On the 10th business day of each month it provides a flash estimate of the gross aggregate performance of funds for which GlobeOp provides month administration services. Interim and final values, both gross and net, are provided in each of the two following months, respectively. Online data can be segmented by gross and net performance, and by time periods. The GlobeOp Hedge Fund Performance Index is transparent consistent in data processing, and free from selection or survivorship bias. Its inception date is January 1, 2006.

The GlobeOp Hedge Fund Performance Index offers a unique reflection of the return on capital invested in funds.
