

NEWS RELEASE

CalAmp's CiPHR(TM) Cellular Modem Certified for Use on AT&T Wireless and Rogers Communications Cellular Networks

4/2/2009

OXNARD, Calif.--(BUSINESS WIRE)--Apr. 2, 2009-- **CalAmp Corp. (NASDAQ: CAMP)**, a leading provider of wireless products, services and solutions, announced today that its Dataradio CiPHR™ cellular modem has been certified by leading North American wireless carriers AT&T Wireless and Rogers Communications of Canada. As previously announced, CalAmp's CiPHR cellular modem was also certified last November by Canadian wireless carrier Bell Mobility.

CalAmp's Dataradio CiPHR is a rugged cellular modem that provides reliable service even in the most challenging operating environments. The CiPHR modem is designed for GSM and CDMA 3G and is backward compatible with corresponding 2G wireless technologies enabling it to automatically connect to the best network and highest data speed available. It is ideally suited for a broad set of mobile, portable or fixed wireless applications for the public safety, utility and service vehicle markets.

"We are pleased to announce the certification of our CiPHR cellular modem for use on leading North American GSM cellular networks," commented Michael Burdick, CalAmp's Chief Operating Officer. "CalAmp is committed to providing customers that have mission-critical wireless data communications requirements with flexible, reliable and cost effective solutions. With these new certifications, we can now expand the reach of our wireless data solutions across North America."

About CalAmp Corp.
