At 4:40 pm ET, Terry Rosen, Ph.D., Chief Executive Officer, and Jennifer Jarrett, Chief Operating Officer and Chief Financial Officer, will participate in a fireside chat. Individuals may access the live audio webcast of the fireside chat by visiting the "Events & Presentations" section of the Company's website at <https://investors.arcusbio.com/investors/events-and-presentations>. A replay of the webcast will be available for 30 days following the live event.

About Arcus Biosciences

Arcus Biosciences is a clinical-stage biopharmaceutical company focused on creating innovative cancer immunotherapies. Arcus has several programs targeting important immuno-oncology pathways, including a dual adenosine receptor antagonist AB928, which is in a Phase 1/1b program to evaluate AB928 in combination with other agents in multiple tumor types, and an anti-PD-1 antibody AB122, which is being evaluated in a Phase 1 trial and is being tested in combination with Arcus's other product candidates. Arcus's other programs include AB154, an anti-TIGIT antibody, which is in a Phase 1 trial to evaluate AB154 as monotherapy and in combination with

AB122, and AB680, a small molecule inhibitor of CD73, which is in IND-enabling studies. Arcus has extensive in-house expertise in medicinal chemistry, immunology, biochemistry, pharmacology and structural biology. For more information about Arcus Biosciences, please visit www.arcusbio.com.
