## CalAmp iOn Suite Named to Equipment Today's 2020 Contractors' Top 50 New Products

9/2/2020

IRVINE, Calif., Sept. 2, 2020 /PRNewswire/ -- **CalAmp** (Nasdaq: CAMP), a global technology solutions pioneer transforming the mobile connected economy, today announced Equipment Today, the nationally recognized equipment magazine serving commercial construction contractors, has selected CalAmp's **iOn™ Suite** of Telematics Services as one of its favored new construction products of 2020.

The editorial teams from Equipment Today and **ForConstructionPros.com** compiled product inquiries and web page views from new products featured in Equipment Today over a 12-month period from May 2019 to April 2020. Winning products represent the leading edge of innovation, quality, efficiency and productivity in the construction equipment field today.

The **CalAmp iOn Suite** is a tightly integrated, cloud-based platform that enables seamless management of a diverse set of assets, from service vehicles to high-value equipment. The solution allows service fleet as well as construction and rental equipment operators to not only track driver behavior and vehicle usage, but to also manage and track expensive portable equipment utilized on each jobsite through a single, easy-to-use CalAmp iOn platform.

"The products recognized by the annual Contractors' Top 50 New Products awards represent what contractors are seeking most to boost profitability on their construction projects," asserts Becky Schultz, Equipment Today editor. "The high level of interest they generated from Equipment Today readers and visitors to **ForConstructionPros.com** demonstrates that these are products contractors feel are capable of improving performance, efficiency and productivity on their jobsites."

"The iOn Suite provides complete visibility of a fleet's drivers, vehicles, assets and cargo, saving fleet operators considerable time, resources and money," said Jeff Clark, senior vice president of product management at CalAmp.

"We are honored to accept this recognition as an affirmation of our efforts to improve operations in the commercial construction marketplace and we intend to continue innovating to drive better business outcomes for our customers in the years ahead."

Additional information on the award recipients can be found in the September issue of Equipment Today and on **ForConstructionPros.com**.
