## CalAmp Announces New Line of 802.16e WiMAX-Based 4G Wireless Networking Devices

3/18/2009

OXNARD, Calif.--(BUSINESS WIRE)--Mar. 18, 2009-- **CalAmp Corp. (NASDAQ: CAMP)**, a leading provider of wireless products, services and solutions, today announced the release of its Dataradio Sentry 4G™ Wireless IP Router, a new rugged broadband communications and networking platform designed to support both mobile and fixed devices on a common infrastructure. The Sentry 4G is ideally suited for wide area coverage and bandwidth-intensive applications with data transmission speeds of up to 6 Mbps. Initially released for use in the 900 MHz ISM band, applications include smart grid communications, streaming video, mobile data, high speed SCADA/Telemetry, fleet management, video surveillance and a host of other mission critical applications.

Sentry 4G provides high-speed, long-range broadband wireless connectivity based on industrial grade IEEE 802.16e-2005 (mobile WiMAX) technology and also supports an embedded Wi-Fi module. Ensuring the protection of even the most sensitive data, Sentry 4G combines extensive routing capability with security features such as AES 128-bit encryption, RADIUS authentication and FIPS 140-2 compliance. The Sentry 4G platform includes an easy-to-use configuration interface and a comprehensive SNMP remote management system.

"Sentry 4G introduces our latest technology platform for rugged and secure broadband wireless communications," said Rick Nozel, Senior Vice President of Sales and Marketing for CalAmp's wireless networks business. "Combined with our industry leading licensed narrowband and cellular based products, the Sentry 4G gives our customers no reason to look any further when seeking reliable wireless data communications. The Sentry 4G is the first product in its class to deliver on the promise of converged networks."

CalAmp is exhibiting the Dataradio Sentry 4G Wireless IP Router in booth #1021 at the IWCE 2009 annual convention in Las Vegas, Nevada through March 20, 2009.

## About CalAmp Corp.

CalAmp provides wireless communications solutions that enable anytime/anywhere access to critical data and content. The Company serves customers in the public safety, industrial monitoring and controls, mobile resource management, public utilities and direct broadcast satellite markets. The Company's products are marketed under the CalAmp, Dataradio, SmartLink, Aercept, LandCell and Omega trade names. For additional information, please visit [www.calamp.com](http://www.calamp.com).
