

NEWS RELEASE

CalAmp Completes Acquisition of SmartLink Radio Networks

4/4/2007

OXNARD, Calif.--(BUSINESS WIRE)--April 4, 2007--CalAmp Corp. (Nasdaq:CAMP), a leading provider of wireless communication solutions, reported today that it has completed the previously announced acquisition of SmartLink Radio Networks, a privately-held company that provides proprietary interoperable radio communications platforms and integration services for public safety and critical infrastructure needs. This acquisition expands CalAmp's existing public safety communications business by offering mobile voice infrastructure solutions.

Under terms of the purchase agreement, CalAmp acquired certain assets and assumed certain liabilities of SmartLink for \$8.1 million in cash. CalAmp financed the transaction with existing cash on hand. SmartLink generated unaudited revenues of approximately \$1.4 million during the three months ended March 31, 2007 and has a current order backlog of approximately \$3.5 million. The acquisition is expected to be accretive to CalAmp in the first year after excluding amortization of intangible assets and a one time charge for In Process R&D arising from the acquisition. CalAmp will transition SmartLink's operations in Wallingford, Connecticut to its Dataradio facilities in Montreal, Canada and Atlanta, Georgia over the next several months.

About CalAmp Corp.

CalAmp is a leading provider of wireless communications products that enable anytime/anywhere access to critical information, data and entertainment content. With comprehensive capabilities ranging from product design and development through volume production, CalAmp delivers cost-effective high quality solutions to a broad array of customers and end markets. CalAmp is the leading supplier of Direct Broadcast Satellite (DBS) outdoor customer premise equipment to the U.S. satellite television market. The Company also provides wireless data communication solutions for the telemetry and asset tracking markets, private wireless networks, public safety communications

and critical infrastructure and process control applications. For additional information, please visit the Company's website at www.calamp.com.

About SmartLink Radio Networks Inc.

SmartLink is a privately held technology company headquartered in Wallingford, Connecticut. SmartLink designs, develops and manufactures interoperable radio communications platforms for use in public safety/service, critical infrastructure and commercial applications. SmartLink has deployed over 90 systems worldwide, including numerous mission critical radio systems for domestic and international police and governmental security forces and power utilities. SmartLink's software-defined network breaks down the barriers created by different radio frequencies and protocols, seamlessly integrating with legacy equipment. The result is a cost-effective and flexible networked radio environment that delivers interoperability, while allowing customers to easily adapt and expand to future technologies. For more information, please visit the SmartLink website at www.smrlink.com.

Forward-Looking Statement

Statements in this press release that are not historical in nature are forward-looking statements, which involve known and unknown risks and uncertainties. Words such as "may", "will", "expect", "intend", "plan", "believe", "seek", "could", "estimate", "judgment", "targeting", "should", and variations of these words and similar expressions, are intended to identify forward-looking statements. Actual results could differ materially from those implied by such forward-looking statements due to a variety of factors, including general and industry economic conditions, competition, the timing of customer approvals of new product designs, operating costs, the Company's ability to efficiently and cost-effectively integrate its acquired businesses, and other risks and uncertainties that are detailed from time to time in the Company's filings with the Securities and Exchange Commission. Although the Company believes the expectations reflected in such forward-looking statements are based upon reasonable assumptions, it can give no assurance that its expectations will be attained. The Company undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
