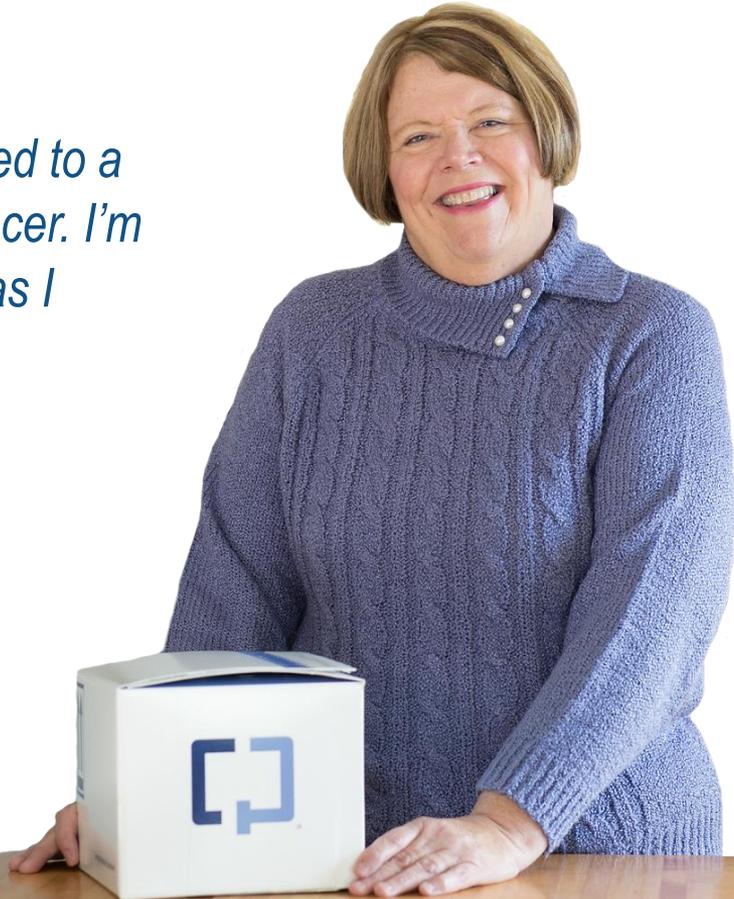

USMD study highlights opportunity to expand screening & detect curable-stage cancer

Cologuard is changing lives every day

“My positive Cologuard test last year led to a colonoscopy that revealed Stage I cancer. I’m grateful to now be active and healthy as I travel the country with my husband.”

- Brenda
Savannah, GA

Impact of Cologuard since launch

>1.1 Million

People screened

~5,200*

Early-stage cancers detected

~36,000*

Pre-cancerous polyps detected

Clinical value of Cologuard: Comparing numbers needed to screen/treat

166

to find 1 colorectal cancer*

Mammography

746

to prevent 1 breast cancer-related death**

Statins

217

to prevent 1 heart attack***

Knowledge of positive Cologuard improves colonoscopy performance

Mayo clinic study compares results of unblinded, blinded colonoscopies

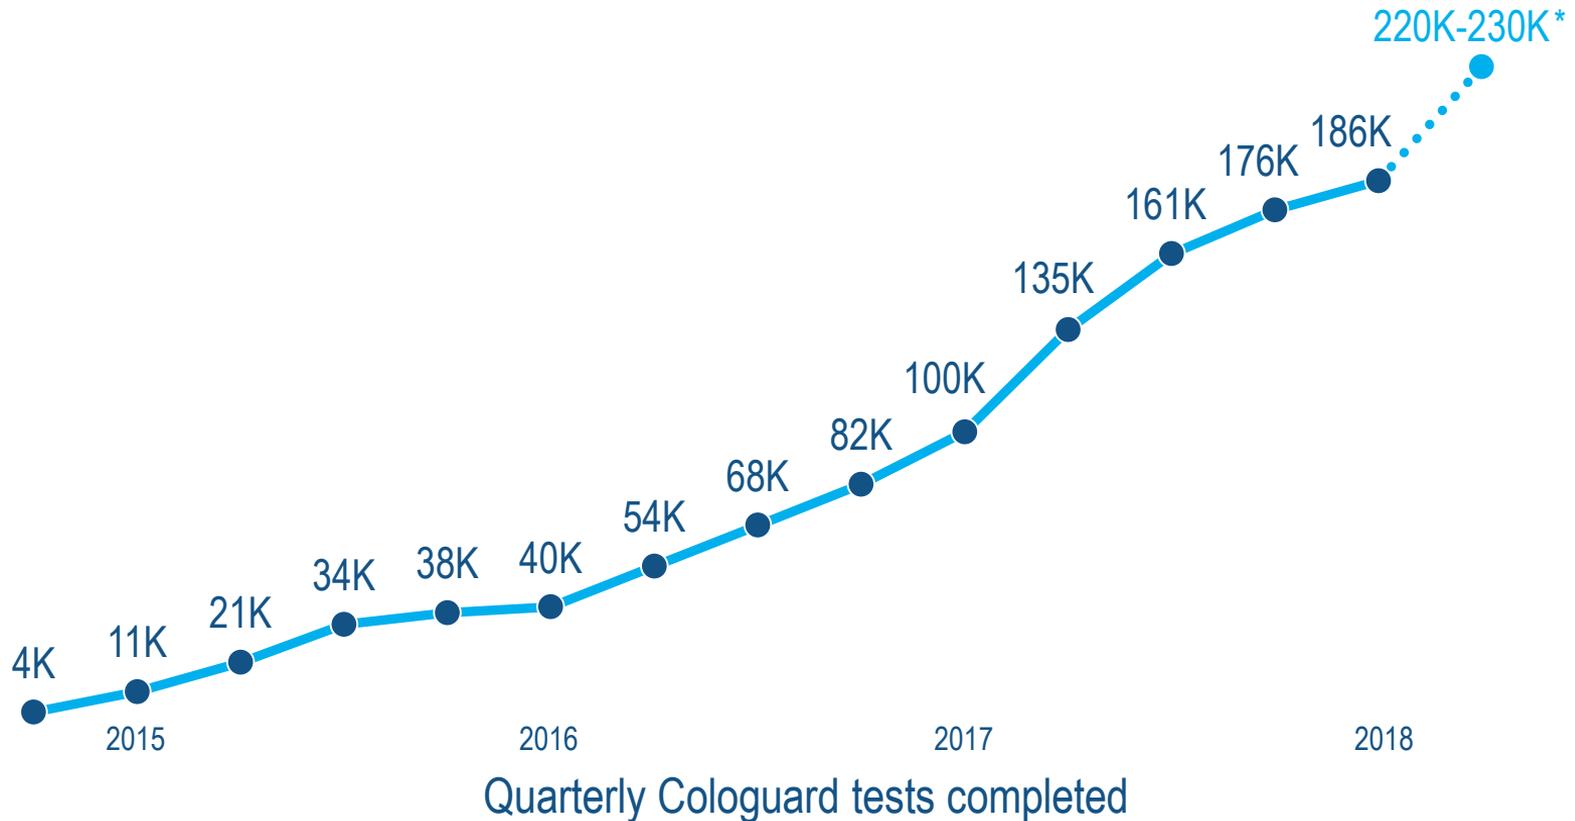

46% more time spent
on colonoscopy

2x Polyps discovered*

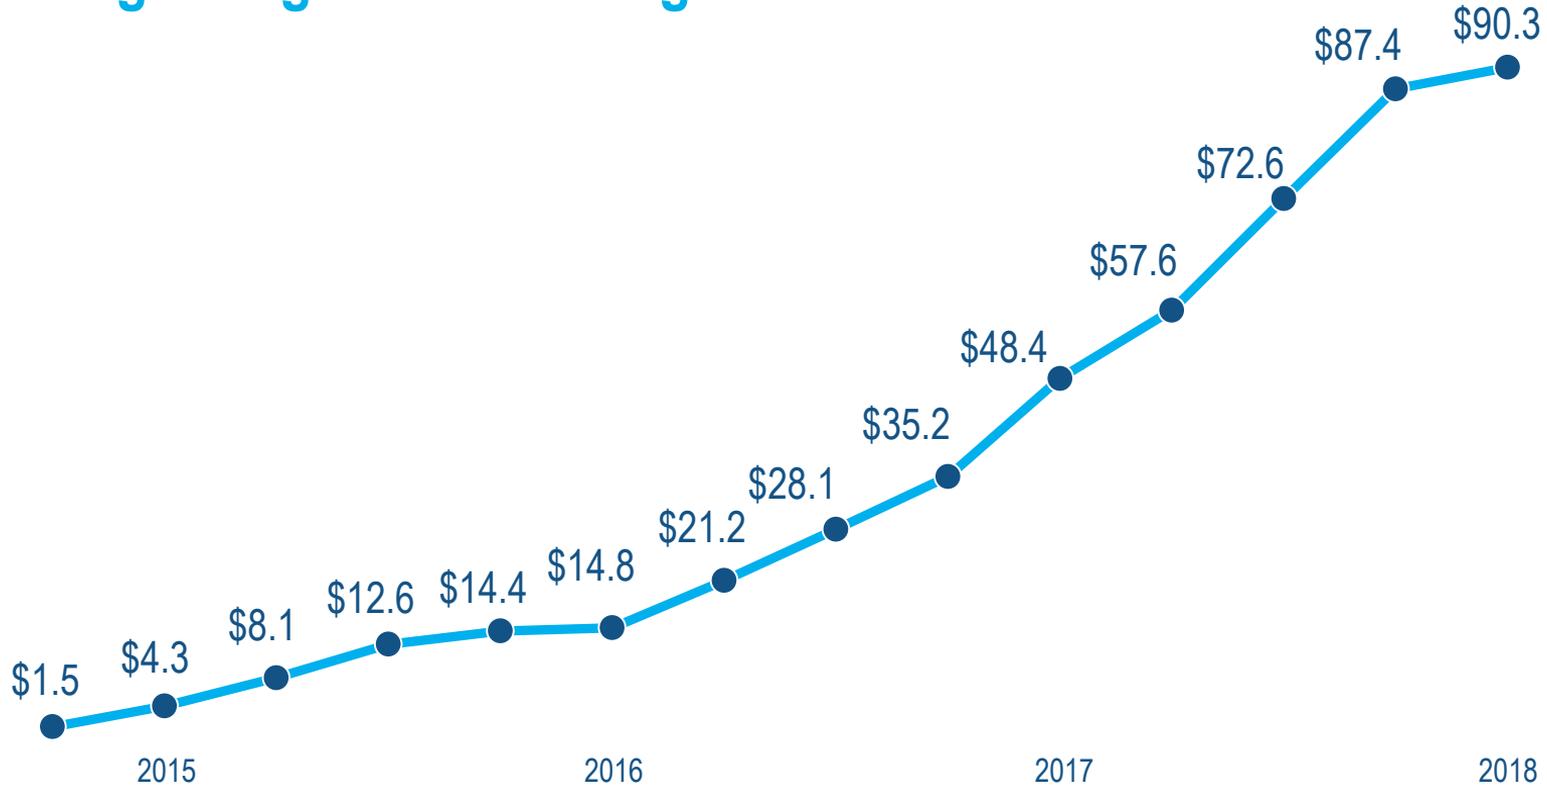

32% Increase in pre-cancer detection

4x Higher flat right sided lesion
detection

Cologuard demand continues to fuel volume growth

Strong Cologuard revenue growth

Quarterly Cologuard revenue (\$ Millions)

Time-lagged average revenue per test improving

Cologuard's growing provider penetration

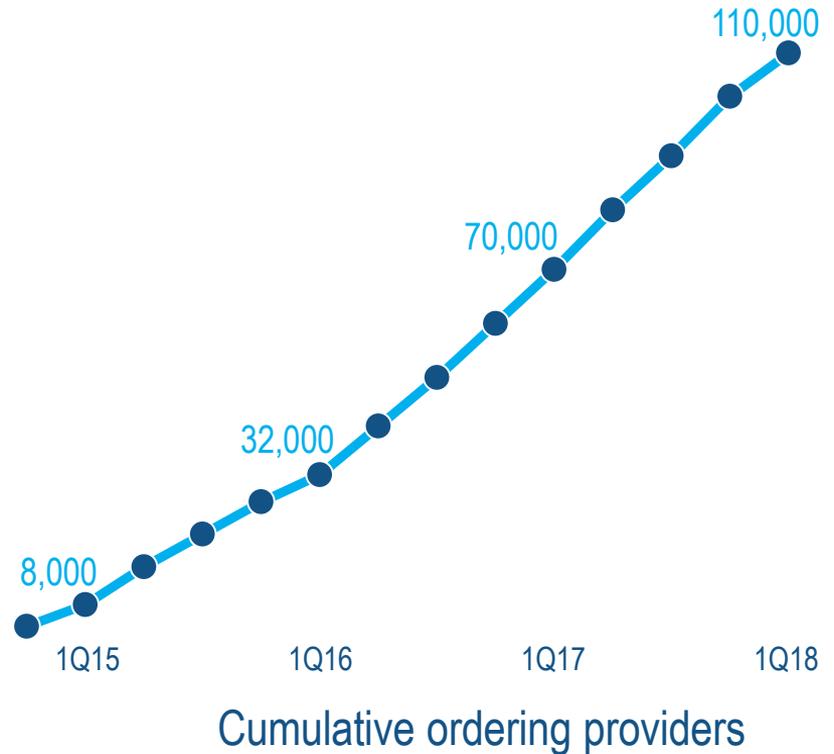

~91K Primary care providers

~7K Gastroenterologists

~3K OBGYN's

~9K Other providers

~110K Total providers

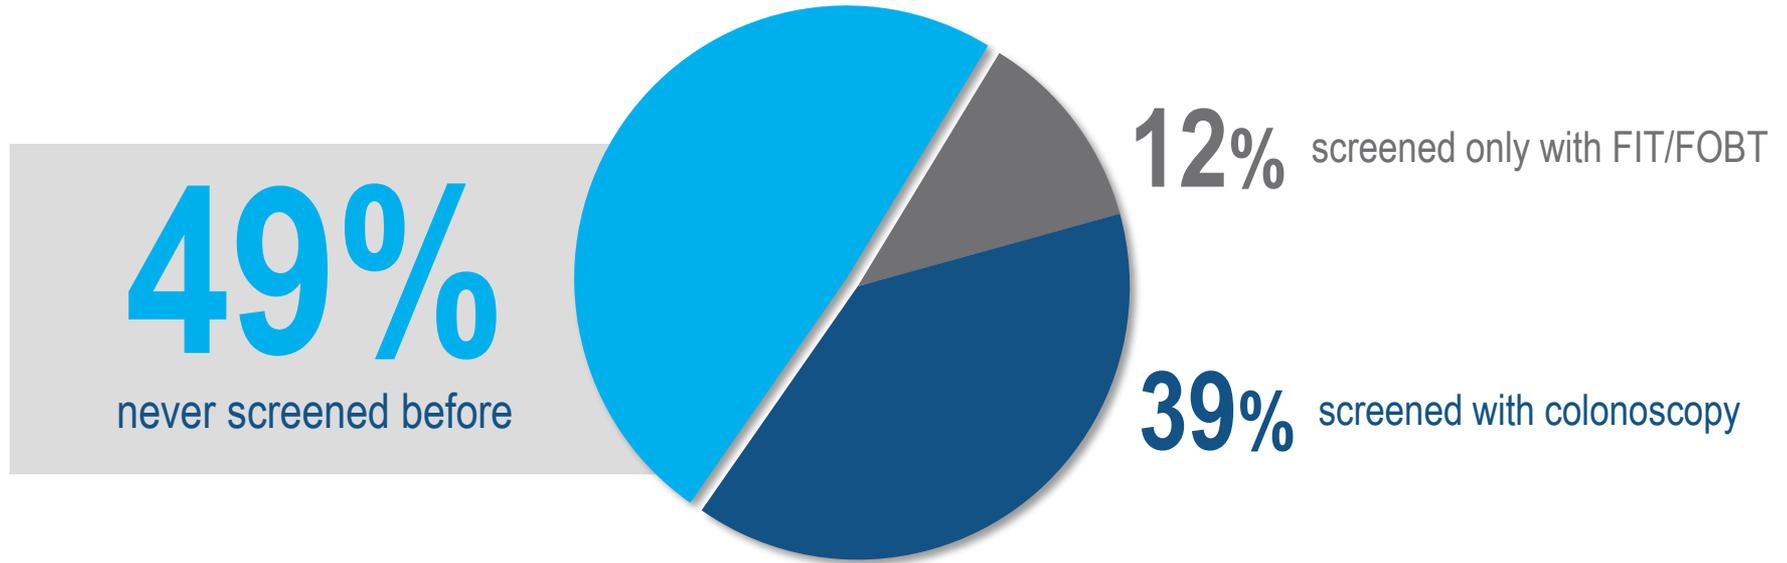

Exact Sciences' unique dataset addresses critical needs

Increasing America's screening population

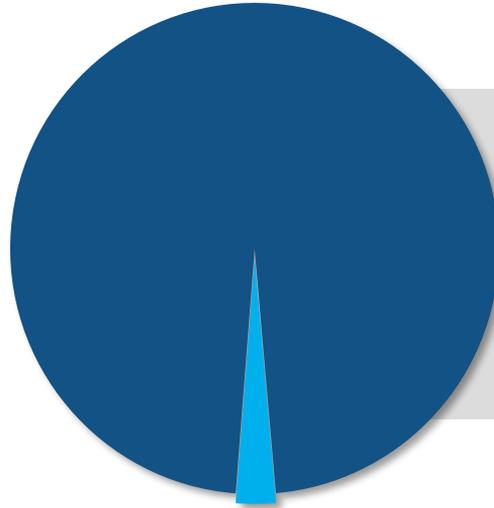

Screening history of Cologuard users

A multi-billion dollar U.S. market opportunity

85M+

Potential U.S. screening
market for Cologuard*

> \$14B

Total Addressable Market**

2.6% market share***

Strong customer satisfaction with Cologuard

99%

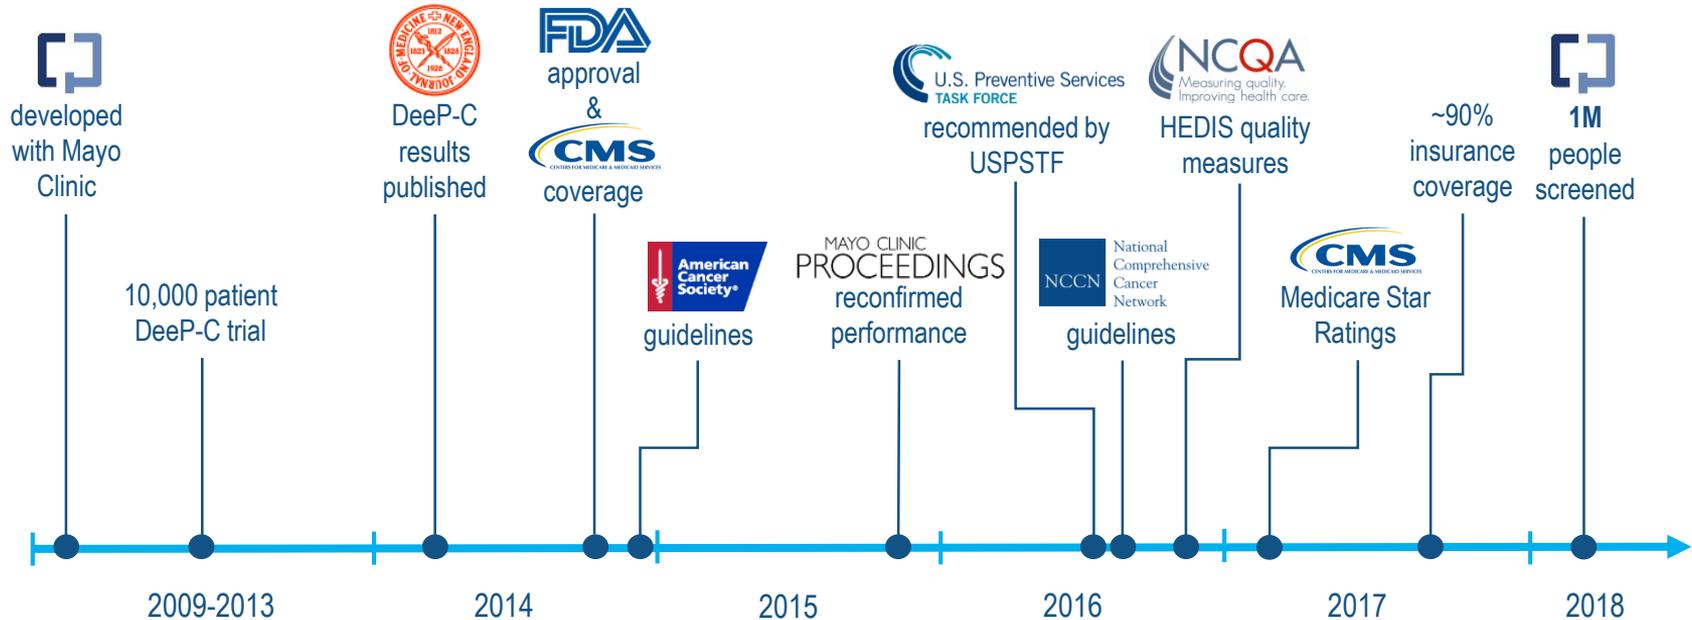

Providers' expectations
met or exceeded

88%

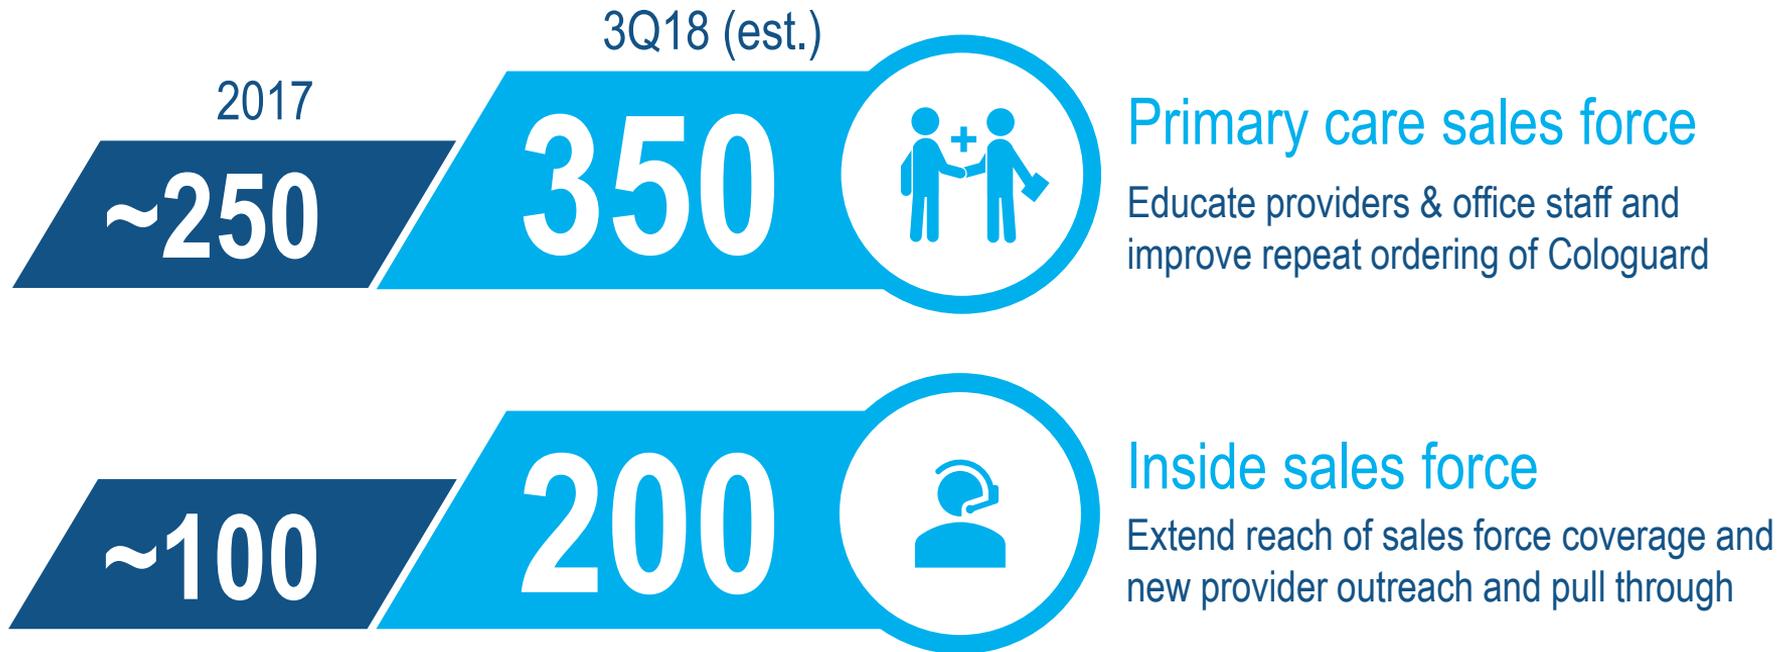

Patients rated Cologuard
experience very positive

Cologuard becoming standard of care

Additional coverage driven by data, guidelines, and quality measures

Investing in Exact Sciences' nationwide sales force

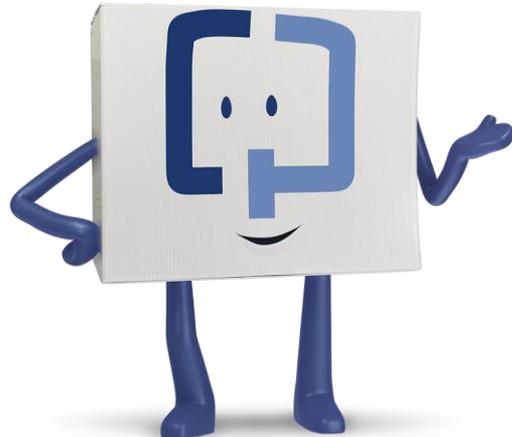

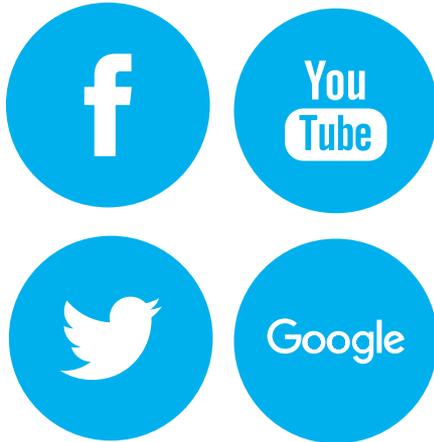

Broad marketing strategy increasing Cologuard awareness

Social & digital media

National TV campaign

National partnerships

Investing in future of Cologuard and pipeline

Acquired rights to methylation marker used in Cologuard

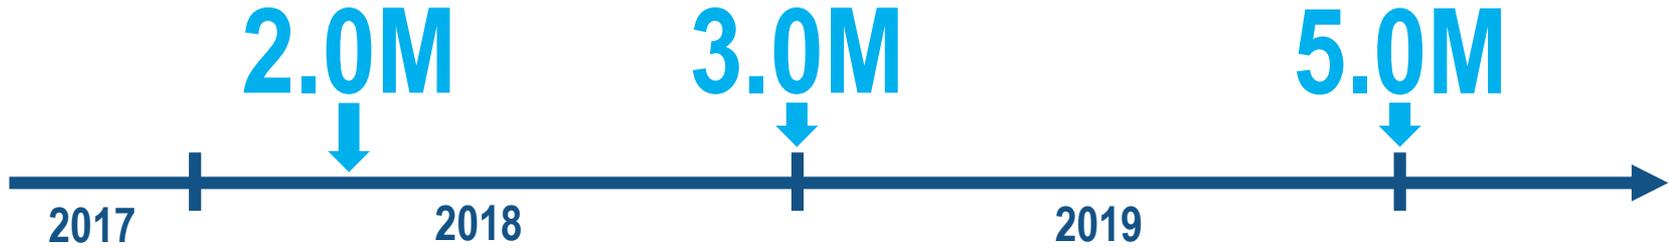

Acquired to augment and strengthen IT capabilities

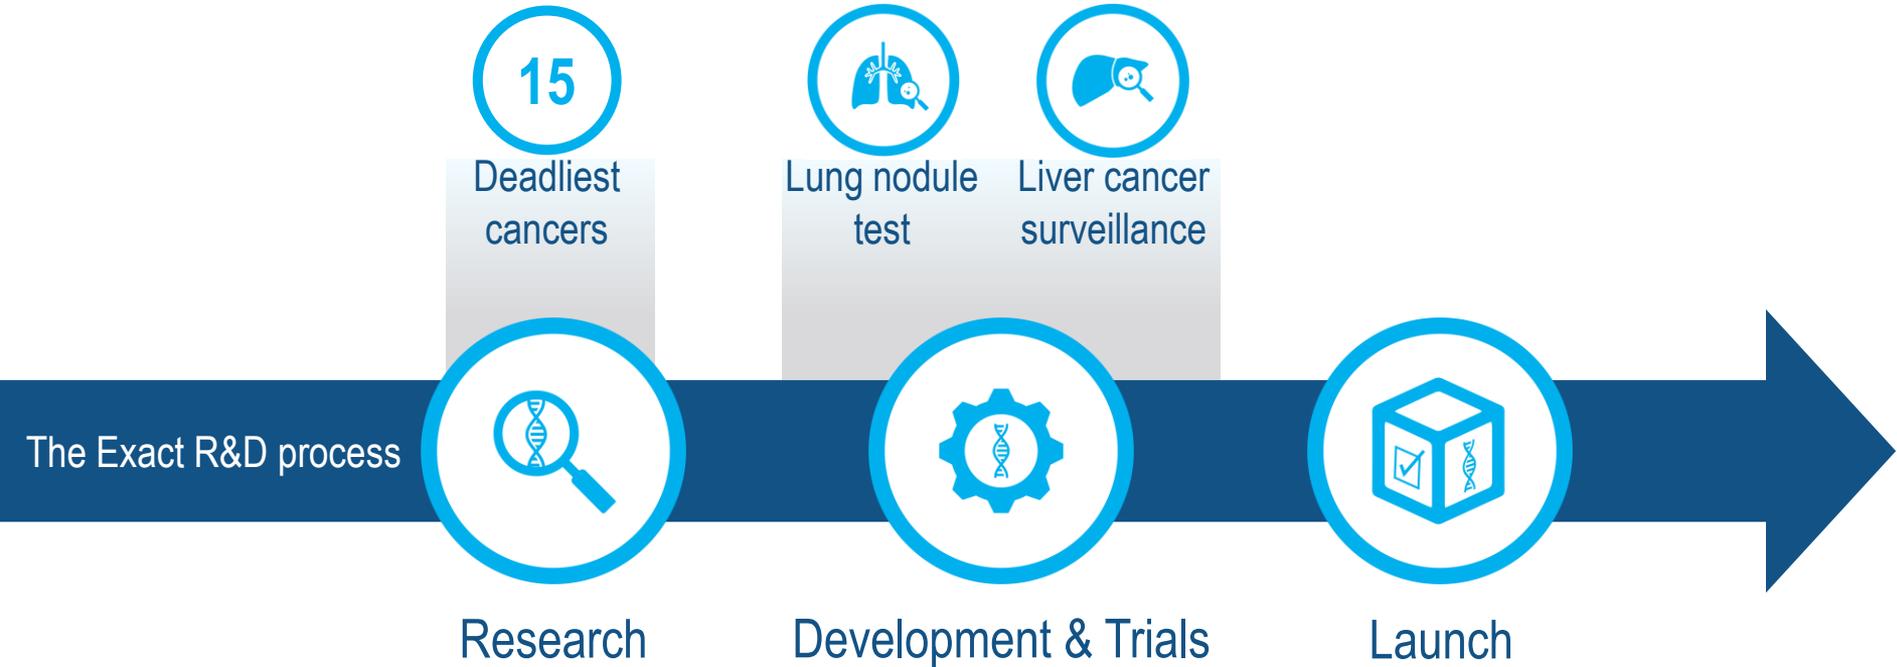

Acquired portfolio of protein biomarkers to complement pipeline

Expected annual lab capacity continues to grow

Advancing the pipeline

Additional data being presented at DDW

Cancer is the second leading cause of death globally

Expected 70% increase in new cancer cases globally within 20 years

14M
new cancer cases

8.8M
deaths

1.7M
new cancer cases

600K
deaths

Cologuard success helping to reimagine cancer diagnostics

Exact Sciences has pieces in place to be successful in liquid biopsy

PEOPLE

Exact Sciences'
proven experience

Collaboration with
Mayo Clinic

PLATFORM

Multi-marker approach,
proprietary technology, & platform

Time, cost, & accuracy
advantages

MARKET

Fast-growing liquid
biopsy market

Targeting 15
deadliest cancers

Advantages of Exact Sciences' approach

Highly sensitive and specific

3 study results with 90%+ sensitivity and specificity*

Low cost

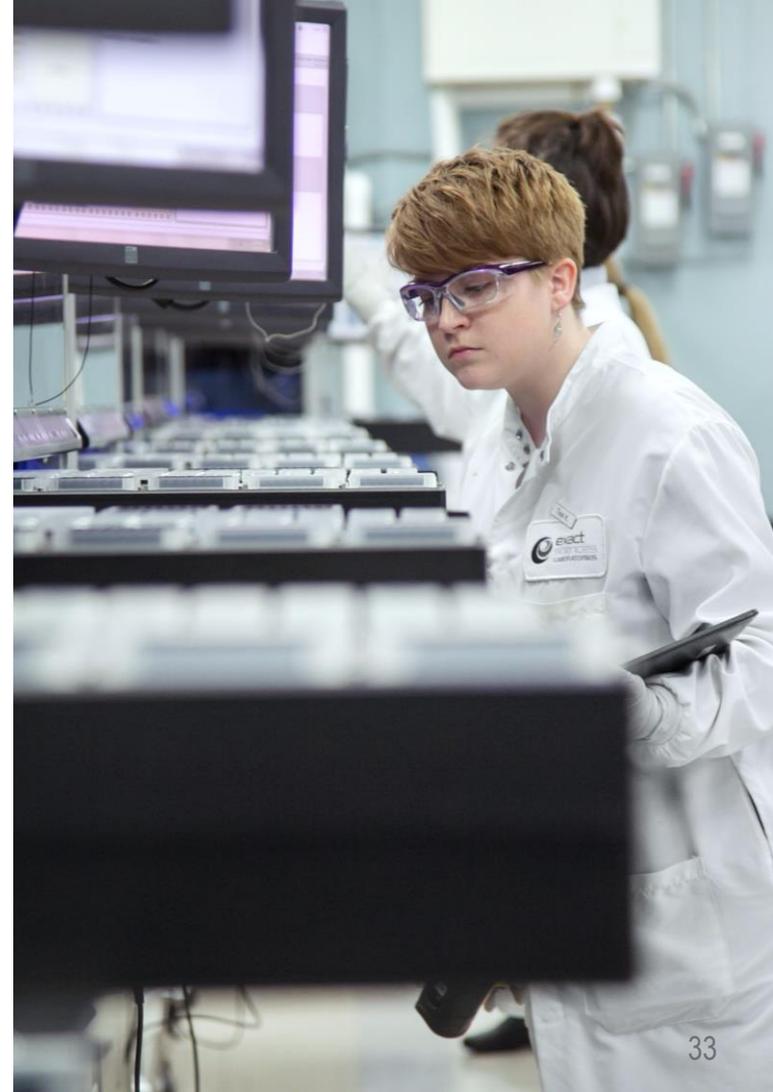

Tens of dollars in reagents instead of hundreds

Quick turn around time

Hours instead of days

Universal platform

Leveraging Cologuard platform for liquid biopsy

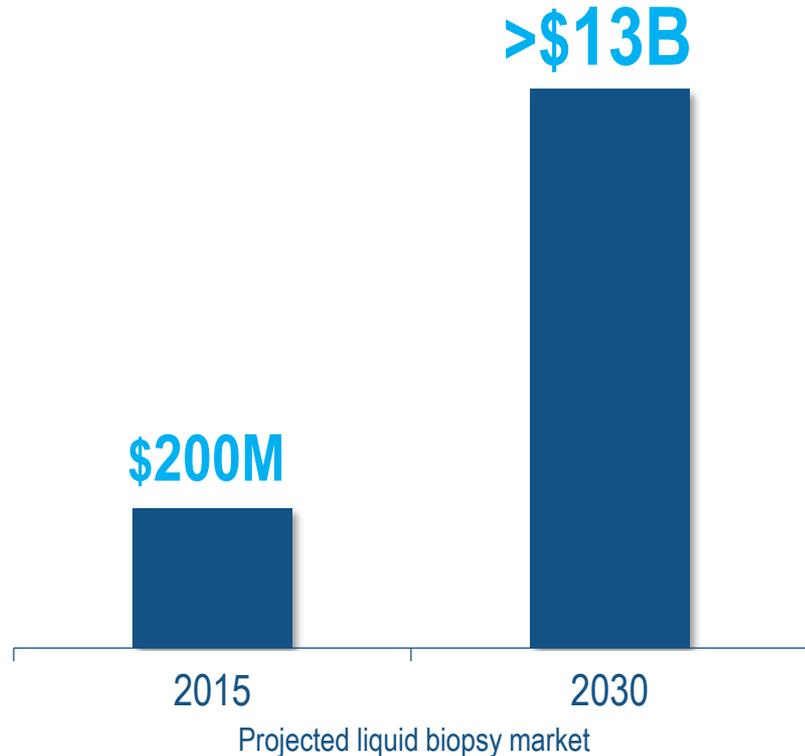

Liquid biopsy a growth area for cancer diagnostics

Exact Sciences focusing on early detection & recurrence

Screening
Diagnostic aid
Minimum residual disease
Recurrence monitoring

Targeted therapy selection
Response monitoring
Response profiling

Liver cancer: Second deadliest cancer globally

700K

new cases

600K

deaths

42K

new cases

30K

deaths

Regular surveillance leads to better outcomes

Not under regular surveillance

Under regular surveillance

Opportunity in diagnosing liver cancer

100% → **\$1.5B^{**}** U.S. opportunity
Potential annual surveillance rate

First-quarter 2018 financials

	Q1 2018	Q1 2017
Revenue	\$90.3 million	\$48.4 million
Completed tests	186,000	100,000
Gross margin	75%	65%
Operating expense	\$103.9 million	\$66.9 million
Cash utilization	\$53.7 million	\$36.4 million
Ending cash balance	\$1.0 billion	\$274.7 million
