SS&C ALPS Advisors Partners with Brown Brothers Harriman & Co. (BBH) to Launch the ALPS Intermediate Municipal Bond ETF (MNBD)

5/20/2022

MNBD offers a compelling opportunity in the Intermediate Municipal market through an actively managed, value-based strategy

WINDSOR, Conn., and DENVER, May 20, 2022 /PRNewswire/ -- SS&C Technologies Holdings, Inc. (Nasdaq: SSNC) today announced that SS&C ALPS Advisors, an asset manager and wholly-owned subsidiary of SS&C, launched the ALPS Intermediate Municipal Bond ETF (MNBD).
MNBD, which is sub-advised by Brown Brothers Harriman & Co, employs an active, bottom-up investment approach to protect investors' capital and generate attractive risk-adjusted returns.

"SS&C ALPS Advisors continues to deliver a robust suite of active ETF strategies for allocators and investors," said Laton Spahr*, President of SS&C ALPS Advisors. "Our partner, BBH, is one of the most experienced managers in the marketplace with decades of experience actively managing municipal bonds. Their unique approach to identifying undervalued municipal securities and building diversified portfolios provides investors with tax-free income, the potential for capital appreciation, and disciplined risk management."

The fund invests in a differentiated portfolio of investment-grade municipal bonds, balancing BBH's conviction with prudent diversification. BBH's bottom-up investment approach seeks to provide peace of mind and supplement tax-free yields with opportunities to earn excess returns. BBH utilizes independent research and a proprietary quantitative framework to assess each security's valuation, credit, and long-term return potential in the fund. Portfolio exposures are built one bond at a time by daily adherence to these criteria.

"The vast diversity of the municipal bond market provides attractive opportunities for active management. However, the pronounced household ownership of municipals creates inefficiencies you don't find in the other major bond market sectors", said Gregory Steier, Managing Director, Brown Brothers Harriman & Co. "We invest 100% bottom-up and seek to build a differentiated portfolio by owning a limited number of durable credits that may provide attractive yields".

The Fund invests principally in municipal securities. If a security's structure fails to function as intended, the security could become taxable or decline in value. Additionally, issuers of municipal obligations may not be able to make timely payments because of general economic downturns or increased governmental costs.

The Fund will not invest 25% or more of its total assets in any one municipal revenue sector relating to bonds backed by revenues from similar types of projects (such as those relating to higher education, healthcare, housing, airports or utilities) or with other similar economic, business, or political characteristics. However, as the Fund's exposure to such similar projects increases, the Fund will also become more sensitive to adverse economic, business or political developments relevant to these projects.
