

NEWS RELEASE

CalAmp Awarded Supplier Quality Excellence Process Platinum Certification by Caterpillar

9/22/2015

Certification Recognizes Wireless Communications Solutions Provider's Commitment to Excellence

OXNARD, CA -- (Marketwired) -- 09/22/15 -- CalAmp (NASDAQ: CAMP), a leading provider of wireless products, services and solutions, today announced that it has achieved Platinum Level Certification as part of the Caterpillar (NYSE: CAT) Supplier Quality Excellence Process (SQEP). Certification recognizes suppliers that demonstrate a commitment to excellence and that drive a "zero defects" culture within their organizations. Levels include Bronze, Silver, Gold and Platinum, designated in order of increasingly stringent criteria for suppliers who meet or exceed standards such as product quality and delivery performance measured over a calendar year.

"We are honored to be recognized by the world's leading heavy equipment manufacturer. Caterpillar's quality program is the best in the industry and it is a significant achievement for CalAmp to be awarded platinum certification in our first year as a supplier. It says a great deal about our dedication to product quality and customer service," said Michael Zachan, Senior Vice President and General Manager of CalAmp's Wireless Network business.

Zachan noted that as a Caterpillar supplier, CalAmp provides the company with ruggedized wireless radios that enable data communications for heavy equipment deployed worldwide.

About CalAmp

CalAmp (NASDAQ: CAMP) is a proven leader in providing wireless communications solutions to a broad array of vertical market applications and customers. CalAmp's extensive portfolio of intelligent communications devices, robust and scalable cloud service platform, and targeted software applications streamline otherwise complex Machine-to-Machine (M2M) deployments. These solutions enable customers to optimize their operations by

collecting, monitoring and efficiently reporting business critical data and desired intelligence from high-value mobile and remote assets. For more information, please visit www.calamp.com.
