

NEWS RELEASE

CalAmp Resumes Product Shipments to Key DBS Customer

6/2/2008

OXNARD, Calif.--(BUSINESS WIRE)--June 2, 2008--CalAmp Corp. (Nasdaq:CAMP), a leading provider of wireless products, services, and solutions, announced today that it has resumed product shipments to its historically largest customer.

As previously announced, CalAmp experienced a product performance issue affecting certain Direct Broadcast Satellite (DBS) equipment manufactured by CalAmp for this customer. In addressing this matter, the customer returned product to CalAmp for corrective action and put on hold all orders for CalAmp equipment pending the requalification of the products. As previously reported, in December 2007 CalAmp reached a settlement agreement with the customer that addressed the financial and rework aspects of the product performance issue. This was followed by the customer requalifying CalAmp's designs for the affected products, which paved the way for the resumption of shipments.

Rick Gold, CalAmp's President and Chief Executive Officer, commented, "I am very pleased to report that we have resumed our commercial relationship with what has historically been our largest customer. This initial shipment was for a small quantity, but we expect the volume will ramp up over the next several quarters. Resolving this issue has been CalAmp's highest priority and with this milestone behind us, our focus shifts to rebuilding our competitive position in the DBS market. The hard work over the past year has laid the foundation for profitable growth at CalAmp and I want to thank our employees for their dedicated efforts."

About CalAmp Corp.

CalAmp is a leading provider of high value mission-critical wireless communications solutions that enable anytime/anywhere access. CalAmp's Wireless DataCom Division serves the public safety, industrial monitoring and

controls, and mobile resource management market segments with wireless solutions built on communications technology platforms that include proprietary licensed narrowband, standards-based unlicensed broadband and cellular networks. CalAmp's Satellite Division supplies outdoor customer premise equipment to the U.S. Direct Broadcast Satellite (DBS) market. For additional information, please visit www.calamp.com.

Forward-Looking Statements

Statements in this press release that are not historical in nature are forward-looking statements, which involve known and unknown risks and uncertainties. Words such as "may," "will," "expect," "intend," "plan," "believe," "seek," "could," "estimate," "judgment," "targeting," "should," "anticipate," "goal" and variations of these words and similar expressions, are intended to identify forward-looking statements. Actual results could differ materially from those implied by such forward-looking statements. Although the Company believes the expectations reflected in such forward-looking statements are based upon reasonable assumptions, it can give no assurance that its expectations will be attained. The Company undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
