Our strategic investments in differentiated products targeting growth markets reliant on photonics have proven successful and position us

well for the years to come."

The tables above provide comparisons of quarterly results to prior periods, including sequential quarterly and year-over-year changes. A reconciliation between GAAP and non-GAAP measures is contained in this release under the section titled "Use of Non-GAAP Financial Measures."

On July 1, 2018, we adopted Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers (Topic 606) using the modified retrospective method applied to all contracts that are not completed contracts at the date of initial adoption (i.e., July 1, 2018). Results for reporting periods after July 1, 2018 are presented under Topic 606, while prior period amounts are not adjusted and continue to be reported in accordance with our historic accounting under Topic 605. The adoption of Topic 606 did not have a material impact on the nature and timing of our revenues, consolidated statements of operations, cash flows, and balance sheet and therefore, we do not present results for the three months ended September 29, 2018 under Topic 605.

Business Outlook

The Company expects the following for the fiscal second quarter 2019:

- Net revenue to be in the range of \$405 million to \$430 million
- Non-GAAP operating margin of 28.0% to 30.0%
- Non-GAAP diluted earnings per share of \$1.60 to \$1.75

Note: Earnings per share based on approximately 65.9 million shares outstanding on a fully diluted basis

Our projection of 65.9 million shares outstanding does not include the potentially dilutive effect of the convertible notes, as we have the ability and intent to settle the face value in cash; and therefore, we use the treasury stock method for calculating the dilutive impact of the 2024 Notes. The notes will have an impact on our diluted earnings per share when the average price of our common stock exceeds the conversion price of \$60.62. Our guidance does not include results from Oclaro or shares issued in connection with the closing of our acquisition of Oclaro as we are unable to predict the timing of the closing.

We have not provided reconciliations from GAAP to non-GAAP measures for our outlook. A large portion of non-GAAP adjustments, such as derivative liability adjustments, restructuring charges, stock-based compensation, litigation, acquisition-related costs, non-cash income tax expense and credits, and other costs and contingencies unrelated to current and future operations are by their nature highly volatile and we have low visibility as to the

range that may be incurred in the future. For example, in the fiscal second quarter of 2018, we had a credit of \$207.0 million primarily related to a release of a U.S. valuation allowance, which was offset by a write-down of deferred tax assets in the amount of \$83.0 million due to the lower corporate tax rate enacted under the 2017 "Tax Cuts and Jobs Act" reform.

These statements include strategies and our expectations with regard to such strategies, our expectations for our markets, any anticipation or guidance as to future financial performance, including the general trends in our business and the industries in which we operate, future net revenue, earnings per share, and operating margins, and anticipated trends in our markets. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected. Use of Non-GAAP Financial Measures

In this press release, Lumentum provides investors with gross margin, operating margin, net income, and net income (loss) per share on a non-GAAP basis. Lumentum believes this non-GAAP financial information provides additional insight into the Company's on-going performance and has therefore chosen to provide this information to investors for a more consistent basis of comparison and to help them evaluate the results of the Company's on-going operations and enable more meaningful period to period comparisons. Specifically, the Company believes

that providing this information allows investors to better understand the Company's financial performance and, importantly, to evaluate the efficacy of the methodology and information used by management to evaluate and measure such operating performance. However, these measures may be different from non-GAAP measures used by other companies, limiting their usefulness for comparison purposes. The non-GAAP financial measures used in this press release should not be considered in isolation from measures of financial performance prepared in accordance with GAAP. Investors are cautioned that there are material limitations associated with the use of non-GAAP financial measures as an analytical tool. In particular, many of the adjustments to our GAAP financial measures reflect the exclusion of items that are recurring and will be reflected in our financial results for the foreseeable future. Further, these non-GAAP financial measures may not be comparable to similarly titled measurements reported by other companies.

Non-GAAP gross margin, non-GAAP operating margin, non-GAAP net income, and non-GAAP net income per share, non-GAAP gross profit, non-GAAP operating income, non-GAAP income (loss) before income taxes and non-GAAP expenses exclude (i) stock-based compensation, (ii) acquisition related costs, (iii) other charges comprised mainly of set-up costs of our Thailand facility, including costs of transferring product lines to Thailand, as well as inventory write-downs due to cancelled programs and other costs and contingencies unrelated to current and future operations, (iv) amortization of acquired developed technologies, (v) workforce related charges such as severance, retention bonuses and employee relocation costs related to formal restructuring plans, (vi) non-cash interest expense, (vii) unrealized gain (loss) on derivative liability, and (viii) non-cash income tax provision impacts, for example, a release of a U.S. valuation allowance, and the write down of deferred tax assets due to the 2017 Tax Cuts and Jobs Act. The presentation of these and other similar items in Lumentum's non-GAAP financial results should not be interpreted as implying that these items are non-recurring, infrequent or unusual.

A quantitative reconciliation between GAAP and non-GAAP financial data with respect to historical periods is included in the supplemental financial table attached to this press release.
