

ARGONAUT GOLD

TSX:AR

CORPORATE PRESENTATION

Third Quarter
Ended September 30, 2021
Conference Call

November 15, 2021

FORWARD LOOKING INFORMATION

This presentation may contain "forward-looking information" within the meaning of applicable Canadian securities legislation. All information, other than statements of historical facts, included in this presentation that address activities, events or developments that the Corporation expects or anticipates will or may occur in the future, including such things as future business strategy, competitive strengths, goals, expansion and growth of the Corporation's businesses, operations, plans and other such matters are forward-looking information.

When used in this presentation, the words "estimate", "plan", "anticipate", "expect", "intend", "believe" and similar expressions are intended to identify forward-looking information. This information involves known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Corporation to be materially different from any future results, performance or achievements expressed or implied by such forward-looking information.

Examples of such forward-looking information include information pertaining to, without limitation, inherent hazards associated with mining operations, the future price of gold and silver, the market and global demand for gold and silver, the estimation of the Mineral Reserves and Mineral Resources, the realization of Mineral Reserve and Mineral Resource estimates, the timing and amount of estimated future production, costs of production, expansion of production capabilities, expected capital expenditures, costs and timing of development of new deposits, success of exploration activities, permitting risk in development projects, the ability to obtain surface rights to support planned infrastructure at the Corporation's exploration and development projects, currency fluctuations, requirements for additional capital, government regulation of mining operations, environmental risks and hazards, title disputes or claims and limitations on insurance coverage.

For a more detailed discussion of these factors and other risks, see “Risk Factors” as more fully described in the Company’s filings with the Canadian Securities Administrators, including its Annual Information Form for the year ended December 31, 2020, available on SEDAR at www.sedar.com.

Although the Corporation has attempted to identify important factors that could cause actual results to differ materially, there may be other factors that cause results not to be as anticipated, estimated, or intended. There can be no assurance that such information will prove to be accurate as actual developments or events could cause results to differ materially from those anticipated. These include, among others, the factors described or referred to elsewhere herein, and include unanticipated and/or unusual events. Many of such factors are beyond the Corporation's ability to predict or control.

Readers of this presentation are cautioned not to put undue reliance on forward-looking information due to its inherent uncertainty. The Corporation disclaims any intent or obligation to update any forward-looking information, whether as a result of new information, future events or results or otherwise, unless require under applicable laws. This forward-looking information should not be relied upon as representing management's views as of any date subsequent to the date of this presentation.

References to dollars or “$” are to U.S. dollars unless specified otherwise.

Q3 2021 and Recent Highlights

Financial Performance

- Quarterly cash flows from operating activities before changes in non-cash operating working capital and other items of $39.6M
- Quarterly revenue of $108.6M
- Net income of $15.0M or $0.05 per basic share
- Adjusted net income[1] of $17.4 M or $0.06 per basic share
- Cash balance of $167.6M

Production and Cost

- Quarterly production of 58.8k GEOs[2]
- Cash cost per gold ounce sold[1] of $992
- AISC per gold ounce sold[1] of $1,207

Short-Term Initiatives

- Magino construction progressing on schedule for first gold pour by end of Q1 2023.
  - Providing monthly newsletter for regular updates
- Quadrupled mineral tenure in San Agustin district.

Long-Term Growth Initiatives

- Magino exploration at depth
  - 7.0m at 13.3 g/t Gold at Magino's South Zone approx. 1.5km from Island Gold border
- La Colorada
  - Continued to test high grade gold veins below El Crestón pit including:
    4.6m at 51.9 g/t Au and 28.5 g/t Ag and 4.6m at 17.4 g/t Au and 29.0 g/t Ag

[1] Please refer to section on slide 21 entitled "Non-IFRS Measures" for a discussion of these Non-IFRS Measures.
[2] Gold equivalent ounces ("GEO" or "GEOs") are based on a conversion ratio of 85:1 for silver to gold ounces. The conversion ratios are based on three year trailing average silver to gold exchange ratio.

Financial Performance

	Three Months Ended September 30,			Nine Months Ended September 30, 2021		
	2021	**2020**	% Change	2021	2020	% Change
Sales (GEO)[1]	**60,606**	**49,291**	23%	**185,372**	**125,691**	47%
Revenue ($M)	**108.6**	**94.4**	15%	**334.0**	**218.9**	53%
Net income (loss) ($M)	**15.0**	**13.4**	12%	**63.8**	**(3.8)**	1779%
Earnings (loss) per share - basic	**0.05**	**0.05**	—%	**0.21**	**(0.02)**	1150%
Adjusted net income[2] ($M)	**17.4**	**12.2**	43%	**49.6**	**30.0**	65%
Adjusted earnings per share – basic	**0.06**	**0.04**	50%	**0.16**	**0.14**	14%
Cash flow from operating activities [before changes in non-cash operating working capital and other items] ($M)	**39.6**	**29.0**	37%	**106.6**	**55.5**	92%
Cash and cash equivalents ($M)	**167.6**	**177.9**	(6%)	**167.6**	**177.9**	(6%)

Surpassed 2021 target of $100M cash flow with three months remaining to add to total for the year.

[1] GEOs are based on a conversion ratio of 85:1 for silver to gold ounces for 2021 and 80:1 for 2020.
[2] Please refer to section on slide 21 entitled "Non-IFRS Measures" for a discussion of these Non-IFRS Measures.

Q3 2021 Capital Spending and Cash Flow ($M)

Investing in the future

Q3 Cash Flow Reconciliation ($M)

Opening balance cash	216.0
Cash flow from operations excl. working capital	39.6
Changes in working capital	(9.2)
Cash before investment & financing	**246.4**
Capital spending	(72.8)
Other	(6.0)
Ending Balance Cash	**167.6**

Q3 Capital Spend ($M)

	Sustaining	Expansion	Stripping
El Castillo	1.0	—	1.0
La Colorada	0.5	—	—
Florida Canyon	3.2	0.4	—
Magino	—	61.8	—
San Agustin	0.2	0.3	—
Exploration	0.5	3.6	—
Corp. & Other	—	0.3	—
	5.4	66.4	1.0
Total Spending*			**72.8**

* Total does not sum due to rounding

During the three and nine months ended September 30, 2021, the Company incurred $68.0 million and $171.2 million in costs, respectively, related to the construction of the Magino project.

Operations Overview

	Three Months Ended September 30,			Nine Months Ended September 30, 2021		
Production (GEO)[1]	**2021**	**2020**	% Change	2021	2020	% Change
El Castillo	11,246	9,492	18%	36,403	33,615	8%
San Agustin	17,626	17,198	2%	56,307	45,245	24%
La Colorada	15,802	10,972	44%	49,606	31,869	56%
Florida Canyon	14,103	11,289	25%	39,914	11,289	254%
TOTAL	**58,777**	**48,951**	**20%**	**182,230**	**122,018**	**49%**
Cash Cost (per Au oz.)[2]						
El Castillo	$ 1,173	$ 894	31%	$ 1,105	$ 963	15%
San Agustin	$ 1,011	$ 821	23%	$ 873	$ 787	11%
La Colorada	$ 696	$ 910	(24%)	$ 683	$ 1,020	(33%)
Florida Canyon	$ 1,143	$ 1,353	(16%)	$ 1,230	$ 1,353	(9%)
Consolidated Cash Cost	**$ 992**	**$ 1,008**	**(2%)**	**$ 955**	**$ 960**	**(1%)**
AISC[2]						
Consolidated AISC	**$ 1,207**	**$ 1,401**	**(14%)**	**$ 1,234**	**$ 1,280**	**(4%)**

GEO[1] production up 20% and AISC[2] down 14% year over year.

[1] GEOs are based on a conversion ratio of 85:1 for silver to gold ounces for 2021 and 80:1 for 2020.
[2] Please refer to section on slide 21 entitled "Non-IFRS Measures" for a discussion of these Non-IFRS Measures.

2021 Guidance

2021 Production and Cost Guidance

	First Nine month 2021	Full Year 2021 Guidance	Tracking vs. Guidance through Q3 2021	
			Lower Half	Upper Half
GEO production	182,230	210,000 – 250,000		✓
Cash cost per gold ounce sold[1]	$955	$950 – $1,050	✓	
AISC per gold ounce sold[1]	$1,234	$1,250 – $1,350	✓	
Cash Flow[2]	$107M	$90M - $140M		✓

Well positioned to achieve 2021 consolidated production and cost guidance.

[1] Please refer to section on slide 21 entitled “Non-IFRS Measures” for a discussion of these Non-IFRS Measures.
[2] "Cash Flow" refers to "Cash flow from operating activities before changes in non-cash operating working capital and other items".

Argonaut's Commitment to Sustainability

2020 Highlights & 2021 Ongoing Programs

- Reduction in water consumption by 8% by switching to drip irrigation at operations.
- Reduced GHG by ~84 tonnes/year by installing solar panels.
- Plant and species rescue programs.
- Regular air quality monitoring.
- Regular environmental training programs and workshops.
- Community focused cleaning campaigns.

Upcoming Initiatives

- Switching to grid power at operations.
- Changes at Florida Canyon which reduces haul truck distances and fuel consumption, which reduces GHG.

Sustainability Report published April 2021

Investing in human resources to deliver on ESG strategy

- Alfredo Phillips, Vice President Corporate Affairs and Country Manager Mexico

La Colorada Solar Farm in collaboration with municipality

Re-planting campaigns

Species protection

Regular air quality monitoring

Q3 & Recent CSR Highlights

Magino

Indigenous Group Site Tours at Magino

La Colorada

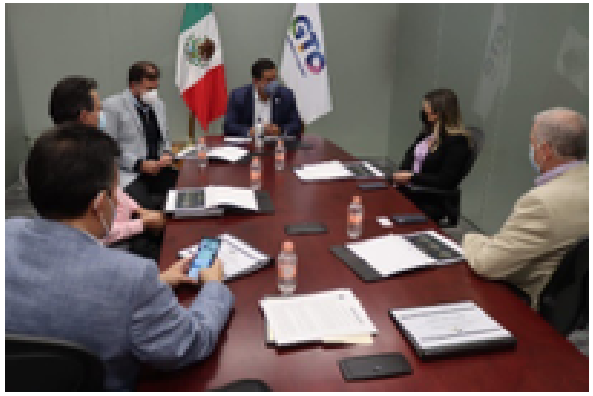

Road repair and maintenance of sports stadiums

El Castillo Complex

Scholarship Program

Cerro del Gallo

Meeting with the Guanajuato Governor of State Miguel Márquez M., who is supportive of the project

Florida Canyon

Food Drive initiative at the Tri-County Fair in the community near Florida Canyon

Magino Construction Capital Estimate

Magino Construction Capital Disclosure

OCTOBER 2020
~C$500M CAD

MAY 2021
C$500M
with potential for increase up to 15%

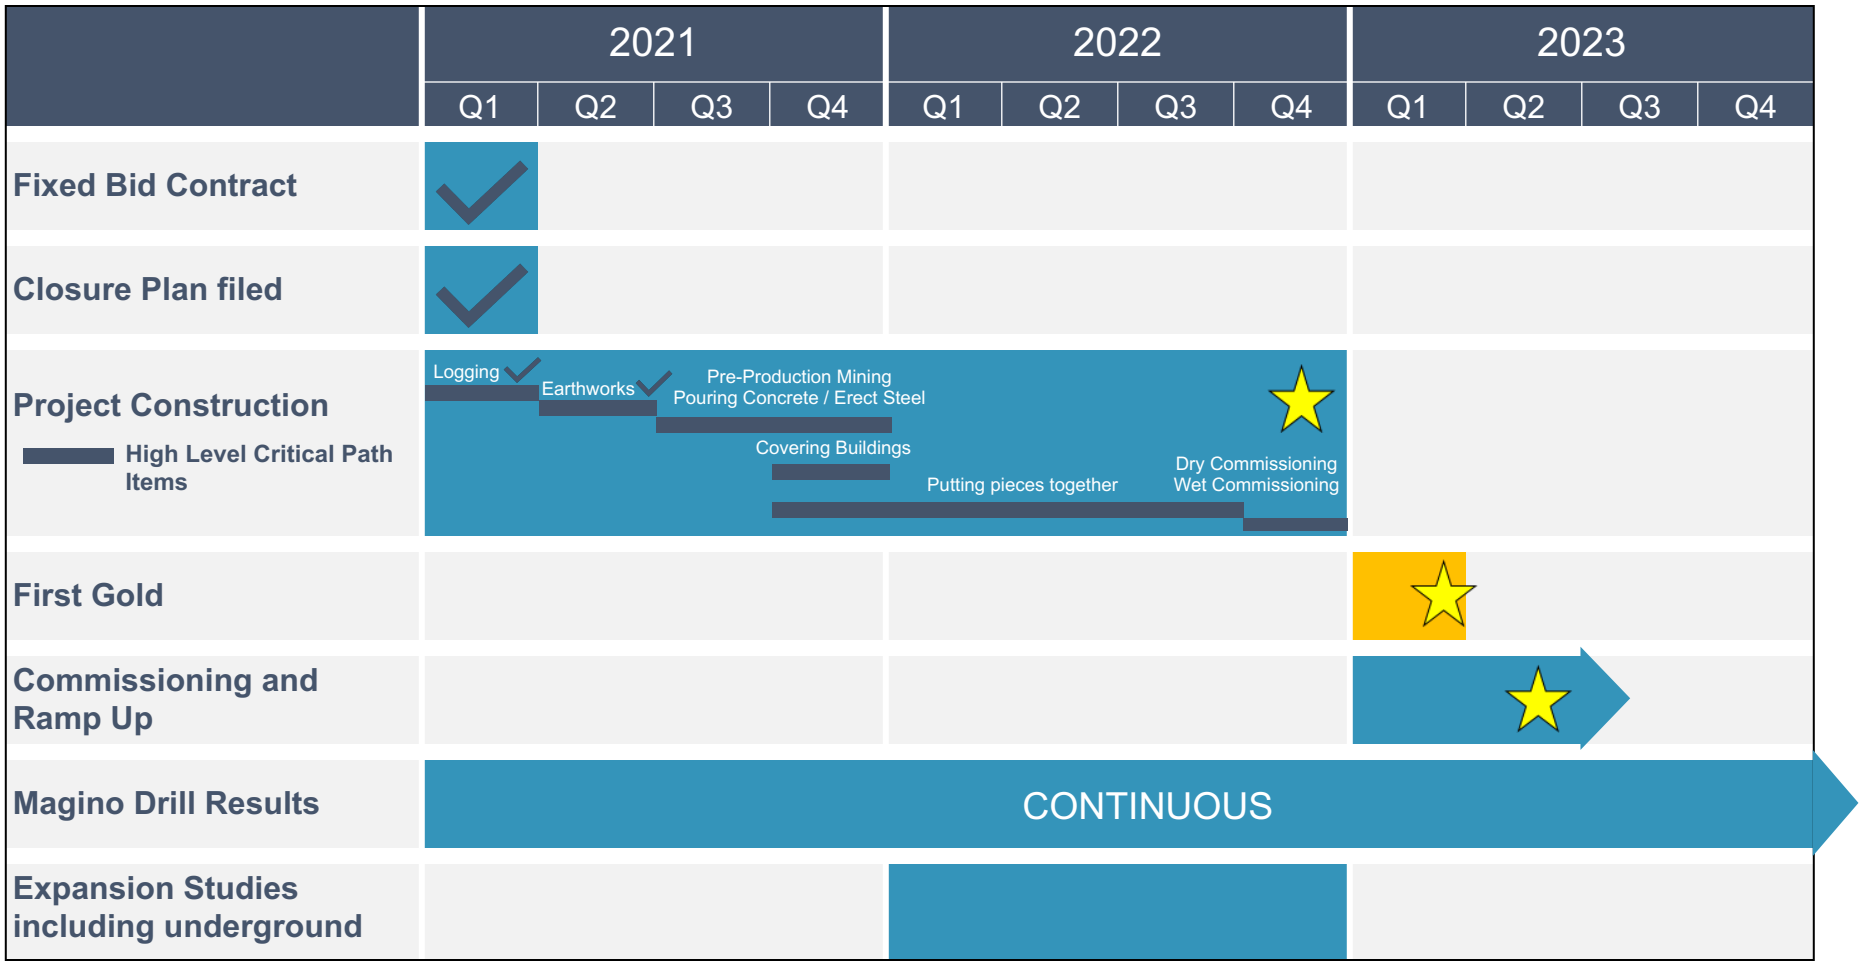

AUGUST 2021
C$500M
with likely increase above 15% disclosed May 2021

New "bottoms up" capital estimate underway. As the entire site is now exposed, we will have high confidence in the new estimate (ie- we now have a handle on previous unknowns).
Examining:

- the impacts of COVID-19
- foreign currency exchange rates
- contingencies
- potential adjustments to the development plans; and
- cost inflation

Original 2021 Magino capex guidance (C$235M - C$250M) withdrawn and will be updated before the end of 2021 once the Magino capex review is finalized.

Conceptual Magino Project Timeline

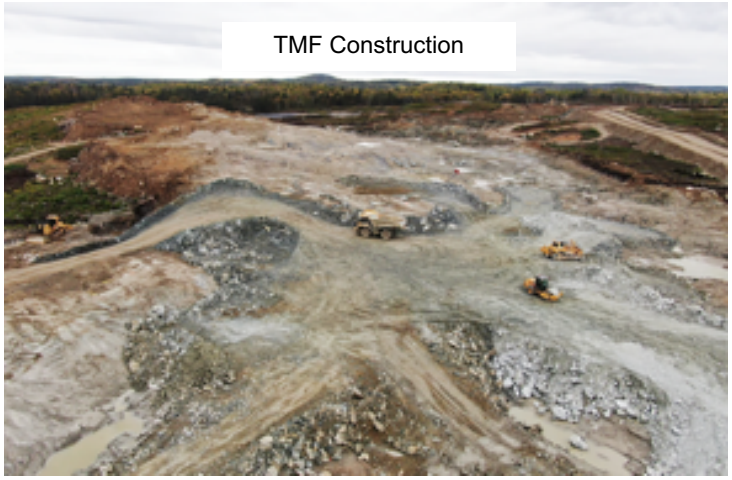

Tracking on schedule for First Gold Pour by end of Q1 2023

Magino Construction Update

Process Plant Equipment Update

Crusher

Mill

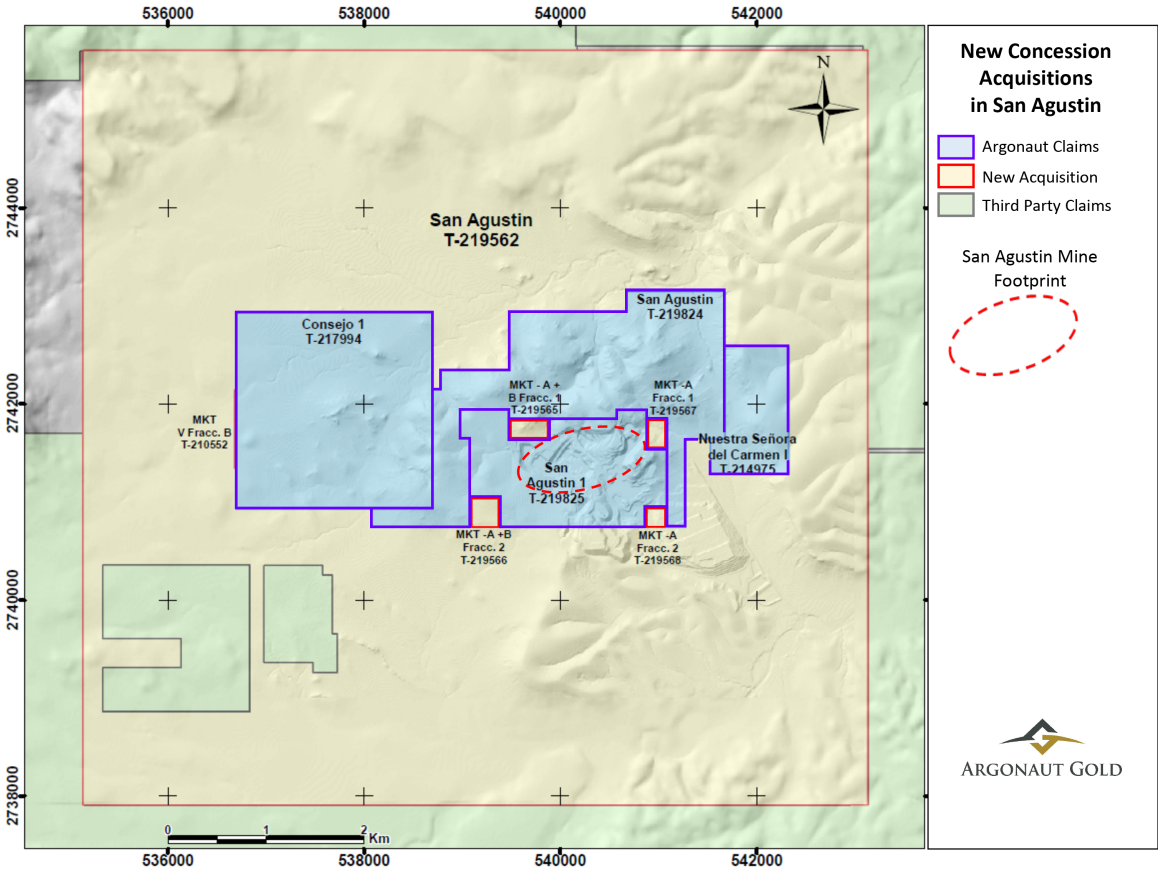

Cyclone

CIP Tanks

Thickener

Major process plant equipment arriving Q1 2022.

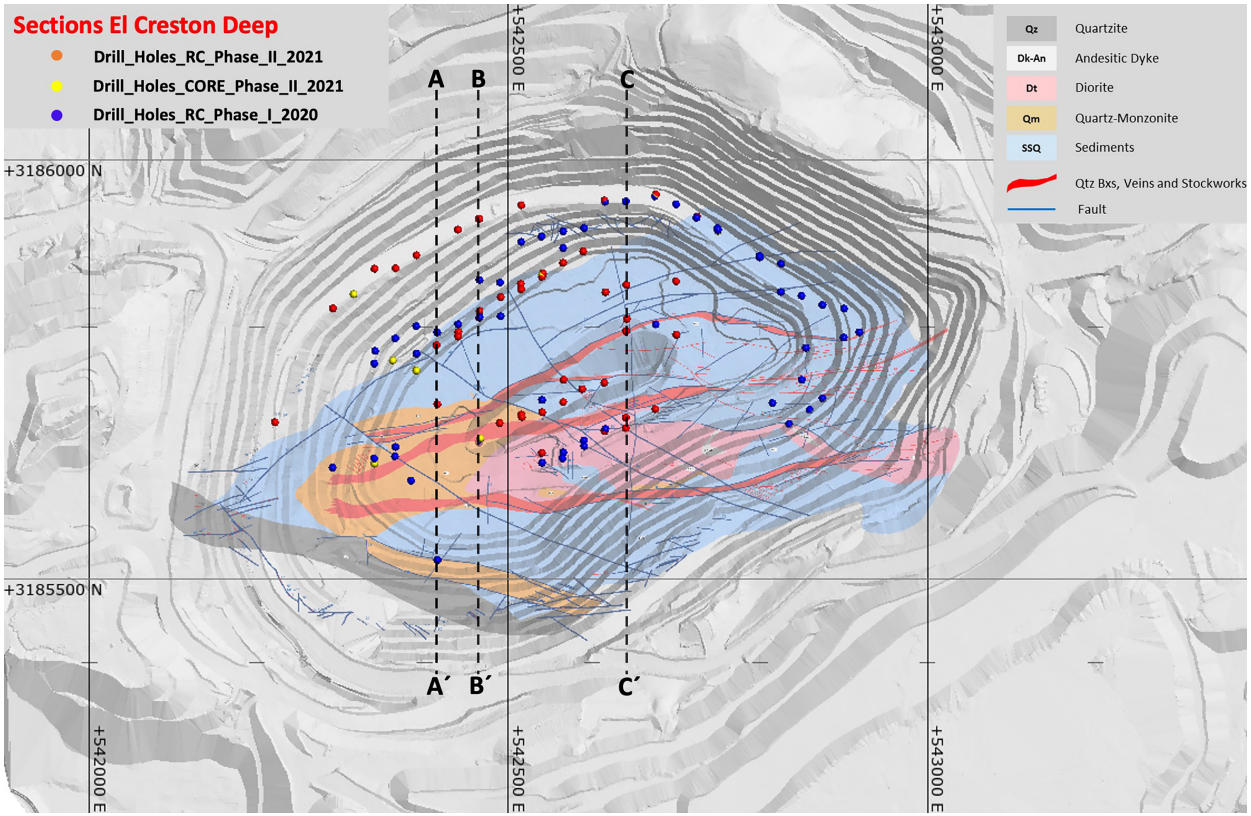

San Agustin – Quadrupled Mineral Tenure

- Acquired new concessions from Fresnillo for $5.75M
- Allows pit expansion, increase mineral reserves and extends mine life
- Increases area of potential exploration by over 400%

Note: Refer to Argonaut Press Release dated October 12, 2021.

High Grade Results at La Colorada

News Release - April 26, 2021

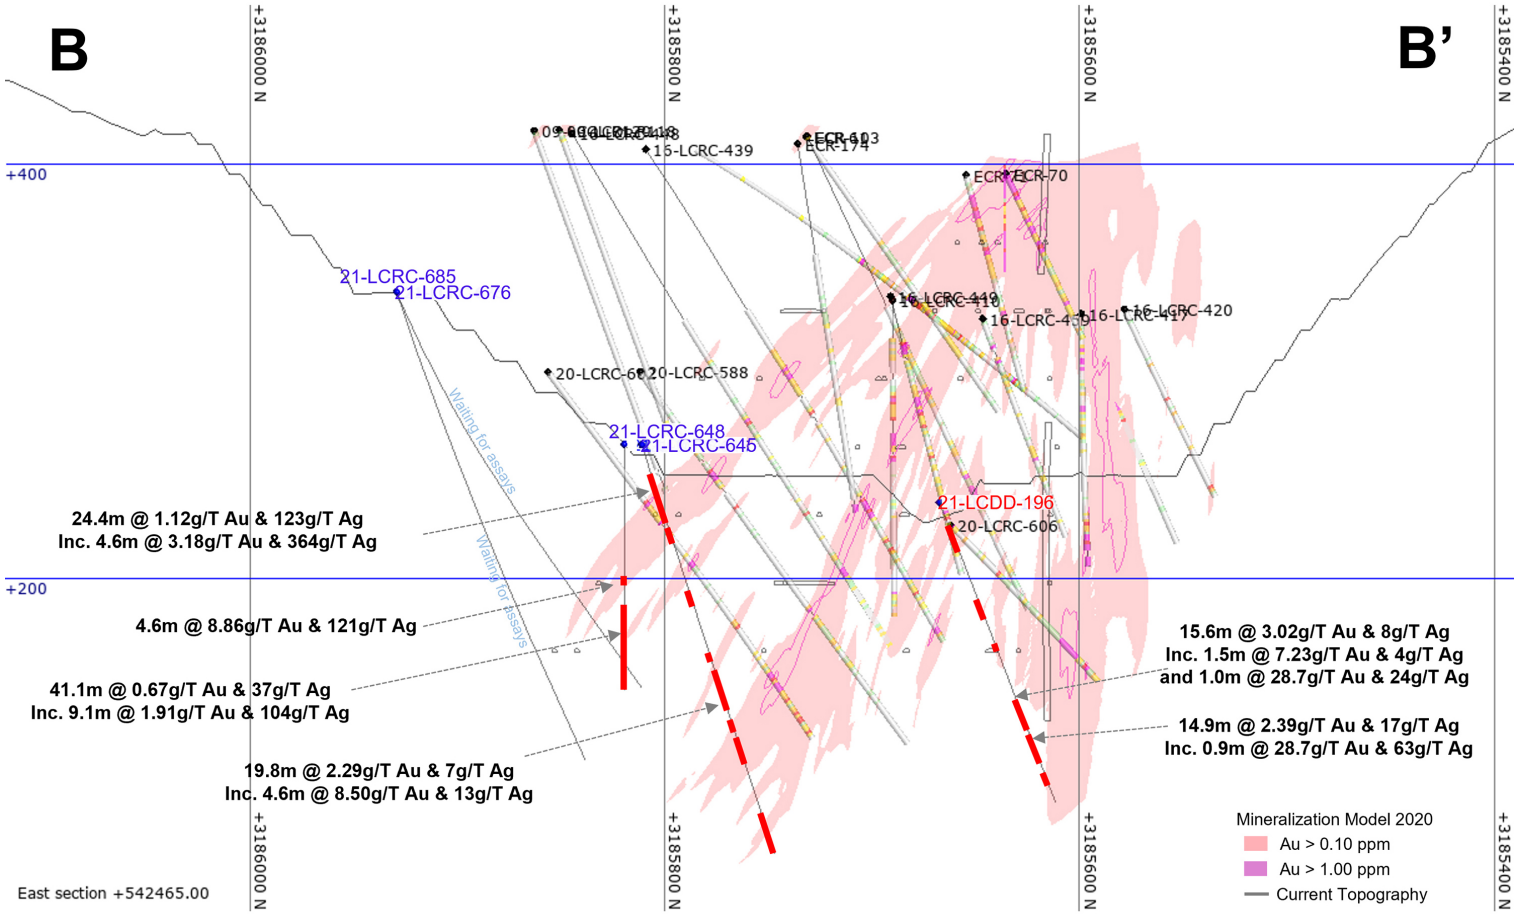

- **DH 20-LCRC-592** intersected 12.2m @ 98.9 g/t Au and 30.3 g/t Ag, incl. 3.0m of 383.0 g/t Au and 113.5 g/t Ag
- **DH 20-LCRC-562** intersected 21.3m @ 44.6 g/t Au and 274.9 g/t Ag, incl. 3.0 m of 283.1 g/t Au and 858.0 g/t Ag

News Release - September 13, 2021

- **South Vein:** DH 21-LCRC-667 intersected 38.1m @ 9.1 g/t Au and 126.6 g/t Ag, incl. 4.6 metres of 51.9 g/t Au and 28.5 g/t Ag
- **North Vein:** DH 21-LCRC-657 intersected 29.0m @ 3.62 g/t Au and 10.1 g/t Ag, incl. 4.6mof 17.4 g/t Au and 29.0 g/t Ag
- **Central Vein:** DH 21-LCRC-673 intersected 22.9m @ 6.7 g/t Au and 30.1 g/t Ag, incl. 1.5m of 90.0 g/t Au and 14.8 g/t Au

High Grade Results at La Colorada

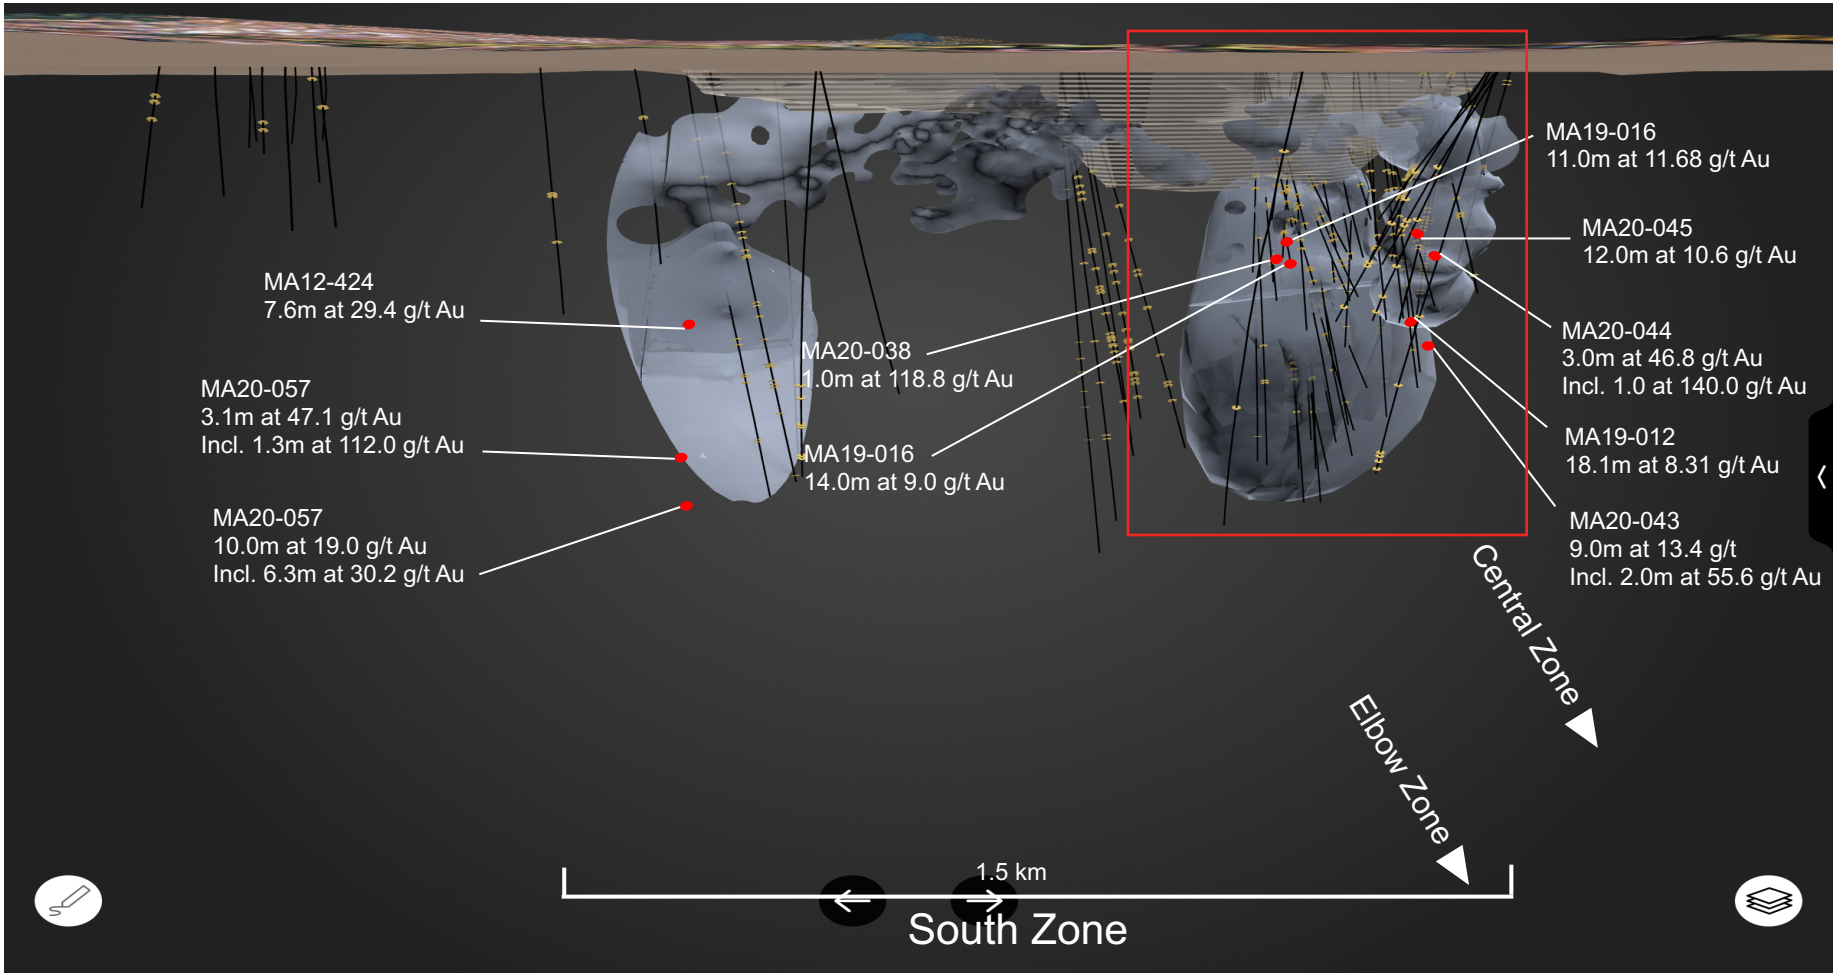

Recent Drill Results
Section B - High Grade Gold Veins Below the El Crestón Pit at La Colorada Mine

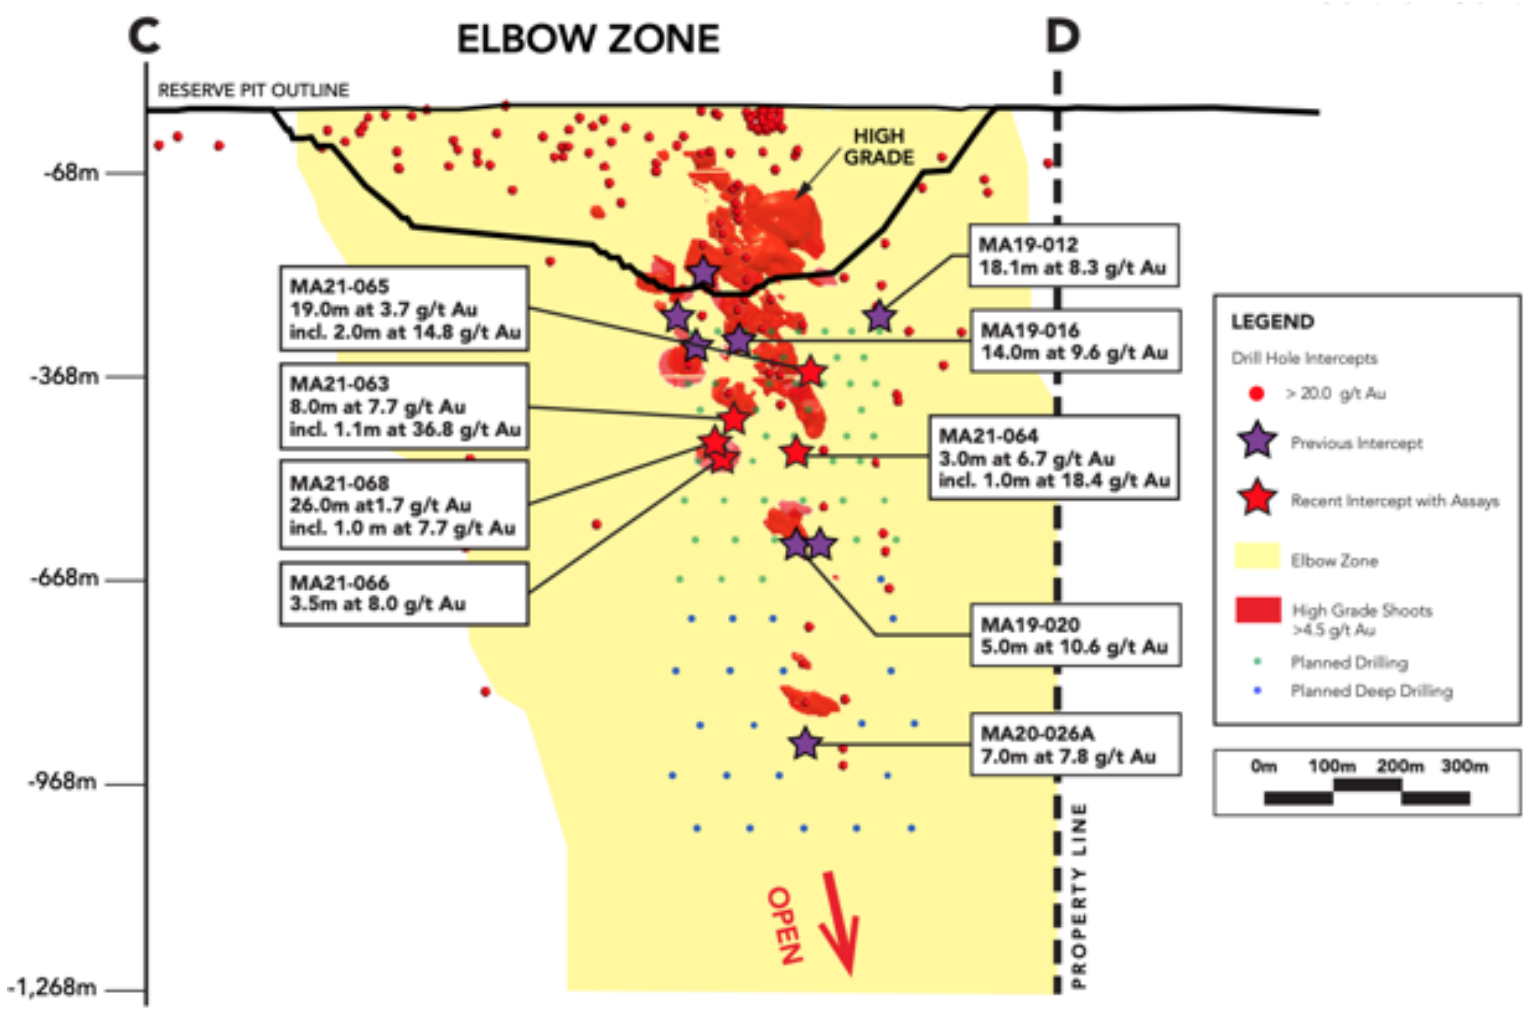

Note: Refer to Argonaut Press Release dated September 13, 2021.

Magino High-Grade Drill Results at Depth Below the Pit

Long Section Looking North

Early-stage Resource Definition Drilling

Potential Near-Term Catalysts

Magino Construction Progress
- Monthly newsletter and quarterly press release updates

Magino Exploration
- Targeting high-grade gold mineralization at depth

La Colorada Exploration
- Targeting the down dip extension of gold and silver veins below the El Créston pit

Notes and Disclosures

Argonaut Gold is a Canadian gold company engaged in exploration, mine development and production. Its primary assets are the El Castillo mine and San Agustin mine, which together form the El Castillo Complex in Durango, Mexico, the La Colorada mine in Sonora, Mexico and the Florida Canyon mine in Nevada, USA. The Company also holds the construction stage Magino project, the advanced exploration stage Cerro del Gallo project and several other exploration stage projects, all of which are located in North America.

QUALIFIED PERSON

Technical information included in this presentation was supervised and approved by Brian Arkell, Argonaut Gold's Vice President of Exploration, and a Qualified Person under National Instrument 43-101 – *Standards of Disclosure for Mineral Projects*. ("NI 43-101").

NATIONAL INSTRUMENT 43-101

Brian Arkell, Argonaut Gold's Vice-President of Exploration and a Qualified Person under NI 43-101, has read and approved the scientific and technical information in this presentation as it relates to Argonaut. This presentation contains information regarding mineral resources that are not mineral reserves and do not have demonstrated economic viability.

CAUTIONARY NOTE TO U.S. INVESTORS CONCERNING ESTIMATES OF MEASURED, INDICATED AND INFERRED RESOURCES

This presentation uses the terms "Measured", "Indicated" and "Inferred" Resources as defined in accordance with NI 43-101. United States readers are advised that while such terms are recognized and required by Canadian securities laws, the United States Securities and Exchange Commission does not recognize them. Under United States standards, mineralization may not be classified as a "reserve" unless the determination has been made that the mineralization could be economically and legally produced or extracted at the time the reserve calculation is made. United States readers are cautioned not to assume that all or any part of the mineral deposits in these categories will ever be converted into reserves. In addition, "Inferred Resources" have a great amount of uncertainty as to their existence, and as to their economic and legal feasibility. It cannot be assumed that all or any part of an Inferred Resource will ever be upgraded to a higher category. United States readers are also cautioned not to assume that all or any part of an Inferred Resource exists, or is economically or legally mineable.

NON-IFRS MEASURES

The Company has included certain non-IFRS measures including "Cash cost per gold ounce sold", "All-in sustaining cost per gold ounce sold", "Adjusted net income", and "Adjusted earnings per share – basic" in this press release to supplement its financial statements, which are presented in accordance with International Financial Reporting Standards ("IFRS"). Cash cost per gold ounce sold is equal to production costs less silver sales divided by gold ounces sold. All-in sustaining cost per gold ounce sold is equal to production costs less silver sales plus general and administrative, exploration, accretion and other expenses and sustaining capital expenditures divided by gold ounces sold. Adjusted net income is equal to net income less foreign exchange impacts on deferred income taxes, foreign exchange (gains) losses, non-cash impairment write down (reversal) of work-in-process inventory, unrealized (gains) losses on commodity derivatives and care and maintenance expenses. Adjusted earnings per share – basic is equal to adjusted net income divided by the basic weighted average number of common shares outstanding. The Company believes that these measures provide investors with an alternative view to evaluate the performance of the Company. Non-IFRS measures do not have any standardized meaning prescribed under IFRS. Therefore they may not be comparable to similar measures employed by other companies. The data is intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS.

Please see the management's discussion and analysis ("MD&A") for full disclosure on non-IFRS measures.

This presentation should be read in conjunction with the Company's unaudited interim condensed consolidated financial statements for the three and nine months ended September 30, 2021 and associated MD&A, for the same period, which are available from the Company's website, www.argonautgold.com, in the "Investors" section under "Financial Filings", and under the Company's profile on SEDAR at www.sedar.com.

Mineral Resource Notes and Disclosures

(1) Mineral Reserves and Mineral Resources have been estimated as at December 31, 2020 in accordance withNational Instrument ("NI") 43-101 as required by Canadian securities regulatory authorities. Mineral Resources are presented inclusive of Mineral Reserves. Numbers may not sum due to rounding.

(2)The Mineral Reserves for El Castillo and San Agustin, which together form the El Castillo Complex, set out in the above table are based on updated models, mine plans and topography, including depletion through mining activities and changes to recovery and cost assumptions as of December 31, 2020. El Castillo used a gold price of $1,500 per ounce; San Agustin used a gold price of $1,500 per ounce and silver price of $18.75 per ounce. Cut-off grades for El Castillo range from 0.10 g/t Au to 0.51 g/t Au depending on ore type; cut-off grades at San Agustin were 0.13 g/t Au.

(3)The Mineral Reserves for La Colorada set out in the above table are based on updated models, mine plans and topography as well as updated recoveries and cost assumptions as of December 31, 2020. La Colorada used a gold price of $1,500 per ounce and a silver price of $18.75 per ounce. Cut-off grade for La Colorada was 0.11 g/t gold equivalent ("AuEQ").

(4)The Mineral Reserves for Florida Canyon set out in the above table are based on updated models, mine plans and topography as well as updated recoveries and cost assumptions as of December 31, 2020. Florida Canyon used a gold price of $1,500 per ounce. Cut-off grade for Florida Canyon was 0.17 g/t Au.

(5)The Mineral Reserves for the Magino Project set out in the table above were taken from the Magino Technical Report. The Mineral Reserves were estimated at a gold price of $1,200 per ounce. The Mineral Reserves used a gold cutoff grade of 0.41 g/t.

(6)The Mineral Reserves for Cerro del Gallo set out in the table above were taken from the Cerro del Gallo Technical Report. The Mineral Reserves were estimated at a gold price of $1,200 per ounce and a silver price of $14.50 per ounce. The Mineral Reserves used a gold cutoff grade of between 0.30 g/t AuEQ and 0.39 g/t AuEQ depending on ore type.

(7)The Mineral Reserves for Ana Paula set out in the table above were taken from the Ana Paula Technical Report. The Mineral Reserves were estimated at a gold price of $1,200 per ounce and a silver price of $17.00 per ounce. The Mineral Reserves used a gold cutoff grade of 0.67 g/t Au.

(8)The M&I Mineral Resources and Inferred Mineral Resources for El Castillo and San Agustin, which together form the El Castillo Complex, set out in the above table were based on pit cones using $1,800 per ounce gold and $22.50 per ounce silver. Cut-off grades range from 0.08 g/t Au to 0.43 g/t Au for El Castillo and 0.10 to 0.23 g/t AuEQ for San Agustin, depending on ore type.

(9)The M&I Mineral Resources and Inferred Mineral Resources for La Colorada set out in the above table were based on pit cones using $1,800 per ounce gold and $22.50 per ounce silver. Cut-off grade was 0.09 g/t AuEQ.

(10)The M&I Mineral Resources and Inferred Mineral Resources for Florida Canyon set out in the above table were based on pit cones using $1,800 per ounce gold. Cut-off grade was 0.15 g/t Au.

(11)The M&I Mineral Resources and Inferred Mineral Resources for the Magino Project set out in the table above were taken from the Magino Technical Report. The Mineral Resources were estimated at a gold price of $1,300 per ounce. The Mineral Resources used a gold cutoff of 0.25 g/t.

(12)The M&I Mineral Resources and Inferred Mineral Resources for the Cerro del Gallo Project set out in the table above were taken from the Cerro del Gallo Technical Report. The Mineral Resources were estimated at a gold price of $1,600 per ounce and a silver price of $20.00 per ounce. Cut-off grades range from 0.25 g/t AuEQ to 0.30 g/t AuEQ depending on ore type.

(13)The M&I Mineral Resources and Inferred Mineral Resources for Ana Paula set out in the table above were taken from the Ana Paula Technical Report. The Mineral Resources were estimated at a gold price of $1,350 per ounce and a silver price of $17.00 per ounce. The Mineral Resources used a gold cutoff grade of 0.60 g/t Au for the Mineral Resources amenable to open pit extraction and 1.65 g/t Au for the Mineral Resources amenable to underground extraction.

(14)The M&I Mineral Resources and Inferred Mineral Resources for the San Antonio Project set out in the table above were taken from the San Antonio Technical Report. The Mineral Resources were estimated at a gold price of $1,500 per ounce using a cutoff grade of 0.11 g/t Au for oxide and transition and 0.15 g/t Au for sulphide.
