FORWARD LOOKING STATEMENTS

Some of the statements in this presentation constitute forward-looking statements, which relate to future events or our future performance or financial condition. The forward-looking statements contained in this presentation involve risks and uncertainties, including statements as to: our future operating results; our business prospects and the prospects of our portfolio companies; our relationships with third parties including but not limited to lenders and venture capital investors; the impact and timing of our unfunded obligations; the expected market for venture capital investments; the effect of and uncertainties related to macroeconomic factors such as fluctuating inflation and interest rates, and adverse developments affecting the financial services industry and venture banking ecosystem; the performance of our portfolio and other investments that we may make in the future; the impact of investments that we expect to make; actual and potential conflicts of interest with TriplePoint Capital LLC ("TPC") and TriplePoint Advisers LLC (our "Adviser") and its senior investment team and Investment Committee; our contractual arrangements and relationships with third parties; the dependence of our future success on the general economy and its impact on the industries in which we invest; the ability of our portfolio companies to achieve their objectives, or to obtain financing and working capital on attractive terms or at all; our expected financings and investments; the ability of the Adviser to locate suitable investments for us and to monitor and administer our investments; the ability of our Adviser to attract, retain and have access to highly talented professionals, including our Adviser's senior investment team; our ability to maintain our qualification as a regulated investment company, or "RIC," and as a business development company, or "BDC;" the adequacy of our available liquidity, cash resources and working capital and compliance with covenants under our borrowing arrangements; the timing of cash flows, if any, from the operations of our portfolio companies; and the declaration, payment, amount and/or timing of future dividends or distributions.

Such forward-looking statements are typically preceded by, followed by or otherwise include the words "may," "might," "will," "intend," "should," "could," "can," "would," "expect," "believe," "estimate," "anticipate," "predict," "potential," "plan" or similar words.

We have based the forward-looking statements included in this presentation on information available to us on the date of this presentation, and we assume no obligation to update any such forward-looking statements. Actual results could differ materially from those anticipated in our forward-looking statements, and future results could differ materially from historical performance. Although we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we may make directly to you or through reports that we in the future may file with the Securities and Exchange Commission ("SEC"), including annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K. We believe that the assumptions on which any forward-looking statements are based are reasonable. However, any of those assumptions could prove to be inaccurate, and as a result, the forward-looking statements based on those assumptions also could be inaccurate. In light of these and other uncertainties, the inclusion of a projection or forward-looking statement in this presentation should not be regarded as a representation by us that our plans and objectives will be achieved. You should not place undue reliance on these forward-looking statements, which apply only as of the date of this presentation. For a further discussion of factors, risks and uncertainties that could cause our future results to differ materially from any forward-looking statements, see the sections entitled "Risk Factors" and other disclosure in the Company's most recently filed annual report on Form 10-K and its other public SEC filings.

In addition, with respect to any announced share purchase program or otherwise, there is no assurance that the Company or any of its affiliates, including TPC, will purchase shares of the Company's common stock at any specific discount levels or in any specific amounts. There is no assurance that the market price of the Company's shares, either absolutely or relative to NAV, will increase as a result of any share purchase program, or that any purchase plan will enhance stockholder value over the long term.

This presentation contains statistics and other data that has been obtained from or compiled from information made available by third-party service providers. We have not independently verified such statistics or data.

These materials and any presentation of which they form a part are neither an offer to sell, nor a solicitation of an offer to purchase, an interest in the Company in any jurisdiction where the offer or sale is not permitted or would be unlawful under the securities laws of such jurisdiction. The information presented in this presentation is as of June 30, 2025 unless indicated otherwise.

NON-GAAP FINANCIAL MEASURES

To provide additional information about the Company's results, the Company's management has discussed in this presentation the Company's net leverage ratio (calculated as (i) total debt less (ii) cash, cash equivalents and restricted cash divided by total net assets), which is not prepared in accordance with GAAP. This non-GAAP measure is included to supplement the Company's financial information presented in accordance with GAAP and because the Company uses such measure to monitor and evaluate its leverage and financial condition and believes this presentation enhances investors' ability to analyze trends in the Company's business and to evaluate the Company's leverage and ability to take on additional debt. However, this non-GAAP measure has limitations and should not be considered in isolation or as a substitute for analysis of the Company's financial results as reported under GAAP. This non-GAAP measure is not in accordance with, or an alternative to, measures prepared in accordance with GAAP and may be different from non-GAAP measures used by other companies. In addition, this non-GAAP measure is not based on any comprehensive set of accounting rules or principles and should only be used to evaluate the Company's results of operations in conjunction with its corresponding GAAP measure.

HIGHLY DIFFERENTIATED

INVESTMENT STRATEGY

- Lend to venture capital backed companies primarily at the venture growth stage
- Target companies backed by a select group of leading venture capital investors
- Focus on technology and other high-growth industries
- Venture growth stage companies have distinct risk-mitigating characteristics

MARKET OPPORTUNITY

- Large & growing market opportunity for lending to venture growth stage companies
- Highly fragmented, underserved market with high barriers to entry
- Complements equity investment from VC investors which helps to reduce downside

INVESTMENT OBJECTIVE

- Provide highly-customized, senior secured “growth capital” loans
- Targeted returns of 10% - 18% on debt investments from interest and fees
- Additional upside through equity “kickers” in the form of warrants

USE CASE FOR VENTURE LENDING

- Ability to grow faster, finance business expansion & extend runway – enabling companies to achieve more milestones and command a higher future valuation
- Longer exit timing for IPOs and M&A requires more capital
- Enables diversification of funding sources

BUILT FOR SUCCESS

Why Do High Growth Companies Use Venture Debt?

Value Proposition of Venture Debt

Helps finance acceleration and/or expansion of the business

Provides runway extension for achieving additional milestones

Additional business validation provides negotiating leverage for higher valuations

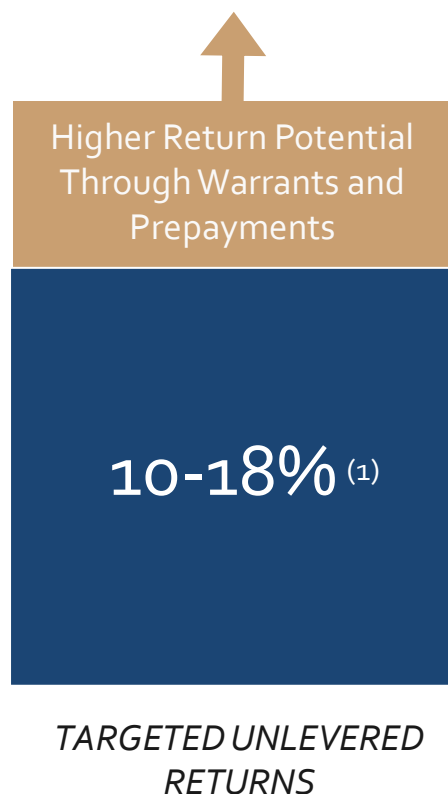

Lowers upfront cost of capital expenditures

Complements existing equity capital and helps boost returns for existing investors

Less dilutive than raising additional equity capital sooner

Venture Debt Provides Compelling Relative Risk-Adjusted Returns

High Yields to Maturity With VC Equity Support & Low Total Leverage

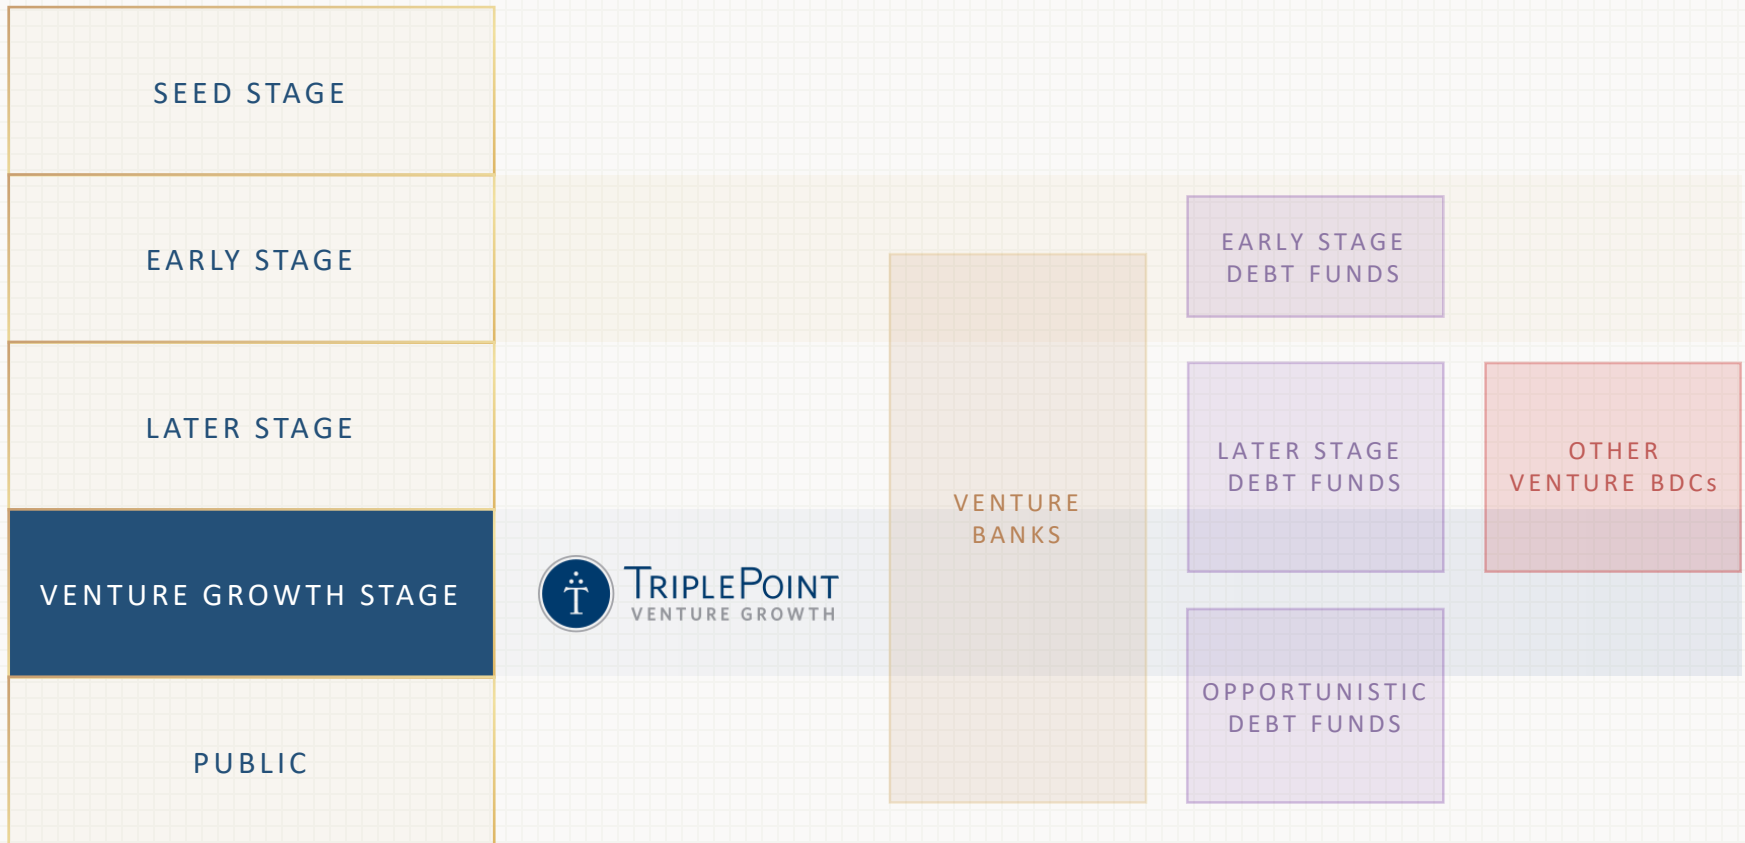

- Generally short term financings (3-4 years)
- Typically amortizing facilities
- Prepayments typically boost returns from acceleration of fees and penalties
- Target loan-to-enterprise value of under 25% at time of underwriting
- Low total leverage profiles of obligors
- Benefit from equity cushion of VC sponsors
- Obligors typically preparing for an IPO or M&A in the next 1-3 years

(1) Excludes equity and warrant gains. Returns based on upfront fees, interest rates, and end of term payments. No guarantee targeted return will be achieved.
