8x8, Inc. Announces Availability of International Virtual Numbers for Packet8 Residential and Business Subscribers

SAN JOSE, Calif., 2007 Spring VON Conference, March 21 /PRNewswire- FirstCall/ -- 8x8, Inc. (Nasdaq: [EGHT](#)), provider of Packet8 (<http://www.packet8.net>) broadband Voice over Internet Protocol (VoIP) and videophone communication services, today announced the availability of International Virtual Direct Inbound Dial (DID) numbers with area codes from nine European countries.

With these International Virtual Numbers, Packet8 residential and business subscribers can create a "virtual presence" for themselves in the following locations -- U.K., France, Netherlands, Norway, Sweden, Finland, Italy, Ireland, and Denmark. By adding a Virtual Number from these locations to their Packet8 service, subscribers enable individuals based there to reach them via a local vs. an international call. Businesses, in particular, can benefit from using an International Virtual Number to open virtual sales offices overseas and answer calls from their U.S. based location.

"We are pleased to offer this valuable additional service to our subscribers," said 8x8 Vice President of Sales and Marketing Huw Rees. "Features like International Virtual Numbers further differentiate Packet8 VoIP phone service from traditional plain old telephone service by providing cost savings and increased flexibility."

Packet8 subscribers can add an International Virtual Number to the service for \$9.99 per month with a one-time \$9.99 activation fee. Additional information about Packet8 International DIDs can be found at: <http://www.packet8.net/about/features.asp> .

About 8x8, Inc.

VoIP (voice over internet protocol) service provider 8x8, Inc. offers internet-based telephony solutions (<http://www.packet8.net>) for individual residential and business users as well as small to medium sized business organizations. In addition to regular Packet8 VoIP service plans priced as low as \$24.99 per month for unlimited anytime calling to the U.S. and Canada, 8x8 offers the Packet8 Tango Video Terminal Adapter and DV 326 VideoPhone along with accompanying monthly service plans also priced at \$24.99 per month. Packet8 Virtual Office, 8x8's VoIP phone system for small to medium sized businesses, is a hosted PBX solution comprised of powerful business class features. Companies subscribing to Virtual Office pay just \$49.99 per month per extension for enterprise class PBX functionality along with unlimited local and long distance calling in the U.S. and Canada. Packet8 Softalk™, 8x8's PC-based soft phone client, offers high quality voice and video in-network calling as well as outbound calling to the PSTN.
