Esposito Securities Switches to SS&C's MarketTrader

3/6/2018

Rapid implementation of new OMS gives Dallas-based agency broker-dealer improved scalability and service
WINDSOR, Conn., March 6, 2018 /PRNewswire/ -- SS&C Technologies Holdings, Inc. (Nasdaq: SSNC), a global provider of financial services software and software-enabled services, today announced Esposito Securities LLC, a leading securities broker-dealer, has gone live on SS&C's premier order management solution, MarketTrader.

In an increasingly complex and competitive environment, agency brokers are reluctant to change OMS technology and impact their client trading flow with migration issues and errors. SS&C was able to deliver Esposito a risk-free transition to MarketTrader that successfully improved its service levels and reduced operational costs.

"I can't say enough good things about the team at SS&C," said Mark Esposito, Chief Executive Officer, Esposito Securities LLC. "SS&C's attention to detail and industry experience ensured the transition to the new platform was as seamless as possible. Our clients were up and running in no time with superior technology helping them to

exceed their own clients' expectations."

David Auerbach, Senior Trader and REIT Specialist for Esposito added, "The conversion to MarketTrader was quite possibly the easiest transition I have had with an OMS solution after almost 20 years in the business. We appreciate the premium level support we receive from our dedicated team. Anyone looking for an OMS should consider SS&C's MarketTrader as a strong candidate."

MarketTrader is supported by SS&C's services and support team consisting of processes, tools and expertise that helps clients run their trading desks more efficiently. SS&C's onboarding capabilities make it possible for clients to run their business with virtually no disruption while using the power of its technology towards a more nimble, scalable operating environment.

Shannon Norris, Chief Technology Officer for Esposito, commended MarketTrader's cutting-edge advances. "The ability to have real-time database access to current and historical trading information is invaluable, and allows us to operate with a level of proficiency that was not previously possible."

"We are pleased to have an opportunity to work with Esposito," said Marcos Frisaura, Vice President, MarketTrader. "Esposito provides a unique blend of advanced technology with premium, high execution services. MarketTrader provides Esposito with the scalable, cost-effective technology and services they need to optimize performance and maintain excellent client service."
