Dear Valued Customer:

I am reaching out with an important update about actions we are taking toward building a more competitive business for the future.

Today, against the unprecedented backdrop of COVID-19 and the severe declines in the oil and gas markets, Covia announced that it has entered into an agreement with lenders holding a majority of its secured debt on the terms of a comprehensive financial restructuring plan that is expected to strengthen our financial position and position the Company to better execute on our go-forward business strategy. To implement the terms of the agreement, Covia and certain of its U.S. subsidiaries voluntarily filed for reorganization under Chapter 11 of the U.S. Bankruptcy Code. Our subsidiaries outside of the U.S. are excluded from this filing. This court-supervised process will serve as the means to a new beginning for Covia.

We have made important progress over the last year executing our strategy and aligning our business with changing market conditions. The decisive actions we are taking now will position Covia to be an even stronger partner to our customers, vendors and other business partners in both the near-term and the long-term.

Here's what today's announcement means for you:

- **Our active mines, distribution network and offices are operating in the normal course of business.** We intend to continue safely serving customers and meeting demand for our diverse mineral-based and material solutions across our Industrial and Energy markets throughout the court-supervised process.
- **Our top priority is to continue to provide customers with the quality products and service that you have come to expect from Covia.** We will continue to do everything that we normally do to create value for our customers.
- **Covia continues to be a dependable supplier for customers.** We have strategically built a current cash position of approximately \$250 million that we expect will allow the company to meet its customer obligations throughout this process and beyond.

We are confident in our future and believe our lenders' support of our restructuring agreement demonstrates their confidence as well. Covia has a fundamentally strong core business and we remain committed to building upon our competitive advantages for the benefit of our business partners and our other stakeholders.

Covia is committed to communicating with stakeholders throughout the process, and below are answers to questions that you may have. Additional information about the process can be found at <https://cases.primeclerk.com/Covia>.

Thank you for your understanding, and please do not hesitate to reach out to me or your regular contacts at Covia should you have any questions.

We greatly value our relationship with you and your organization and look forward to continuing our partnership with you as we move forward, as a stronger Covia.
