(Zip Code)

Registrant's telephone number, including area code: **(678) 566-6500**

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	Name of Each Exchange on Which Registered
Common Stock — \$0.01 Par Value	New York Stock Exchange
Preferred Stock Purchase Rights	

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or such shorter

period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of the registrant's common stock held by non-affiliates on June 30, 2015 (based on the closing stock price on the New York Stock Exchange) on such date was approximately \$985,000,000.

As of February 22, 2016, there were 16,725,000 shares of the Company's common stock outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Certain information contained in the definitive proxy statement for the Company's Annual Meeting of Stockholders to be held on May 26 2016 is incorporated by reference into Part III hereof.

PART I

In this report, unless the context requires otherwise, references to "we," "us," "our," "Neenah" or the "Company" are intended to mean Neenah Paper, Inc., its consolidated subsidiaries and predecessor companies.

Item 1. Business

Overview

We are organized into two primary businesses: a performance-based technical products business and a premium fine paper and packaging business (formerly known as the fine paper business). On January 1, 2015, we changed the name of our fine paper business to fine paper and packaging. The name change better reflects the increasing importance, and plans for continued growth, of our premium packaging products.

Our technical products business is a leading international producer of performance-based substrates such as filtration media for transportation, water and other filtration markets, and saturated and coated performance materials used for industrial backings, labels and a variety of other end markets. The business is focused on categories where we believe we are a market leader or have a competitive advantage, including, among others, transportation, water and other filter media, specialty tape, label, abrasive, image transfer and customer-specific applications used in durable print and other applications. Our customers are located in more than 70 countries. Our technical products manufacturing facilities are located in Munising, Michigan, Pittsfield, Massachusetts, Bolton, England and near Munich, Germany. In addition, certain products manufactured in shared facilities acquired in the FiberMark Acquisition (as defined below) support our technical products business. For a description of the shared facilities acquired in the FiberMark Acquisition, see Part I, Item 2 "Properties."

We believe our fine paper and packaging business is the leading supplier of premium printing and other high end specialty papers in North America. We are also focused on increasing our presence in international markets. Our premium writing, text, cover and specialty papers are used in commercial offset and digital printing and imaging applications for corporate identity packages, invitations, personal stationery, premium labels and luxury packaging. Our bright papers are used in applications such as direct mail, advertising inserts, scrapbooks and marketing collateral. Our products include some of the most recognized and preferred fine paper brands and we enjoy leading market positions in many of our product categories. We sell our products primarily to authorized paper distributors, as well as through converters, specialty businesses and major retail customers. Our fine paper and packaging manufacturing facilities are located in Appleton, Neenah and Whiting, Wisconsin; and Canton, Ohio. In addition, certain products manufactured in shared facilities acquired in the FiberMark Acquisition support our fine paper and packaging business. For a description of the shared facilities acquired in the FiberMark Acquisition, see Part I, Item 2 "Properties."

Company Structure

Our corporate structure consists of Neenah Paper, Inc., and six direct wholly owned subsidiaries.

Neenah Paper, Inc. is a Delaware corporation that holds our trademarks and patents related to all of our U.S. businesses (except Neenah Paper FVC, Inc), all of our U.S. fine paper and packaging inventory, the real estate, mills and manufacturing assets associated with our fine paper and packaging operations in Neenah and Whiting, Wisconsin, and all of the equity in our subsidiaries listed below. The common stock of Neenah is publicly traded on the New York Stock Exchange under the symbol "NP."

Neenah Paper Michigan, Inc. is a Delaware corporation and a wholly owned subsidiary of Neenah that owns the real estate, mill and manufacturing assets associated with our U.S. technical products business in Munising, Michigan.

Neenah Paper FVC, LLC is a Delaware limited liability company and wholly owned subsidiary of Neenah that owns all of the equity of Neenah Paper FR, LLC. Neenah Paper FR, LLC is a Delaware limited liability company that owns the real estate, mills and manufacturing assets associated with our fine paper and packaging operation in Appleton, Wisconsin.

Neenah Paper International Holding Company, LLC is a Delaware limited liability company and wholly owned subsidiary of Neenah that owns all of the equity of Neenah Paper International, LLC. Neenah Paper International, LLC is a Delaware limited liability company that owns all of the equity of Neenah Germany GmbH and in conjunction with Neenah Germany GmbH all of the equity of Neenah Services GmbH & Co. KG.

[Table of Contents](#)

NPCC Holding Company LLC is a Delaware limited liability company and wholly owned subsidiary of Neenah that owns all of the equity of Neenah Paper Company of Canada ("Neenah Canada"). Neenah Canada is a Nova Scotia unlimited liability corporation that holds certain post-employment liabilities of our former Canadian operations.

Neenah Paper International Finance Company BV is a private company with limited liability organized under the laws of the Netherlands and a wholly owned subsidiary of Neenah that facilitates the financing of our international operations.

Neenah Filtration, LLC is a Delaware limited liability company and wholly owned subsidiary of Neenah that owns all of the equity of Neenah Technical Materials, Inc. ("NTM") and Neenah Filtration Appleton, LLC ("NFA"). NTM is a Massachusetts corporation that owns all of the real estate, mills and manufacturing assets associated with our technical materials business in Pittsfield, Massachusetts. NFA is a Delaware limited liability company that owns certain assets associated with our filtration business in Appleton, Wisconsin. The filtration assets in Appleton, Wisconsin are currently under construction with an anticipated start-up date of January 1, 2017. See "Management's Discussion and Analysis of Financial Condition and Results of Operations — Liquidity and Capital Resources."

Neenah FMK Holdings, LLC is a Delaware limited liability company and a wholly owned subsidiary of Neenah that owns all of the equity of ASP FiberMark, LLC ("ASP"). ASP is a Delaware limited liability company that owns all of the equity of FiberMark North America, LLC ("FMK") and ASP FiberMark UK Limited, a United Kingdom corporation ("FMKUK"). FMK is a Delaware limited liability company that owns certain real estate, mills and manufacturing assets associated with our fine paper and packaging business and technical products business located in Brattleboro, Vermont, West Springfield, Massachusetts, Quakertown and Reading, Pennsylvania, Brownville and Lowville, New York and Canton, Ohio. FMKUK is a United Kingdom corporation that owns all of the equity of FiberMark Red Bridge International Limited ("Redbridge"). Redbridge is a United Kingdom corporation that owns all of the real estate, manufacturing assets and inventory associated with our technical products business in Bolton, England.

History of the Businesses

Neenah was incorporated in April 2004 in contemplation of the spin-off by Kimberly-Clark Corporation ("Kimberly-Clark") of its technical products and fine paper businesses in the United States and its Canadian pulp business (collectively, the "Pulp and Paper Business"). We had no material assets or activities until Kimberly-Clark's transfer to us of the Pulp and Paper business on November 30, 2004. On that date, Kimberly-Clark completed the distribution of all of the shares of our common stock to the stockholders of Kimberly-Clark (the "Spin-Off"). Following the Spin-Off, we are an independent public company and Kimberly-Clark has no ownership interest in us.

Technical Products. In 1952, we purchased what is now our Munising, Michigan mill. Subsequent to the purchase, we converted the mill to produce durable, saturated and coated papers for sale and use in a variety of industrial applications for our technical products business. In October 2006, we purchased the outstanding interests of FiberMark Services GmbH & Co. KG and the outstanding interests of FiberMark Beteiligungs GmbH (collectively "Neenah Germany"). At acquisition, the Neenah Germany assets consisted of two mills located near Munich, Germany and a third mill near Frankfurt, Germany, that produce a wide range of products, including transportation, beverage and other filter media, nonwoven wall coverings, masking and other tapes, abrasive backings, and specialized printing and coating substrates.

In July 2014, we purchased all of the outstanding equity of Crane Technical Materials, Inc. from Crane & Co., Inc. for approximately \$72 million. The acquired technical materials business provides performance-oriented wet laid nonwoven media for water filtration end markets as well as environmental, energy and industrial uses. The technical materials business has two manufacturing facilities in Pittsfield, Massachusetts.

On October 31, 2015, we sold our paper mill located near Frankfurt, Germany (the "Lahnstein Mill") to the Kajo Neukirchen Group (the "Buyer") for net cash proceeds of approximately \$5.4 million. The Lahnstein Mill, which had annual sales of approximately €50 million, had been operating as a stand-alone business, manufacturing non-woven wallcoverings and various other specialty papers. See Note 12, "Discontinued Operations and Assets Held for Sale."

[Table of Contents](#)

Fine Paper and Packaging. The fine paper and packaging business was incorporated in 1885 as Neenah Paper Company, which initially operated a single paper mill in Neenah, Wisconsin. We acquired the mill in 1956. In 1981, we purchased an additional mill located in Whiting, Wisconsin to increase the production capacity of the fine paper and packaging business. In the late 1980s and early 1990s, we expanded the capacity of the fine paper and packaging business by building two new paper machines at the Whiting mill, rebuilding two existing paper machines at the Whiting mill and completing a major expansion of the Neenah facility with the installation of a new paper machine, a new finishing center, a new customer service center and a distribution center expansion.

In March 2007, we acquired Fox Valley Corporation (now named Neenah Paper FVC, Inc.), which owned Fox River Paper Company, LLC ("Fox River," now named Neenah Paper FR, LLC). The Fox River assets consisted of four U.S. paper mills and various related assets, producing premium fine papers with well-known brands including STARWHITE®, SUNDANCE®, ESSE® and OXFORD®. In integrating the operations of Fox River with those of our existing fine paper and packaging mills, we closed three of the Fox River paper mills. We closed the Housatonic mill, located near Great Barrington, Massachusetts in May 2007, the fine paper mill located in Urbana, Ohio during the second quarter of 2008 and the fine paper mill located in Ripon, California in May 2009.

In January 2012, we purchased certain premium fine paper brands and other assets from Wausau Paper Mills, LLC, a subsidiary of Wausau Paper Corp. ("Wausau"). In January 2013, we purchased certain premium business paper brands from the Southworth Company ("Southworth").

FiberMark Acquisition. On August 1, 2015, we purchased all of the outstanding equity of ASP FiberMark, LLC ("FiberMark") from ASP FiberMark Holdings, LLC ("American Securities") for approximately \$118 million (the "FiberMark Acquisition"). The purchase price was financed through \$80 million of cash on hand and the balance from available borrowing capacity on our revolving credit facility. FiberMark is a specialty coatings and finishing company with a strong presence in luxury packaging and technical products. In September 2015, we announced the planned closure of the acquired Fitchburg, Massachusetts mill (the "Fitchburg Mill") to consolidate our manufacturing footprint. Manufacturing operations at the Fitchburg Mill ceased in December 2015. See Note 3, "Acquisitions" and Note 12, "Discontinued Operations and Assets Held for Sale."

Former Pulp Operations. At the Spin-Off, our pulp operations consisted of mills located in Terrace Bay, Ontario and Pictou, Nova Scotia and approximately 975,000 acres of related woodlands. We disposed of these mills and woodlands in a series of transactions from 2006 to 2010. In March 2010, we sold approximately 475,000 acres of woodland assets in Nova Scotia, substantially completing our exit from pulp operations.

Business Strategy

Our mission is to create value by improving the image and performance of everything we touch. We expect to create value by growing in specialized niche markets that value performance or image and where we have competitive advantages. In managing our businesses, we believe that achieving and maintaining a leadership position in our markets, responding effectively to customer needs and competitive challenges, employing capital optimally, controlling costs and managing risks are important to our long-term success. Strategies to deliver value include:

Leading in profitable, specialty niche markets — We will increase our participation in niche markets that can provide us with leading positions and value our core competencies in performance-based fiber and non-woven media production, coating and saturating. Key markets include filtration, specialty backings and technical products, and premium fine paper and packaging.

Increasing our size, growth rate and portfolio diversification — We will invest and focus resources in higher growth specialty markets to grow with customers in new geographies and to enter into adjacent markets that are growing and profitable. We will do this both through organic initiatives that build on our technologies and capabilities, and through acquisitions that fit with our competencies and provide attractive financial returns.

Delivering consistent, attractive returns to our shareholders with disciplined financial management — We will continue to use Return on Invested Capital ("ROIC") as a key metric to evaluate investment decisions, measure our performance, maintain a prudent capital structure and deploy cash flows in ways that can provide value, including direct cash returns to shareholders through a meaningful dividend.

Products

Technical Products. Our technical products business is a leading international producer of performance-based substrates such as filtration media for transportation, water and other filtration markets, and saturated and coated performance materials used for industrial backings, labels and a variety of other end markets. In general, our technical products are sold to other manufacturers as key components for their finished products. Several of our key market segments served, including filtration and specialty backings for tape and abrasives, are global in scope. JET-PRO®/SofStretch™, KIMDURA®, MUNISING LP®, PREVAIL™, NEENAH®, and GESSNER® are brands of our technical products business. Our technical products business had net sales of \$429 million, \$404 million and \$353 million in 2015, 2014 and 2013, respectively.

The following is a description of certain key products and markets:

Filtration media for transportation including induction air, fuel, oil, and cabin air applications. Transportation filtration media are sold to suppliers of automotive companies as original equipment on new cars and trucks as well as to the automotive aftermarket, which represents the large majority of sales. This business is primarily in Europe.

Filtration media for water and other industrial end markets. Primary applications include reverse osmosis, catalytic conversion, nanofiltration, ultrafiltration, pervaporation and vapor permeation, as well as other applications for specialty markets.

Specialty backings including a) saturated and unsaturated crepe and flat paper tapes sold to manufacturers to produce finished pressure sensitive products for sale in automotive, transportation, manufacturing, building construction, and industrial general purpose applications, including sales in the consumer-do-it-yourself retail channel and b) coated lightweight abrasive paper used in the automotive, construction, metal and woodworking industries for both waterproof and dry sanding applications.

Label and tag products made from both saturated base label stock and purchased synthetic base label stock, with coatings applied to allow for high quality variable and digital printing. The synthetic label stock is recognized as a high quality, UV (ultra-violet) stable product used for outdoor applications. Label and tag stock is sold to pressure sensitive coaters, who in turn sell the coated label and tag stock to the label printing community.

Other latex saturated and coated papers for use by a wide variety of manufacturers. Premask paper is used as a protective over wrap for products during the manufacturing process and for applying signs, labeling and other finished products. Medical packaging paper is a polymer impregnated base sheet that provides a breathable sterilization barrier that provides unique properties. Image transfer papers used to transfer an image from paper to tee shirts, hats, coffee mugs, and other surfaces using a proprietary imaging coating for use in digital printing applications. Publishing and security papers used to produce book covers, stationery, fancy packaging and passports. Other specialty products include clean room papers, durable printing papers, release papers and furniture backers.

Fine Paper and Packaging. Our fine paper and packaging business manufactures and sells world-class branded premium writing, text, cover and specialty papers and envelopes used in corporate identity packages, advertising collateral, premium labels and packaging, and wide format applications. Often these papers are characterized by distinctive coating, finishing, colors, and textures. Our fine paper and packaging business had net sales of \$443 million, \$436 million and \$428 million in 2015, 2014 and 2013, respectively.

Commercial printing papers include premium writing, text and cover papers, and envelopes. Uses include advertising collateral, stationery, corporate identity packages and brochures, pocket folders, annual reports, advertising inserts, direct mail, business cards, scrapbooks, and a variety of other uses where colors, texture, coating, unique finishes or heavier weight papers are desired. Our market leading brands in this category include CLASSIC®, CLASSIC CREST®, ESSE®, ENVIRONMENT®, CAPITOL BOND®, ROYAL SUNDANCE®, SOUTHWORTH®, and TOUCHE® trademarks. Our fine paper and packaging business has an exclusive agreement to manufacture, market and distribute Crane & Co.'s CRANE'S CREST®, CRANE'S BOND®, and CRANE'S LETTRA®, branded fine papers in the commercial print category. Our fine paper and packaging business has an exclusive agreement to market and distribute Gruppo Cordenons SpA's SO...SILK®, PLIKE® and STARDREAM® branded fine papers in the U.S. and Canada. The fine paper and packaging business also sells private watermarked paper and other specialty writing, text, and cover papers. Additionally, the fine paper and packaging business provides leading solutions in the wide format arena, led by its Neenah Wide Format® and CONVERD® brands.

[Table of Contents](#)

Premium packaging and label papers are used for wine, spirits and beer labels, folding cartons, box wrap, bags, hang tags, and stored value cards servicing high-end retail, cosmetics, spirits, and electronics end-use markets. Our market leading brands in these categories include NEENAH® Folding Board, "ESTATE LABEL®, Neenah® Box Wrap, PELLAQ®, KIVAR®, SKIVERTEX®, ILLUSIO®, and SENZO®.

Bright papers are used in applications such as direct mail, advertising inserts, scrapbooks and marketing collateral. Our brands in this category include ASTROBRIGHTS® and CREATIVE COLLECTION™. Additionally, business papers for professionals and small businesses are sold under our Southworth® brand through major retailers.

The fine paper and packaging business also produces and sells other specialty papers that address a consumer's need for enhanced image such as translucent papers, art papers, papers for optical scanning and other specialized applications.

Markets and Customers

Technical Products. The technical products business sells its products globally into product categories generally used as base materials in the following applications: filtration, component backing materials for manufactured products such as tape and abrasives, and other specialized product uses such as graphics and identification.

Several products (filtration media, abrasives, specialty tapes, labels) are used in markets that are directly affected by economic business cycles. Other market segments such as image transfer papers used in small/home office and consumer applications are relatively stable. Most products are performance-based and require qualification at customers; however, certain categories may also be subject to price competition and the substitution of lower cost substrates in some less demanding applications.

The technical products business relies on a team of direct sales representatives and customer service representatives to market and sell approximately 95 percent of its sales volume directly to customers and converters.

The technical products business has more than 500 customers worldwide. The distribution of sales in 2015 was approximately 55 percent in Europe, 30 percent in North America and 15 percent in Latin America and Asia. Customers typically convert and transform base papers and film into finished rolls and sheets by adding adhesives, coatings, and finishes. These transformed products are then sold to end-users.

Sales to the technical products business's three largest customers represented approximately 20 percent of total sales for the segment in 2015. Although a complete loss of any of these customers would cause a temporary decline in the business's sales volume, the decline could be partially offset by expanding sales to existing customers, and further offset over a several month period with the addition of new customers.

Fine Paper and Packaging. We believe our fine paper and packaging business is the leading supplier of premium writing, text and cover papers, bright papers and specialty papers in North America. These products are used in high end collateral material, business and legal professions, and corporate identity products. Our premium packaging business includes products such as food and beverage labels and high-end packaging materials such as folding cartons and box wrap used for luxury retail goods. Bright papers are generally used by consumers for flyers, direct mail and packaging.

The fine paper and packaging business sells its products in a variety of channels including authorized paper distributors, converters, retailers, and direct to end users. Sales to distributors, including distributor owned paper stores, account for approximately 60 percent of revenue in the fine paper and packaging business. During 2015, approximately eight percent of the sales of our fine paper and packaging business were exported to markets outside the United States.

Sales to the largest customer of the fine paper and packaging business represented approximately 20 percent of its total sales in 2015. We practice limited sales distribution to improve our ability to control the marketing of our products. Although a complete loss of this customer would cause a temporary decline in the business's sales volume, the decline could be partially offset by expanding sales to existing customers, and further offset over a several month period with the addition of new customers.

Concentration. In July 2014, Unisource Worldwide, Inc ("Unisource") and xpedx, formerly owned by International Paper ("xpedx") merged to form Veritiv Corporation ("Veritiv"). For the years ended December 31, 2015, 2014 and 2013 sales to Unisource and xpedx (and as merged Veritiv) represented approximately 10 percent of our consolidated net sales and approximately 20 percent of net sales of the fine paper and packaging business.

[Table of Contents](#)

The following tables present further information about our businesses by geographic area (dollars in millions):

	Year Ended December 31,		
	2015	2014	2013
Net sales			
United States	\$ 687.3	\$ 612.0	\$ 564.4
Europe	200.4	227.7	217.3
Consolidated	<u>\$ 887.7</u>	<u>\$ 839.7</u>	<u>\$ 781.7</u>

	December 31,		
	2015	2014	2013
Total Assets			
United States	\$ 533.2	\$ 450.9	\$ 360.3
Canada	0.1	0.4	1.0
Europe	218.1	273.2	309.6
Consolidated	<u>\$ 751.4</u>	<u>\$ 724.5</u>	<u>\$ 670.9</u>

Net sales and total assets are attributed to geographic areas based on the physical location of the selling entities and the physical location of the assets. See Note 13 of Notes to Consolidated Financial Statements "Business Segment and Geographic Information" for information with respect to net sales, profits and total assets by business segment.

Raw Materials

Technical Products. Softwood pulp, specialty pulp and fibers, and latex are the primary raw materials consumed by our technical products business. The technical products business purchases softwood pulp, specialty pulp and fibers, and latex from various suppliers. The technical products business purchases substantially all of its raw material requirements externally. We believe that all of the raw materials for our technical products operations, except for certain specialty latex grades and specialty softwood pulp, are readily available from several sources and that the loss of a single supplier would not cause a shutdown of our manufacturing operations.

Our technical products business acquires all of its specialized pulp requirements from two global suppliers and certain critical specialty latex grades from four suppliers. In general, these supply arrangements are not covered by formal contracts, but represent multi-year business relationships that have historically been sufficient to meet our needs. We expect these relationships to continue to operate in a satisfactory manner in the future. In the event of an interruption of production at any one supplier, we believe that each of these suppliers individually would be able to satisfy our short-term requirements for specialized pulp or specialty latex. In the event of a long-term disruption in our supply of specialized pulp or specialty latex, we believe we would be able to substitute other pulp grades or other latex grades that would allow us to meet required product performance characteristics and incur only a limited disruption in our production. As a result, we do not believe that the substitution of such alternative pulp or latex grades would have a material effect on our operations.

Fine Paper and Packaging. Hardwood pulp is the primary fiber used to produce products of the fine paper and packaging business. Other significant raw material inputs in the production of fine paper and packaging products include softwood pulp, recycled fiber, cotton fiber, dyes and fillers. The fine paper and packaging business purchases all of its raw materials externally. We believe that all of the raw materials for our fine paper and packaging operations, except for certain cotton fiber which represent less than five percent of the total fiber requirements of our fine paper and packaging business, are readily available from several sources and that the loss of a single supplier would not cause a shutdown of our manufacturing operations.

We believe that a partial or total disruption in the production of cotton fibers at our two primary suppliers would increase our reliance on "spot market" purchases with a likely corresponding increase in cost. Since we have the ability to source cotton fiber on the "spot market" if faced with a supply disruption, we would not expect cotton fiber supply issues to have a material effect on our operations.

[Table of Contents](#)

Energy and Water

The equipment used to manufacture the products of our technical products and fine paper and packaging businesses use significant amounts of energy, primarily electricity, natural gas, oil and coal. We generate substantially all of our electrical energy at the Munising mill and approximately 25 of the electrical energy at our mills in Appleton, Wisconsin and Bruckmühl, Germany. We also purchase electrical energy from external sources, including electricity generated from renewable sources.

Availability of energy is not expected to be a problem in the foreseeable future, but the purchase price of such energy can and likely will fluctuate significantly based on changes in demand and other factors.

An adequate supply of water is needed to manufacture our products. We believe that there is an adequate supply of water for this purpose at each of our manufacturing locations.

Working Capital

Technical Products. The technical products business maintains approximately 25 to 30 days of raw materials and supplies inventories to support its manufacturing operations and approximately 25 to 35 days of finished goods and semi-finished goods inventory to support customer orders for its products. Sales terms in the technical products business vary depending on the type of product sold and customer category. Extended credit terms of up to 120 days are offered to customers located in certain international markets. In general, sales are collected in approximately 45 to 55 days and supplier invoices are paid within 20 to 30 days.

Fine Paper and Packaging. The fine paper and packaging business maintains approximately 10 days of raw material inventories to support its paper making operations and about 55 days of finished goods inventory to fill customer orders. Fine paper and packaging sales terms range between 20 and 30 days with discounts of zero to two percent for customer payments, with discounts of one percent and 20-day terms used most often. Extended credit terms are offered to customers located in certain international markets. Supplier invoices are typically paid within 30 days.

Competition

Technical Products. Our technical products business competes in global markets with a number of large multinational competitors, including Ahlstrom Corporation, Munksjö, ArjoWiggins SAS and Hollingsworth & Vose Company. It also competes in some, but not all, of these segments with smaller regional manufacturers, such as Monadnock Paper Mills, Inc., Expera Specialty Solutions LLC., Potsdam Specialty Paper, Inc. and Paper Line S.p.A. We believe the bases of competition in most of these segments are the ability to design and develop customized product features to meet customer specifications while maintaining quality, customer service and price. We believe our research and development program gives us an advantage in customizing base papers to meet customer needs.

Fine Paper and Packaging. We believe our fine paper and packaging business is the leading supplier of premium printing and other high end specialty papers in North America. Our fine paper and packaging business also competes globally in the premium segment of the uncoated free sheet market. The fine paper and packaging business competes directly in North America with Mohawk Fine Paper Inc. and other smaller companies. We believe the primary bases of competition for premium fine papers are brand recognition, product quality, customer service, product availability, promotional support and variety of colors and textures. Price also can be a factor particularly for lower quality printing needs that may compete with opaque and offset papers. We have and will continue to invest in advertising and other programs aimed at graphic designers, printers and corporate end-users in order to maintain a high level of brand awareness as well as communicate the advantages of using our products.

Research and Development

Our technical products business maintains research and development laboratories in Feldkirchen-Westerham, Germany, Munising, Michigan and Pittsfield, Massachusetts to support its strategy of developing new products and technologies, and to support growth in its existing product lines and other strategically important markets. In 2014, we consolidated our Roswell, Georgia and Munising, Michigan research and development laboratories at our manufacturing facility in Munising, Michigan to bring our research and development laboratories in closer proximity to our manufacturing operation. We have continually invested in product research and development with spending of \$6.8 million in 2015, \$5.7 million in 2014 and \$5.5 million in 2013.

Intellectual Property

The KIMDURA® and MUNISING LP® trademarks have made a significant contribution to the marketing of synthetic film and clean room papers of the technical products business. The GESSNER® and varitess® trademarks have played an important role in the marketing of Neenah Germany product lines.

We own more than 40 patents and have multiple pending patent applications in the United States, Canada, Western Europe and certain other countries covering image transfer paper, abrasives and medical packaging. We believe our image transfer patents have contributed to establishing the technical products business as a leading supplier of image transfer papers.

We own more than 50 trademarks with registrations in approximately 50 countries. Our fine paper and packaging business has built its market leading reputation on trademarked brands that date back as far as 1908. The CLASSIC® family of brands is one of the most well-known and respected trademarks in the printing and writing industry. The CLASSIC® family includes CLASSIC CREST®, CLASSIC® Laid, CLASSIC® Linen, CLASSIC COLUMNS® and CLASSIC COTTON® papers. Our branded products, which also include the ENVIRONMENT® brand and brands such as STARWHITE®, SUNDANCE® and ESSE®, have played an important role in the marketing of the product lines of the fine paper and packaging business, which are recognized as an industry leader for quality, consistency and printing applications. Our fine paper and packaging business has an exclusive licensing agreements to market and distribute Crane's CRANE'S CREST®, CRANE'S BOND®, CRANE'S LETTRA®, CRANE'S PALETTE™ and CRANE'S® Choice Papers branded fine papers and Gruppo Cordenons SpA's SO...SILK®, PLIKE® and STARDREAM® branded fine papers in the U.S. and Canada. In conjunction with the acquisition of the Wausau fine paper business in January 2012, we acquired the ASTROBRIGHTS®, ASTROPARCHE® and ROYAL premium writing, text and cover brands. In conjunction with the acquisition of the Southworth premium business paper business in January 2013, we acquired the SOUTHWORTH® premium business paper brand.

Backlog and Seasonality

Technical Products. In general, sales and profits for the technical products business have been relatively stronger in the first half of the year with reductions in the third quarter due to reduced customer converting schedules and in the fourth quarter due to a reduction in year-end inventory levels by our customers. The order flow for the technical products business is subject to seasonal peaks for several of its products, such as the larger volume grades of specialty tape, abrasives, premask, and label stock used primarily in the downstream finished goods manufacturing process. To assure timely shipments during these seasonal peaks, the technical products business provides certain customers with finished goods inventory on consignment. Historically, consignment sales have represented approximately 15 percent of the technical products business's annual sales. Orders are typically shipped within six to eight weeks of receipt of the order. However, the technical products business periodically experiences periods where order entry levels surge, and order backlogs can increase substantially. Raw materials are purchased and manufacturing schedules are planned based on customer forecasts, current market conditions and individual orders for custom products. The order backlog in the technical products business on December 31, 2015 was approximately \$103 million and represented approximately 25 percent of prior year sales. The order backlog in the technical products business on December 31, 2014 was approximately \$110 million and represented approximately 25 percent of prior year sales. We previously filled the order backlog from December 31, 2014 and expect to fill the order backlog from December 31, 2015 within the respective following years.

Fine Paper and Packaging. The fine paper and packaging business has historically experienced a steady flow of orders. Orders for stock products are typically shipped within two days, while custom orders are shipped within two to three weeks of receipt. Raw material purchases and manufacturing schedules are planned based on a combination of historical trends, customer forecasts and current market conditions. The order backlogs in the fine paper and packaging business on December 31, 2015 and 2014 were \$19.2 million and \$17.0 million, respectively, which represent approximately 15 days of sales. The order backlogs from December 31, 2015 and 2014 were filled in the respective following years.

The operating results at each of our businesses are influenced by the timing of our annual maintenance downs, which are generally scheduled in the third quarter.

Employee and Labor Relations

As of December 31, 2015, the Company had approximately 2,340 regular full-time employees of whom 1,140 hourly and 540 salaried employees were located in the United States and 390 hourly and 270 salaried employees were located in Europe.

Approximately 50 percent of salaried employees and 80 percent of hourly employees of Neenah Germany are eligible to be represented by the Mining, Chemicals and Energy Trade Union, Industriegewerkschaft Bergbau, Chemie und Energie (the "IG BCE"). In June 2015, the IG BCE and a national trade association representing all employers in the industry signed a collective bargaining agreement covering union employees of Neenah Germany that expires in June 2017. Under German law union membership is voluntary and does not need to be disclosed to the Company. As a result, the number of employees covered by the collective bargaining agreement with the IG BCE that expires in June 2017 cannot be determined.

As of December 31, 2015, approximately 235 employees are covered under collective bargaining agreements that expire in the next 12-months. We believe we have satisfactory relations with our employees covered by collective bargaining agreements and do not expect the negotiation of new collective bargaining agreements to have a material effect on our results of operations or cash flows. See Note 11 of Notes to Consolidated Financial Statements "Contingencies and Legal Matters — *Employees and Labor Relations*."

Environmental, Health and Safety Matters

Our operations are subject to federal, state and local laws, regulations and ordinances relating to various environmental, health and safety matters. Our operations are in compliance with, or we are taking actions designed to ensure compliance with, these laws, regulations and ordinances. However, the nature of our operations exposes us to the risk of claims concerning non-compliance with environmental, health and safety laws or standards, and there can be no assurance that material costs or liabilities will not be incurred in connection with those claims. Except for certain orders issued by environmental, health and safety regulatory agencies with which we believe we are in compliance and which we believe are immaterial to our financial condition, results of operations and liquidity, we are not currently named as a party in any judicial or administrative proceeding relating to environmental, health and safety matters.

Greenhouse gas ("GHG") emissions have increasingly become the subject of political and regulatory focus. Concern over potential climate change, including global warming, has led to legislative and regulatory initiatives directed at limiting GHG emissions. In addition to certain federal proposals in the United States to regulate GHG emissions, Germany, the United Kingdom and all the states in which we operate are currently considering GHG legislation or regulations, either individually and/or as part of regional initiatives. While not all are likely to become law it is reasonably possible that additional climate change related mandates will be forthcoming, and it is expected that they may adversely impact our costs by increasing energy costs and raw material prices, requiring operational or equipment modifications to reduce emissions and creating costs to comply with regulations or to mitigate the financial consequences of such compliance.

While we have incurred in the past several years, and will continue to incur, capital and operating expenditures in order to comply with environmental, health and safety laws, regulations and ordinances, we believe that our future cost of compliance with environmental, health and safety laws, regulations and ordinances, and our exposure to liability for environmental, health and safety claims will not have a material effect on our financial condition, results of operations or liquidity. However, future events, such as changes in existing laws and regulations, new legislation to limit GHG emissions or contamination of sites owned, operated or used for waste disposal by us (including currently unknown contamination and contamination caused by prior owners and operators of such sites or other waste generators) may give rise to additional costs which could have a material effect on our financial condition, results of operations or liquidity.

We have planned capital expenditures to comply with environmental, health and safety laws, regulations and ordinances during the period 2016 through 2018 of approximately \$1 million to \$2 million annually. Our anticipated capital expenditures for environmental projects are not expected to have a material effect on our financial condition, results of operations or liquidity.

AVAILABLE INFORMATION

We are subject to the reporting requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934. As such, we file annual, quarterly and current reports, proxy statements and other information with the Securities and Exchange Commission ("SEC"). Our SEC filings are available to the public on the SEC's web site at www.sec.gov. You may also read and copy any document we file at the SEC's Public Reference Room located at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the Public Reference Room. Our common stock is traded on the New York Stock Exchange under the symbol NP. You may inspect the reports, proxy statements and other information concerning us at the offices of the New York Stock Exchange, 20 Broad Street, New York, New York 10005.

Our web site is www.neenah.com. Information on our web site is not incorporated by reference in this document. Our reports on Form 10-K, Form 10-Q and Form 8-K, as well as amendments to those reports, are and will be available free of charge on our web site as soon as reasonably practicable after we file or furnish such reports with the SEC. In addition, you may request a copy of any of these reports (excluding exhibits) at no cost upon written request to us at: Investor Relations, Neenah Paper, Inc., 3460 Preston Ridge Road, Suite 600, Alpharetta, Georgia 30005.

Item 1A. Risk Factors

You should carefully consider each of the following risks and all of the other information contained in this Annual Report on Form 10-K. Some of the risks described below relate principally to our business and the industry in which we operate, while others relate principally to our indebtedness. The remaining risks relate principally to the securities markets generally and ownership of our common stock.

Our business, financial condition, results of operations or liquidity could be materially affected by any of these risks, and, as a result, the trading price of our common stock could decline. The risks described below are not the only ones we face. Additional risks not presently known to us or that we currently deem immaterial may also impair our business operations.

Risks Related to Our Business and Industry

Our business will suffer if we are unable to effectively respond to decreased demand for some of our products due to conditions in the global economy or secular pressures in some markets.

We have experienced and may experience in the future decreased demand for some of our products due to slowing or negative global economic growth, uncertainty in credit markets, declining consumer and business confidence, fluctuating commodity prices, increased unemployment and other challenges affecting the global economy. Parts of our fine paper and packaging business are subject to electronic substitution. In addition, our customers may experience deterioration of their businesses, cash flow shortages, and difficulty obtaining financing. If we are unable to implement business strategies to effectively respond to decreased demand for our products, our financial position, cash flows and results of operations would be adversely affected.

Changes in international conditions generally, and particularly in Germany, could adversely affect our business and results of operations.

Our operating results and business prospects could be adversely affected by risks related to the countries outside the United States in which we have manufacturing facilities or sell our products, including Germany, the Eurozone and elsewhere. Downturns in economic activity, adverse tax consequences, fluctuations in the value of local currency versus the U.S. dollar, or any change in social, political or labor conditions in any of these countries or regions could negatively affect our financial results.

For example, the European sovereign debt crisis has negatively affected economic conditions in Europe and globally. We have significant operations and financial relationships based in Europe and in Germany in particular. Europe has historically accounted for over 40 percent of our net revenues. If the European sovereign debt crisis continues or deepens, economic conditions in Europe may further deteriorate. In that case, our business in Europe and elsewhere, as well as the businesses of our customers and suppliers, may be adversely affected.

The availability of and prices for raw materials and energy will significantly impact our business.

We purchase a substantial portion of the raw materials and energy necessary to produce our products on the open market, and, as a result, the price and other terms of those purchases are subject to change based on factors such as worldwide supply and demand and government regulation. We do not have significant influence over our raw material or energy prices and our ability to pass increases in those prices along to purchasers of our products may be challenged, unless those increases coincide with increased demand for the product. Therefore, raw material or energy prices could increase at the same time that prices for our products are steady or decreasing. In addition, we may not be able to recoup other cost increases we may experience, such as those resulting from inflation or from increases in wages or salaries or increases in health care, pension or other employee benefits costs, insurance costs or other costs.

Our technical products business acquires all of its specialized pulp requirements from two global suppliers and certain critical specialty latex grades from four suppliers. In general, these supply arrangements are not covered by formal contracts, but represent multi-year business relationships that have historically been sufficient to meet our needs. We expect these relationships to continue to operate in a satisfactory manner in the future. In the event of an interruption of production at any one supplier, we believe that each of these suppliers individually would be able to satisfy our short-term requirements for specialized pulp or specialty latex. In the event of a long-term disruption in our supply of specialized pulp or specialty latex, we believe we would be able to substitute other pulp grades or other latex grades that would allow us to meet required product performance characteristics and incur only a limited disruption in our production.

Our fine paper and packaging business acquires a substantial majority of the cotton fiber used in the production of certain branded bond paper products pursuant to annual agreements with two North American producers. The balance of our cotton fiber requirements are acquired through "spot market" purchases from a variety of other producers. We believe that a partial or total disruption in the production of cotton fibers at our two primary suppliers would increase our reliance on "spot market" purchases with a likely corresponding increase in cost.

Our operating results are likely to fluctuate.

Our operating results are subject to substantial quarterly and annual fluctuations due to a number of factors, many of which are beyond our control. Operating results could be adversely affected by general economic conditions causing a downturn in the market for paper products. Additional factors that could affect our results include, among others, changes in the market price of pulp, the effects of competitive pricing pressures, production capacity levels and manufacturing yields, availability and cost of products from our suppliers, the gain or loss of significant customers, our ability to develop, introduce and market new products and technologies on a timely basis, changes in the mix of products produced and sold, seasonal customer demand, the relative strength of the Euro versus the U.S. dollar, increasing interest rates and environmental costs. The timing and effect of the foregoing factors are difficult to predict, and these or other factors could materially adversely affect our quarterly or annual operating results.

We face many competitors, several of which have greater financial and other resources.

We face competition in each of our business segments from companies that produce the same type of products that we produce or that produce lower priced alternative products that customers may use instead of our products. Some of our competitors have greater financial, sales and marketing, or research and development resources than we do. Greater financial resources and product development capabilities may also allow our competitors to respond more quickly to new opportunities or changes in customer requirements.

Some of our businesses are sensitive to changes in the macro economic environment. Fluctuations in the prices of and the demand for products could result in smaller profit margins and lower sales volumes.

Historically, economic and market shifts, and fluctuations in capacity have created cyclical changes in prices, sales volume and margins for products in the paper, packaging and related industries. The length and magnitude of industry cycles have varied over time and by product, but generally reflect changes in macroeconomic conditions and levels of industry capacity. The overall levels of demand for many of our products reflect fluctuations in levels of end-user demand, which depend in large part on general macroeconomic conditions in North America and regional economic conditions in our markets (including Europe, Asia, and Central and South America), as well as foreign currency exchange rates. The foregoing factors could materially and adversely impact our sales, cash flows, profitability and results of operations.

Our businesses are significantly dependent on sales to their largest customers.

Sales to the largest customer of the fine paper and packaging business represented approximately 20 percent of total sales for the segment in 2015. Sales to the three largest customers of the technical products business represented approximately 20 percent of total sales for the segment in 2015. A significant loss of business from any of our major fine paper and packaging or technical products customers may have a material adverse effect on our financial condition, results of operations and liquidity. We are also subject to credit risk associated with our customer concentration. If one or more of our largest fine paper and packaging or technical products customers were to become bankrupt, insolvent or otherwise were unable to pay for services provided, we may incur significant write-offs of accounts receivable.

We cannot be certain that our tax planning strategies will be effective and that our net operating losses ("NOLs") and research and development tax credits will continue to be available to offset our tax liability.

We are continuously undergoing examination by the Internal Revenue Service (the "IRS") as well as taxing authorities in various state and foreign jurisdictions in which we operate. The IRS and other taxing authorities routinely challenge certain deductions and credits reported on our income tax returns.

As of December 31, 2015, we had \$78.1 million of state NOLs which may be used to offset state taxable income. Our financial statements reflect a deferred tax asset of approximately \$2.5 million, net of related uncertain tax positions and a valuation allowance of \$2.9 million. In order to utilize the NOLs, we must generate consolidated taxable income. If not used, substantially all of the state NOLs will expire in various amounts between 2016 and 2035. In addition, we had \$30.2 million of U.S. federal and state research and development credits ("R&D Credits") which, if not used, will expire between 2027 and 2035 for the U.S. federal R&D Credits and between 2017 and 2030 for the state R&D Credits. The availability of state NOLs and state credits to offset taxable income and income tax, respectively, could also be substantially reduced if we were to undergo an "ownership change" as defined within certain state tax codes.

In accordance with Accounting Standards Codification ("ASC") Topic 740, *Income Taxes* ("ASC Topic 740"), as of December 31, 2015, we have recorded a liability of \$12.9 million for uncertain tax positions where we believe it is "more likely than not" that the benefit reported on our income tax return will not be realized. There can be no assurance, however, that the actual amount of unrealized deductions will not exceed the amounts we have recognized for uncertain tax positions.

We have significant obligations for pension and other postretirement benefits.

We have significant obligations for pension and other postretirement benefits which could require future funding beyond that which we have funded in the past or which we currently anticipate. At December 31, 2015, our projected pension benefit obligations were \$360.1 million and exceeded the fair value of pension plan assets by \$51.8 million. In 2015, we made total contributions to qualified pension trusts of \$1.0 million. In addition, during 2015 we paid pension benefits for unfunded qualified and supplemental retirement plans of \$1.8 million. At December 31, 2015, our projected other postretirement benefit obligations were \$40.5 million. No assets have been set aside to satisfy our other postretirement benefit obligations. In 2015, we made payments for postretirement benefits other than pensions of \$4.0 million. A material increase in funding requirements or benefit payments could have a material effect on our cash flows.

We may be required to pay material amounts under multiemployer pension plans.

We contribute to The PACE Industry Union-Management Pension Fund ("the PIUMPF"), a multiemployer pension plan. The amount of our annual contributions to the PIUMPF is negotiated with the plan and the bargaining unit representing our employees covered by the plan. In 2015, we contributed approximately \$0.1 million to the PIUMPF, and in future years we may be required to make increased annual contributions, which would reduce the cash available for business and other needs. In addition, in the event of a partial or complete withdrawal by us from the PIUMPF at a time when the plan is underfunded, we would be liable for a proportionate share of such plan's unfunded vested benefits, referred to as a withdrawal liability. A withdrawal liability is considered a contingent liability. In the event that any other contributing employer withdrew from the PIUMPF at a time when the plan is underfunded, and such employer cannot satisfy its obligations to the plan at the time of withdrawal, then the proportionate share of the plan's unfunded vested benefits that would be allocable to us and to the other remaining contributing employers, would increase and there could be an increase to our required annual contributions. In future negotiations of collective bargaining agreements with the labor union that participates in the PIUMPF, we may decide to discontinue participation in the plan.

[Table of Contents](#)

The PIUMPF was certified to be in "critical status" for the plan year beginning January 1, 2010, and continued to be in critical status for the plan year beginning January 1, 2015. In 2013, two large employers withdrew from the PIUMPF. Further withdrawals by other contributing employers could cause a "mass withdrawal" from, or effectively a termination of, the PIUMPF or alternatively we could elect to withdraw. Although we have no current intention to withdraw from the PIUMPF, if we were to withdraw, either completely or partially, we would incur a withdrawal liability based on our share of the PIUMPF's unfunded vested benefits. Based on information as of December 31, 2014 provided by the PIUMPF and reviewed by our actuarial consultant, we estimate that, as of December 31, 2015, the payments that we would be required to make to PIUMPF in the event of our complete withdrawal would be approximately \$0.1 million per year on a pre-tax basis. These payments would continue for 20 years, unless we were deemed to be included in a "mass withdrawal" from the PIUMPF, in which case these payments would continue in perpetuity. However, we are not able to determine the exact amount of our withdrawal liability because the amount could be higher or lower depending on the nature and timing of any triggering event, the funded status of the plan and our level of contributions to the plan prior to the triggering event. These withdrawal liability payments would be in addition to pension contributions to any new pension plan adopted or contributed to by us to replace the PIUMPF and could have a material effect on our cash flows. Adverse changes to pension laws and regulations could increase the likelihood and amount of our liabilities arising under the PIUMPF.

The outcome of legal actions and claims may adversely affect us.

We are involved in legal actions and claims arising in the ordinary course of our business. The outcome of such legal actions and claims against us cannot be predicted with certainty. Legal actions and claims against us could have a material effect on our financial condition, results of operations and liquidity.

Labor interruptions would adversely affect our business.

Except for our Pittsfield, Massachusetts, Brownville, New York and Quakertown, Pennsylvania manufacturing facilities which are non-union, substantially all of our hourly employees are unionized. In addition, some key customers and suppliers are also unionized. Strikes, lockouts or other work stoppages or slowdowns involving our unionized employees could have a material effect on us.

If we are unable to continue to implement our business strategies, our financial conditions and operating results could be materially affected.

Our future operating results will depend, in part, on the extent to which we can successfully implement our business strategies in a cost effective manner. However, our strategies are subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond our control. If we are unable to successfully implement our business strategies, our business, financial condition and operating results could be materially adversely affected.

We may not successfully integrate acquisitions and may be unable to achieve anticipated cost savings or other synergies.

The integration of the operations of acquired companies involves a number of risks and presents financial, managerial, legal and operational challenges. We may have difficulty, and may incur unanticipated expenses related to, integrating information systems, financial reporting activities, and integrating and retaining management and personnel from acquired companies. We may not be able to achieve anticipated cost savings or commercial or growth synergies, for a number of reasons, including contractual constraints and obligations or an inability to take advantage of expected commercial opportunities, increased operating efficiencies or commercial expansion of key technologies. Failure to successfully integrate acquired companies may have an adverse effect on our business, financial condition, results of operations, and cash flows.

Future dividends on our common stock may be restricted or eliminated.

Dividends are declared at the discretion of our Board of Directors, and future dividends will depend on our future earnings, cash flow, financial requirements and other factors. Our ability to pay cash dividends on our common stock is limited under the terms of both our bank credit agreement and the indenture for our \$175 million of eight-year senior notes due November 2021 (the "2021 Senior Notes"). As of December 31, 2015, under the most restrictive terms of the indenture for the 2021 Senior Notes, our ability to pay cash dividends on our common stock is limited to a total of \$25 million in a 12-month period. However, we can pay dividends in excess of such limitations by utilizing "restricted payment baskets" as defined in the indenture for the 2021 Senior Notes and our bank credit agreement. There can be no assurance that we will continue to pay dividends in the future.

We may be required to record a charge to our earnings if our goodwill or intangible assets become impaired.

As of December 31, 2015, we had goodwill of \$72.2 million and other intangible assets of \$79.1 million. Goodwill and other intangible assets are recorded at fair value on the date of acquisition. In accordance with applicable accounting guidance, we review goodwill and other indefinite-lived intangible assets at least annually for impairment, and long-lived intangible assets when facts and circumstances warrant an impairment review. Impairment may result from, among other things, deterioration in performance, adverse market conditions, adverse changes in applicable laws or regulations, and a variety of other factors. The amount of any non-cash impairment would be recognized immediately through our consolidated statement of operations. Any future goodwill or other intangible asset impairment could have a material adverse effect on our results of operations and financial position.

If we have a catastrophic loss or unforeseen or recurring operational problems at any of our facilities, we could suffer significant lost production and/or cost increases.

Our technical products and fine paper and packaging businesses may suffer catastrophic loss due to fire, flood, terrorism, mechanical failure, or other natural or man-made events. If any of our facilities were to experience a catastrophic loss, it could disrupt our operations, delay production, delay or reduce shipments, reduce revenue, and result in significant expenses to repair or replace the facility. These expenses and losses may not be adequately covered by property or business interruption insurance. Even if covered by insurance, our inability to deliver our products to customers, even on a short-term basis, may cause us to lose market share on a more permanent basis.

Fluctuations in currency exchange rates could adversely affect our results.

Exchange rate fluctuations for the Euro do not have a material effect on the operations or cash flows of our German technical products business. Our German technical products business incurs most of its costs and sells most of its production in Europe and, therefore, its operations and cash flows are not materially affected by changes in the exchange rate of the Euro relative to the U.S. dollar. Changes in the Euro exchange rate relative to the U.S. dollar will, however, have an effect on our balance sheet and reported results of operations. See "Quantitative and Qualitative Disclosures About Market Risk — Foreign Currency Risk."

In addition, because we transact business in other foreign countries, some of our revenues and expenses are denominated in a currency other than the local currency of our operations. As a result, changes in exchange rates between the currency in which the transaction is denominated and the local currency of our operations into which the transaction is being recorded can impact the amount of local currency recorded for such transaction. This can result in more or less local currency revenues or costs related to such transaction, and thus have an effect on our reported sales and income before income taxes.

Our activities are subject to extensive government regulation, which could increase our costs, cause us to incur liabilities and adversely affect the manufacturing and marketing of our products.

Our operations are subject to federal, state and local laws, regulations and ordinances in the United States and Germany relating to various environmental, health and safety matters. The nature of our operations requires that we invest capital and incur operating costs to comply with those laws, regulations and ordinances and exposes us to the risk of claims concerning non-compliance with environmental, health and safety laws or standards. We cannot assure that significant additional expenditures will not be required to maintain compliance with, or satisfy potential claims arising from, such laws, regulations and ordinances. Future events, such as changes in existing laws and regulations or contamination of sites owned, operated or used for waste disposal by us (including currently unknown contamination and contamination caused by prior owners and operators of such sites or other waste generators) may give rise to additional costs that could require significantly higher capital expenditures and operating costs, which would reduce the funds otherwise available for operations, capital expenditures, future business opportunities or other purposes.

We are subject to risks associated with possible climate change legislation and various cost and manufacturing issues associated with such legislation.

GHG emissions have increasingly become the subject of political and regulatory focus. Concern over potential climate change, including global warming, has led to legislative and regulatory initiatives directed at limiting GHG emissions. In addition to certain federal proposals in the United States to regulate GHG emissions, Germany, the United Kingdom and all the states in which we operate are currently considering GHG legislation or regulations, either individually and/or as part of regional initiatives. While not all are likely to become law it is reasonably possible that additional climate change related mandates will be forthcoming, and it is expected that they may adversely impact our costs by increasing energy costs and raw material prices, requiring operational or equipment modifications to reduce emissions and creating costs to comply with regulations or to mitigate the financial consequences of compliance.

We are subject to cyber-security risks related to breaches of security pertaining to sensitive company, customer, employee and vendor information as well as breaches in the technology that manages operations and other business processes.

We use information technologies to securely manage operations and various business functions. We rely on various technologies to process, store and report on our business and interact with customers, vendors and employees. The secure processing, maintenance and transmission of this information is critical to our operations and business strategy. Despite our security design and controls, and those of our third party providers, our information technology and infrastructure may be vulnerable to cyber attacks by hackers or breaches due to employee error, malfeasance or other disruptions. Any such breach could result in operational disruptions or the misappropriation of sensitive data that could subject us to civil and criminal penalties, litigation or have a negative impact on our reputation. There can be no assurance that such disruptions or misappropriations and the resulting repercussions will not negatively impact our cash flows and materially affect our results of operations or financial condition. The U.S. Congress is considering cyber-security legislation that, if enacted, could impose additional obligations on us and could expand our potential liability in the event of a cyber-security incident.

Our business may suffer if we do not retain our senior management.

We depend on our senior management. The loss of services of members of our senior management team could adversely affect our business until suitable replacements can be found. There may be a limited number of persons with the requisite skills to serve in these positions and we may be unable to locate or employ qualified personnel on acceptable terms. In addition, our future success requires us to continue to attract and retain competent personnel.

Risks Relating to Our Indebtedness

We may not be able to fund our future capital requirements internally or obtain third-party financing.

We may be required or choose to obtain additional debt or equity financing to meet our future working capital requirements, as well as to fund capital expenditures and acquisitions. To the extent we must obtain financing from external sources to fund our capital requirements, we cannot guarantee financing will be available on favorable terms, if at all. As of December 31, 2015, we have required debt payments of \$1.2 million during the year ending December 31, 2016.

We may not be able to generate sufficient cash flow to meet our debt obligations, including the 2021 Senior Notes.

Our ability to make scheduled payments or to refinance our obligations with respect to the 2021 Senior Notes, our other debt and our other liabilities will depend on our financial and operating performance, which, in turn, is subject to prevailing economic conditions and to certain financial, business and other factors beyond our control. If our cash flow and capital resources are insufficient to fund our debt obligations and other liabilities, we could face substantial liquidity problems and may be forced to reduce or delay scheduled expansions and capital expenditures, sell material assets or operations, obtain additional capital or restructure our debt. We cannot assure that our operating performance, cash flow and capital resources will be sufficient to repay our debt in the future. In the event that we are required to dispose of material assets or operations or restructure our debt to meet our debt and other obligations, we can make no assurances as to the terms of any such transaction or how quickly any such transaction could be completed.

[Table of Contents](#)

If we cannot make scheduled payments on our debt, we will be in default and, as a result:

- our debt holders could declare all outstanding principal and interest to be due and payable;
- our senior secured lenders could terminate their commitments and commence foreclosure proceedings against our assets; and
- we could be forced into bankruptcy or liquidation.

If our operating performance declines in the future or we breach our covenants under our revolving credit facility, we may need to obtain waivers from the lenders under our revolving credit facility to avoid being in default. We may not be able to obtain these waivers. If this occurs, we would be in default under our revolving credit facility.

We have significant indebtedness which subjects us to restrictive covenants relating to the operation of our business.

As of December 31, 2015, we had \$175 million of 2021 Senior Notes, \$51.1 million in revolving credit borrowings and \$8.3 million of project financing outstanding. In addition, availability under our bank credit agreement was approximately \$123 million. Our leverage could have important consequences. For example, it could:

- make it difficult for us to satisfy our financial obligations, including making scheduled principal and interest payments on the 2021 Senior Notes and our other indebtedness;
- place us at a disadvantage to our competitors;
- require us to dedicate a substantial portion of our cash flow from operations to service payments on our indebtedness, thereby reducing funds available for other purposes;
- increase our vulnerability to a downturn in general economic conditions or the industry in which we operate;
- limit our ability to obtain additional financing for working capital, capital expenditures, acquisitions and general corporate and other purposes; and
- limit our ability to plan for and react to changes in our business and the industry in which we operate.

The terms of our indebtedness, including our bank credit agreement and the indenture governing the 2021 Senior Notes, contain covenants restricting our ability to, among other things, incur certain additional debt, incur or create certain liens, make specified restricted payments, pay dividends, authorize or issue capital stock, enter into transactions with our affiliates, consolidate or merge with or acquire another business, sell certain of our assets or liquidate, dissolve or wind-up our company. As of December 31, 2015, under the most restrictive terms of debt agreements, our ability to pay cash dividends on our common stock is limited to a total of \$25 million in a 12-month period. However, we can pay dividends in excess of such limitations by utilizing "restricted payment baskets" as defined in the indenture for the 2021 Senior Notes and our bank credit agreement.

In addition, if the aggregate availability under our revolving credit facilities is less than the greater of (i) \$25 million and (ii) 12.5% of the maximum aggregate commitments under our revolving credit facilities as then in effect, we will be subject to increased reporting obligations and controls until such time as availability is more than the greater of (a) \$35 million and (b) 17.5% of the maximum aggregate commitments under our revolving credit facilities as then in effect for at least 60 consecutive days and no default or event of default has occurred or is continuing during such 60-day period.

If aggregate availability under our revolving credit facilities is less than the greater of (i) \$20 million and (ii) 10% of the maximum aggregate commitments under our revolving credit facilities as then in effect, we are required to comply with a fixed charge coverage ratio (as defined in our bank credit agreement) of not less than 1.1 to 1.0 for the preceding four-quarter period, tested as of the end of each quarter. Such compliance, once required, would no longer be necessary once (x) aggregate availability under our revolving credit facilities exceeds the greater of (i) 17.5% of the aggregate commitment for our revolving credit facilities and (ii) \$35 million for 60 consecutive days and (y) no default or event of default has occurred and is continuing during such 60-day period. As of December 31, 2015, aggregate availability under our revolving credit facilities exceeded the minimum required amount, and we are not required to comply with such fixed charge coverage ratio.

[Table of Contents](#)

Our revolving credit facilities accrue interest at variable rates. As of December 31, 2015, we had \$51.1 million of revolving credit borrowings outstanding. We may reduce our exposure to rising interest rates by entering into interest rate hedging arrangements, although those arrangements may result in us incurring higher interest expenses than we would incur without the arrangements. If interest rates increase in the absence of such arrangements, we will need to dedicate more of our cash flow from operations to make payments on our debt. For more information on our liquidity, see "Management's Discussion and Analysis of Financial Condition and Results of Operations — Liquidity and Capital Resources."

Our failure to comply with the covenants contained in our revolving credit facility or the indenture governing the 2021 Senior Notes could result in an event of default that could cause acceleration of our indebtedness.

Our failure to comply with the covenants and other requirements contained in the indenture governing the 2021 Senior Notes, our revolving credit facility or our other debt instruments could cause an event of default under the relevant debt instrument. The occurrence of an event of default could trigger a default under our other debt instruments, prohibit us from accessing additional borrowings and permit the holders of the defaulted debt to declare amounts outstanding with respect to that debt to be immediately due and payable. Our assets or cash flows may not be sufficient to fully repay borrowings under our outstanding debt instruments, and we may be unable to refinance or restructure the payments on indebtedness on favorable terms, or at all.

Despite our indebtedness levels, we and our subsidiaries may be able to incur substantially more indebtedness, which may increase the risks created by our substantial indebtedness.

Because the terms of our bank credit agreement and the indenture governing the 2021 Senior Notes do not fully prohibit us or our subsidiaries from incurring additional indebtedness, we and our subsidiaries may be able to incur substantial additional indebtedness in the future, some of which may be secured. If we or any of our subsidiaries incur additional indebtedness, the related risks that we and they face may intensify.

Our bank credit agreement is secured by a majority of our assets.

Our bank credit agreement is secured by a majority of our assets. Availability under our bank credit agreement will fluctuate over time depending on the value of our inventory, receivables and various capital assets. An extended work stoppage or decline in sales volumes would result in a decrease in the value of the assets securing the bank credit agreement. A reduction in availability under the bank credit agreement could have a material effect on our liquidity.

Changes in credit ratings issued by nationally recognized statistical rating organizations could adversely affect our cost of financing and have an adverse effect on the market price of our securities.

Our debt currently has a non-investment grade rating, and there can be no assurance that any rating assigned by the rating agencies will remain for any given period of time or that a rating will not be lowered or withdrawn entirely by a rating agency if, in that rating agency's judgment, future circumstances relating to the basis of the rating, such as adverse changes, so warrant. A lowering or withdrawal of the ratings assigned to our debt securities by rating agencies may increase our future borrowing costs and reduce our access to capital, which could have a material adverse impact on our financial condition and results of operations.

We depend on our subsidiaries to generate cash flow to meet our debt service obligations.

We conduct a substantial portion of our business through our subsidiaries. Consequently, our cash flow and ability to service our debt obligations depend upon the earnings of our subsidiaries and the distribution of those earnings to us, or upon loans, advances or other payments made by these entities to us. The ability of these entities to pay dividends or make other payments or advances to us will be subject to applicable laws and contractual restrictions contained in the instruments governing their debt, including our revolving credit facility and the indenture governing the 2021 Senior Notes. These limitations are also subject to important exceptions and qualifications.

[Table of Contents](#)

The ability of our subsidiaries to generate sufficient cash flow from operations to allow us to make scheduled payments on our debt will depend upon their future financial performance, which will be affected by a range of economic, competitive and business factors, many of which are outside of our control as well as their ability to repatriate cash to us. If our subsidiaries do not generate sufficient cash flow from operations to help us satisfy our debt obligations, including payments on the 2021 Senior Notes, or if they are unable to distribute sufficient cash flow to us, we may have to undertake alternative financing plans, such as refinancing or restructuring our debt, selling assets, reducing or delaying capital expenditures or seeking to raise additional capital. Refinancing may not be possible, and any assets may not be saleable, or, if sold, we may not realize sufficient amounts from those sales. Additional financing may not be available on acceptable terms, if at all, or we may be prohibited from incurring it, if available, under the terms of our various debt instruments then in effect. Our inability to generate sufficient cash flow to satisfy our debt obligations or to refinance our obligations on commercially reasonable terms would have an adverse effect on our business, financial condition and results of operations.

FORWARD-LOOKING STATEMENTS

Certain statements in this Annual Report on Form 10-K may constitute "forward-looking" statements as defined in Section 27A of the Securities Act of 1933 (the "Securities Act"), Section 21E of the Securities Exchange Act of 1934 (the "Exchange Act"), the Private Securities Litigation Reform Act of 1995 (the "PSLRA"), or in releases made by the SEC, all as may be amended from time to time. Statements contained in this Annual Report on Form 10-K that are not historical facts may be forward-looking statements within the meaning of the PSLRA. Any such forward-looking statements reflect our beliefs and assumptions and are based on information currently available to us. Forward-looking statements are only predictions and involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. These cautionary statements are being made pursuant to the Securities Act, the Exchange Act and the PSLRA with the intention of obtaining the benefits of the "safe harbor" provisions of such laws. The Company cautions investors that any forward-looking statements we make are not guarantees or indicative of future performance. For additional information regarding factors that may cause our results of operations to differ materially from those presented herein, please see "Risk Factors" contained in this Annual Report on Form 10-K and as are detailed from time to time in other reports we file with the SEC.

You can identify forward-looking statements as those that are not historical in nature, particularly those that use terminology such as "may," "will," "should," "expect," "anticipate," "contemplate," "estimate," "believe," "plan," "project," "predict," "potential" or "continue," or the negative of these, or similar terms. In evaluating these forward-looking statements, you should consider the following factors, as well as others contained in our public filings from time to time, which may cause our actual results to differ materially from any forward-looking statement:

- changes in market demand for our products due to global economic conditions;
- fluctuations in (i) exchange rates (in particular changes in the U.S. dollar/Euro currency exchange rates) and (ii) interest rates;
- increases in commodity prices, (particularly for pulp, energy and latex) due to constrained global supplies or unexpected supply disruptions;
- the availability of raw materials and energy;
- the impact of competition, both domestic and international, changes in industry production capacity, including the construction of new mills or new machines, the closing of mills and incremental changes due to capital expenditures or productivity increases;
- capital and credit market volatility and fluctuations in global equity and fixed-income markets;
- unanticipated expenditures related to the cost of compliance with environmental and other governmental regulations;
- the enactment of adverse state, federal or foreign tax or other legislation or changes in government policy or regulation;
- our ability to control costs and implement measures designed to enhance operating efficiencies;
- the loss of current customers or the inability to obtain new customers;
- loss of key personnel;
- increases in the funding requirements for our pension and postretirement liabilities;
- changes in asset valuations including write-downs of assets including property, plant and equipment; inventory, accounts receivable, deferred tax assets or other assets for impairment or other reasons;
- our existing and future indebtedness;
- our ability to successfully integrate acquired businesses into our existing operations;
- our net operating losses may not be available to offset our tax liability and other tax planning strategies may not be effective;

[Table of Contents](#)

- strikes, labor stoppages and changes in our collective bargaining agreements and relations with our employees and unions;
- other risks that are detailed from time to time in reports we file with the SEC; and
- other factors described under "Risk Factors."

You are cautioned not to unduly rely on such forward-looking statements, which speak only as of the date made, when evaluating the information presented in this information statement. We undertake no duty to update these forward-looking statements after the date of this Form 10-K, even though our situation may change in the future.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

Our principal executive offices are located in Alpharetta, Georgia, a suburb of Atlanta, Georgia. We operate 12 manufacturing facilities in the United States that produce printing and writing, text, cover, durable saturated and coated substrates and other specialty papers for a variety of end uses. We own and operate two manufacturing facilities in Germany that produce transportation and other filter media, and durable and saturated substrates. We own and operate one manufacturing facility in the United Kingdom that produces durable printing and specialty paper.

We believe that each of these facilities is adequately maintained and is suitable for conducting our operations and business. We manage machine operating schedules at our manufacturing locations to fulfill customer orders in a timely manner and control inventory levels.

As of December 31, 2015, following are the locations of our principal facilities and operating equipment and the products produced at each location:

Location (1)	Equipment/Resources	Owned or Leased	Products
Fine Paper and Packaging Segment			
Appleton Mill	Two paper machines; paper finishing equipment	Owned	Printing and writing, text, cover and other specialty papers
Appleton, Wisconsin Converting Center	Paper finishing equipment	Owned	Printing and writing, text, cover and other specialty papers
Nee Nah, Wisconsin Converting Center (2)	Saturating, coating, and finishing equipment	Leased	Durable printing and specialty paper
Canton, Ohio Nee Nah Mill	Two paper machines; paper finishing equipment	Owned	Printing and writing, text, cover and other specialty papers
Nee Nah, Wisconsin Whiting Mill	Four paper machines; paper finishing equipment	Owned	Printing and writing, text, cover and other specialty papers
Whiting, Wisconsin			
Technical Products Segment			
Munising Mill	Two paper machines; two off line saturators; two off line coaters; specialty finishing equipment	Owned	Tapes, abrasives, premask, medical packaging and other durable, saturated and coated substrates
Munising, Michigan			
Pittsfield Mill	Three paper machines; paper finishing equipment	Owned	Reverse osmosis filtration and glass applications
Pittsfield, Massachusetts			
Bruckmühl Mill	One paper machine; two saturator/coaters; finishing equipment	Owned	Masking tape backings and abrasive backings
Bruckmühl, Germany			
Weidach Mill	Two paper machines; three saturators; one laminator; three meltblown machines; specialty finishing equipment	Owned	Transportation filtration and other industrial filter media
Feldkirchen-Westerham, Germany			
Red Bridge Mill	Saturating, coating, and finishing equipment	Owned	Durable printing and specialty paper
Bolton, England			
Shared Facilities (3)			
Brattleboro Mill	One paper machine; paper finishing equipment	Owned	Printing and specialty paper board
Brattleboro, Vermont			
Brownville Mill	One paper machine; one off-line coater	Owned	Durable printing and specialty paper
Brownville, New York			
Lowville Mill	Saturating, coating, embossing and finishing equipment	Owned	Durable printing and specialty paper
Lowville, New York			
Quakertown Mill	Saturating, coating, embossing and finishing equipment	Owned	Durable printing and specialty paper
Quakertown, Pennsylvania			
Reading Mill (2)	Embossing and finishing equipment	Leased	Durable printing and specialty paper
Reading, Pennsylvania			

(1) We ceased manufacturing operations at the Fitchburg, Massachusetts mill acquired in the FiberMark Acquisition in December 2015.

[Table of Contents](#)

- (2) The buildings located at these facilities are leased by the Company or a subsidiary, and the operating equipment located within the building is owned by the Company or a subsidiary.
- (3) Production from these facilities support sales for all of our business segments.

See Note 6 of Notes to Consolidated Financial Statements, "Debt" for a description of the material encumbrances attached to the properties described in the table above.

As of December 31, 2015, following are the locations of our owned and leased office and laboratory space and the functions performed at each location.

<u>Administrative Location</u>	<u>Office/Other Space</u>	<u>Function</u>
Alpharetta, Georgia	Leased Office Space	Corporate Headquarters and Administration
Neenah and Appleton, Wisconsin	Owned Office Space	Administration
Pittsfield, Massachusetts	Owned Office Space	Administration
West Springfield, Massachusetts	Owned Office and Laboratory Space	Administration and Research and Development for our paper businesses
Munising, Michigan	Owned Laboratory Space	Research and Development for our technical products businesses
Pittsfield, Massachusetts	Owned Laboratory Space	Research and Development for our technical products businesses
Feldkirchen-Westerham, Germany	Owned Laboratory Space	Research and Development for our technical product businesses

Capacity Utilization

Paper machines in our manufacturing facilities generally operate on a combination of five or seven-day schedules to meet demand. We are not constrained by input factors and the maximum operating capacity of our manufacturing facilities is calculated based on operating days to account for variations in mix and different units of measure between assets. Due to required maintenance downtime and contract holidays, the maximum number of operating days is defined as 350 days per year. We generally expect to utilize approximately 80 to 90 percent of our maximum operating capacity. The following table presents our percentage utilization of maximum operating capacity by segment:

	<u>Year Ended December 31,</u>		
	<u>2015</u>	<u>2014</u>	<u>2013</u>
Technical Products	81%	84%	88%
Fine Paper and Packaging	76%	86%	86%

Item 3. Legal Proceedings

Litigation

We are involved in certain legal actions and claims arising in the ordinary course of business. While the outcome of these legal actions and claims cannot be predicted with certainty, it is the opinion of management that the outcome of any such claim which is pending or threatened, either individually or on a combined basis, will not have a material effect on our consolidated financial condition, results of operations or liquidity.

Income Taxes

We are continuously undergoing examination by the IRS as well as various state and foreign jurisdictions. The IRS and other taxing authorities routinely challenge certain deductions and credits we report on our income tax returns.

Item 4. Mine Safety Disclosures

Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Neenah common stock is listed on the New York Stock Exchange and is traded under the ticker symbol NP. Trading, as reported on the New York Stock Exchange, Inc. Composite Transactions Tape, and dividend information follows:

	Common Stock Market Price		Dividends Declared
	High	Low	
2015			
Fourth quarter	\$ 69.63	\$ 57.68	\$ 0.30
Third quarter	\$ 62.75	\$ 54.90	\$ 0.30
Second quarter	\$ 62.88	\$ 58.23	\$ 0.30
First quarter	\$ 63.87	\$ 55.14	\$ 0.30
2014			
Fourth quarter	\$ 62.72	\$ 51.29	\$ 0.27
Third quarter	\$ 57.50	\$ 49.49	\$ 0.27
Second quarter	\$ 54.30	\$ 47.55	\$ 0.24
First quarter	\$ 52.18	\$ 40.26	\$ 0.24

Dividends are declared at the discretion of the Board of Directors, and future dividends will depend on our future earnings, cash flow, financial requirements and other factors. Our ability to pay cash dividends on our common stock is limited under the terms of both our bank credit agreement and our 2021 Senior Notes. As of December 31, 2015, under the most restrictive terms of our debt agreements, our ability to pay cash dividends on our common stock is limited to a total of \$25 million in a 12-month period. However, we can pay dividends in excess of such limitations by utilizing "restricted payment baskets" as defined in the indenture for the 2021 Senior Notes and our bank credit agreement. For the year ended December 31, 2015 we paid cash dividends of \$1.20 per common share or \$20.3 million. For the year ended December 31, 2014 we paid cash dividends of \$1.02 per common share or \$17.1 million. In November 2015, our Board of Directors approved a 10 percent increase in the annual dividend rate on our common stock to \$1.32 per share. The dividend is scheduled to be paid in four equal quarterly installments beginning in March 2016.

As of February 22, 2016, Neenah had approximately 1,500 holders of record of its common stock. The closing price of Neenah's common stock on February 22, 2016 was \$61.26.

Purchases of Equity Securities:

The following table sets forth certain information regarding purchases of our common stock during the fourth quarter of 2015.

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (b)	Approximate Dollar Value of Shares that May Yet Be Purchased Under Publicly Announced Plans or Programs
October 2015	—	—	—	\$ 21,500,000
November 2015 (a)	3,000	\$ 68.29	—	\$ 21,500,000
December 2015 (a)	34,800	\$ 62.43	—	\$ 21,500,000

- (a) Transactions represent the purchase of vested restricted shares from employees to satisfy minimum tax withholding requirements upon vesting of stock-based awards. None of these transactions were made in the open market. The average price paid is based upon the closing sales price on the New York Stock Exchange on the date of the transaction. Such purchases are held as treasury shares. See Note 8 of Notes to Consolidated Financial Statements, "Stock Compensation Plans."
- (b) On May 22, 2015, our Board of Directors authorized a program that would allow for the purchase of up to \$25 million of outstanding common stock through May 21, 2016.

Equity Compensation Plan Information

The following table summarizes information about outstanding options, share appreciation rights and restricted stock units and shares reserved for future issuance under our existing equity compensation plans as of December 31, 2014.

<u>Plan Category</u>	(a) Number of securities to be issued upon exercise of outstanding options, warrants, and rights	(b) Weighted-average exercise price of outstanding options, warrants, and rights (1)	(c) Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
Equity compensation plans approved by security holders	462,000(2)(3)	\$ 31.94	1,240,000
Equity compensation plans not approved by security holders	—	—	—
Total	462,000	\$ 31.94	1,240,000

- (1) The weighted-average exercise price of outstanding options, warrants and rights does not take into account restricted stock units since they do not have an exercise price.
- (2) Includes (i) 280,300 shares issuable upon the exercise of outstanding options and stock appreciation rights ("SARs"), (ii) 62,900 shares issuable following the vesting and conversion of outstanding performance share unit awards, and (iii) 118,800 shares issuable upon the vesting and conversion of outstanding restricted stock units, all as of December 31, 2015.

As of December 31, 2015, we had an aggregate of 526,600 stock options and SARs outstanding. The weighted average exercise price of the stock options and SARs was \$31.94 per share and the remaining contractual life of such awards was 6.2 years.

- (3) Includes 233,100 shares that would be issued upon the assumed exercise of 479,400 SARs at the \$62.43 per share closing price of our common stock on December 31, 2015.

Item 6. Selected Financial Data

The following table sets forth our selected historical financial and other data. You should read the information set forth below in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations" and our historical consolidated financial statements and the notes to those consolidated financial statements included elsewhere in this Annual Report. The statement of operations data for the years ended December 31, 2015, 2014 and 2013 and the balance sheet data as of December 31, 2015 and 2014 set forth below are derived from our audited historical consolidated financial statements included elsewhere in this Annual Report on Form 10-K. The balance sheet data as of December 31, 2013, 2012 and 2011 and the statement of operations data for the years ended December 31, 2012 and 2011 set forth below are derived from our historical consolidated financial statements not included in this Annual Report on Form 10-K.

On October 31, 2015, we sold the Lahnstein Mill for net cash proceeds of approximately \$5.4 million. For the year ended December 31, 2015, discontinued operations reported on the consolidated statements of operations reflect the results of operations and the estimated loss on sale of the Lahnstein Mill. The consolidated statements of operations for the years ended December 31, 2014, 2013, 2012 and 2011 have been restated to report results of the Lahnstein Mill as discontinued operations. As of December 31, 2014, 2013, 2012 and 2011, the assets and liabilities of the Lahnstein Mill are classified as assets held for sale on the consolidated balance sheet. See Note 12, "Discontinued Operations and Assets Held for Sale."

Total stockholders' equity	311.6	288.7	267.5	197.8	166.7

- (a) For the year ended December 31, 2015, we incurred \$5.3 million of integration costs related to the FiberMark Acquisition and \$1.2 million of restructuring costs. For the year ended December 31, 2014, we incurred \$1.0 million of integration costs related to the acquisition of the technical materials business and \$1.3 million of restructuring costs. For the year ended December 31, 2013, we incurred \$0.4 million of integration costs related to the acquisition of the Southworth brands. For the year ended December 31, 2012, we incurred \$5.8 million integration costs related to the acquisition of the Wausau brands.
- (b) For the years ended December 31, 2014, 2013 and 2012, benefit payments under certain pension plans exceeded the sum of expected service cost and interest costs for the plan for the respective calendar years. In accordance with ASC Topic 715, *Compensation — Retirement Benefits* ("ASC Topic 715"), we measured the liabilities of the post-retirement benefit plans and recognized settlement losses of \$3.5 million, \$0.2 million and \$3.5 million, respectively.

[Table of Contents](#)

- (c) For the year ended December 31, 2014, we amended and restated our existing bank credit facility and recognized a pre-tax loss of \$0.2 million for the write-off of unamortized debt issuance costs. For the year ended December 31, 2013, we redeemed \$90 million of 2014 Senior Notes and repaid all outstanding term loan borrowings (\$29.3 million). In connection with the early extinguishment of debt we recognized a pre-tax loss of \$0.5 million for the write-off of unamortized debt issuance costs. For the year ended December 31, 2012, we completed an early redemption of \$68 million in aggregate principal amount of the 2014 Senior Notes. In connection with the early redemption we recognized a pre-tax loss of \$0.6 million, including a call premium and the write-off of unamortized debt issuance costs. For the year ended December 31, 2011, we completed an early redemption of \$65 million in aggregate principal amount of the 2014 Senior Notes. In connection with the early redemption we recognized a pre-tax loss of \$2.4 million, including a call premium and the write-off of unamortized debt issuance costs.
- (d) For purposes of determining the ratio of earnings to fixed charges, earnings consist of income before income taxes (less interest) plus fixed charges. Fixed charges consist of interest expense, including amortization of debt issuance costs, and the estimated interest portion of rental expense.
- (e) The following table presents the results of discontinued operations:

	Year Ended December 31,				
	2015 (1)	2014	2013 (2)	2012 (3)	2011 (3)
	(Dollars in millions)				
Discontinued operations: (4)					
Income from operations	\$ 0.2	\$ 0.9	\$ 5.4	\$ (0.1)	\$ (0.3)
Loss on sale of the Lahnstein Mill (4)	(13.6)	—	—	—	—
Income (loss) before income taxes	(13.4)	0.9	5.4	(0.1)	(0.3)
Provision (benefit) for income taxes	(4.0)	0.2	1.9	(4.5)	(0.1)
Income (loss) from discontinued operations, net of taxes	<u>\$ (9.4)</u>	<u>\$ 0.7</u>	<u>\$ 3.5</u>	<u>\$ 4.4</u>	<u>\$ (0.2)</u>

- (1) The loss on sale of the Lahnstein Mill includes a net curtailment gain related to the divesture of the pension plan of \$15.8 million, including a \$5.5 million write-off of deferred actuarial losses.
- (2) During the first quarter of 2013, we received a refund of excess pension contributions from the terminated Terrace Bay pension plan. As a result, we recorded income before income taxes from discontinued operations of \$4.2 million and a related provision for income taxes of \$1.6 million.
- (3) In November 2012, audits of the 2007 and 2008 tax years were finalized with a finding of no additional taxes due. As a result, we recognized a non-cash tax benefit of \$4.5 million related to the reversal of certain liabilities for uncertain income tax positions.
- (4) On October 31, 2015, we sold the Lahnstein Mill. For the year ended December 31, 2015, 2014, 2013, 2012 and 2011, the results of operations and the loss on sale of the Lahnstein Mill are reported as discontinued operations in the Consolidated Statement of Operations Data.
- (f) In August 2015, we purchased all of the outstanding equity of FiberMark for approximately \$118 million. In July 2014, we purchased all of the outstanding equity of Crane for approximately \$72 million.
- (g) At December 31, 2015, we adopted ASC Topic No. 2015-03 and ASC Topic No. 2015-17 and elected to apply the guidance retroactively to all periods presented. See Note 2, "Summary of Significant Accounting Policies — Recently Adopted Accounting Standards."

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis presents the factors that had a material effect on our results of operations during the years ended December 31, 2015, 2014 and 2013. Also discussed is our financial position as of the end of those years. You should read this discussion in conjunction with our consolidated financial statements and the notes to those consolidated financial statements included elsewhere in this Annual Report on Form 10-K. This Management's Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements. See "Forward-Looking Statements" for a discussion of the uncertainties, risks and assumptions associated with these statements.

Introduction

This Management's Discussion and Analysis of Financial Condition is intended to provide investors with an understanding of the historical performance of our business, its financial condition and its prospects. We will discuss and provide our analysis of the following:

- Overview of Business;
- Business Segments;
- Results of Operations and Related Information;
- Liquidity and Capital Resources;
- Adoption of New Accounting Pronouncements; and
- Critical Accounting Policies and Use of Estimates.

Overview of Business

We are a leading producer of technical products and premium fine papers and packaging. We have two primary operations: our technical products business and our fine paper and packaging business (formerly known as the fine paper business). On January 1, 2015, we changed the name of our fine paper business to fine paper and packaging. The name change better reflects the increasing importance, and plans for continued growth, of our premium packaging products.

Our mission is to create value by improving the image and performance of everything we touch. We expect to create value by growing in specialized niche markets that value performance or image and where we have competitive advantages. In managing our businesses, we believe that achieving and maintaining a leadership position in our markets, responding effectively to customer needs and competitive challenges, employing capital optimally, controlling costs and managing risks are important to long-term success. Changes in input costs and general economic conditions also impact our results. In this discussion and analysis, we will refer to these factors.

- *Competitive Environment* — Our past results have been and our future prospects will be significantly affected by the competitive environment in which we operate. In most of our markets, our businesses compete directly with well-known competitors, some of which are larger and more diversified. While our businesses are oriented to premium performance and quality they may also face competitive pressures from lower value products.
- *Economic Conditions and Input Costs* — The markets for all of our products are affected to a significant degree by economic conditions, including rapid changes in input costs, particularly for pulp, latex and natural gas that may not be recovered immediately through pricing or other actions. Our results are also affected by fluctuations in exchange rates, particularly for the Euro.

Business Segments

On July 1, 2015, we reorganized our internal management structure and, accordingly, addressed our segment reporting structure. As a result of this reorganization, the Other operating segment (composed of the non-premium Index, Tag and Vellum Bristol product lines acquired as part of the purchase of the Wausau brands) was combined with the Fine Paper and Packaging operating segment to reflect the manner in which this business is managed. Segment information for prior periods has been restated to conform to the current period presentation. In addition, as part of the FiberMark Acquisition, we acquired certain product lines composed of papers sold to converters for end uses such as covering materials for datebooks, diaries, yearbooks and traditional photo albums. Due to the dissimilar nature of these products, management decided that they would not be managed as part of either the existing Fine Paper and Packaging or Technical Products businesses. As a result, effective August 1, 2015, these product lines represent an operating segment which does not meet the quantitative threshold for a reportable segment and are accordingly reported as an Other operating segment. Our reportable operating segments now consist of Technical Products, Fine Paper and Packaging and Other.

Our technical products business is a leading international producer of transportation, water and other filter media and durable, saturated and coated substrates for a variety of end markets. We focus on categories where we believe we are, or can be, a market leader, which include, among others, the transportation, water and other filtration media, specialty tape, abrasive, label and other technical products markets. Our technical products manufacturing facilities are located near Munich, Germany, in Bolton, England, in Munising, Michigan and Pittsfield, Massachusetts. In addition, certain products manufactured in shared facilities acquired in the FiberMark Acquisition support our technical products business.

We believe our fine paper and packaging business is the leading supplier of premium printing and other high end specialty papers in North America. Our products include some of the most recognized and preferred papers in North America, where we enjoy leading market positions in many of our product categories. We sell our products primarily to authorized paper distributors, as well as through converters, major national retailers and specialty businesses. Our fine paper and packaging manufacturing facilities are located in Appleton, Neenah and Whiting, Wisconsin and Canton, Ohio. In addition, certain products manufactured in shared facilities acquired in the FiberMark Acquisition support our fine paper and packaging business.

The other segment includes certain product lines composed of papers sold to converters for end uses such as covering materials for datebooks, diaries, yearbooks and traditional photo albums.

Results of Operations and Related Information

In this section, we discuss and analyze our net sales, income before interest and income taxes (which we refer to as "operating income" in this Management's Discussion and Analysis of Financial Condition and Results of Operations) and other information relevant to an understanding of our results of operations.

Executive Summary

On August 1, 2015, we purchased all of the outstanding equity of FiberMark from American Securities for a purchase price of approximately \$118 million. The purchase price was financed through \$80 million of cash on hand and the balance from available borrowing capacity on our Global Revolving Credit Facilities.

On October 31, 2015 we sold our Lahnstein Mill to the Kajo Neukirchen Group for net cash proceeds of approximately \$5.4 million. For the year ended December 31, 2015, discontinued operations reported on the consolidated statements of operations reflect the results of operations and the loss on sale of the Lahnstein Mill. The consolidated statements of operations for years ended December 31, 2014 and 2013 have been restated to report results of the Lahnstein Mill as discontinued operations. The results of the Lahnstein Mill were previously reported in the Technical Products segment.

For the year ended December 31, 2015, consolidated net sales increased \$48.0 million from the prior year period to \$887.7 million as organic technical products volume growth, incremental sales from the FiberMark Acquisition and higher average selling prices were partially offset by unfavorable currency exchange effects. Excluding currency exchange effects and incremental sales from FiberMark, consolidated sales increased \$28.4 million.

[Table of Contents](#)

Consolidated operating income of \$101.4 million for the year ended December 31, 2015 increased \$14.8 million from the prior year. The favorable comparison to the prior year was primarily due to lower manufacturing input costs, higher net price for both businesses and organic technical products volume growth. These favorable variances were partially offset by higher manufacturing costs, increased selling, general and administrative costs ("SG&A"), including amounts related to FiberMark; lower fine paper and packaging volume and unfavorable currency effects. Excluding results of the FiberMark Acquisition, currency effects and aggregate charges of \$6.4 million in 2015 for integration and restructuring costs and aggregate charges of \$6.0 million in 2014 for integration and restructuring costs, costs related to the early extinguishment of debt and a pension plan settlement charge, operating income for the year ended December 31, 2015 increased \$16.3 million from the prior year.

Cash provided by operating activities of \$111.2 million for the year ended December 31, 2015 was \$16.7 million favorable to cash provided by operating activities of \$94.5 million in the prior year primarily due to higher operating earnings and lower post-retirement benefit plan contributions.

Analysis of Net Sales — Years Ended December 31, 2015, 2014 and 2013

The following table presents net sales by segment and net sales expressed as a percentage of total net sales:

Net sales	Year Ended December 31,					
	2015	2015	2014	2014	2013	2013
Technical Products	\$ 429.2	48%	\$ 403.6	48%	\$ 353.3	45%
Fine Paper and Packaging	442.7	50%	436.1	52%	428.4	55%
Other	15.8	2%	—	—	—	—
Consolidated	<u>\$ 887.7</u>	<u>100%</u>	<u>\$ 839.7</u>	<u>100%</u>	<u>\$ 781.7</u>	<u>100%</u>

Commentary:

Year 2015 versus 2014

For the Year Ended December 31,	Change in Net Sales Compared to the Prior Year					
	Change Due To					
	Total Change	Volume	Average Net Price	Currency		
2015	2014	2015	2014	2015	2014	
Technical Products	\$ 429.2	\$ 403.6	\$ 25.6	\$ 66.5	\$ (2.4)	\$ (38.5)
Fine Paper and Packaging	442.7	436.1	6.6	(4.5)	11.1	—
Other	15.8	—	15.8	15.8	—	—
Consolidated	<u>\$ 887.7</u>	<u>\$ 839.7</u>	<u>\$ 48.0</u>	<u>\$ 77.8</u>	<u>\$ 8.7</u>	<u>\$ (38.5)</u>

Consolidated net sales for the year ended December 31, 2015 were \$48.0 million (6%) higher than the prior year due to organic technical products volume growth, incremental sales from the FiberMark Acquisition and higher average selling prices, partially offset by unfavorable currency exchange effects. Excluding incremental FiberMark sales and currency exchange effects, consolidated net sales increased \$28.4 million from the prior year.

- Net sales in our technical products business increased \$25.6 million (6%) from the prior year as organic volume growth, incremental sales from the FiberMark Acquisition and higher selling prices were only partially offset by unfavorable currency exchange effects. Unfavorable currency exchange effects resulted from the Euro weakening by approximately 16 percent relative to the U.S. dollar in the year ended December 31, 2015 as compared to the prior year. Excluding currency exchange effects and incremental FiberMark sales, technical product sales increased \$40.7 million (10%) and volumes increased approximately 11% from the prior year period due to growth in shipments of filtration and specialty performance products and incremental sales from the technical materials business acquired in July 2014.
- Net sales in our fine paper and packaging business increased \$6.6 million (2%) from the prior year due to higher average net prices and incremental FiberMark sales. Excluding acquired revenues, fine paper and packaging sales decreased \$12.3 million (3%) as higher average net price was more than offset by a four percent decrease in sales volumes. Sales volumes were unfavorable to the prior year as increases in premium packaging and retail products were more than offset by lower sales of other grades; including lower margin special make business. Average net price improved from the prior year due to a two percent increase in average selling prices and a more favorable product mix.

	For the Year Ended December 31,		Change in Net Sales Compared to the Prior Year			
			Change Due To			
	2014	2013	Total Change	Volume	Average Net Price	Currency
Technical Products	\$ 403.6	\$ 353.3	\$ 50.3	\$ 42.8	\$ 6.1	\$ 1.4
Fine Paper and Packaging	436.1	428.4	7.7	2.6	5.1	—
Consolidated	<u>\$ 839.7</u>	<u>\$ 781.7</u>	<u>\$ 58.0</u>	<u>\$ 45.4</u>	<u>\$ 11.2</u>	<u>\$ 1.4</u>

Consolidated net sales for the year ended December 31, 2014 were \$58.0 million (7%) higher than the prior year due to incremental technical products volume related to the acquired technical materials business, increased volume for both businesses and higher average selling prices.

- Net sales in our technical products business increased \$50.3 million (14%) due to increased volume and higher average selling prices. Excluding incremental sales from the acquisition, technical product sales increased \$26.2 million (7%) due to a seven percent increase in shipments as volume increased for all product categories led by backings, transportation filtration and specialty products. Average selling prices increased approximately 1.5 percent from the prior year due to a more favorable product mix and higher selling prices.
- Net sales in our fine paper and packaging business increased \$7.7 million (2%) from the prior year due to higher average net prices and increased volume. Average net price improved from the prior year due to a more favorable product mix and a one percent increase in average selling prices. Sales volumes increased approximately one percent from the prior year period primarily due to growth in shipments of core premium products, luxury packaging and labels, and incremental sales of approximately \$1.5 million in the first quarter of 2014 from the acquisition of the Southworth brands (acquired on January 31, 2013).

Analysis of Operating Income — Years Ended December 31, 2015, 2014 and 2013

The following table sets forth line items from our consolidated statements of operations as a percentage of net sales for the periods indicated and is intended to provide a perspective of trends in our historical results:

	Year Ended December 31,		
	2015	2014	2013
Net sales	100.0%	100.0%	100.0%
Cost of products sold	78.0	79.7	79.5
Gross profit	22.0	20.3	20.5
Selling, general and administrative expenses	9.8	9.3	9.6
One-time adjustments	0.7	0.7	0.1
Other (income) expense — net	0.1	—	0.2
Operating income	11.4	10.3	10.6
Interest expense-net	1.3	1.3	1.4
Income from continuing operations before income taxes	10.1	9.0	9.2
Provision for income taxes	3.3	0.9	3.0
Income from continuing operations	<u>6.8%</u>	<u>8.1%</u>	<u>6.2%</u>

[Table of Contents](#)

The following table sets forth our operating income by segment for the periods indicated:

	Year Ended December 31,		
	2015	2014	2013
Operating income			
Technical Products	\$ 54.1	\$ 46.0	\$ 37.4
Fine Paper and Packaging	67.3	60.8	61.0
Other	(2.0)	—	—
Unallocated corporate costs	(18.0)	(20.2)	(15.8)
Operating Income as Reported	<u>101.4</u>	<u>86.6</u>	<u>82.6</u>
Adjustments for One-time Items			
Technical Products			
Acquisition integration/Restructuring costs	1.8	1.6	—
Fine Paper and Packaging			
Acquisition integration costs	1.5	—	0.4
Other			
Acquisition integration costs	2.4	—	—
Unallocated corporate costs			
Pension plan settlement charge	—	3.5	0.2
Restructuring costs	0.8	0.7	—
Loss on early extinguishment of debt	—	0.2	0.5
Total	<u>0.8</u>	<u>4.4</u>	<u>0.7</u>
Total One-time Adjustments	<u>6.5</u>	<u>6.0</u>	<u>1.1</u>
Operating Income as Adjusted	<u>\$ 107.9</u>	<u>\$ 92.6</u>	<u>\$ 83.7</u>

In accordance with generally accepted accounting principles in the United States ("GAAP"), consolidated operating income includes the pre-tax effects of unusual items. We believe that by adjusting reported operating income to exclude the effects of these items, the resulting adjusted operating income is on a basis that reflects the results of our ongoing operations. We believe that providing adjusted operating results will help investors gain an additional perspective of underlying business trends and results. Adjusted operating income is not a recognized term under GAAP and should not be considered in isolation or as a substitute for operating income derived in accordance with GAAP. Other companies may use different methodologies for calculating their non-GAAP financial measures and, accordingly, our non-GAAP financial measures may not be comparable to their measures.

Commentary:

Year 2015 versus 2014

	For the Year Ended		Change in Operating Income (Loss) Compared to the Prior Year					
	December 31,		Change Due To					
	2015	2014	Total Change	Volume	Net Price (a)	Material Costs (b)	Currency	Other
Technical Products (c)	\$ 54.1	\$ 46.0	\$ 8.1	\$ 10.8	\$ 0.6	\$ 4.4	\$ (4.9)	\$ (2.8)
Fine Paper and Packaging (d)	67.3	60.8	6.5	(7.2)	8.5	8.7	—	(3.5)
Other (e)	(2.0)	—	(2.0)	0.2	—	—	—	(2.2)
Unallocated corporate costs (f)	(18.0)	(20.2)	2.2	—	—	—	—	2.2
Consolidated	<u>\$ 101.4</u>	<u>\$ 86.6</u>	<u>\$ 14.8</u>	<u>\$ 3.8</u>	<u>\$ 9.1</u>	<u>\$ 13.1</u>	<u>\$ (4.9)</u>	<u>\$ (6.3)</u>

- (a) Includes price changes, net of changes in product mix.
- (b) Includes price changes for raw materials and energy.
- (c) For the year ended December 31, 2015, Technical Products results include \$1.4 million of acquisition integration costs related to the FiberMark Acquisition and \$0.4 million of restructuring costs. For the year ended December 31, 2014, Technical Products results include \$1.0 million of acquisition integration costs related to the acquired technical materials business and \$0.6 million of restructuring costs.

[Table of Contents](#)

- (d) For the year ended December 31, 2015, Fine Paper and Packaging results include \$1.5 million of acquisition integration costs related to the FiberMark Acquisition
- (e) For the year ended December 31, 2015, results for the Other segment include \$2.4 million of acquisition integration costs related to the FiberMark Acquisition.
- (f) For the year ended December 31, 2015, unallocated corporate costs include \$0.8 million of restructuring costs. For the year ended December 31, 2014 unallocated corporate costs include a pension plan settlement charge of \$3.5 million, \$0.2 million of costs related to the amendment and restatement of our bank credit agreement and \$0.7 million of restructuring costs.

Consolidated operating income of \$101.4 million for the year ended December 31, 2015 increased \$14.8 million (17%) from the prior year. The favorable comparison was primarily due to lower manufacturing input costs, higher net price for the fine paper and packaging business, and organic technical products volume growth; partially offset by higher manufacturing costs, increased SG&A, including amounts acquired as part of the FiberMark Acquisition; lower fine paper and packaging volume and unfavorable currency effects. Excluding results of the FiberMark Acquisition, currency effects and aggregate charges of \$6.5 million in 2015 for integration and restructuring costs and aggregate charges of \$6.0 million in 2014 for integration and restructuring costs, costs related to the early extinguishment of debt and a pension plan settlement charge, operating income for the year ended December 31, 2015 increased \$18.8 million (20%) from the prior year.

- Operating income for our technical products business increased \$8.1 million (18%) from the prior year primarily due to lower manufacturing input costs, organic volume growth and higher selling prices. These favorable variances were partially offset by unfavorable currency exchange effects and higher manufacturing costs. Results for the years ended December 31, 2015 and 2014 include \$1.8 million and \$1.6 million for integration/restructuring costs, respectively. Excluding incremental volume from the FiberMark Acquisition, unfavorable currency exchange effects and acquisition integration/restructuring costs, operating income for the technical products business increased \$11.2 million (24%).
- Operating income for our fine paper and packaging business increased \$6.5 million (11%) from the prior year period primarily due to lower manufacturing input costs principally as a result of lower natural gas prices and higher net price. Extreme winter weather conditions during the first quarter of 2014 resulted in a temporary increase in natural gas prices. These favorable variances were partially offset by lower shipment volume and higher manufacturing costs. Results for the ended December 31, 2015 include \$1.5 million for acquisition related integration costs. Excluding incremental volume from the FiberMark Acquisition and acquisition integration costs, operating income for the fine paper and packaging business increased \$8.8 million (14%).
- Unallocated corporate costs for the year ended December 31, 2015 were \$18.0 million, or \$2.2 million favorable to the prior year. Excluding charges of \$0.8 million in 2015 for restructuring costs and aggregate charges of \$4.4 million in 2014 for a pension plan settlement charge, restructuring costs and costs related to the early extinguishment of debt, unallocated corporate expenses were \$1.4 million unfavorable to the prior year primarily due to increased employee compensation costs.

Year 2014 versus 2013

	For the Year Ended		Change in Operating Income (Loss) Compared to the Prior Year					
			Change Due To					
	December 31, 2014	December 31, 2013	Total Change	Volume	Net Price (a)	Material Costs (b)	Currency	Other
Technical Products (c)	\$ 46.0	\$ 37.4	\$ 8.6	\$ 7.0	\$ 5.8	\$ 0.3	\$ 0.5	\$ (5.0)
Fine Paper and Packaging (d)	60.8	61.0	(0.2)	0.7	5.4	(7.0)	—	0.7
Unallocated corporate costs (e)	(20.2)	(15.8)	(4.4)	—	—	—	—	(4.4)
Consolidated	<u>\$ 86.6</u>	<u>\$ 82.6</u>	<u>\$ 4.0</u>	<u>\$ 7.7</u>	<u>\$ 11.2</u>	<u>\$ (6.7)</u>	<u>\$ 0.5</u>	<u>\$ (8.7)</u>

- (a) Includes price changes, net of changes in product mix.
- (b) Includes price changes for raw materials and energy.
- (c) For the year ended December 31, 2014, Technical Products results include \$1.0 million of integration costs related to the acquired technical materials business and \$0.4 million of restructuring costs.
- (d) For the year ended December 31, 2013, Fine Paper and Packaging results include \$0.4 million of integration costs related to the Southworth acquisition.

[Table of Contents](#)

- (e) For the year ended December 31, 2014 unallocated corporate costs include a pension plan settlement charge of \$3.5 million, \$0.2 million of costs related to the amendment and restatement of our bank credit agreement and \$0.7 million of restructuring costs. For the year ended December 31, 2013 unallocated corporate costs include \$0.5 million of costs related to the early redemption of 2014 Senior Notes and a \$0.2 million pension plan settlement charge.

Consolidated operating income of \$86.6 million for the year ended December 31, 2014 increased \$4.0 million from the prior year. Excluding aggregate charges of \$6.0 million in 2014 for integration and restructuring costs, costs related to the early extinguishment of debt and a pension plan settlement charge and aggregate charges of \$1.1 million in 2013 for acquisition-related integration costs, costs related to the early extinguishment of debt and a pension plan settlement charge, operating income for the year ended December 31, 2014 increased \$8.9 million from the prior year. The improvement in operating income was primarily due to higher net price for both businesses and incremental technical products volume, including volume related to the acquired technical materials business, partially offset by higher manufacturing input costs in our fine paper and packaging business.

- Operating income for our technical products business increased \$8.6 million (23%) from the prior year. The improvement in operating income was primarily due to a more favorable product mix, growth in shipments for all product categories and incremental volume related to the acquired technical materials business. The more favorable product mix was primarily due to growth in higher value filtration and specialty shipments. In 2014, other manufacturing costs increased versus the prior year due to additional costs related to annual maintenance downs at our German facilities, including an extended down at our filtration plant to increase the capabilities and capacity of one of the machines. Results for the year ended December 31, 2014 include \$1.6 million for integration/restructuring costs.
- Operating income for our fine paper and packaging business decreased \$0.2 million from the prior year as higher average net selling prices, manufacturing operating efficiencies and increased shipment volume were more than offset by \$7.0 million in higher manufacturing input costs, including more than \$3.0 million for natural gas in the first quarter of 2014. Results for the year ended December 31, 2013 include \$0.4 million for acquisition related integration costs.
- Unallocated corporate costs for the year ended December 31, 2014 were \$20.0 million, or \$4.4 million unfavorable to the prior year. Excluding aggregate charges of \$4.4 million in 2014 for a pension plan settlement charge, restructuring costs and costs related to the early extinguishment of debt and aggregate charges of \$0.7 million in 2013 for costs related to the early extinguishment of debt and a pension plan settlement charge, unallocated corporate expenses were \$0.7 million unfavorable to the prior year.

Additional Statement of Operations Commentary:

- SG&A expense of \$86.5 million for the year ended December 31, 2015 was \$8.5 million higher than the prior year due to incremental selling and administrative costs related to the FiberMark Acquisition. SG&A expense as a percentage of net sales for the year ended December 31, 2015, was approximately 9.8 percent and was 0.5 percentage points higher than the prior year as the increase in net sales in the current year was more than offset by higher SG&A expenses.

SG&A expense of \$78.0 million for the year ended December 31, 2014 was \$3.3 million higher than the prior year primarily due to incremental selling and administrative costs related to the acquired technical materials business and increased employee compensation costs. SG&A expense as a percentage of net sales for the year ended December 31, 2014, was approximately 9.3 percent and was 0.3 percentage points lower than the prior year as the increase in net sales in the current year more than offset higher SG&A expenses.

- For the years ended December 31, 2015, 2014 and 2013, we incurred \$11.7 million, \$11.4 million and \$11.2 million of interest expense, respectively. For the year ended December 31, 2015, the increase in interest expense from the prior year was primarily due to incremental Revolver borrowings under our bank loan agreement to finance the FiberMark Acquisition.

[Table of Contents](#)

- In general, our effective tax rate differs from the U.S. statutory tax rate of 35 percent primarily due to the benefits of our corporate tax structure, the benefit of R&D Credits and the proportion of pre-tax income in jurisdictions with marginal tax rates that differ from the U.S. statutory tax rate. For the years ended December 31, 2015 and 2014, our effective income tax rate related to continuing operations was 33 percent and 10 percent, respectively. The increase in our effective tax rate for the year ended December 31, 2015 from the prior year was primarily due to the recognition of greater amounts of R&D Credits in 2014. Excluding the benefit of R&D Credits related to prior year activities, our effective income tax rate for the year ended December 31, 2014 would be approximately 33 percent. For the year ended December 31, 2013, our effective income tax rate related to continuing operations was approximately 32 percent. For a reconciliation of effective tax rate to the U.S. federal statutory tax rate, see Note 5 of Notes to Consolidated Financial Statements, "Income Taxes."

Operating Cash Flow Commentary

- Cash provided by operating activities of \$111.2 million for the year ended December 31, 2015 was \$16.7 million favorable to cash provided by operating activities of \$94.5 million in the prior year. The favorable comparison was primarily due to a \$16.1 million increase in operating income and lower contributions and benefit payments for post-retirement benefit obligations. These favorable variances were partially offset by a decrease of \$9.0 million in our investment in working capital in the prior year compared to a decrease of \$1.8 million in our investment in working capital for the year ended December 31, 2015.
- Cash provided by operating activities of \$94.5 million for the year ended December 31, 2014 was \$11.0 million favorable to cash provided by operating activities of \$83.5 million in the prior year. The favorable comparison was primarily due to higher operating income and a \$9.0 million decrease in our investment in working capital for the year ended December 31, 2014 compared to an increase in our investment in working capital of \$6.6 million in the prior year. These favorable variances were partially offset by increased contributions and benefit payments for post-retirement benefit obligations.

Investing Commentary:

- For the years ended December 31, 2015 and 2014, cash used by investing activities was \$160.1 million and \$104.9 million, respectively. For the year ended December 31, 2015, cash used by investing activities includes \$118.2 million for the FiberMark Acquisition. For the year ended December 31, 2014, cash used by investing activities includes \$72.4 million for the purchase of the Crane Technical Materials business and \$2.9 million for the acquisition of a non-controlling equity investment in a joint venture in India. Cash used by investing activities for the year ended December 31, 2013 includes a payment of \$5.2 million to acquire the Southworth brands.

[Table of Contents](#)

- Capital expenditures for the year ended December 31, 2015 were \$48.1 million compared to spending of \$27.9 million in the prior year. In general, we expect aggregate annual capital expenditures of approximately 3 to 5 percent of net sales. For the year ended December 31, 2015, annual capital expenditures were at the higher end of that range due to incremental investment in filtration assets in the U.S. We expect capital spending in 2016 to continue at the higher end of this range. We believe that the level of our capital spending can be more than adequately funded from cash provided from operating activities and allows us to maintain the efficiency and cost effectiveness of our assets and also invest in expanded manufacturing capabilities to successfully pursue strategic initiatives and deliver attractive returns.
- For the year ended December 31, 2015, we received net cash proceeds of \$5.4 million from the sale of the Lahnstein Mill.
- For the years ended December 31, 2014 and 2013, cash used by investing activities was \$104.9 million and \$33.3 million, respectively. Cash used by investing activities for the year ended December 31, 2014 includes \$72.4 million for the purchase of the Crane Technical Materials business and \$2.9 million for the acquisition of a non-controlling equity investment in a joint venture in India. Cash used by investing activities for the year ended December 31, 2013 includes a payment of \$5.2 million to acquire the Southworth brands.
- Capital expenditures for the year ended December 31, 2014 were \$27.9 million compared to spending of \$28.7 million in the prior year.

Financing Commentary:

Our liquidity requirements are provided by cash generated from operations and short and long-term borrowings.

- For the year ended December 31, 2015, cash used by financing activities was \$18.8 million compared to cash provided by financing activities of \$10.2 million for the prior year. For the year ended December 31, 2014, cash provided by financing activities was \$10.2 million compared to cash provided by financing activities of \$15.0 million for the prior year. Cash flows from financing activities for the year ended December 31, 2013, included proceeds of \$175 million from the issuance of the 2021 Senior Notes and outflows of \$90 million for the early redemption of the 2014 Senior Notes.

Secured Bank Credit Facility

In December 2014, we entered into the Third Amended Credit Agreement. The Third Amended Credit Agreement, among other things: (1) increased the maximum principal amount of our existing credit facility for the U.S. Revolving Credit Facility to \$125 million; (2) established the German Revolving Credit Facility in the maximum principal amount of \$75 million; (3) caused Neenah and the other domestic borrowers to guarantee, among other things, the obligations arising under the German Revolving Credit Facility; (4) provides for the Global Revolving Credit Facilities to mature on December 18, 2019; and (5) provides for an accordion feature permitting one or more increases in the Global Revolving Credit Facilities in an aggregate principal amount not exceeding \$50 million, such that the aggregate commitments under the Global Revolving Credit Facilities do not exceed \$250 million. In addition, domestic borrowers may request letters of credit under the U.S. Revolving Credit Facility in an aggregate face amount not to exceed \$20 million outstanding at any time, and German borrowers may request letters of credit under the German Revolving Credit Facility in an aggregate face amount not to exceed \$2 million outstanding at any time. See Note 6 of Notes to Condensed Consolidated Financial Statements, "Debt."

Unsecured Senior Notes

In May 2013, we issued \$175 million of 2021 Senior Notes. Proceeds from this offering were used to retire the remaining principal amount of 2014 Senior Notes, to repay approximately \$56 million in outstanding revolver borrowings under our bank credit agreement and for general corporate purposes.

In May 2013, we completed an early redemption of \$20 million of our 2014 Senior Notes. The 2014 Senior Notes were redeemed at par value plus accrued but unpaid interest. The early redemption was financed with revolver borrowings under our bank credit agreement and resulted in a pre-tax loss of \$0.1 million due to the write-off of related unamortized debt issuance costs.

[Table of Contents](#)

In June 2013, we used a portion of the proceeds from the issuance of the 2021 Senior Notes to retire the remaining \$70 million in outstanding 2014 Senior Notes. The 2014 Senior Notes were redeemed at par value plus accrued but unpaid interest. The retirement of the 2014 Senior Notes resulted in a pre-tax loss of \$0.3 million due to the write-off of related unamortized debt issuance costs. As of December 31, 2014 there were no 2014 Senior Notes outstanding. See Note 6 of Notes to Condensed Consolidated Financial Statements, "Debt."

Other Debt

In June 2014, we repaid the remaining €3.7 million (\$5.2 million) in outstanding project financing borrowings under the German Loan Agreement.

In January 2013, Neenah Germany entered into the Second German Loan Agreement to finance the construction of a melt blown machine. The agreement provides for €9.0 million of construction financing which is secured by the melt blown machine. The loan matures in September 2022 and principal is repaid in equal quarterly installments beginning in December 2014. At December 31, 2015, €7.6 million (\$8.3 million, based on exchange rates at December 31, 2015) was outstanding under the Second German Loan Agreement.

- Availability under our revolving credit facility varies over time depending on the value of our inventory, receivables and various capital assets. As of December 31, 2015, we had \$51.1 million outstanding under our Revolver and \$122.9 million of available credit (based on exchange rates at December 31, 2015). During the fourth quarter, the proceeds from Revolver borrowings in Germany were used to fund the repatriation of cash to the U.S.
- We have required debt payments through December 31, 2016 of \$1.2 million on the Second German Loan Agreement.
- For the year ended December 31, 2015, cash and cash equivalents decreased \$68.4 million to \$4.2 million at December 31, 2015 from \$72.6 million at December 31, 2014. Total debt (including the reclassification of deferred financing costs) increased \$1.2 million to \$229.4 million at December 31, 2015 from \$228.2 million at December 31, 2014. Net debt (total debt minus cash and cash equivalents) increased by \$69.6 million primarily due to the FiberMark Acquisition for \$118.2 million partially offset by cash flow from operations.
- As of December 31, 2015, our cash balance consists of \$1.1 million in the U.S. and \$3.1 million held at entities outside of the U.S. As of December 31, 2015, there were no restrictions regarding the repatriation of our non-U.S. cash and, we believe, the repatriation of these cash balances to the U.S. would not materially increase our income tax provision.

Transactions with shareholders

- For the years ended December 31, 2015 and 2014, we paid cash dividends of \$1.20 per common share or \$20.3 million and \$1.02 per common share or \$17.1 million, respectively.

In November 2015, our Board of Directors approved a ten percent increase in the annual dividend rate on our common stock to \$1.32 per share. The dividend is scheduled to be paid in four equal quarterly installments beginning in March 2016. As of December 31, 2015, under the most restrictive terms of our debt agreements, our ability to pay cash dividends on our common stock is limited to a total of \$25 million in a 12-month period. However, we can pay dividends in excess of such limitation by utilizing "restricted payment baskets" as defined in the indenture for the 2021 Senior Notes and the Third Amended Credit Agreement.

- In May 2015, our Board of Directors authorized the 2015 Stock Purchase Plan. The 2015 Stock Purchase Plan allows us to repurchase up to \$25 million of our outstanding Common Stock through May 2016. Purchases under the 2015 Stock Purchase Plan will be made from time to time in the open market or in privately negotiated transactions in accordance with the requirements of applicable law. The timing and amount of any purchases will depend on share price, market conditions and other factors. The 2015 Stock Purchase Plan does not require us to purchase any specific number of shares and may be suspended or discontinued at any time. The 2015 Stock Purchase Plan replaced the 2014 Stock Purchase Plan that expired in May 2015. For the year ended December 31, 2015, we acquired approximately 42,100 shares of Common Stock at a cost of \$2.4 million and 60,900 shares of Common Stock at a cost of \$3.5 million pursuant to the 2015 Stock Purchase Plan and the 2014 Stock Purchase Plan, respectively.

[Table of Contents](#)

For the years ended December 31, 2015 and 2014, we acquired approximately 40,000 and 56,000 of Common Stock, respectively, at a cost of \$2.5 million and \$3.4 million, respectively, for shares surrendered by employees to pay taxes due on vested restricted stock awards and stock appreciation rights exercised. In addition, we received \$1.2 million and \$3.6 million in proceeds from the exercise of employee stock options for the years ended December 31, 2015 and 2014, respectively. For the years ended December 31, 2015 and 2014, we recognized excess tax benefits of \$2.6 million and \$5.6 million, respectively, related to the vesting or exercise of stock-based awards.

Other Items:

- In 2015, all remaining U.S. federal NOLs have been utilized and we made approximately \$10.6 million in U.S. federal income tax payments. As of December 31, 2015, we had \$78.1 million of state NOLs. Our state NOLs may be used to offset approximately \$2.5 million in state income taxes. If not used, substantially all of the state NOLs will expire in various amounts between 2016 and 2035. In addition, we had \$30.2 million of U.S. federal and state R&D Credits which, if not used, will expire between 2027 and 2035 for the U.S. federal R&D Credits and between 2017 and 2030 for the state R&D Credits. As of December 31, 2015, we recorded a valuation allowance of \$2.9 million against a portion of the R&D Credits.

Management believes that our ability to generate cash from operations and our borrowing capacity are adequate to fund working capital, capital spending and other cash needs for the next 12 months. Our ability to generate adequate cash from operations beyond 2015 will depend on, among other things, our ability to successfully implement our business strategies, control costs in line with market conditions and manage the impact of changes in input prices and currencies. We can give no assurance we will be able to successfully implement these items.

Contractual Obligations

The following table presents the total contractual obligations for which cash flows are fixed or determinable as of December 31, 2015:

<u>(In millions)</u>	<u>2016</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>	<u>Beyond 2020</u>	<u>Total</u>
Long-term debt payments	\$ 1.2	\$ 1.3	\$ 1.2	\$ 52.3	\$ 1.2	\$ 177.2	\$ 234.4
Interest payments on long-term debt (a)	10.3	10.3	10.2	10.2	9.3	4.3	54.6
Open purchase orders (b)	81.9	—	—	—	—	—	81.9
Other post-employment benefit obligations (c)	3.8	3.5	3.9	4.2	4.3	18.6	38.3
Contributions to pension trusts	11.3	—	—	—	—	—	11.3
Minimum purchase commitments (d)	7.4	1.1	1.1	—	—	—	9.6
Operating leases	2.6	2.2	1.6	1.2	1.0	4.3	12.9
Total contractual obligations	<u>\$ 118.5</u>	<u>\$ 18.4</u>	<u>\$ 18.0</u>	<u>\$ 67.9</u>	<u>\$ 15.8</u>	<u>\$ 204.4</u>	<u>\$ 443.0</u>

- (a) Interest payments on long-term debt includes interest on variable rate debt at December 31, 2015 weighted average interest rates.
- (b) The open purchase orders displayed in the table represent amounts we anticipate will become payable within the next 12 months for goods and services that we have negotiated for delivery.
- (c) The above table includes future payments that we will make for postretirement benefits other than pensions. Those amounts are estimated using actuarial assumptions, including expected future service, to project the future obligations.
- (d) The minimum purchase commitments in 2016 are primarily for coal contracts. Although we are primarily liable for payments on the above operating leases and minimum purchase commitments, based on historic operating performance and forecasted future cash flows, we believe our exposure to losses, if any, under these arrangements is not material.

Adoption of New Accounting Pronouncements

See Note 2, "Summary of Significant Accounting Policies — Recently Adopted Accounting Standards" for a description of accounting standards adopted in the year ended December 31, 2015.

Critical Accounting Policies and Use of Estimates

The preparation of financial statements in conformity with Generally Accepted Accounting Principles ("GAAP") in the United States requires estimates and assumptions that affect the reported amounts and related disclosures of assets and liabilities at the date of the financial statements and net sales and expenses during the reporting period. Actual results could differ from these estimates, and changes in these estimates are recorded when known. The critical accounting policies used in the preparation of the consolidated financial statements are those that are important both to the presentation of financial condition and results of operations and require significant judgments with regard to estimates used. These critical judgments relate to the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities, and the reported amounts of expenses.

The following summary provides further information about the critical accounting policies and should be read in conjunction with the notes to the Consolidated Financial Statements. We believe that the consistent application of our policies provides readers of our financial statements with useful and reliable information about our operating results and financial condition.

We have discussed the application of these critical accounting policies with our Board of Directors and Audit Committee.

Inventories

We value U.S. inventories at the lower of cost, using the Last-In, First-Out ("LIFO") method, or market. German inventories are valued at the lower of cost, using a weighted-average cost method, or market. The First-In, First-Out value of U.S. inventories valued on the LIFO method was \$118.2 million and \$95.7 million at December 31, 2015 and 2014, respectively and exceeded such LIFO value by \$10.0 million and \$14.0 million, respectively. Cost includes labor, materials and production overhead.

Income Taxes

As of December 31, 2015, we have recorded aggregate deferred income tax assets of \$20.0 million related to temporary differences, net operating losses and research and development and other tax credits. As of December 31, 2014, our aggregate deferred income tax assets were \$45.7 million. As of December 31, 2015, we recorded a valuation allowance of \$2.9 million against a portion of our R&D Credits. No valuation allowance was provided at December 31, 2014. In determining the need for a valuation allowance, we consider many factors, including specific taxing jurisdictions, sources of taxable income, income tax strategies and forecasted earnings for the entities in each jurisdiction. A valuation allowance would be recognized if, based on the weight of available evidence, we conclude that it is more likely than not that some portion or all of the deferred income tax assets will not be realized.

As of December 31, 2015 and 2014, our liability for uncertain income taxes positions was \$12.8 million and \$7.0 million, respectively. In evaluating and estimating tax positions and tax benefits, we consider many factors which may result in periodic adjustments and which may not accurately anticipate actual outcomes.

Pension and Other Postretirement Benefits

Pension Plans

Except as described below for FiberMark, substantially all active employees of our U.S. operations participate in defined benefit pension plans and/or defined contribution retirement plans. Neenah Germany has defined benefit plans designed to provide a monthly pension upon retirement for substantially all its employees in Germany. In addition, we maintain a supplemental retirement contribution plan (the "SERP") which is a non-qualified defined benefit plan. We provide benefits under the SERP to the extent necessary to fulfill the intent of our defined benefit retirement plans without regard to the limitations set by the Internal Revenue Code on qualified defined benefit plans.

FiberMark has a qualified defined benefit plan covering certain U.S. employees. During 2009, FiberMark fully froze this plan so that additional benefits cannot be earned as a result of additional years of service or increases in annual earnings. Plan assets are principally invested in equity, government and corporate debt securities and fixed income mutual funds. FiberMark has a defined benefit plan covering all United Kingdom "U.K." employees, which is designed to provide a monthly pension upon retirement. This plan was fully frozen during 2011 and plan assets are primarily invested in equity mutual funds.

[Table of Contents](#)

Our funding policy for qualified defined benefit plans is to contribute assets to fully fund the accumulated benefit obligation, as required by the Pension Protection Act of 2006. Subject to regulatory and tax deductibility limits, any funding shortfall is to be eliminated over a reasonable number of years. Nonqualified plans providing pension benefits in excess of limitations imposed by the taxing authorities are not funded. There is no legal or governmental obligation to fund Neenah Germany's benefit plans and as such the plans are currently unfunded.

Consolidated pension expense related to continuing operations for defined benefit pension plans was \$6.5 million, \$10.8 million and \$6.9 million for the years ended December 31, 2015, 2014 and 2013, respectively. The weighted-average expected long-term rate of return on pension fund assets used to calculate pension expense was 6.50 percent, 6.50 percent and 7.00 percent for the years ended December 31, 2015, 2014 and 2013, respectively. The expected long-term rate of return on pension fund assets held by our pension trusts was determined based on several factors, including input from pension investment consultants and projected long-term returns of broad equity and bond indices. We also considered the plans' historical 10-year and 15-year compounded annual returns. We anticipate that, on average, actively managed U.S. pension plan assets will generate annual long-term rates of return of at least 6.50 percent. Our expected long-term rate of return on the assets in the plans is based on an asset allocation assumption of about 35 percent with equity managers, with expected long-term rates of return of approximately 8 to 10 percent, and 65 percent with fixed income managers, with an expected long-term rate of return of approximately 4 to 6 percent. The actual asset allocation is regularly reviewed and periodically rebalanced to the targeted allocation when considered appropriate. We evaluate our investment strategy and long-term rate of return on pension asset assumptions at least annually.

Pension expense is estimated based on the fair value of assets rather than a market-related value that averages gains and losses over a period of years. Investment gains or losses represent the difference between the expected return calculated using the fair value of the assets and the actual return based on the fair value of assets. The variance between the actual and the expected gains and losses on pension assets is recognized in pension expense more rapidly than it would be if a market-related value for plan assets was used. As of December 31, 2015, our pension plans had cumulative unrecognized investment losses and other actuarial losses of \$84.1 million. These unrecognized net losses may increase our future pension expense if not offset by (i) actual investment returns that exceed the assumed investment returns, (ii) other factors, including reduced pension liabilities arising from higher discount rates used to calculate our pension obligations or (iii) other actuarial gains, including whether such accumulated actuarial losses at each measurement date exceed the "corridor" determined under ASC Topic 715.

The discount (or settlement) rate that is utilized for determining the present value of future pension obligations in the U.S. is generally based on the yield for a theoretical basket of AA-rated corporate bonds currently available in the market place, whose duration matches the timing of expected pension benefit payments. The discount (or settlement) rate that is utilized for determining the present value of future pension obligations in Germany is generally based on the IBOXX index of AA-rated corporate bonds adjusted to match the timing of expected pension benefit payments. The weighted average discount rate utilized to determine the present value of future pension obligations at December 31, 2015 and 2014 was 4.54 percent and 3.91 percent, respectively.

Our consolidated pension expense in 2015 is based on the expected weighted-average long-term rate of return on assets and the weighted-average discount rate described above and various other assumptions. Pension expense beyond 2015 will depend on future investment performance, our contributions to the pension trusts, changes in discount rates and various other factors related to the covered employees in the plans.

The fair value of the assets in our defined benefit plans at December 31, 2015 of approximately \$308 million increased approximately \$20 million from the fair value of about \$288 million at December 31, 2014, as assets acquired in the FiberMark Acquisition and employer contributions exceeded investment losses and benefit payments. At December 31, 2015, the projected benefit obligations of our defined benefit plans exceeded the fair value of plan assets by approximately \$52 million which was approximately \$10 million larger than the \$42 million deficit at December 31, 2014. The accumulated benefit obligation exceeded the fair value of plan assets by \$40.6 million and \$25.4 million at December 31, 2015 and 2014, respectively. Contributions to pension trusts for the year ended December 31, 2015 were \$1.0 million compared with \$24.5 million for the year ended December 31, 2014. In addition, we made direct benefit payments for unfunded qualified and supplemental retirement benefits of \$1.8 million and \$1.6 million for the years ended December 31, 2015 and 2014, respectively.

Other Postretirement Benefit Plans

We maintain postretirement health care and life insurance benefit plans for active employees and former employees of our Canadian pulp operations. The plans are generally noncontributory for employees who were eligible to retire on or before December 31, 1992 and contributory for most employees who became eligible to retire on or after January 1, 1993. We do not provide a subsidized postretirement health care or life insurance benefit to most employees hired after 2003. Our postretirement health care and life insurance benefit plans are unfunded.

For the years ended December 31, 2015, 2014 and 2013, consolidated postretirement health care and life insurance plan benefit expense was \$3.4 million, \$3.8 million and \$4.2 million, respectively. The weighted-average discount (or settlement) rate used to calculate postretirement health care and life insurance plan benefit expense was 4.05 percent, 4.84 percent and 4.12 percent for the years ended December 31, 2015, 2014 and 2013, respectively. The discount (or settlement) rate that is utilized for determining the present value of future postretirement health care and life insurance plan benefit obligations in the U.S. is generally based on the yield for a theoretical basket of AA-rated corporate bonds currently available in the market place, whose duration matches the timing of expected postretirement health care and life insurance benefit payments. The discount (or settlement) rate that is utilized for determining the present value of future postretirement health care and life insurance obligations for our foreign benefit plans is generally based on an index of AA-rated corporate bonds adjusted to match the timing of expected benefit payments.

Our consolidated postretirement health care and life insurance plan benefit expense in 2015 is based on the weighted-average discount rate described above and various other assumptions. Postretirement health care and life insurance plan benefit expense beyond 2015 will depend on future health care cost trends, changes in discount rates and various other factors related to the covered employees in the plans.

Our obligations for postretirement health care and life insurance plan benefits are measured annually as of December 31. The weighted average discount rate utilized to determine the present value of future postretirement health care and life insurance obligations at December 31, 2015 and 2014 was 4.07 percent and 4.05 percent, respectively. The assumed inflationary health care cost trend rates used to determine obligations at December 31, 2015 and costs for the year ended December 31, 2015 were 7.3 percent gradually decreasing to an ultimate rate of 4.5 percent in 2037. The assumed inflationary health care cost trend rates used to determine obligations at December 31, 2014 and costs for the year ended December 31, 2014 were 7.3 percent gradually decreasing to an ultimate rate of 4.5 percent in 2027. At December 31, 2015, the projected benefit obligations for our postretirement health care and life insurance plans of approximately \$41 million was essentially unchanged from the projected benefit obligation at December 31, 2014.

Impairment of Long-Lived Assets

Property, Plant and Equipment

Property, plant and equipment are tested for impairment in accordance with ASC Topic 360, *Property, Plant, and Equipment* ("ASC Topic 360"), whenever events or changes in circumstances indicate that the carrying amounts of such long-lived assets may not be recoverable from future net pre-tax cash flows. Impairment testing requires significant management judgment including estimating the future success of product lines, future sales volumes, growth rates for selling prices and costs, alternative uses for the assets and estimated proceeds from disposal of the assets. Impairment testing is conducted at the lowest level where cash flows can be measured and are independent of cash flows of other assets. An asset impairment would be indicated if the sum of the expected future net pre-tax cash flows from the use of the asset (undiscounted and without interest charges) is less than the carrying amount of the asset. An impairment loss would be measured based on the difference between the fair value of the asset and its carrying amount. We determine fair value based on an expected present value technique using multiple cash flow scenarios that reflect a range of possible outcomes and a risk free rate of interest are used to estimate fair value.

The estimates and assumptions used in the impairment analysis are consistent with the business plans and estimates we use to manage our business operations. The use of different assumptions would increase or decrease the estimated fair value of the asset and would increase or decrease the impairment charge. Actual outcomes may differ from the estimates.

[Table of Contents](#)

Goodwill and Other Intangible Assets with Indefinite Lives

Goodwill arising from a business combination is recorded as the excess of purchase price and related costs over the fair value of identifiable assets acquired and liabilities assumed in accordance with ASC Topic 805, *Business Combinations* ("ASC Topic 805"). All of our goodwill was acquired in conjunction with the acquisition of Neenah Germany in October 2006, the technical materials business in July 2014, and FiberMark in August 2015.

Under ASC Topic 350, *Intangibles — Goodwill and Other* ("ASC Topic 350"), goodwill is subject to impairment testing at least annually. ASC Topic 350 provides an entity with the option to first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, after assessing the totality of events or circumstances, an entity determines it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, then performing the two-step impairment test is unnecessary. If the two-step impairment test is necessary, a fair-value-based test is applied at the reporting unit level, which is generally one level below the operating segment level. The test compares the fair value of an entity's reporting units to the carrying value of those reporting units. This test requires various judgments and estimates. We estimate the fair value of the reporting unit using a market approach in combination with a discounted operating cash flow approach. Impairment of goodwill is measured as the excess of the carrying amount of goodwill over the fair values of recognized and unrecognized assets and liabilities of the reporting unit. An adjustment to goodwill will be recorded for any goodwill that is determined to be impaired. We test goodwill for impairment at least annually on November 30 in conjunction with preparation of its annual business plan, or more frequently if events or circumstances indicate it might be impaired.

We tested goodwill for impairment as of November 30, 2015. In our testing of goodwill for impairment, we estimated the fair value of the reporting units using a market approach in combination with a discounted operating cash flow approach. Significant assumptions used in developing the discounted operating cash flow approach were revenue growth rates and pricing, costs for manufacturing inputs, levels of capital investment and estimated cost of capital for high, medium and low growth environments. As of November 30, 2015 no impairment was indicated.

Certain trade names are estimated to have indefinite useful lives and as such are not amortized. Intangible assets with indefinite lives are annually reviewed for impairment in accordance with ASC Topic 350.

Other Intangible Assets with Finite Lives

Acquired intangible assets with finite useful lives are amortized on a straight-line basis over their respective estimated useful lives to their estimated residual values, and reviewed for impairment in accordance with ASC Topic 360. Intangible assets consist primarily of customer relationships, trade names and acquired intellectual property. Such intangible assets are amortized using the straight-line method over estimated useful lives of between 10 and 15 years.

Our annual test of other intangible assets for impairment at November 30, 2015, 2014 and 2013 indicated that the carrying amount of such assets was recoverable.

Stock-Based Compensation

We account for stock-based compensation in accordance with the fair value recognition provisions of ASC Topic 718, *Compensation — Stock Compensation* ("ASC Topic 718"). The amount of stock-based compensation cost recognized is based on the fair value of grants that are ultimately expected to vest and is recognized pro-rata over the requisite service period for the entire award.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

As a multinational enterprise, we are exposed to risks such as changes in commodity prices, foreign currency exchange rates, interest rates and environmental regulation. A variety of practices are employed to manage these risks, including operating and financing activities and, where deemed appropriate, the use of derivative instruments. Derivative instruments are used only for risk management purposes and not for speculation or trading.

Presented below is a description of our most significant risks.

[Table of Contents](#)

Foreign Currency Risk

Our reported operating results are affected by changes in the exchange rates of the local currencies of our non-U.S. operations relative to the U.S. dollar. For the year ended December 31, 2015, a hypothetical 10 percent increase in the exchange rates of the U.S. dollar relative to the local currencies of our non-U.S. operations would have decreased our income before income taxes by approximately \$2.6 million. We do not hedge our exposure to exchange risk on reported operating results.

The translation of the balance sheets of our non-U.S. operations from their local currencies into U.S. dollars is also sensitive to changes in the exchange rate of the U.S. dollar. Consequently, we performed a sensitivity test to determine if changes in the exchange rate would have a significant effect on the translation of the balance sheets of our non-U.S. operations into U.S. dollars. These translation gains or losses are recorded as unrealized translation adjustments ("UTA", a component of accumulated other comprehensive income) within stockholders' equity. The hypothetical change in UTA is calculated by multiplying the net assets of our non-U.S. operations by a 10 percent change in the exchange rate of their local currencies versus the U.S. dollar. As of December 31, 2015, the net assets of our non-U.S. operations exceeded their net liabilities by approximately \$95 million. As of December 31, 2015, a 10 percent decrease in the exchange rate of the U.S. dollar against the local currencies of our non-U.S. operations would have decreased our stockholders' equity by approximately \$10 million.

Commodity Risk

Pulp

We purchase the wood pulp used to produce our products on the open market, and, as a result, the price and other terms of those purchases are subject to change based on factors such as worldwide supply and demand and government regulation. We do not have significant influence over the price paid for our wood pulp purchases. Therefore, an increase in wood pulp prices could occur at the same time that prices for our products are decreasing and have an adverse effect on our results of operations, financial position and cash flows.

Based on 2015 pulp purchases, a 10 percent increase in the average market price for pulp (approximately \$92 per ton) would have increased our annual costs for pulp purchases by approximately \$18 million.

Other Manufacturing Inputs

We purchase a substantial portion of the other manufacturing inputs necessary to produce our products on the open market, and, as a result, the price and other terms of those purchases are subject to change based on factors such as worldwide supply and demand and government regulation. We do not have significant influence over our costs for such manufacturing inputs. Therefore, an increase in other manufacturing inputs could occur at the same time that prices for our products are decreasing and have an adverse effect on our results of operations, financial position and cash flows.

Our technical products business acquires certain of its specialized pulp requirements from two global suppliers and certain critical specialty latex grades from four suppliers. In general, these supply arrangements are not covered by formal contracts, but represent multi-year business relationships that have historically been sufficient to meet our needs. We expect these relationships to continue to operate in a satisfactory manner in the future. In the event of an interruption of production at any one supplier, we believe that each of these suppliers individually would be able to satisfy our short-term requirements for specialized pulp or specialty latex. In the event of a long-term disruption in our supply of specialized pulp or specialty latex, we believe we would be able to substitute other pulp grades or other latex grades that would allow us to meet required product performance characteristics and incur only a limited disruption in our production. As a result, we do not believe that the substitution of such alternative pulp or latex grades would have a material effect on our operations.

Cotton fiber represents less than five percent of the total fiber requirements of our fine paper and packaging business. Our fine paper and packaging business acquires a substantial majority of the cotton fiber used in the production of certain branded bond paper products pursuant to annual agreements with two North American producers. The balance of our cotton fiber requirements are acquired through "spot market" purchases from a variety of other producers. We believe that a partial or total disruption in the production of cotton fibers at our two primary suppliers would increase our reliance on "spot market" purchases with a likely corresponding increase in cost. Since we have the ability to source cotton fiber on the "spot market" if faced with a supply disruption, we would not expect cotton fiber supply issues to have a material effect on our operations.

[Table of Contents](#)

We generate substantially all of the electrical energy used by our Munising mill and approximately 25 of the electrical energy at our Appleton and Bruckmühl mills. Availability of energy is not expected to be a problem in the foreseeable future, but the purchase price of such energy can and likely will fluctuate significantly based on fluctuations in demand and other factors. There is no assurance that that we will be able to obtain electricity or natural gas purchases on favorable terms in the future.

Except for certain specialty latex grades and specialty softwood pulp used by our technical products business and cotton fiber used by our fine paper and packaging business, we are not aware of any significant concentration of business transacted with a particular supplier.

Interest Rate Risk

We are exposed to interest rate risk on our variable rate bank debt. At December 31, 2015, we had \$51.1 million of variable rate borrowings outstanding. A 100 basis point increase in interest rates would increase our annual interest expense on outstanding variable rate borrowings by approximately \$0.5 million.

Environmental Regulation/Climate Change Legislation

Our manufacturing operations are subject to extensive regulation primarily by U.S., German and other international authorities. We have made significant capital expenditures to comply with environmental laws, rules and regulations. Due to changes in environmental laws and regulations, including potential future legislation to limit GHG emissions, the application of such regulations and changes in environmental control technology, we are not able to predict with certainty the amount of future capital spending to be incurred for environmental purposes. Taking these uncertainties into account, we have planned capital expenditures for environmental projects during the period 2016 through 2018 of approximately \$1 million to \$2 million annually.

We believe these risks can be managed and will not have a material effect on our business or our consolidated financial position, results of operations or cash flows.

Item 8. Financial Statements and Supplementary Data

The information required in Item 8 is contained in and incorporated herein by reference from pages F-1 through F-54 of this Annual Report on Form 10-K.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

The Company's management, with the participation of its Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act and are effective in ensuring that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Management's Annual Report on Internal Control Over Financial Reporting

The Company's management is responsible for establishing and maintaining effective internal control over financial reporting as defined in Rules 13a-15(f) or 15a-15(f) under the Securities Exchange Act of 1934. The Company's internal control over financial reporting is designed to provide reasonable assurance to the Company's management and board of directors regarding the preparation and fair presentation of published financial statements.

[Table of Contents](#)

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

Management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2015. The scope of management's assessment of the effectiveness of internal control over financial reporting includes all of the Company's businesses except for the FiberMark business acquired in August 2015. The FiberMark business constituted approximately 22 percent of total assets, seven percent of revenues, and one percent of net income of the consolidated financial statement amounts as of and for the year ended December 31, 2015. Further discussion of this acquisition can be found in Note 3 "Acquisitions" to our consolidated financial statements. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control — Integrated Framework (2013). Based upon its assessment, management believes that as of December 31, 2015, the Company's internal controls over financial reporting were effective.

The effectiveness of internal control over financial reporting as of December 31, 2015, has been audited by Deloitte & Touche LLP, the independent registered public accounting firm who also audited the Company's consolidated financial statements. Deloitte & Touche's attestation report on the Company's internal control over financial reporting is included herein. See "Item 15 — Exhibits and Financial Statement Schedule."

Nee Nah Paper, Inc
February 26, 2016

Changes in Internal Control Over Financial Reporting

There has been no significant change in the Company's internal control over financial reporting during the three months ended December 31, 2015 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Item 9B. Other Information

None.

PART III**Item 10. Directors and Executive Officers of the Registrant**

The information required to be set forth herein, except for the information included under Executive Officers of the Company, relating to nominees for director of Neenah and compliance with Section 16(a) of the Securities Exchange Act of 1934 is set forth under the captions "Election of Directors," "Meetings and Committees of the Board of Directors," "Corporate Governance" and "Section 16(a) Beneficial Ownership Reporting Compliance," respectively, in the Proxy Statement for the Annual Meeting of Stockholders to be held on May 26, 2016. Such information is incorporated herein by reference. The definitive Proxy Statement will be filed with the Securities and Exchange Commission no later than 120 days after December 31, 2015.

Executive Officers of the Company

Set forth below is information concerning our executive officers.

<u>Name</u>	<u>Position</u>
John P. O'Donnell	President and Chief Executive Officer
Steven S. Heinrichs	Senior Vice President, General Counsel and Secretary
Bonnie C. Lind	Senior Vice President, Chief Financial Officer and Treasurer
James R. Piedmonte	Senior Vice President — Operations
Julie A. Schertell	Senior Vice President — President, Fine Paper and Packaging
Armin S. Schwinn	Senior Vice President — Managing Director of Neenah Germany
Larry N. Brownlee	Vice President — Controller and Principal Accounting Officer

John P. O'Donnell, born in 1960, is our President and Chief Executive Officer and has been in that role since May 2011. Prior to becoming President and Chief Executive Office, Mr. O'Donnell served as our Senior Vice President, Chief Operating Officer since June 2010. In November 2007, Mr. O'Donnell joined the Company as President, Fine Paper. Mr. O'Donnell was employed by Georgia-Pacific Corporation from 1985 until 2007 and held increasingly senior roles in the Consumer Products division. Mr. O'Donnell served as President of the North America Retail Business from 2004 through 2007, and as President of the North American Commercial Tissue business from 2002 through 2004.

Steven S. Heinrichs, born in 1968, is our Senior Vice President, General Counsel and Secretary and has been in that role since June 2004 when he joined Kimberly-Clark as Chief Counsel, Pulp and Paper and General Counsel for Neenah Paper, Inc. Prior to his employment with Kimberly-Clark, Mr. Heinrichs served as Associate General Counsel and Assistant Secretary for Mariner Health Care, Inc., a nursing home and long-term acute care hospital company. Before joining Mariner Health Care in 2003, Mr. Heinrichs served as Associate General Counsel and Assistant Secretary for American Commercial Lines LLC, a leading inland barge and shipbuilding company from 1998 through 2003. Mr. Heinrichs engaged in the private practice of law with Skadden, Arps, Slate, Meagher and Flom LLP and Shuttleworth, Smith, McNabb and Williams PLLC from 1994 through 1998. Mr. Heinrichs received his MBA from the Kellogg School of Management at Northwestern University in 2008.

Bonnie C. Lind, born in 1958, is our Senior Vice President, Chief Financial Officer and Treasurer and has been in that role since June 2004. Ms. Lind was an employee of Kimberly-Clark from 1982 until 2004, holding a variety of increasingly senior financial and operations positions. From 1999 until June 2004, Ms. Lind served as the Assistant Treasurer of Kimberly-Clark and was responsible for managing Kimberly-Clark's global treasury operations. Prior to that, she was Director of Kimfibers with overall responsibility for the sourcing and distribution of pulp to Kimberly-Clark's global operations.

James R. Piedmonte, born in 1956, is our Senior Vice President — Operations and has been in that role since June 2004. Mr. Piedmonte had been employed by Kimberly-Clark from 1978 until 2004, and held increasingly senior positions within Kimberly-Clark's operations function. Mr. Piedmonte was responsible for Kimberly-Clark's pulp mill and forestry operations in Pictou, Nova Scotia, from 2001 until 2004. Previously he was the Director of Operations for the fine paper business operations, as well as mill manager at the Whiting, Wisconsin mill.

[Table of Contents](#)

Julie A. Schertell, born in 1969, is our Senior Vice President — President, Fine Paper and Packaging and has been in that role since January 2014. Ms. Schertell joined the Company in 2008 and served as Vice President of Sales and Marketing for the Fine Paper division through December 2010 and as a Senior Vice President of the Company and President, Fine Paper through December 2013. Ms. Schertell was employed by Georgia-Pacific Corporation in the Consumer Products Retail division, where she served as Vice President of Sales Strategy from 2007-2008, and as Vice President of Customer Solutions from 2003 through 2007.

Armin S. Schwinn, born in 1959, is our Senior Vice President — Managing Director of Neenah Germany and has been in that role since April 2010. Mr. Schwinn had been Vice President, Finance of Neenah Germany since our acquisition of FiberMark Germany in October 2006. Mr. Schwinn joined FiberMark Germany in 1995 and held increasingly senior positions within FiberMark Germany's financial, purchasing and administrative functions. Prior to this, Mr. Schwinn served in various leadership positions in other German manufacturing and service companies.

Larry N. Brownlee, born in 1956, is our Vice President — Controller and Principal Accounting Officer and has been in that role since July 2004. From 1990 to 2004, Mr. Brownlee served as Controller of several public companies in the electric utility, telephone and healthcare industries. From 1979 to 1990, Mr. Brownlee was with Arthur Andersen & Co. and provided audit services to clients primarily in the manufacturing, utility and healthcare industries. Mr. Brownlee received his Masters of Accountancy from the University of Georgia in 1979.

There are no family relationships among our directors or executive officers.

Code of Ethics

The Neenah Paper, Inc. Code of Business Conduct and Ethics, applies to all directors, officers and employees of Neenah. The Code of Business Conduct and Ethics meets the requirements of a "code of ethics" as defined by Item 406 of Regulation S-K, and applies to our Chief Executive Officer, Chief Financial Officer (our principal financial officer) and Vice President — Controller (our principal accounting officer), as well as all other employees, as indicated above. The Code of Business Conduct and Ethics also meets the requirements of a code of conduct under New York Stock Exchange listing standards. The Code of Business Conduct and Ethics is posted on our web site at www.neenah.com under the links "Investor Relations — Corporate Governance — Code of Ethics" and print copies are available upon request without charge. You can request print copies by contacting our General Counsel in writing at Neenah Paper, Inc., 3460 Preston Ridge Road, Suite 600, Alpharetta, Georgia 30005 or by telephone at 678-566-6500. The Company intends to disclose any amendments to the Code of Business Conduct and Ethics, as well as any waivers for executive officers or directors, on our web site at www.neenah.com. Information on our web site is not incorporated by reference in this document.

Item 11. Executive Compensation

Information relating to executive compensation and other matters is set forth under the captions "Compensation, Discussion and Analysis," "Additional Executive Compensation," "Director Compensation," and "Compensation Committee Report" in the Proxy Statement referred to in Item 10 above. Such information is incorporated herein by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management

Information relating to ownership of common stock of Neenah by certain persons is set forth under the caption "Security Ownership of Certain Beneficial Owners and Management" in the Proxy Statement referred to in Item 10 above. Such information is incorporated herein by reference. Information regarding securities authorized for issuance under equity compensation plans of Neenah is set forth under the caption "Equity Compensation Plan Information" in the Proxy Statement referred to in Item 10 above. Such information is incorporated herein by reference.

Item 13. Certain Relationships and Related Transactions and Director Independence

Information relating to existing or proposed relationships or transactions between Neenah and any affiliate of Neenah is set forth under the caption "Certain Relationships and Related Transactions" in the Proxy Statement referred to in Item 10 above. Such information is incorporated herein by reference.

Item 14. Principal Accountant Fees and Services

Information relating to Neenah's principal accounting fees and services is set forth under the caption "Independent Registered Public Accounting Firm Fees and Services" in the Proxy Statement referred to in Item 10 above. Such information is incorporated herein by reference.

PART IV

Item 15. Exhibits and Financial Statement Schedule

(a) Documents filed as part of this report:

1. Consolidated Financial Statements

The following reports and financial statements are filed herewith on the pages indicated:

	<u>Page</u>
Report of Independent Registered Public Accounting Firm on Internal Control over Financial Reporting	F-2
Report of Independent Registered Public Accounting Firm	F-3
Consolidated Statements of Operations	F-4
Consolidated Statements of Other Comprehensive Income	F-5
Consolidated Balance Sheets	F-6
Consolidated Statements of Changes in Stockholders' Equity	F-7
Consolidated Statements of Cash Flows	F-8
Notes to Consolidated Financial Statements	F-9

2. Financial Statement schedule

The following schedule is filed herewith:

Schedule II — Valuation and Qualifying Accounts	F-54
---	----------------------

All other schedules for which provision is made in the applicable accounting regulations of the Securities and Exchange Commission are not required under the related instructions or are inapplicable and, therefore, have been omitted.

3. Exhibits

See (b) below

(b) Exhibits

The following exhibits are filed with or incorporated by reference in this report. Where such filing is made by incorporation by reference to a previously filed registration statement or report, such registration statement or report is identified in parentheses. We will furnish any exhibit at no cost upon written request to us at: Investor Relations, Neenah Paper, Inc., 3460 Preston Ridge Road, Suite 600, Alpharetta, Georgia 30005.

<u>Exhibit Number</u>	<u>Exhibit</u>
2	Distribution Agreement dated as of November 20, 2004 between Kimberly-Clark Corporation and Neenah Paper, Inc. (filed as Exhibit 2.1 to the Neenah Paper, Inc. Current Report on Form 8-K filed November 30, 2004 and incorporated herein by reference).
2.1	Sale and Purchase Agreement dated as of August 9, 2006 by and between FiberMark, Inc., FiberMark International Holdings LLC, and Neenah Paper, Inc. (filed as Exhibit 2.1 to the Neenah Paper, Inc. Current Report on Form 8-K filed October 11, 2006 and incorporated herein by reference).
2.2	Assignment of Sale and Purchase Agreement Rights dated October 11, 2006 by and between Neenah Paper, Inc. and Neenah Paper International, LLC (filed as Exhibit 2.2 to the Neenah Paper, Inc. Current Report on Form 8-K filed October 11, 2006 and incorporated herein by reference).
2.3	Interest Purchase Agreement by and among ASP FiberMark Holdings, LLC, ASP FiberMark, LLC, Neenah FMK Holdings, LLC and Neenah Paper, Inc. dated as of July 16, 2015 (filed as Exhibit 2.1 to the Neenah Paper, Inc. Quarterly Report on Form 10-Q for the three months ended September 30, 2015, filed November 9, 2015 and incorporated herein by reference).
2.4	Agreement and Plan of Merger, among Neenah Paper, Inc., Fox Valley Corporation, Fox River Paper Company, LLC and AF/CPS Holding Corporation, dated as of February 5, 2007 (filed as Exhibit 2.1 to the Neenah Paper, Inc. Current Report on Form 8-K filed March 1, 2007 and incorporated herein by reference).

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Neenah Paper, Inc.
Alpharetta, Georgia

We have audited the internal control over financial reporting of Neenah Paper, Inc. and subsidiaries (the "Company") as of December 31, 2015, based on criteria established in *Internal Control — Integrated Framework* (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. As described in Management's Annual Report on Internal Control Over Financial Reporting, management excluded from its assessment the internal control over financial reporting at ASP FiberMark, LLC., which was acquired on August 1, 2015 and whose financial statements constitute 22 percent of total assets, seven percent of revenues, and one percent of net income of the consolidated financial statement amounts as of and for the year ended December 31, 2015. Accordingly, our audit did not include the internal control over financial reporting at ASP FiberMark, LLC. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2015, based on the criteria established in *Internal Control — Integrated Framework* (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule as of and for the year ended December 31, 2015 of the Company and our report dated February 26, 2016 expressed an unqualified opinion on those financial statements and financial statement schedule.

Atlanta, Georgia
February 26, 2016

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Neenah Paper, Inc.
Alpharetta, Georgia

We have audited the accompanying consolidated balance sheets of Neenah Paper, Inc. and subsidiaries (the "Company") as of December 31, 2015 and 2014, and the related consolidated statements of income, comprehensive income, changes in stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2015. Our audits also included the financial statement schedule listed in the Index at Item 15. These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Neenah Paper, Inc. and subsidiaries as of December 31, 2015 and 2014, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2015, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2015, based on the criteria established in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated February 26, 2016 expressed an unqualified opinion on the Company's internal control over financial reporting.

NEENAH PAPER INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except as noted)

Note 1. Background and Basis of Presentation

Background

Neenah Paper, Inc. ("Neenah" or the "Company"), is a Delaware corporation incorporated in April 2004. The Company has two primary operations: its technical products business and its fine paper and packaging business (formerly known as the fine paper business). On January 1, 2015, we changed the name of our fine paper business to fine paper and packaging. The name change better reflects the increasing importance, and plans for continued growth, of our premium packaging products.

The technical products business is an international producer of fiber-formed, coated and/or saturated specialized media that delivers high performance benefits to customers. Included in this segment are filtration media, tape and abrasives backings products, and durable label and specialty substrate products. The fine paper and packaging business is a supplier of branded premium printing, packaging and other high end specialty papers primarily in North America. The Company's premium writing, text and cover papers, and specialty papers are used in commercial printing and imaging applications for corporate identity packages, invitations, personal stationery and high-end advertising, as well as premium labels and luxury packaging.

On July 1, 2015, the Company reorganized its internal management structure and, accordingly, addressed its segment reporting structure. As a result of this reorganization, the Other operating segment (composed of the non-premium Index, Tag and Vellum Bristol product lines acquired as part of the purchase of the Wausau brands) was combined with the Fine Paper and Packaging operating segment to reflect the manner in which this business is managed. In addition, as part of the FiberMark acquisition, the Company acquired certain product lines composed of papers sold to converters for end uses such as covering materials for datebooks, diaries, yearbooks and traditional photo albums. Due to the dissimilar nature of these products, management decided that they would not be managed as part of either the existing Fine Paper and Packaging or Technical Products businesses. These product lines represent an operating segment which does not meet the quantitative threshold for a reportable segment. See Note 13, "Business Segment and Geographic Information."

On October 31, 2015, the Company sold its paper mill located in Lahnstein, Germany (the "Lahnstein Mill") to the Kajo Neukirchen Group (the "Buyer") for net cash proceeds of approximately \$5.4 million. For the year ended December 31, 2015, discontinued operations reported on the consolidated statements of operations reflect the results of operations and the loss on sale of the Lahnstein Mill. The consolidated statements of operations for the years ended December 31, 2014 and 2013 have been restated to report results of the Lahnstein Mill as discontinued operations. As of December 31, 2014, the assets and liabilities of the Lahnstein Mill are classified as assets held for sale on the consolidated balance sheet. See Note 12, "Discontinued Operations and Assets Held for Sale."

On August 1, 2015, the Company purchased all of the outstanding equity of ASP FiberMark, LLC ("FiberMark") from ASP FiberMark Holdings, LLC ("American Securities") for approximately \$118 million (the "FiberMark Acquisition"). The purchase price was financed through \$80 million of cash on hand and the balance from available borrowing capacity on the Company's revolving credit facility. FiberMark is a specialty coatings and finishing company with a strong presence in luxury packaging and technical products. In September 2015, the Company announced the planned closure of the Fitchburg, Massachusetts mill (the "Fitchburg Mill"), acquired in the FiberMark Acquisition to consolidate its manufacturing footprint. Manufacturing operations at the Fitchburg Mill ceased in December 2015. See Note 3, "Acquisitions" and Note 12, "Discontinued Operations and Assets Held for Sale."

On July 1, 2014, the Company purchased all of the outstanding equity of Crane Technical Materials, Inc. from Crane & Co., Inc. for approximately \$72 million. The acquired technical materials business provides performance-oriented wet laid nonwoven media for filtration end markets as well as environmental, energy and industrial uses. The acquired technical materials business has two manufacturing facilities in Pittsfield, Massachusetts. See Note 3, "Acquisitions."

NEENAH PAPER INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 1. Background and Basis of Presentation (Continued)

On January 31, 2013, the Company purchased certain premium business paper brands and other assets from the Southworth Company ("Southworth") for a payment of \$7.0 million. See Note 3, "Acquisitions."

Basis of Presentation

The consolidated financial statements include the financial statements of the Company and its wholly owned and majority owned subsidiaries. All inter-company balances and transactions have been eliminated in consolidation.

Note 2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of net sales and expenses during the reporting periods. Actual results could differ from these estimates, and changes in these estimates are recorded when known. Significant management judgment is required in determining the accounting for, among other things, pension and postretirement benefits, retained insurable risks, reserves for sales discounts and allowances, purchase price allocations, useful lives for depreciation and amortization, future cash flows associated with impairment testing for tangible and intangible long-lived assets, goodwill, income taxes, contingencies, inventory obsolescence and market reserves and the valuation of stock-based compensation.

Revenue Recognition

The Company recognizes sales revenue when all of the following have occurred: (1) delivery has occurred, (2) persuasive evidence of an agreement exists, (3) pricing is fixed or determinable, and (4) collection is reasonably assured. Delivery is not considered to have occurred until the customer takes title and assumes the risks and rewards of ownership. The timing of revenue recognition is largely dependent on shipping terms. Sales are reported net of allowable discounts and estimated returns. Reserves for cash discounts, trade allowances and sales returns are estimated using historical experience.

Earnings per Share ("EPS")

The Company's restricted stock units ("RSUs") are paid non-forfeitable common stock dividends and thus meet the criteria of participating securities. Accordingly, basic EPS has been calculated using the two-class method, under which earnings are allocated to both common stock and participating securities. Basic EPS has been computed by dividing net income allocated to common stock by the weighted average common shares outstanding. For the computation of basic EPS, weighted average RSUs outstanding are excluded from the calculation of weighted average shares outstanding.

Accounting Standards Codification ("ASC") Topic 260, *Earnings per Share* ("ASC Topic 260") requires companies with participating securities to calculate diluted earnings per share using the "Two Class" method. The "Two Class" method requires first calculating diluted earnings per share using a denominator that includes the weighted average share equivalents from the assumed conversion of dilutive securities. Diluted earnings per share is then calculated using net income reduced by the amount of distributed and undistributed earnings allocated to participating securities calculated using the "Treasury Stock" method and a denominator that includes the weighted average share equivalents from the assumed conversion of dilutive securities excluding participating securities. Companies are required to report the lower of the diluted earnings per share amounts under the two calculations subject to the anti-dilution provisions of ASC Topic 260.

NEENAH PAPER INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 2. Summary of Significant Accounting Policies (Continued)

Diluted EPS has been computed by dividing net income allocated to common stock by the weighted average number of common shares used in computing basic EPS, further adjusted to include the dilutive impact of the exercise or conversion of common stock equivalents, such as stock options, stock appreciation rights ("SARs") and target awards of Restricted Stock Units with performance conditions ("Performance Units"), into shares of common stock as if those securities were exercised or converted. For the years ended December 31, 2015, 2014 and 2013, approximately 45,000, 15,000 and 450,000 potentially dilutive options, respectively, were excluded from the computation of dilutive common shares because the exercise price of such options exceeded the average market price of the Company's common stock for the respective 12-month periods during which the options were outstanding.

The following table presents the computation of basic and diluted shares of common stock used in the calculation of EPS (amounts in millions, except share and per share amounts):

Earnings per basic common share

	Year Ended December 31,		
	2015	2014	2013
Income from continuing operations	\$ 60.5	\$ 68.0	\$ 48.5
Distributed and undistributed amounts allocated to participating securities	(0.6)	(0.8)	(0.8)
Income from continuing operations available to common stockholders	59.9	67.2	47.7
Income (loss) from discontinued operations, net of income taxes	(9.4)	0.7	3.5
Distributed and undistributed amounts allocated to participating securities	0.1	—	—
Net income available to common stockholders	\$ 50.6	\$ 67.9	\$ 51.2
Weighted-average basic shares outstanding	16,754	16,584	16,072
Basic earnings (loss) per share			
Continuing operations	\$ 3.58	\$ 4.05	\$ 2.97
Discontinued operations	(0.56)	0.04	0.21
	\$ 3.02	\$ 4.09	\$ 3.18

Earnings per diluted common share

	Year Ended December 31,		
	2015	2014	2013
Income from continuing operations	\$ 60.5	\$ 68.0	\$ 48.5
Distributed and undistributed amounts allocated to participating securities	(0.5)	(0.8)	(0.8)
Income from continuing operations available to common stockholders	60.0	67.2	47.7
Income (loss) from discontinued operations, net of income taxes	(9.4)	0.7	3.5
Distributed and undistributed amounts allocated to participating securities	0.1	—	—
Net income available to common stockholders	\$ 50.7	\$ 67.9	\$ 51.2
Weighted-average basic shares outstanding	16,754	16,584	16,072
Add: Assumed incremental shares under stock-based compensation plans	258	288	331
Weighted average diluted shares	17,012	16,872	16,403

NEENAH PAPER INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 2. Summary of Significant Accounting Policies (Continued)

Cash and Cash Equivalents

Cash and cash equivalents include all cash balances and highly liquid investments with an initial maturity of three months or less. The Company places its temporary cash investments with high credit quality financial institutions. As of December 31, 2015 and 2014, \$0.3 million and \$0.4 million, respectively, of the Company's cash and cash equivalents is restricted to the payment of postretirement benefits for certain former Fox River executives.

Inventories

U.S. inventories are valued at the lower of cost, using the Last-In, First-Out (LIFO) method for financial reporting purposes, or market. German inventories are valued at the lower of cost, using a weighted-average cost method, or market. Cost includes labor, materials and production overhead.

Foreign Currency

Balance sheet accounts of the Company's operations in Germany, the United Kingdom (the "U.K.") and Canada are translated from Euros, British Pounds and Canadian dollars, respectively, into U.S. dollars at period-end exchange rates, and income and expense accounts are translated at average exchange rates during the period. Translation gains or losses related to net assets located in Germany, the U.K. and Canada are recorded as unrealized foreign currency translation adjustments within accumulated other comprehensive income (loss) in stockholders' equity. Gains and losses resulting from foreign currency transactions (transactions denominated in a currency other than the entity's functional currency) are included in other (income) expense — net in the consolidated statements of operations.

Property and Depreciation

Property, plant and equipment are stated at cost, less accumulated depreciation. Certain costs of software developed or obtained for internal use are capitalized. When property, plant and equipment is sold or retired, the costs and the related accumulated depreciation are removed from the accounts, and the gains or losses are recorded in other (income) expense — net. For financial reporting purposes, depreciation is principally computed on the straight-line method over estimated useful asset lives. The weighted average remaining useful lives for buildings, land improvements and machinery and equipment are approximately 18 years, 13 years and 10 years, respectively. For income tax purposes, accelerated methods of depreciation are used.

Estimated useful lives are periodically reviewed and changed when warranted. Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that their cost may not be recoverable. An impairment loss would be recognized when estimated undiscounted future pre-tax cash flows from the use of an asset are less than its carrying amount. Measurement of an impairment loss is based on the excess of the carrying amount of the asset over its fair value. Fair value is generally measured using discounted cash flows.

The costs of major rebuilds and replacements of plant and equipment are capitalized, and the cost of maintenance performed on manufacturing facilities, composed of labor, materials and other incremental costs, is expensed as incurred. Start-up costs for new or expanded facilities, including costs related to trial production, are expensed as incurred.

The Company accounts for asset retirement obligations ("AROs") in accordance with ASC Topic 410, Asset Retirements and Environmental Obligations, which requires companies to make estimates regarding future events in order to record a liability for AROs in the period in which a legal obligation is created. Such liabilities are recorded at fair value, with an offsetting increase to the carrying value of the related long-lived asset. As of December 31, 2015, the Company is unable to estimate its AROs for environmental liabilities at its manufacturing facilities.

NEENAH PAPER INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 2. Summary of Significant Accounting Policies (Continued)

Goodwill and Other Intangible Assets

The Company follows the guidance of ASC Topic 805, *Business Combinations* ("ASC Topic 805"), in recording goodwill arising from a business combination as the excess of purchase price over the fair value of identifiable assets acquired and liabilities assumed.

Under ASC Topic 350, *Intangibles — Goodwill and Other* ("ASC Topic 350"), goodwill is subject to impairment testing at least annually. ASC Topic 350 provides an entity with the option to first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, after assessing the totality of events or circumstances, an entity determines it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, then performing the two-step impairment test is unnecessary. If the two-step impairment test is necessary, a fair-value-based test is applied at the reporting unit level, which is generally one level below the operating segment level. The test compares the fair value of an entity's reporting units to the carrying value of those reporting units. This test requires various judgments and estimates. The Company estimates the fair value of the reporting unit using a market approach in combination with a discounted operating cash flow approach. Impairment of goodwill is measured as the excess of the carrying amount of goodwill over the fair values of recognized and unrecognized assets and liabilities of the reporting unit. An adjustment to goodwill will be recorded for any goodwill that is determined to be impaired. The Company tests goodwill for impairment at least annually on November 30 in conjunction with preparation of its annual business plan, or more frequently if events or circumstances indicate it might be impaired.

The Company tested goodwill for impairment as of November 30, 2015. In the Company's testing of goodwill for impairment, it estimated the fair value of the reporting units using a market approach in combination with a discounted operating cash flow approach. Significant assumptions used in developing the discounted operating cash flow approach were revenue growth rates and pricing, costs for manufacturing inputs, levels of capital investment and estimated cost of capital for high, medium and low growth environments. As of November 30, 2015 no impairment was indicated.

Intangible assets with finite useful lives are amortized on a straight-line basis over their respective estimated useful lives to their estimated residual values, and reviewed for impairment in accordance with ASC Topic 360, *Property, Plant, and Equipment*. Intangible assets consist primarily of customer relationships, trade names and acquired intellectual property. Such intangible assets are amortized using the straight-line method over estimated useful lives of between 10 and 15 years. Certain trade names are estimated to have indefinite useful lives and as such are not amortized. Intangible assets with indefinite lives are reviewed for impairment at least annually. See Note 4, "Goodwill and Other Intangible Assets."

Research and Development Expense

Research and development costs are charged to expense as incurred and are recorded in "Selling, general and administrative expenses" on the consolidated statement of operations. See Note 14, "Supplemental Data — Supplemental Statement of Operations Data."

Note 2. Summary of Significant Accounting Policies (Continued)

Fair Value Measurements

The Company measures the fair value of pension plan assets in accordance with ASC Topic 820, *Fair Value Measurements and Disclosures* ("ASC Topic 820") which establishes a framework for measuring fair value. ASC Topic 820 provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques attempt to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the fair value of the Company's pension plan assets:

	Assets at Fair Value at December 31,							
	Level 1		Level 2		Level 3		Total	
	2015	2014	2015	2014	2015	2014	2015	2014
Plan assets subject to leveling:								
Cash and cash equivalents	\$ 6.9	\$ 1.0	\$ —	\$ —	\$ —	\$ —	\$ 6.9	\$ 1.0
Plan assets measured at NAV:								
Investment funds (a)							301.4	287.3
Total plan assets at fair value							\$ 308.3	\$ 288.3

(a) Certain pension plan assets are measured at NAV (or its equivalent) as an alternative to fair market value due to the absence of readily available market prices. Following is the fair value of each such investment category:

- U.S and Non-U.S. Equities (\$92.4 million and \$99.2 million at December 31, 2015 and 2014, respectively) — These proprietary mutual funds have observable net asset values (based on the fair value of the underlying investments of the funds) that are provided to investors and provide for liquidity either immediately or within a few days.

NEENAH PAPER INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 2. Summary of Significant Accounting Policies (Continued)

- U.S and Non-U.S. Fixed Income Securities (\$185.8 million and \$188.1 million at December 31, 2015 and 2014, respectively) — These proprietary mutual funds have observable net asset values (based on the fair value of the underlying investments of the funds) that are provided to investors and provide for liquidity either immediately or within a few days.
- Hedge Funds (\$23.2 million at December 31, 2015) — These funds are valued using net asset values calculated by the fund managers and allow for quarterly or more frequent redemptions.

Fair Value of Financial Instruments

The carrying amounts reflected in the consolidated balance sheets for cash and cash equivalents, accounts receivable and accounts payable approximate fair value due to their short maturities. The fair value of short and long-term debt is estimated using rates currently available to the Company for debt of the same remaining maturities. The following table presents the carrying value and the fair value of the Company's debt.

	December 31, 2015		December 31, 2014	
	Carrying Value	Fair Value (a)	Carrying Value	Fair Value (a)
2021 Senior Notes (5.25% fixed rate)	\$ 175.0	\$ 169.9	\$ 175.0	\$ 169.6
Global Revolving Credit Facilities (variable rates)	51.1	51.1	48.7	48.7
Second German Loan Agreement (2.5% fixed rate)	8.3	8.3	10.6	9.0
Total debt	<u>\$ 234.4</u>	<u>\$ 229.3</u>	<u>\$ 234.3</u>	<u>\$ 227.3</u>

(a) Fair value for all debt instruments was estimated from Level 2 measurements.

The Company's investments in marketable securities are accounted for as "available-for-sale securities" in accordance with ASC Topic 320, *Investments — Debt and Equity Securities* ("ASC Topic 320"). Pursuant to ASC Topic 320, marketable securities are reported at fair value on the consolidated balance sheet and unrealized holding gains and losses are reported in other comprehensive income until realized upon sale. At December 31, 2015, the Company had \$3.3 million in marketable securities classified as "Other Assets" on the consolidated balance sheet. The cost of such marketable securities was \$3.4 million. Fair value for the Company's marketable securities was estimated from Level 1 inputs. The Company's marketable securities are restricted to the payment of benefits under its supplemental retirement contribution plan (the "SERP").

Other Comprehensive Income (Loss)

Comprehensive income (loss) includes, in addition to net income (loss), gains and losses recorded directly into stockholders' equity on the consolidated balance sheet. These gains and losses are referred to as other comprehensive income items. Accumulated other comprehensive income (loss) consists of foreign currency translation gains and (losses), deferred gains and (losses) on "available-for-sale" securities, and adjustments related to pensions and other post-retirement benefits. The Company does not provide income taxes for foreign currency translation adjustments related to indefinite investments in foreign subsidiaries.

The components of accumulated other comprehensive income (loss), net of applicable income taxes are as follows:

	December 31,	
	2015	2014
Unrealized foreign currency translation losses	\$ (20.8)	\$ (5.8)
Net loss from pension and other postretirement benefit liabilities (net of income tax benefits of \$33.8 million and \$31.1 million, respectively)	(57.5)	(62.6)
Accumulated other comprehensive loss	<u>\$ (78.3)</u>	<u>\$ (68.4)</u>

NEENAH PAPER INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 2. Summary of Significant Accounting Policies (Continued)

The following table presents changes in accumulated other comprehensive income ("AOCI"):

	Year Ended December 31,								
	2015			2014			2013		
	Pretax Amount	Tax Effect	Net Amount	Pretax Amount	Tax Effect	Net Amount	Pretax Amount	Tax Effect	Net Amount
Unrealized foreign currency translation gains (losses)	\$ (15.0)	\$ —	\$ (15.0)	\$ (23.7)	\$ —	\$ (23.7)	\$ 8.7	\$ —	\$ 8.7
Adjustment to pension and other benefit liabilities	6.3	(1.2)	5.1	(26.1)	8.7	(17.4)	22.5	(8.6)	13.9
Unrealized loss on "available-for-sale" securities	—	—	—	—	—	—	(0.1)	—	(0.1)
Other comprehensive income (loss)	<u>\$ (8.7)</u>	<u>\$ (1.2)</u>	<u>\$ (9.9)</u>	<u>\$ (49.8)</u>	<u>\$ 8.7</u>	<u>\$ (41.1)</u>	<u>\$ 31.1</u>	<u>\$ (8.6)</u>	<u>\$ 22.5</u>

For the years ended December 31, 2015, 2014 and 2013, the Company reclassified \$7.1 million, \$4.7 million and \$6.5 million, respectively, of costs from accumulated other comprehensive income to cost of products sold and selling, general and administrative expenses on the Consolidated Statements of Operations. For the years ended December 31, 2015, 2014 and 2013, the Company recognized an income tax benefit of \$2.7 million, \$1.7 million and \$2.5 million, respectively, related to such reclassifications classified as Provision for income taxes on the Consolidated Statements of Operations.

For the year ended December 31, 2015, the Company reclassified \$5.5 million of costs from accumulated other comprehensive income to loss from discontinued operations on the Consolidated Statements of Operations. For the years ended December 31, 2014 and 2013, the Company reclassified \$3.5 million and \$0.2 million, respectively, of costs from accumulated other comprehensive income to pension plan settlement charge on the Consolidated Statements of Operations. For the years ended December 31, 2014 and 2013, the Company recognized an income tax benefit of \$1.3 million and \$0.1 million, respectively, related to such reclassifications classified as Provision for income taxes on the Consolidated Statements of Operations.

Recently Adopted Accounting Standards

In April 2015, the Financial Accounting Standards Board ("FASB") issued ASU No. 2015-03, Interest-Imputation of Interest ("ASU 2015-03"). ASU 2015-03 requires that unamortized debt issuance costs be presented in the balance sheet as a direct deduction from the carrying amount of the debt liability, consistent with debt discounts or premiums. ASU 2015-03 is effective for fiscal years, and the interim periods within those years, beginning after December 15, 2015. In August 2015, the FASB issued ASU No. 2015-15, Imputation of Interest (Subtopic 835-30) ("ASU No. 2015-15"). ASU No. 2015-15 updates the changes in ASU No. 2015-03 based on an announcement of the staff of the U.S. Securities and Exchange Commission. ASU No. 2015-15 provides an exception to ASU No. 2015-03 allowing debt issuance costs related to line-of-credit arrangements to continue to be presented as an asset regardless of whether there are any outstanding borrowings under such arrangement. Early adoption of ASU 2015-03 is permitted and the Company elected to early adopt ASU No. 2015-03 as of December 31, 2015 and to apply the guidance retrospectively to all periods presented. The adoption of ASU 2015-03 resulted in the reclassification of \$5.0 million and \$6.1 million of unamortized deferred financing costs from Other Assets to Long-Term Debt on the consolidated balance sheet at December 31, 2015 and 2014, respectively.

NEENAH PAPER INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 2. Summary of Significant Accounting Policies (Continued)

In July 2015, the FASB issued ASU No. 2015-07, Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent) ("ASU 2015-07"). ASU 2015-07 requires that investments for which fair value is measured at net asset value per share ("NAV") (or its equivalent) using the practical expedient should not be categorized in the fair value hierarchy. By removing these investments from the fair value hierarchy, ASU 2015-07 ensures that all investments categorized in the fair value hierarchy are classified using a consistent approach. ASU 2015-07 is effective for fiscal years, and the interim periods within those years, beginning after December 15, 2015. Early adoption of ASU 2015-07 is permitted and the Company elected to early adopt ASU No. 2015-07 as of December 31, 2015 and to apply the guidance retrospectively to all periods presented. The adoption of ASU 2015-07 resulted in the removal of approximately \$301.4 million and \$287.3 million of pension plan assets from the fair value hierarchy at December 31, 2015 and 2014, respectively. See "Fair Value Measurements" above.

In September 2015, the FASB issued ASU No. 2015-16, *Business Combinations* (Topic 805) — *Simplifying the Accounting for Measurement-Period Adjustments* ("ASU No. 2015-16"). ASU No. 2015-16 changes the accounting for measurement-period adjustments related to business combinations. Currently, an acquiring entity is required to retrospectively adjust the balance sheet amounts of the acquiree recognized at the acquisition date with a corresponding adjustment to goodwill during the measurement period, as well as revise comparative information for prior periods presented within financial statements as needed, including revising income effects, such as depreciation and amortization, as a result of changes made to the balance sheet amounts of the acquiree. Such adjustments are required when new information is obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the measurement of the amounts initially recognized or would have resulted in the recognition of additional assets or liabilities. The measurement period is the period after the acquisition date during which the acquirer may adjust the balance sheet amounts recognized for a business combination (generally up to one year from the date of acquisition). ASU No. 2015-16 eliminates the requirement to make such retrospective adjustments, and, instead requires the acquiring entity to record these adjustments in the reporting period they are determined. Additionally, the changes require the acquiring entity to present separately on the face of the income statement or disclose in the notes to the financial statements the portion of the amount recorded in current-period income by line item that would have been recorded in previous reporting periods if the adjustment to the balance sheet amounts had been recognized as of the acquisition date. ASU No. 2015-16 is effective for fiscal years, and the interim periods within those years, beginning after December 15, 2015. Early adoption is permitted and the Company elected to early adopt ASU 2015-16 as of December 31, 2015. As a result of the adoption of ASU 2015-16, the Company recorded the measurement-period adjustments related to the FiberMark Acquisition determined during the three months ended December 31, 2015 on the December 31, 2015 Consolidated Balance Sheet. See Note 3, "Acquisitions."

In November 2015, the FASB issued ASU 2015-17, Income Taxes ("ASU 2015-17"). ASU 2015-17 requires that deferred tax liabilities and assets be classified as noncurrent in a classified balance sheet. Prior to the issuance of ASU 2015-17, deferred tax liabilities and assets were required to be separately classified into a current amount and a noncurrent amount in the balance sheet. ASU 2015-17 represents a change in accounting principle and is effective for fiscal years, and the interim periods within those years, beginning after December 15, 2016. Early adoption is permitted and the Company elected to early adopt ASU 2015-17 as of December 31, 2015 and to apply the guidance retrospectively to all periods presented. The adoption of ASU 2015-17 resulted in the reclassification of \$19.8 million and \$15.8 million from current deferred income taxes to noncurrent deferred income taxes on the consolidated balance sheet at December 31, 2015 and 2014, respectively.

NEENAH PAPER INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 2. Summary of Significant Accounting Policies (Continued)

Accounting Standards Changes

In May 2014, the Financial Accounting Standards Board issued Accounting Standards Update No. 2014-09 ("ASU 2014-09"), Revenue from Contracts with Customers ("ASC Topic 606"). ASU 2014-09 supersedes the revenue recognition guidance in ASC Topic 605, Revenue Recognition. The core principle of the guidance in ASU 2014-09 is that an entity should recognize revenue to depict the transfer of promised goods and services to customers in an amount that reflects the consideration to which the entity expects to be entitled in the exchange for those goods or services. ASU 2014-09 is effective for annual reporting periods beginning after December 15, 2016. Therefore, the Company will adopt ASU 2014-09 on January 1, 2017. The Company is currently evaluating the impact of adopting ASU 2014-09 on its consolidated financial statements.

As of December 31, 2015, no other amendments to the ASC had been issued and not adopted by the Company that will have or are reasonably likely to have a material effect on the its financial position, results of operations or cash flows.

Note 3. Acquisitions

Acquisition of FiberMark

On August 1, 2015, the Company purchased all of the outstanding equity of FiberMark from American Securities for approximately \$118 million. FiberMark is a specialty coatings and finishing company with a strong presence in luxury packaging and technical products. In September 2015, the Company announced the planned closure of the Fitchburg Mill, acquired in the FiberMark Acquisition to consolidate its manufacturing footprint. Manufacturing operations at the Fitchburg Mill ceased in December 2015. See Note 12, "Discontinued Operations and Assets Held for Sale."

The Company accounted for the transaction using the acquisition method in accordance with ASC Topic 805, *Business Combinations* ("ASC Topic 805"). The preliminary allocation of the purchase price is based on estimates of the fair value of assets acquired and liabilities assumed as of August 1, 2015 and are subject to adjustment as additional information is obtained. The Company has up to 12 months from the closing of the acquisition to finalize its valuations. Changes to the valuation of assets and liabilities acquired may result in adjustments to the carrying value of assets and liabilities acquired or goodwill. The Company has not identified any material unrecorded pre-acquisition contingencies. Prior to the end of the one-year purchase price allocation period, if information becomes available which would indicate it is probable that such events had occurred as of the acquisition date and the amounts can be reasonably estimated, such items will be included in the final purchase price allocation and may result in an adjustment to the carrying value of assets and liabilities acquired or goodwill. The Company did not recognize any in-process research and development assets as part of the acquisition.

The following table summarizes the allocation of the purchase price to the estimated fair value of the assets acquired and liabilities assumed as of December 31, 2015. During the three months ended December 31, 2015, the Company reduced the amount of acquired goodwill recognized by \$1.2 million from the amount reported at September 30, 2015 due to an increase in the estimated fair value associated with inventories.

Total liabilities assumed	<u>49.9</u>
Net assets acquired	<u>\$ 123.3</u>

The Company estimated the fair value of the assets and liabilities acquired in accordance with ASC Topic 820, *Fair Value Measurements and Disclosures* ("ASC Topic 820"). The fair value of amortizable and non-amortizable intangible assets was estimated by applying a royalty rate to projected revenue, net of tax impacts and adjusted for present value considerations. The Company estimated the fair value of acquired property, plant and equipment using a combination of cost and market approaches. In general, the fair value of other acquired assets and liabilities was estimated using the cost basis of FiberMark.

The excess of the purchase price over the estimated fair value of the tangible net assets and identifiable intangible assets acquired was recorded as acquired goodwill. The factors contributing to the amount of goodwill recognized are based on several strategic and synergistic benefits that are expected to be realized from the acquisition of FiberMark. These benefits include entry into profitable new markets for premium packaging, performance materials and specialty papers with new capabilities and recognized brands, synergies from combining the business with Neenah's existing infrastructure, and the opportunity to accelerate sales growth in areas like premium packaging. None of the goodwill recognized as part of the FiberMark acquisition will be deductible for income tax purposes. However, the Company did acquire all of the tax attributes associated with the FiberMark assets and liabilities, including an insignificant amount of tax deductible goodwill. Approximately \$18.9 million, \$6.2 million and \$0.4 million of the goodwill acquired in the FiberMark acquisition is allocated to the Technical Products, Fine Paper and Packaging and Other segments, respectively. For the year ended December 31, 2015, approximately 30 percent, 40 percent and 30 percent of the results of FiberMark are reported in the Technical Products, Fine Paper and Packaging, and Other segments, respectively.

For the year ended December 31, 2015, the Company incurred \$5.3 million of acquisition and integration costs. For the year ended December 31, 2015, net sales and income from operations before income taxes for the acquired businesses were \$58.1 million and \$1.5 million (excluding the acquisition related costs described above), respectively.

(Dollars in millions, except as noted)

Note 3. Acquisitions (Continued)

The following selected unaudited pro forma consolidated statements of operations data for the years ended December 31, 2015 and 2014 was prepared as though the FiberMark acquisition had occurred on January 1, 2014. The information does not reflect future events that may occur after December 31, 2015 or any operating efficiencies or inefficiencies that may result from the FiberMark acquisition. Therefore, the information is not necessarily indicative of results that would have been achieved had the businesses been combined during the periods presented or the results that the Company will experience going forward.

	Year Ended	
	December 31,	
	2015	2014

Discontinued Operations	(0.55)	0.04
	<u>\$ 3.05</u>	<u>\$ 4.31</u>

Acquisition of Crane Technical Materials

On July 1, 2014, the Company purchased all of the outstanding equity of the Crane Technical Materials business for approximately \$72 million. The acquired business provides performance-oriented wet laid nonwoven media for filtration end markets as well as environmental, energy and industrial uses. The results of this business are reported in the Technical Products segment from the date of acquisition.

The Company accounted for the transaction using the acquisition method in accordance with ASC Topic 805. The allocation of the purchase price is based on estimates of the fair value of assets acquired and liabilities assumed as of July 1, 2014. The Company did not identify any material unrecorded pre-acquisition contingencies. The Company did not acquire any in-process research and development assets as part of the acquisition.

The excess of the purchase price over the estimated fair value of the tangible net assets and identifiable intangible assets acquired was recorded as acquired goodwill. The factors contributing to the amount of goodwill recognized are based on several long-term strategic benefits that are expected to be realized from the acquisition of the technical materials business. These benefits include entry into growing and profitable global markets for water filtration, environmental/emissions control, and energy management with defensible technologies and brands, and the opportunity to accelerate sales growth through synergies with the Company's existing European-based filtration business. In addition, the acquisition of brands and complementary offerings facilitates the Company's expansion into non-woven product lines containing fiberglass, polymer fibers and carbon fibers. Substantially all of the acquired goodwill will be deductible for income tax purposes and is entirely allocated to the Technical Products segment.

Note 3. Acquisitions (Continued)

For the year ended December 31, 2014, the Company incurred \$1.0 million of acquisition-related integration costs. In addition, the Company incurred approximately \$1.1 in capital costs for IT systems and infrastructure projects. For the year ended December 31, 2014, net sales and income from operations before income taxes for the acquired technical materials business were \$24.1 million and \$3.1 million (excluding the acquisition related integration costs described above), respectively.

The following selected unaudited pro forma consolidated statements of operations data for the years ended December 31, 2014 and 2013 was prepared as though the acquisition of the technical materials business had occurred on January 1, 2013. The information does not reflect future events that may occur after December 31, 2014 or any operating efficiencies or inefficiencies that may result from the acquisition of the technical materials business. Therefore, the information is not necessarily indicative of results that would have been achieved had the businesses been combined during the periods presented or the results that the Company will experience going forward.

	Year Ended December 31,

Acquisition of Southworth

On January 31, 2013, the Company purchased certain premium paper brands and other assets from Southworth. The Company paid \$7.0 million for (i) certain premium fine paper brands including Southworth, (ii) approximately one month of finished goods inventory valued at \$1.8 million and (iii) certain converting equipment used for retail grades. The results of the Southworth brands are reported in the Fine Paper and Packaging segment from the date of acquisition. For the year ended December 31, 2013, the Company incurred \$0.4 million in acquisition-related integration costs.

Note 4. Goodwill and Other Intangible Assets

The following table presents the carrying value of goodwill by business segment at December 31, 2015, 2014 and 2013 and changes in the carrying value of goodwill for the years ended December 31, 2015 and 2014.

	Technical Products			Fine Paper and Packaging	Other	
	Gross Amount	Accumulated Impairment Losses	Net	Gross Amount	Gross Amount	Net
Balance at December 31, 2013	\$ 98.9	\$ (57.0)	\$ 41.9	\$ —	\$ —	\$ 41.9
Goodwill acquired in acquisition of the technical materials business	13.5	—	13.5	—	—	13.5
Foreign currency translation	(11.6)	6.7	(4.9)	—	—	(4.9)
Balance at December 31, 2014 (1)	100.8	(50.3)	50.5	—	—	50.5
Goodwill acquired in the Fibermark Acquisition	18.9	—	18.9	6.2	0.4	25.5
Foreign currency translation	(9.0)	5.2	(3.8)	—	—	(3.8)
Balance at December 31, 2015	\$ 110.7	\$ (45.1)	\$ 65.6	\$ 6.2	\$ 0.4	\$ 72.2

- (1) As of December 31, 2014, \$1.0 million of goodwill allocated to the Lahnstein Mill was classified as Assets Held for Sale on the Consolidated Balance Sheet.

Impairment

As of December 31, 2015 and 2014, there was no impairment in the carrying value of goodwill.

Other Intangible Assets

As of December 31, 2015, the Company had net identifiable intangible assets of \$79.1 million. All such intangible assets were acquired in the acquisitions of Neenah Germany, Fox River, FiberMark and the technical materials business; and the acquisition of the Wausau and Southworth brands. The following table details amounts related to those assets.

	December 31, 2015		December 31, 2014 (1)	
	Gross Amount	Accumulated Amortization	Gross Amount	Accumulated Amortization
Amortizable intangible assets				
Customer based intangibles	\$ 35.5	\$ (9.2)	\$ 22.7	\$ (8.1)
Trade names and trademarks	4.4	(1.8)	1.5	(1.3)
Acquired technology	16.0	(1.4)	7.5	(1.0)
Total amortizable intangible assets	55.9	(12.4)	31.7	(10.4)
Trade names	35.6	—	35.3	—
Total	\$ 91.5	\$ (12.4)	\$ 67.0	\$ (10.4)

- (1) As of December 31, 2014, \$2.3 million of intangible assets allocated to the Lahnstein Mill were classified as Assets Held for Sale on the Consolidated Balance Sheet.

NEENAH PAPER INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 4. Goodwill and Other Intangible Assets (Continued)

The following table presents intangible assets acquired in conjunction with the FiberMark acquisition:

	Intangibles	Estimated Useful Lives (Years)
Intangible assets — definite lived		
Trade names and trademarks	\$ 2.3	15
Customer based intangibles	14.1	15
Acquired technology	8.7	13
Total	25.1	
Non-amortizable trade names	1.8	
Total intangible assets	<u>\$ 26.9</u>	

As of December 31, 2015, \$49.8 million, \$28.3 million and \$1.0 million of such intangible assets are reported within the Technical Products, Fine Paper and Packaging and Other segments, respectively. See Note 13, "Business Segment and Geographic Information." Aggregate amortization expense of acquired intangible assets for the years ended December 31, 2015, 2014 and 2013 was \$2.9 million, \$2.3 million and \$1.9 million, respectively and was reported in Cost of Products Sold on the Consolidated Statement of Operations. Estimated amortization expense for the years ended December 31, 2016, 2017, 2018, 2019 and 2020 is \$3.9 million, \$3.6 million, \$3.6 million, \$3.6 million and \$3.6 million, respectively.

Note 5. Income Taxes

The Company accounts for income taxes in accordance with ASC Topic 740, *Income Taxes*. Income tax expense represented 32.7 percent, 9.9 percent and 32.3 percent of income from continuing operations before income taxes for the years ended December 31, 2015, 2014 and 2013, respectively. The following table presents the principal reasons for the difference between the Company's effective income tax rate and the U.S. federal statutory income tax rate:

	Year Ended December 31,					
	2015	2015	2014	2014	2013	2013
U.S. federal statutory income tax rate	35.0%	\$ 31.5	35.0%	\$ 26.4	35.0%	\$ 25.1
U.S. state income taxes, net of federal income tax benefit	2.1%	1.9	2.1%	1.6	2.4%	1.7
Tax on foreign dividends	3.6%	3.2	3.0%	2.3	2.8%	2.0
Foreign tax rate differences (a)	(2.2)%	(2.0)	(2.8)%	(2.1)	(2.4)%	(1.7)
Foreign financing structure (b)	(1.3)%	(1.2)	(2.5)%	(1.9)	(3.3)%	(2.4)
Research and development and other tax credits (c)(d)	(3.9)%	(3.5)	(31.9)%	(24.1)	(3.1)%	(2.2)
Domestic production activities deduction	(2.2)%	(2.0)	—	—	—	—
Uncertain income tax positions	1.3%	1.2	6.5%	4.9	1.3%	0.9
Other differences — net	0.3%	0.3	0.5%	0.4	(0.4)%	(0.3)
Effective income tax rate	<u>32.7%</u>	<u>\$ 29.4</u>	<u>9.9%</u>	<u>\$ 7.5</u>	<u>32.3%</u>	<u>\$ 23.1</u>

- (a) Represents the impact on the Company's effective tax rate due to changes in the mix of earnings among taxing jurisdictions with differing statutory rates.
- (b) Represents the impact on the Company's effective tax rate of the Company's financing strategies.
- (c) For 2015, the Company recognized a \$1.4 million benefit related to research and development ("R&D") tax credits of FiberMark for the period 2012 through July 2015. For 2014, following an extensive study of the Company's R&D activities for the years 2005 through 2013 and a change in methodology, the Company recognized a \$21.9 million net benefit related to R&D tax credits.
- (d) In 2015, this benefit is shown net of a valuation allowance of \$2.9 million.

NEENAH PAPER INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 5. Income Taxes (Continued)

The Company's effective income tax rate can be affected by many factors, including but not limited to, changes in the mix of earnings in taxing jurisdictions with differing statutory rates, the availability of R&D and other tax credits, changes in corporate structure as a result of business acquisitions and dispositions, changes in the valuation of deferred tax assets and liabilities, the results of audit examinations of previously filed tax returns and changes in tax laws.

The following table presents the U.S. and foreign components of income from continuing operations before income taxes:

	Year Ended December 31,		
	2015	2014	2013
Income from continuing operations before income taxes:			
U.S.	\$ 62.2	\$ 46.5	\$ 48.0
Foreign	27.7	29.0	23.6
Total	<u>\$ 89.9</u>	<u>\$ 75.5</u>	<u>\$ 71.6</u>

The following table presents the components of the provision (benefit) for income taxes:

	Year Ended December 31,		
	2015	2014	2013
Provision (benefit) for income taxes:			
Current:			
Federal	\$ 12.7	\$ 0.5	\$ (0.5)
State	1.3	—	0.3
Foreign	5.1	3.4	5.8
Total current tax provision	<u>19.1</u>	<u>3.9</u>	<u>5.6</u>
Deferred:			
Federal	7.7	6.9	18.4
State	2.3	(5.9)	—
Foreign	0.3	2.6	(0.9)
Total deferred tax provision	<u>10.3</u>	<u>3.6</u>	<u>17.5</u>
Total provision for income taxes	<u>\$ 29.4</u>	<u>\$ 7.5</u>	<u>\$ 23.1</u>

The Company has elected to treat its Canadian operations as a branch for U.S. income tax purposes. Therefore, the amount of income (loss) before income taxes from Canadian operations are included in the Company's consolidated U.S. income tax returns and such amounts are subject to U.S. income taxes.

NEENAH PAPER INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 5. Income Taxes (Continued)

The asset and liability approach is used to recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities. The components of deferred tax assets and liabilities are as follows:

	December 31,	
	2015	2014
Net deferred income tax assets		
Employee benefits	\$ 27.8	\$ 21.7
Research and development tax credits	20.9	26.1
Net operating losses and credits	10.7	12.9
Accrued liabilities	2.9	2.5
Inventories	1.3	0.9
Accelerated depreciation	(34.8)	(18.6)
Intangibles	(10.2)	—
Other	1.4	0.2
Net deferred income tax assets	<u>\$ 20.0</u>	<u>\$ 45.7</u>
Net deferred income tax liabilities		
Accelerated depreciation	\$ 12.8	\$ 16.0
Intangibles	3.5	3.5
Employee benefits	(3.9)	(8.1)
Interest limitation	(0.5)	(1.1)
Net operating losses	(0.1)	(0.2)
Other	—	(0.2)
Net deferred income tax liabilities	<u>\$ 11.8</u>	<u>\$ 9.9</u>

The net deferred tax assets relate to U.S. federal and state jurisdictions and the net deferred tax liabilities relate to operations of Germany and the U.K.

As of December 31, 2015, we had \$78.1 million of state NOLs which may be used to offset state taxable income. Our financial statements reflect a related deferred tax asset of approximately 2.5 million, net of uncertain tax positions and valuation allowance. If not used, substantially all of the NOLs will expire in various amounts between 2016 and 2035. As of December 31, 2015, the Company had \$30.2 million of U.S. federal and state R&D credits which, if not used, will expire between 2027 and 2035 for the U.S. federal R&D credits and between 2017 and 2030 for the state R&D credits. The Company also has pre-acquisition and recognized built-in loss carryovers of \$11.0 million. In addition, the Company has \$3.5 million of Alternative Minimum Tax Credit carryovers, which can be carried forward indefinitely.

As of December 31, 2015, the Company had a valuation allowance of \$2.9 million against its state R&D credits and \$0.1 million against its state NOLs, which are shown net in the above table. As of December 31, 2014, the Company had no valuation allowances. In determining the need for a valuation allowance, the Company considers many factors, including specific taxing jurisdictions, sources of taxable income, income tax strategies and forecasted earnings for the entities in each jurisdiction. A valuation allowance is recognized if, based on the weight of available evidence, the Company concludes that it is more likely than not that some portion or all of the deferred income tax asset will not be realized.

As of December 31, 2015 and 2014, the Company had no undistributed earnings of foreign subsidiaries.

NEENAH PAPER INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 5. Income Taxes (Continued)

The following is a tabular reconciliation of the total amounts of uncertain tax positions as of and for the years ended December 31, 2015, 2014 and 2013:

	For the Years Ended		
	December 31,		
	2015	2014	2013
Balance at January 1,	\$ 7.0	\$ 4.3	\$ 4.8
Increases in prior period tax positions	0.5	—	0.2
Decreases in prior period tax positions	—	(2.2)	(0.8)
Increases in current period tax positions	5.5	5.3	1.3
Decreases due to settlements with tax authorities	—	(0.2)	(1.3)
Increase (decrease) from foreign exchange rate changes	(0.1)	(0.2)	0.1
Balance at December 31,	<u>\$ 12.9</u>	<u>\$ 7.0</u>	<u>\$ 4.3</u>

In conjunction with the FiberMark Acquisition, the Company identified various uncertain tax positions totaling \$4.7 million. Such amount was reflected in the purchase price allocation as \$3.7 million of goodwill and \$1.0 million of other current assets. The remaining \$1.3 million of 2015 increases in uncertain tax positions related to R&D Tax Credits for which the tax benefit and the effects of the uncertain tax position were recognized in the 2015 tax provision.

If recognized, \$11.4 million of the benefit for uncertain tax positions at December 31, 2015 would favorably affect the Company's effective tax rate in future periods. The Company does not expect that the expiration of the statute of limitations or the settlement of audits in the next 12 months will result in liabilities for uncertain income tax positions that are materially different than the amounts that were accrued as of December 31, 2015.

The Company or one of its subsidiaries files income tax returns in the U.S. federal jurisdiction, various U.S. state jurisdictions and foreign jurisdictions. The Company is no longer subject to U.S. federal examination for years before 2008 and state and local examinations for years before 2007 and non-U.S. income tax examinations for years before 2012.

The Company recognizes accrued interest and penalties related to uncertain income tax positions in the Provision for income taxes on the consolidated statements of operations. As of December 31, 2015 and 2014, the Company had \$0.4 million and less than \$0.1 million, respectively, accrued for interest and penalties related to uncertain income tax positions.

Note 6. Debt

Long-term debt consisted of the following:

	December 31,	
	2015	2014
2021 Senior Notes (5.25% fixed rate) due May 2021	\$ 175.0	\$ 175.0
Global Revolving Credit Facilities (variable rates) due December 2019	51.1	48.7
Second German Loan Agreement (2.45% fixed rate) due in 32 equal quarterly installments ending September 2022	8.3	10.6
Deferred financing costs	(5.0)	(6.1)
Total Debt	<u>229.4</u>	<u>228.2</u>
Less: Debt payable within one year	1.2	1.4
Long-term debt	<u>\$ 228.2</u>	<u>\$ 226.8</u>

NEENAH PAPER INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 6. Debt (Continued)

Unsecured Senior Notes

2021 Senior Notes

In May 2013, the Company completed an underwritten offering of eight-year senior unsecured notes (the "2021 Senior Notes") at a face amount of \$175 million. The 2021 Senior Notes bear interest at a rate of 5.25%, payable in arrears on May 15 and November 15 of each year, commencing on November 15, 2013, and mature on May 15, 2021. Proceeds from this offering were used to redeem the remaining \$70 million outstanding principal amount of ten-year 7.375% senior unsecured notes, originally issued on November 30, 2004, to repay approximately \$56 million in outstanding revolving credit agreement borrowings and for general corporate purposes. The 2021 Senior Notes are fully and unconditionally guaranteed by substantially all of the Company's domestic subsidiaries (the "Guarantors"). The 2021 Senior Notes were sold in a private placement transaction, have not been registered under the Securities Act of 1933, as amended, and may not be offered or sold absent registration or an applicable exemption from registration requirements.

The 2021 Senior Notes rank equally in right of payment with all the Company's existing and future senior unsecured indebtedness. The guarantees of the 2021 Senior Notes are senior unsecured obligations of the Guarantors and rank equally in right of payment with all existing and future senior unsecured indebtedness of the Guarantors. The 2021 Senior Notes and the guarantees of the 2021 Senior Notes are effectively subordinated to the Company's and the Guarantors' existing and future secured indebtedness (to the extent of the value of the collateral) and are structurally subordinated to all indebtedness and other obligations of the Company's subsidiaries that do not guarantee the 2021 Senior Notes, including the trade creditors of such non-guarantor subsidiaries.

The 2021 Senior Notes contain terms, covenants and events of default with which the Company must comply, which the Company believes are ordinary and standard for notes of this nature. Among other things, the 2021 Senior Notes contain covenants restricting our ability to incur certain additional debt, make specified restricted payments, pay dividends, authorize or issue capital stock, enter into transactions with our affiliates, consolidate or merge with or acquire another business, sell certain of our assets or liquidate, dissolve or wind-up the Company. As of December 31, 2015, the Company was in compliance with all terms of the indenture for the 2021 Senior Notes.

Amended and Restated Secured Revolving Credit Facility

In December 2014, the Company amended and restated its existing credit facility by entering into the Third Amended and Restated Credit Agreement (the "Third Amended Credit Agreement") by and among the Company and certain of its domestic subsidiaries as the "Domestic Borrowers", Neenah Services GmbH & Co. KG ("Neenah Services") and certain of its German subsidiaries as the "German Borrowers", certain other subsidiaries as the "German Guarantors", the financial institutions signatory to the Third Amended Credit Agreement as lenders (the "Lenders"), and JPMorgan Chase Bank, N.A., as agent for the Lenders (the "Administrative Agent").

The Third Amended Credit Agreement, among other things: (1) increased the maximum principal amount of the existing credit facility for the Domestic Borrowers to \$125 million (the "U.S. Revolving Credit Facility"); (2) established a secured, multicurrency, revolving credit facility for the German Borrowers in the maximum principal amount of \$75 million (the "German Revolving Credit Facility," and together with the U.S. Revolving Credit Facility, the "Global Revolving Credit Facilities"); (3) caused the Company and the other Domestic Borrowers to guarantee, among other things, the obligations of the German Borrowers arising under the German Revolving Credit Facility; (4) provides for the Global Revolving Credit Facilities to mature on December 18, 2019; and (5) provides for an accordion feature permitting one or more increases in the Global Revolving Credit Facilities in an aggregate principal amount not exceeding \$50 million, such that the aggregate commitments under the Global Revolving Credit Facilities do not exceed \$250 million. In addition, the Domestic Borrowers may request letters of credit under the U.S. Revolving Credit Facility in an aggregate face amount not to exceed \$20 million outstanding at any time, and the German Borrowers may request letters of credit under the German Revolving Credit Facility in an aggregate face amount not to exceed \$2 million outstanding at any time.

NEENAH PAPER INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 6. Debt (Continued)

Proceeds of borrowings under the Global Revolving Credit Facilities may be used to finance working capital needs, permitted acquisitions, permitted investments (including certain intercompany loans), certain dividends, distributions and other restricted payments, and for other general corporate purposes.

The consolidated statements of cash flows present borrowings and repayments under the Global Revolving Credit Facilities and the predecessor revolving bank credit facility using a gross approach. This approach presents not only discrete borrowings for transactions such as a business acquisition, but also reflects all borrowings and repayments that occur as part of daily management of cash receipts and disbursements. For the year ended December 31, 2015, \$38.0 million was borrowed in conjunction with the FiberMark Acquisition and the remaining \$113.6 million included borrowings for daily cash management. For the year ended December 31, 2014, all of the borrowings related to daily cash management. For the year ended December 31, 2013, \$175.0 million was borrowed under the 2021 Senior Notes, \$11.9 million was borrowed under the Second German Loan Agreement (discussed below), \$7.0 million was borrowed under the revolving bank credit facility for the Southworth acquisition and the remaining \$24.9 million borrowed under the revolving bank credit facility related to daily cash management activities.

The right of the Domestic Borrowers to borrow and obtain letters of credit under the U.S. Revolving Credit Facility is subject to, among other things, the borrowing base of the Domestic Borrowers on a consolidated basis (the "Domestic Borrowing Base"). The right of the German Borrowers to borrow and obtain letters of credit under the German Revolving Credit Facility is similarly subject to a borrowing base requirement (the "German Borrowing Base"). The German Borrowing Base is initially determined on a combined basis for all German Borrowers. Under certain circumstances (including the occurrence of an event of default resulting from an act or omission of any German Borrower or German Guarantor), the Administrative Agent may require the German Borrowing Base to be determined separately for each of the German Borrowers. At its option the Company may, from time to time, allocate a portion of the Domestic Borrowing Base to the German Borrowing Base (resulting in a corresponding reduction of the Domestic Borrowing Base); however, the principal amount of borrowings and the outstanding letter of credit exposure under the German Revolving Credit Facility may not at any time exceed the German Revolving Credit Facility commitment amount then in effect.

The guarantees of the German Guarantors are limited solely to the German Revolving Credit Facility obligations. Under the terms of the Third Amended Credit Agreement and related loan documentation, neither the German Borrowers nor the German Guarantors (collectively, the "German Loan Parties") will be liable for any obligations relating to the U.S. Revolving Credit Facility. The Global Revolving Credit Facilities are secured by liens on all or substantially all of the assets of the Domestic Borrowers. The German Revolving Credit Facility is secured by liens on all or substantially all of the assets of the German Borrowers and certain assets of the German Guarantors. Any liens granted by the German Loan Parties secure only the German Revolving Credit Facility obligations.

Terms, Covenants and Events of Default. In general, borrowings under the Global Revolving Credit Facilities will bear interest at LIBOR (which cannot be less than zero percent) plus an applicable margin ranging from 1.50% to 2.00%, depending on the amount of availability under the Third Amended Credit Agreement. In addition, the Company may elect an Alternate Borrowing Rate ("ABR") for borrowings under the Global Revolving Credit Facilities. ABR borrowings under the Global Revolving Credit Facilities will bear interest at the highest interest rate shown in the following table:

	Applicable Margin	
	U.S. Revolving Credit Facility	German Revolving Credit Facility
Prime rate	0.00%-0.50%	Not applicable
Federal funds rate +0.50%	0.00%-0.50%	Not applicable
Monthly LIBOR (which cannot be less than zero percent) +1.00%	0.00%-0.50%	Not applicable
Overnight LIBOR (which cannot be less than zero percent)	Not applicable	1.50%-2.00%

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 6. Debt (Continued)

The Company is also required to pay a monthly commitment fee on the unused amounts available under the Global Revolving Credit Facilities at a per annum rate of 0.25%.

If aggregate availability under the Global Revolving Credit Facilities is less than the greater of (i) \$20 million and (ii) 10% of the maximum aggregate commitments under the Global Revolving Credit Facilities as then in effect, the Company is required to comply with a fixed charge coverage ratio (as defined in the Third Amended Credit Agreement) of not less than 1.1 to 1.0 for the preceding four-quarter period, tested as of the end of each quarter. Such compliance, once required, would no longer be necessary once (x) aggregate availability under the Global Revolving Credit Facilities exceeds the greater of (i) 17.5% of the aggregate commitment for the Global Revolving Credit Facilities and (ii) \$35 million for 60 consecutive days and (y) no default or event of default has occurred and is continuing during such 60-day period. As of December 31, 2015, aggregate availability under the Global Revolving Credit Facilities exceeded the minimum required amount, and the Company is not required to comply with such fixed charge coverage ratio.

The Third Amended Credit Agreement contains covenants, which the Company believes are ordinary and standard for agreements of this nature, with which the Company and its subsidiaries must comply during the term of the agreement. Among other things, such covenants restrict the ability of the Company and its subsidiaries to incur certain debt, incur or create certain liens, make specified restricted payments, authorize or issue capital stock, enter into transactions with their affiliates, consolidate, merge with or acquire another business, sell certain of their assets, or dissolve or wind up. In addition, if the aggregate availability under the Global Revolving Credit Facilities is less than the greater of (i) \$25 million and (ii) 12.5% of the maximum aggregate commitments under the Global Revolving Credit Facilities as then in effect, the Company will be subject to increased reporting obligations and controls until such time as availability is more than the greater of (a) \$35 million and (b) 17.5% of the maximum aggregate commitments under the Global Revolving Credit Facilities as then in effect.

Subject to certain conditions (including the absence of a default or event of default under the Third Amended Credit Agreement), the Third Amended Credit Agreement permits the Company to make up to \$10 million in cash repurchases of its outstanding common stock during each fiscal year, beginning in 2015, and to pay up to \$25 million in cash dividends to its stockholders during any period of 12 consecutive months; however, such stock repurchases can be made, and such cash dividends can be paid, on an unlimited basis if pro forma aggregate availability under the Global Revolving Credit Facilities is greater than or equal to the greater of (i) \$25 million and (ii) 12.5% of the aggregate commitment under the Global Revolving Credit Facilities, at all times during the 60-day period ending on the date of such repurchase or dividend payment.

The Third Amended Credit Agreement also contains events of default customary for financings of this type, including failure to pay principal or interest, materially false representations or warranties, failure to observe covenants and certain other terms of the Third Amended Credit Agreement, cross-defaults to certain other indebtedness, bankruptcy, insolvency, various ERISA and foreign pension violations, the incurrence of material judgments and changes in control.

Availability under the Global Revolving Credit Facilities varies over time depending on the value of the Company's inventory, receivables and various capital assets. As of December 31, 2015, the Company had \$51.1 million of borrowings and \$2.8 million in letters of credit outstanding under the Global Revolving Credit Facilities and \$122.9 million of available credit (based on exchanges rates at December 31, 2015). As of December 31, 2015 and 2014, the weighted-average interest rate on outstanding Revolver borrowings was 1.8 percent per annum.

The Company's ability to pay cash dividends on its common stock is limited under the terms of both the Third Amended Credit Agreement and the 2021 Senior Notes. As of December 31, 2015, the Company's ability to pay cash dividends on its common stock under the most restrictive terms of its debt agreements was limited to a total of \$25 million in a 12-month period. However, the Company can pay dividends in excess of \$25 million in a 12-month period by utilizing "restricted payment baskets" as defined in the indenture for the 2021 Senior Notes and the Third Amended Credit Agreement.

Note 6. Debt (Continued)

Other Debt

In January 2013, Neenah Germany entered into a project financing agreement for the construction of a melt blown machine (the "Second German Loan Agreement"). The agreement provides for €9.0 million of construction financing which is secured by the melt blown machine. The loan matures in September 2022 and principal is repaid in equal quarterly installments beginning in December 2014. The interest rate on amounts outstanding is 2.45% based on actual days elapsed in a 360-day year and is payable quarterly. At December 31, 2015, €7.6 million (\$8.3 million, based on exchange rates at December 31, 2015) was outstanding under the Second German Loan Agreement.

Principal Payments

The following table presents the Company's required debt payments:

	2016	2017	2018	2019	2020	Thereafter	Total
Debt payments	\$ 1.2	\$ 1.3	\$ 1.2	\$ 52.3	\$ 1.2	\$ 177.2	\$ 234.4

Note 7. Pension and Other Postretirement Benefits

Pension Plans

Except as described below for FiberMark, substantially all active employees of the Company's U.S. operations participate in defined benefit pension plans and/or defined contribution retirement plans. Neenah Germany has defined benefit plans designed to provide a monthly pension upon retirement for substantially all its employees in Germany. In addition, the Company maintains a SERP which is a non-qualified defined benefit plan. The Company provides benefits under the SERP to the extent necessary to fulfill the intent of its defined benefit retirement plans without regard to the limitations set by the Internal Revenue Code on qualified defined benefit plans.

During 2014, the Company offered a one-time lump sum payout option to all eligible U.S. participants in the Neenah Paper Pension Plan with a deferred vested pension benefit (the participant had a vested pension benefit but was no longer an employee of the Company). For the year ended December 31, 2014, approximately 425 individuals elected to receive their pension benefit as a lump-sum payment and the Company paid a total of \$14.0 million in lump-sum payments. For the years ended December 31, 2014 and 2013, benefit payments under certain post-retirement benefit plans exceeded the sum of expected service cost and interest costs for these plans for the respective calendar years. In accordance with ASC Topic 715, *Compensation — Retirement Benefits* ("ASC Topic 715"), for the years ended December 31, 2014 and 2013, the Company measured the liabilities of the post-retirement benefit plans and recognized settlement losses of \$3.5 million and \$0.2 million, respectively.

The Company's funding policy for its U.S. qualified defined benefit plan and its U.K. defined benefit plan is to contribute assets to fully fund the projected benefit obligation. Subject to regulatory and tax deductibility limits, any funding shortfall is to be eliminated over a reasonable number of years. Nonqualified plans providing pension benefits in excess of limitations imposed by taxing authorities are not funded. There is no legal or governmental obligation to fund Neenah Germany's benefit plans and as such the Neenah Germany defined benefit plans are currently unfunded. As of December 31, 2015, Neenah Germany had investments of \$2.0 million that were restricted to the payment of certain post-retirement employee benefits. As of December 31, 2015, \$0.7 million and \$1.3 million of such investments are classified as prepaid and other current assets and other assets, respectively, on the consolidated balance sheet.

The Company uses the fair value of pension plan assets to determine pension expense, rather than averaging gains and losses over a period of years. Investment gains or losses represent the difference between the expected return calculated using the fair value of the assets and the actual return based on the fair value of assets. The Company's pension obligations are measured annually as of December 31.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 7. Pension and Other Postretirement Benefits (Continued)**FiberMark**

Defined benefit plans

FiberMark has a qualified defined benefit plan covering certain U.S. employees. During 2009, FiberMark fully froze this plan so that additional benefits cannot be earned as a result of additional years of service or increases in annual earnings. Plan assets are principally invested in equity, government and corporate debt securities and fixed income mutual funds. FiberMark has a defined benefit plan covering all United Kingdom "U.K." employees, which is designed to provide a monthly pension upon retirement. This plan was fully frozen during 2011 and plan assets are primarily invested in equity mutual funds.

Multi-Employer plan

The hourly employees of the Lowville, New York facility are covered by a multi-employer defined benefit plan. The Company's expense under this plan was less than \$0.1 million for the year ended December 31, 2015. The Company contributes to the multi-employer pension plan under a collective bargaining agreement which provides retirement benefits for certain union employees. The risks of participating in a multi-employer plan are different from single employer plans as assets contributed are available to provide benefits to employees of other employers and unfunded obligations from an employer that discontinues contributions are the responsibility of all remaining employers. In addition, in the event of a plan's termination or the Company's withdrawal from the plan, the Company may be liable for a portion of the plan's unfunded vested benefits. The Company does not anticipate withdrawing from the plan, nor is it aware of any expected plan terminations.

The most recent Pension Protection Act zone status available is for the plan's year-end at December 31, 2014. The zone status in the following table is based on information that the Company received from the plan and is certified by the plan's actuary. Among other factors, plans in the red zone are generally less than 65% funded, plans in the yellow zone are less than 80% funded, and plans in the green zone are at least 80% funded. Information for the multi-employer pension plan in which the Company participates is shown in the table below. The "FIP/RP Status Pending/Implemented" column indicates a financial improvement plan ("FIP") or a rehabilitation plan ("RP") is either pending or has been implemented for the plan. For the year ended December 31, 2014, FiberMark's contributions to the plan were less than 5% of total plan contributions.

Expiration

<u>Pension Fund</u>	<u>EIN/Pension Plan Number</u>	<u>Pension Zone Status 2014</u>	<u>FIP/RP Status Pending or Implemented</u>	<u>Contributions 2015</u>	<u>Surcharge Imposed</u>	<u>Date of Collective Bargaining Agreement</u>
PACE Industry Union Management Pension Fund	11-6166763	Red	Implemented	\$ 0.1 million	Yes	11/9/16

Other Postretirement Benefit Plans

The Company maintains postretirement health care and life insurance benefit plans for active employees of the Company and former employees of the Canadian pulp operations. The plans are generally noncontributory for employees who were eligible to retire on or before December 31, 1992 and contributory for most employees who became eligible to retire on or after January 1, 1993. The Company does not provide a subsidized benefit to most employees hired after 2003.

The Company's obligations for postretirement benefits other than pensions are measured annually as of December 31. At December 31, 2015, the assumed inflationary health care cost trend rates used to determine obligations at December 31, 2015 and costs for the year ended December 31, 2016 is 7.3 percent gradually decreasing to an ultimate rate of 4.5 percent in 2037. The assumed inflationary health care cost trend rates used to determine obligations at December 31, 2014 and costs for the year ended December 31, 2015 were 7.3 percent gradually decreasing to an ultimate rate of 4.5 percent in 2027.

Rate of compensation increase	2.92%	2.96%	2.96%	—	—	—

Expected Long-Term Rate of Return and Investment Strategies

The expected long-term rate of return on pension fund assets held by the Company's pension trusts was determined based on several factors, including input from pension investment consultants and projected long-term returns of broad equity and bond indices. Also considered were the plans' historical 10-year and 15-year compounded annual returns. It is anticipated that, on average, actively managed U.S. pension plan assets will generate annual long-term rates of return of at least 6.50 percent. The expected long-term rate of return on the assets in the plans was based on an asset allocation assumption of approximately 35 percent with equity managers, with expected long-term rates of return of approximately 8 to 10 percent, and 65 percent with fixed income managers, with an expected long-term rate of return of about 4 to 6 percent. The actual asset allocation is regularly reviewed and periodically rebalanced to the targeted allocation when considered appropriate.

NEENAH PAPER INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 7. Pension and Other Postretirement Benefits (Continued)

Plan Assets

Pension plan asset allocations are as follows:

Asset Category	Percentage of Plan Assets At December 31,		
	2015	2014	2013
Equity securities	34%	35%	35%
Debt securities	64%	65%	64%
Cash and money-market funds	2%	—%	1%
Total	100%	100%	100%

The Company's investment objectives for pension plan assets is to ensure, over the long-term life of the pension plans, an adequate pool of assets to support the benefit obligations to participants, retirees, and beneficiaries. Specifically, these objectives include the desire to: (a) invest assets in a manner such that future assets are available to fund liabilities, (b) maintain liquidity sufficient to pay current benefits when due and (c) diversify, over time, among asset classes so assets earn a reasonable return with acceptable risk to capital.

The target investment allocation and permissible allocation range for plan assets by category are as follows:

Asset Category	Strategic Target	Permitted Range
Equity securities	35%	35-45%
Debt securities / Fixed Income	65%	55-65%

As of December 31, 2015, no company or group of companies in a single industry represented more than five percent of plan assets.

The Company's investment assumptions are established by an investment committee composed of members of senior management and are validated periodically against actual investment returns. As of December 31, 2015, the Company's investment assumptions are as follows:

- (a) the plan should be substantially fully invested in debt and equity securities at all times because substantial cash holdings will reduce long-term rates of return;
- (b) equity investments will provide greater long-term returns than fixed income investments, although with greater short-term volatility;
- (c) it is prudent to diversify plan investments across major asset classes;
- (d) allocating a portion of plan assets to foreign equities will increase portfolio diversification, decrease portfolio risk and provide the potential for long-term returns;
- (e) investment managers with active mandates can reduce portfolio risk below market risk and potentially add value through security selection strategies, and a portion of plan assets should be allocated to such active mandates;
- (f) a component of passive, indexed management can benefit the plans through greater diversification and lower cost, and a portion of the plan assets should be allocated to such passive mandates, and
- (g) it is appropriate to retain more than one investment manager, given the size of the plans, provided that such managers offer asset class or style diversification.

For the years ended December 31, 2015, 2014 and 2013, no plan assets were invested in the Company's securities.

NEENAH PAPER INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 7. Pension and Other Postretirement Benefits (Continued)

Cash Flows

At December 31, 2015, the Company expects to make aggregate contributions to qualified pension trusts and payments of pension benefits for unfunded pension plans in 2016 of approximately \$11.3 million (based on exchange rates at December 31, 2015).

Future Benefit Payments

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid:

	Pension Plans	Postretirement Benefits Other than Pensions
2016	\$ 17.5	\$ 3.8
2017	19.4	3.5
2018	19.2	3.9
2019	21.9	4.2
2020	20.2	4.3
Years 2021-2025	113.6	18.6

Health Care Cost Trends

Assumed health care cost trend rates affect the amounts reported for postretirement health care benefit plans. A one-percentage-point change in assumed health care cost trend rates would have the following effects:

	One Percentage- Point	
	Increase	Decrease
Effect on total of service and interest cost components	\$ —	\$ —
Effect on post-retirement benefit other than pension obligation	0.3	(0.3)

Defined Contribution Retirement Plans

Company contributions to defined contribution retirement plans are primarily based on the age and compensation of covered employees. Contributions to these plans, all of which were charged to expense, were \$2.5 million in 2015 and \$1.9 million in 2014 and 2013. In addition, the Company maintains a supplemental retirement contribution plan (the "SRCP") which is a non-qualified, unfunded defined contribution plan. The Company provides benefits under the SRCP to the extent necessary to fulfill the intent of its defined contribution retirement plans without regard to the limitations set by the Internal Revenue Code on qualified defined contribution plans. For the years ended December 31, 2015, 2014 and 2013, the Company recognized expense related to the SRCP of \$0.2 million, \$0.1 million and \$0.3 million, respectively.

FiberMark has several qualified defined contribution plans covering certain hourly and salaried employees. The plans permit employee salary deferrals, with the Company match ranging from 0% to 3% of salary, depending on the plan and the level of employee deferral.

Investment Plans

The Company provides voluntary contribution investment plans to substantially all North American employees. Under the plans, the Company matches a portion of employee contributions. For the years ended December 31, 2015, 2014 and 2013, costs charged to expense for company matching contributions under these plans were \$2.7 million, \$1.9 million and \$1.8 million, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 8. Stock Compensation Plans

The Company established the 2004 Omnibus Stock and Incentive Plan (the "2004 Omnibus Plan") in December 2004 and reserved 3,500,000 shares of \$0.01 par value common stock ("Common Stock") for issuance under the Omnibus Plan. Pursuant to the terms of the 2004 Omnibus Plan, the compensation committee of the Company's Board of Directors may grant various types of equity-based compensation awards, including incentive and nonqualified stock options, SARs, restricted stock, RSUs, RSUs with performance conditions and performance units, in addition to certain cash-based awards. All grants under the Omnibus Plan will be made at fair market value and no grant may be repriced. In general, the options expire ten years from the date of grant and vest over a three-year service period.

At the 2013 Annual Meeting of Stockholders, the Company's stockholders approved an amendment and restatement of the 2004 Omnibus Plan (as amended and restated the "2013 Omnibus Plan"). The amendment and restatement authorized the Company to reserve an additional 1,577,000 shares of Common Stock for future issuance. As of December 31, 2015, the Company had 1,240,000 shares of Common Stock reserved for future issuance under the 2013 Omnibus Plan. As of December 31, 2015, the number of shares available for future issuance was reduced by approximately 10,000 shares for outstanding SARs where the closing market price for the Company's common stock was greater than the exercise price of the SAR. The Company accounts for stock-based compensation pursuant to the fair value recognition provisions of ASC Topic 718, *Compensation — Stock Compensation* ("ASC Topic 718").

Valuation and Expense Information Under ASC Topic 718

Substantially all stock-based compensation expense has been recorded in selling, general and administrative expenses. The following table summarizes stock-based compensation costs and related income tax benefits.

	Year Ended December 31,		
	2015	2014	2013
Stock-based compensation expense	\$ 6.5	\$ 6.0	\$ 4.9
Income tax benefit	(2.5)	(2.3)	(1.9)
Stock-based compensation, net of income tax benefit	<u>\$ 4.0</u>	<u>\$ 3.7</u>	<u>\$ 3.0</u>

The following table summarizes total compensation costs related to the Company's equity awards and amounts recognized in the year ended December 31, 2015.

	Stock Options	Performance Shares and RSUs
	Unrecognized compensation cost — December 31, 2014	\$ 1.1
Grant date fair value current year grants	1.4	4.3

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 8. Stock Compensation Plans (Continued)*Stock Options/SARs*

In August 2014, the Compensation Committee of the Board of Directors approved the conversion of approximately 545,000 outstanding non-qualified stock options held by U.S. employees and U.S. non-employee directors to an equal number of SARs. Upon exercise, the holder of an SAR will receive common shares equal to the number of SARs exercised multiplied by a fraction where the numerator is equal to the market price at the time of exercise minus the exercise price of the SAR and the denominator is equal to the market price at the time of exercise. The SARs can only be settled for shares of Common Stock and the Company will not receive any cash proceeds upon exercise. All other contractual terms of the SARs are unchanged from those of the converted non-qualified stock options. At the date of conversion the fair value of the SARs was equal to the fair value of the stock options exchanged. As a result, the Company did not recognize any additional compensation expense due to the conversion.

The following tables present information regarding stock options awarded during the years ended December 31, 2015, 2014 and 2013.

	2015	2014	2013
Nonqualified stock options granted	87,930	95,670	111,150
Per share weighted average exercise price	\$ 59.72	\$ 43.17	\$ 31.23
Per share weighted average grant date fair value	\$ 16.47	\$ 12.72	\$ 9.61

The weighted-average grant date fair value for stock options granted for the years ended December 31, 2015, 2014 and 2013 was estimated using the Black-Scholes option valuation model with the following assumptions:

	2015	2014	2013
Expected term in years	5.8	5.9	5.3
Risk free interest rate	1.4%	1.9%	0.9%
Volatility	34.4%	36.5%	40.4%
Dividend yield	2.0%	2.2%	1.9%

Expected volatility and the expected term were estimated by reference to the historical stock price performance of the Company and historical data for the Company's stock option awards, respectively. The risk-free interest rate was based on the yield on U.S. Treasury bonds with a remaining term approximately equal to the expected term of the stock option awards. Forfeitures were estimated at the date of grant.

During the year ended December 31, 2012, the Company awarded nonqualified stock options to its President and Chief Executive Officer to purchase 125,000 shares of Common Stock (subject to forfeiture due to termination of employment and other conditions). The exercise price of such nonqualified stock option awards was \$24.09 per share and the options expire in ten years. As of December 31, 2015, 50 percent of the option award had been earned. If certain absolute total return to shareholder targets are achieved, 100 percent of the options will vest on December 31, 2016. Any unvested shares as of December 31, 2016 will be forfeited. The grant date fair value of such stock options was \$9.55 per share and was estimated using a "Monte-Carlo" simulation valuation model.

Note 8. Stock Compensation Plans (Continued)

The following table summarizes stock option activity under the Omnibus Plan for the year ended December 31, 2015:

	Number of Stock Options	Weighted-Average Exercise Price
Options outstanding — December 31, 2014	603,961	\$ 26.49
Add: Options granted	87,930	\$ 59.72
Less: Options exercised	155,217	\$ 26.20
Less: Options forfeited/cancelled	10,063	\$ 36.40
Options outstanding — December 31, 2015	<u>526,611</u>	<u>\$ 31.94</u>

The status of outstanding and exercisable stock options as of December 31, 2015, summarized by exercise price follows:

Exercise Price	Options Vested or Expected to Vest			Options Exercisable			
	Number of Options	Weighted- Average Remaining Contractual Life (Years)	Weighted- Average Exercise Price	Aggregate Intrinsic Value (a)	Number of Options	Weighted- Average Exercise Price	Aggregate Intrinsic Value (a)
\$7.41 — \$19.25	97,636	3.9	\$ 13.06	\$ 4.8	97,636	\$ 13.06	\$ 4.8
\$21.13 — \$32.84	250,022	5.9	\$ 26.07	9.1	93,919	\$ 26.99	3.3
\$35.92 — \$42.82	89,723	6.8	\$ 41.86	1.9	35,513	\$ 40.38	0.8
\$50.60 — \$59.72	89,230	9.0	\$ 59.07	0.3	5,526	\$ 50.87	0.1
	<u>526,611</u>	6.2	\$ 31.93	<u>\$ 16.1</u>	<u>232,594</u>	<u>\$ 23.76</u>	<u>\$ 9.0</u>

- (a) Represents the total pre-tax intrinsic value as of December 31, 2015 that option holders would have received had they exercised their options as of such date. The pre-tax intrinsic value is based on the closing market price for the Company's common stock of \$62.43 on December 31, 2015.

The aggregate pre-tax intrinsic value of stock options exercised for the years ended December 31, 2015, 2014 and 2013 was \$5.5 million, \$12.7 million and \$9.8 million, respectively.

The following table summarizes the status of the Company's unvested stock options as of December 31, 2015 and activity for the year then ended:

	Number of Stock Options	Weighted-Average Grant Date Fair Value
Outstanding — December 31, 2014	311,078	\$ 10.37
Add: Options granted	87,930	\$ 16.47
Less: Options vested	104,991	\$ 10.59
Outstanding — December 31, 2015	<u>294,017</u>	<u>\$ 12.09</u>

NEENAH PAPER INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 8. Stock Compensation Plans (Continued)

As of December 31, 2015, certain participants met age and service requirements that allowed their options to qualify for accelerated vesting upon retirement. As of December 31, 2015, there were approximately 95,000 stock options subject to accelerated vesting that such participants would have been eligible to exercise if they had retired as of such date. The aggregate grant date fair value of options subject to accelerated vesting was \$1.3 million. For the year ended December 31, 2015, stock-based compensation expense for such options was \$0.9 million. For the year ended December 31, 2015, the aggregate grant date fair value of options vested, including options subject to accelerated vesting, was \$2.4 million. Stock options that reflect accelerated vesting for expense recognition become exercisable according to the contract terms of the stock option grant.

Performance Units/RSUs

For the year ended December 31, 2015, the Company granted target awards of 45,060 Performance Units. The measurement period for the Performance Units is January 1, 2015 through December 31, 2015. The Performance Units vest on December 31, 2017. Common Stock equal to not less than 40 percent and not more than 200 percent of the Performance Unit target will be awarded based on the Company's return on invested capital, consolidated revenue growth, the percentage of consolidated free cash flow to revenue and total return to shareholders relative to the companies in the Russell 2000® Value small cap index. As of December 31, 2015, the Company expects that Common Stock equal to approximately 145 percent of the Performance Unit targets will be earned. The market price on the date of grant for the Performance Units was \$59.72 per share. The Company is recognizing stock-based compensation expense pro-rata over the vesting term of the RSUs.

For the year ended December 31, 2015, the Company awarded 9,030 RSUs to non-employee members of the Board of Directors and 3,145 RSUs (net of forfeitures) to employees. The weighted average grant date fair value of such awards was \$61.41 per share and the awards vest one year from the date of grant. During the vesting period, the holders of the RSUs are entitled to dividends, but the RSUs do not have voting rights and are forfeited in the event the holder is no longer an employee or member of the Board of Directors on the vesting date.

Performance Shares vested	94,710	\$ 29.15	(77,000)	\$ 35.85
Shares expired or cancelled	(2,829)	\$ 29.15	(2,630)	\$ 74.79
Outstanding — December 31, 2014	105,294	\$ 31.15	58,270	\$ 74.79
Shares granted (a)	13,415	\$ 61.41	45,060	\$ 78.32
Shares vested	(105,564)	\$ 32.12	(810)	\$ 78.32
Performance Shares vested	107,219	\$ 40.65	(58,270)	\$ 74.79
Shares expired or cancelled	(1,526)	\$ 51.14	(1,200)	\$ 78.32
Outstanding — December 31, 2015 (b)	<u>118,838</u>	\$ 43.29	<u>43,050</u>	\$ 78.32

- (a) For the years ended December 31, 2015, 2014 and 2013, includes 495 RSUs, 622 RSUs and 950 RSUs, respectively, that were granted in lieu of cash dividends. Such dividends-in-kind vest concurrently with the underlying RSUs.
- (b) The aggregate pre-tax intrinsic value of outstanding RSUs as of December 31, 2015 was \$7.4 million.

The aggregate pre-tax intrinsic value of restricted stock and RSUs that vested for the years ended December 31, 2015, 2014 and 2013 was \$6.6 million, \$8.9 million and \$9.3 million, respectively.

Excess Tax Benefits

ASC Topic 718 requires the reporting of excess tax benefits related to the exercise or vesting of stock-based awards as cash provided by financing activities within the statement of cash flows. Excess tax benefits represent the difference between the tax deduction the Company will receive on its tax return for compensation recognized by employees upon the vesting or exercise of stock-based awards and the tax benefit recognized for the grant date fair value of such awards. The Company recorded a reduction in cash flows from operations which fully offset the amount of excess tax benefits reported in cash flows from financing activities. For the years ended December 31, 2015, 2014 and 2013, the Company recognized excess tax benefits related to the exercise or vesting of stock-based awards of \$2.6 million, \$5.6 million and \$2.6 million, respectively.

Note 9. Stockholders' Equity

Common Stock

The Company has authorized 100 million shares of Common Stock. Holders of the Company's Common Stock are entitled to one vote per share.

NEENAH PAPER INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 9. Stockholders' Equity (Continued)

In May 2015, the Company's Board of Directors authorized a program that would allow the Company to repurchase up to \$25 million of its outstanding Common Stock over the next 12 months (the "2015 Stock Purchase Plan"). Purchases by the Company under the 2015 Stock Purchase Plan would be made from time to time in the open market or in privately negotiated transactions in accordance with the requirements of applicable law. The timing and amount of any purchases will depend on share price, market conditions and other factors. The 2015 Stock Purchase Plan does not require the Company to purchase any specific number of shares and may be suspended or discontinued at any time. The 2015 Stock Purchase Plan is expected to be funded using cash on hand or borrowings under the Company's bank credit facility. The Company had a substantially identical \$25 million repurchase program in place during the preceding 12 months that expired in May 2015 (the "2014 Stock Purchase Plan"). The Company had a \$10 million share repurchase program in place during the preceding 12 months that expired in May 2014 (the "2013 Stock Purchase Plan"). The following table shows shares purchased under the respective stock purchase plans:

	Year Ended December 31,					
	2015		2014		2013	
	Shares	\$	Shares	\$	Shares	\$
2015 Stock Purchase Plan	42,100	\$ 2.4	—	\$ —	—	\$ —
2014 Stock Purchase Plan	60,900	3.5	22,600	1.2	—	—
2013 Stock Purchase Plan	—	—	—	—	—	—

As of December 31, 2015, under the terms of the 2021 Senior Notes the Company has limitations on its ability to repurchase shares of its Common Stock. However, the Company can repurchase shares of its Common Stock in excess of such limitation by utilizing "restricted payment baskets" as defined in the indenture for the 2021 Senior Notes and the Third Amended Credit Agreement.

For the years ended December 31, 2015, 2014 and 2013, the Company acquired 40,000 shares, 56,000 shares and 111,000 shares of Common Stock, respectively, at a cost of \$2.5 million, \$3.4 million and \$4.6 million, respectively, for shares surrendered by employees to pay taxes due on vested restricted stock awards and SARs exercised.

Each share of Common Stock contains a preferred stock purchase right that is associated with the share. These preferred stock purchase rights are transferred only with shares of Common Stock. The preferred stock purchase rights become exercisable and separately certificated only upon a "Rights Distribution Date" as that term is defined in the stockholder rights agreement adopted by the Company at the time of the Spin-Off. In general, a Rights Distribution Date occurs ten business days following either of these events: (i) a person or group has acquired or obtained the right to acquire beneficial ownership of 15 percent or more of the outstanding shares of our Common Stock then outstanding or (ii) a tender offer or exchange offer is commenced that would result in a person or group acquiring 15 percent or more of the outstanding shares of our Common Stock then outstanding.

Preferred Stock

The Company has authorized 20 million shares of \$0.01 par value preferred stock. The preferred stock may be issued in one or more series and with such designations and preferences for each series as shall be stated in the resolutions providing for the designation and issue of each such series adopted by the Board of Directors of the Company. The Board of Directors is authorized by the Company's articles of incorporation to determine the voting, dividend, redemption and liquidation preferences pertaining to each such series. No shares of preferred stock have been issued by the Company.

NEENAH PAPER INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 10. Commitments

Leases

The future minimum obligations under operating leases having a noncancelable term in excess of one year as of December 31, 2015, are as follows:

2016	\$ 2.6
2017	2.2
2018	1.6
2019	1.2
2020	1.0
Thereafter	4.3
Future minimum lease obligations	<u>\$ 12.9</u>

For the years ended December 31, 2015, 2014 and 2013 rent expense under operating leases was \$5.4 million, \$4.5 million and \$4.2 million, respectively.

Purchase Commitments

The Company has certain minimum purchase commitments that extend beyond December 31, 2015. Commitments under these contracts are approximately \$7.4 million, \$1.1 million and \$1.1 million for the years ended December 31, 2016, 2017 and 2018, respectively. Such purchase commitments for the year ended December 31, 2016 are primarily for coal contracts. Although the Company is primarily liable for payments on the above-mentioned leases and purchase commitments, management believes exposure to losses, if any, under these arrangements is not material.

Note 11. Contingencies and Legal Matters

Litigation

The Company is involved in certain legal actions and claims arising in the ordinary course of business. While the outcome of these legal actions and claims cannot be predicted with certainty, it is the opinion of management that the outcome of any such claim which is pending or threatened, either individually or on a combined basis, will not have a material effect on the consolidated financial condition, results of operations or liquidity of the Company.

Income Taxes

The Company is continuously undergoing examination by the Internal Revenue Service (the "IRS") as well as various state and foreign jurisdictions. These tax authorities routinely challenge certain deductions and credits reported by the Company on its income tax returns. No significant tax audit findings are being contested at this time with either the IRS or any state or foreign tax authority.

Environmental, Health and Safety Matters

The Company is subject to federal, state and local laws, regulations and ordinances relating to various environmental, health and safety matters. The Company is in compliance with, or is taking actions designed to ensure compliance with, these laws, regulations and ordinances. However, the nature of the Company's business exposes it to the risk of claims with respect to environmental, health and safety matters, and there can be no assurance that material costs or liabilities will not be incurred in connection with such claims. Except for certain orders issued by environmental, health and safety regulatory agencies, with which management believes the Company is in compliance and which management believes are immaterial to the results of operations of the Company's business, Neenah is not currently named as a party in any judicial or administrative proceeding relating to environmental, health and safety matters.

NEENAH PAPER INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 11. Contingencies and Legal Matters (Continued)

While the Company has incurred in the past several years, and will continue to incur, capital and operating expenditures in order to comply with environmental, health and safety laws, regulations and ordinances, management believes that the Company's future cost of compliance with environmental, health and safety laws, regulations and ordinances, and its exposure to liability for environmental, health and safety claims will not have a material effect on its financial condition, results of operations or liquidity. However, future events, such as changes in existing laws and regulations or contamination of sites owned, operated or used for waste disposal by the Company (including currently unknown contamination and contamination caused by prior owners and operators of such sites or other waste generators) may give rise to additional costs which could have a material effect on the Company's financial condition, results of operations or liquidity.

The Company incurs capital expenditures necessary to meet legal requirements and otherwise relating to the protection of the environment at its facilities in the United States and internationally. The Company's anticipated capital expenditures for environmental projects are not expected to have a material effect on our financial condition, results of operations or liquidity.

Employees and Labor Relations

As of December 31, 2015, the Company had approximately 2,340 regular full-time employees of whom 1,140 hourly and 540 salaried employees were located in the United States and 390 hourly and 270 salaried employees were located in Europe. All of the Company's U.S. hourly union employees are represented by the United Steelworkers Union (the "USW"). Hourly union employees at the Company's Bolton, England manufacturing facility are represented by Unite the Union ("UNITE"). The following table shows the status of the Company's bargaining agreements as of December 31, 2015.

<u>Contract Expiration Date</u>	<u>Location</u>	<u>Union</u>
May 5, 2016	Bolton England	UNITE
September 1, 2016	Brattleboro, VT	USW
September 27, 2016	Reading, PA	USW
November 9, 2016	Lowville, NY	USW
January 31, 2018	Whiting, WI (1)	USW
June 30, 2018	Neenah, WI (1)	USW
July 14, 2018	Munising, MI (1)	USW
May 31, 2019	Appleton, WI (1)	USW

- (1) On pension matters the Whiting, Neenah, Munising and Appleton paper mills have bargained jointly with the USW. The current agreement on pension matters will remain in effect until September 2019.

Approximately 50 percent of salaried employees and 80 percent of hourly employees of Neenah Germany are eligible to be represented by the Mining, Chemicals and Energy Trade Union, Industriegewerkschaft Bergbau, Chemie und Energie (the "IG BCE"). In June 2015, the IG BCE and a national trade association representing all employers in the industry signed a collective bargaining agreement covering union employees of Neenah Germany that expires in June 2017. Under German law union membership is voluntary and does not need to be disclosed to the Company. As a result, the number of employees covered by the collective bargaining agreement with the IG BCE that expires in June 2017 cannot be determined. As of December 31, 2015, approximately 235 employees are covered under collective bargaining agreements that expire in the next 12-months.

NEENAH PAPER INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 12. Discontinued Operations and Assets Held for Sale**Discontinued Operations**

On October 31, 2015, the Company sold the Lahnstein Mill to the Buyer, a privately-owned enterprise specializing in equity holdings in German medium-sized companies, for net cash proceeds of approximately \$5.4 million. The Buyer acquired all the assets and liabilities of the Lahnstein Mill, including pension and related liabilities of approximately \$21 million. The Lahnstein Mill, which had annual sales of approximately €50 million, had been operating as a stand-alone business, manufacturing non-woven wallcoverings and various other specialty papers. The sale focuses the Company's portfolio on targeted growth markets such as filtration, premium fine papers and packaging and other performance materials.

Upon reaching an agreement for the sale of the Lahnstein Mill, the Company compared the carrying value of the Lahnstein Mill assets to the fair value of such assets reflected in the sales agreement. As a result, the Company recognized an impairment charge of \$12.0 million to reduce the carrying value of the Lahnstein Mill assets to fair value. In addition, the Company recognized approximately \$1.7 million of transaction costs related to the sale. For the year ended December 31, 2015, discontinued operations reported on the consolidated statements of operations include the results of operations and the loss on sale of the Lahnstein Mill. The consolidated statements of operations for the years ended December 31, 2014 and 2013 have been restated to report results of the Lahnstein Mill as discontinued operations. The results of the Lahnstein Mill were previously reported in the Technical Products segment.

The following table presents selected financial information for discontinued operations:

	Year Ended December 31,		
	2015	2014	2013
Net sales	\$ 43.2	\$ 63.0	\$ 62.8
Cost of products sold (a)	39.7	56.6	52.9
Gross Profit	3.5	6.4	9.9
Selling, general and administrative expenses	3.5	5.2	4.7
Restructuring costs	0.1	0.6	0.2
Other income — net	(0.3)	(0.3)	(0.4)
Income (Loss) From Discontinued Operations Before Income Taxes	0.2	0.9	5.4
Loss on sale (b)	(13.6)	—	—
Income (loss) before income taxes	(13.4)	0.9	5.4
Income tax provision (benefit) (a)	(4.0)	0.2	1.9
Income (loss) from discontinued operations	<u>\$ (9.4)</u>	<u>\$ 0.7</u>	<u>\$ 3.5</u>

- (a) In March 2010, the Company concluded its operating activities in Canada; however, the Company has certain continuing post-employment benefit obligations related to its former Canadian operations. During the first quarter of 2013, the Company received a refund of excess pension contributions from the terminated Terrace Bay pension plan. As a result, the Company recorded income before income taxes from discontinued operations of \$4.2 million and a related provision for income taxes of \$1.6 million.
- (b) This amount includes a net curtailment gain related to the divestiture of the pension plan of \$15.8 million, including a \$5.5 million write-off of deferred actuarial losses.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 13. Business Segment and Geographic Information

On July 1, 2015, the Company reorganized its internal management structure and, accordingly, addressed its segment reporting structure. As a result of this reorganization, the Other operating segment (composed of the non-premium Index, Tag and Vellum Bristol product lines acquired as part of the purchase of the Wausau brands) was combined with the Fine Paper and Packaging operating segment to reflect the manner in which this business is managed. Segment information for prior periods has been restated to conform to the current period presentation. In addition, as part of the FiberMark acquisition, the Company acquired certain product lines composed of papers sold to converters for end uses such as covering materials for datebooks, diaries, yearbooks and traditional photo albums. Due to the dissimilar nature of these products, management decided that they would not be managed as part of either the existing Fine Paper and Packaging or Technical Products businesses. These product lines represent an operating segment which does not meet the quantitative threshold for a reportable segment.

The Company's reportable operating segments now consist of Technical Products, Fine Paper and Packaging and Other. The Technical Products segment is an aggregation of the Company's filtration and performance materials businesses which are similar in terms of economic characteristics, nature of products, processes, customer class and product distribution methods.

The technical products business is an international producer of fiber-formed, coated and/or saturated specialized media that delivers high performance benefits to customers. Included in this segment are filtration media ("Filtration"), tape and abrasives backings products ("Backings"), and durable label and specialty substrate products ("Specialty"). The following table presents sales by product category for the technical products business:

	For the Year ended December 31,		
	2015	2014	2013
Filtration	45%	42%	39%
Backings	30	29	32
Specialty	25	29	29
Total	<u>100%</u>	<u>100%</u>	<u>100%</u>

The fine paper and packaging business is a leading supplier of premium printing and other high end specialty papers ("Graphic Imaging"), premium packaging ("Packaging") and specialty office papers ("Filing/Office") primarily in North America. The following table presents sales by product category for the fine paper and packaging business:

	For the Year ended December 31,		
	2015	2014	2013
Graphic Imaging	80%	91%	92%
Packaging	15	9	8
Filing/Office	5	—	—
Total	<u>100%</u>	<u>100%</u>	<u>100%</u>

Each segment employs different technologies and marketing strategies. Disclosure of segment information is on the same basis that management uses internally for evaluating segment performance and allocating resources. Transactions between segments are eliminated in consolidation. The costs of shared services, and other administrative functions managed on a common basis, are allocated to the segments based on usage, where possible, or other factors based on the nature of the activity. General corporate expenses that do not directly support the operations of the business segments are shown as Unallocated corporate costs. The accounting policies of the reportable operating segments are the same as those described in Note 2, "Summary of Significant Accounting Policies."

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Dollars in millions, except as noted)

Note 13. Business Segment and Geographic Information (Continued)**Concentrations**

In July 2014, Unisource Worldwide, Inc ("Unisource") and xpedx, formerly owned by International Paper ("xpedx") merged to form Veritiv Corporation ("Veritiv"). For the years ended December 31, 2015, 2014 and 2013 sales to Unisource and xpedx (and as merged Veritiv) represented approximately 10 percent of consolidated net sales and approximately 20 percent of net sales of the fine paper and packaging business. Except for certain specialty latex grades and specialty softwood pulp used by Technical Products, management is not aware of any significant concentration of business transacted with a particular supplier that could, if suddenly eliminated, have a material effect on its operations.

Note 14. Supplemental Data**Supplemental Statement of Operations Data****Summary of Advertising and Research and Development Expenses**

	Year Ended December 31,		
	2015	2014	2013
Advertising expense	\$ 6.8	\$ 7.0	\$ 7.3
Research and development expense	6.8	5.7	5.5

- (a) Advertising expense and research and development expense are recorded in selling, general and administrative expenses on the consolidated statements of operations.

Supplemental Balance Sheet Data**Summary of Accounts Receivable — net**

	December 31,	
	2015	2014
From customers	\$ 99.0	\$ 86.2
Less allowance for doubtful accounts and sales discounts	(1.7)	(1.5)
Total	\$ 97.3	\$ 84.7

Summary of Inventories

	December 31,	
	2015	2014
Inventories by Major Class:		
Raw materials	\$ 30.4	\$ 26.1
Work in progress	28.9	16.8
Finished goods	67.2	65.8
Supplies and other	4.1	6.5
	130.6	115.2
Excess of FIFO over LIFO cost	(10.0)	(14.0)
Total	\$ 120.6	\$ 101.2

The FIFO value of inventories valued on the LIFO method was \$118.2 million and \$95.7 million at December 31, 2015 and 2014, respectively. For the year ended December 31, 2015, income from continuing operations before income taxes was reduced by approximately \$0.1 million due to a decrease in certain LIFO inventory quantities.

CERTIFICATIONS

I, John P. O'Donnell, certify that:

1. I have reviewed this Annual Report on Form 10-K of Neenah Paper, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
