

8x8, Inc.

8x8, Inc. to Host FY 2009 1st Quarter Earnings Call on July 31

SANTA CLARA, Calif., July 14 /PRNewswire-FirstCall/ -- 8x8, Inc. (Nasdaq: EGHT), provider of Packet8 (www.packet8.net) broadband business, residential, video and mobile communication services, today announced it will hold a conference call to discuss its FY 2009 1st quarter operating results on Thursday, July 31 at 4:30 p.m. ET. Bryan R. Martin, Chairman and CEO, and Dan Weirich, Chief Financial Officer, will host the call.

This call is being webcast by Thomson/CBBN and can be accessed by dialing 888-713-4215 and referencing passcode 15600584 ten minutes before the scheduled time. A digital replay will be available for one week following the live broadcast at 888-286-8010, passcode 41401744. To pre-register for the call, go to <https://www.theconferencingservice.com/prereg/key.process?key=PKMQARRMB> or visit the 8x8 Investor Relations website at <http://www.8x8.com/>.

The webcast is also being distributed through the Thomson StreetEvents Network. Individual investors can listen to the call at <http://www.earnings.com/>, Thomson's individual investor portal, powered by StreetEvents. Institutional investors can access the call via Thomson StreetEvents (<http://www.streetevents.com/>), a password-protected event management site.

About 8x8, Inc.

8x8, Inc. (Nasdaq: EGHT) offers voice and video Internet-based telephony services for business and residential customers. Marketed under the Packet8® brand name, these hosted communications solutions enhance the value and functionality of existing broadband Internet connections by delivering advanced features and digital quality phone service at a fraction of the cost of legacy, copper wire alternatives.

The Packet8 Virtual Office® services, currently in use by over 11,000 companies, eliminates the need for traditional business phone systems by delivering all telephony services over managed or unmanaged Internet connections. This affordable, easy-to-use alternative to traditional PBX systems or Centrex class services allows high-speed Internet users anywhere in the world to be part of a virtual PBX that includes automated attendants, conference bridges, extension-to-extension dialing and ring groups, in addition to a rich variety of other business class features normally found on dedicated PBX equipment. 8x8's hosted key system services are designed to replace traditional premise-based telephone "key systems" typically used by companies whose size or structure dictates the sharing of multiple, common phone lines among employees, regardless of where the employees are located. 8x8's Packet8 Virtual Trunking services deliver a broadband agnostic IP trunking solution that allows businesses to benefit from the flexibility and cost efficiencies of VoIP (Voice over Internet Protocol), while retaining their existing phones and phone system hardware and optimizing the use of their existing connectivity to the Internet.

8x8 also offers residential, video and mobile digital phone services. For additional company information, visit 8x8's web site at www.8x8.com. For information about Packet8 products and services, visit www.packet8.net.
