

## **nVent Opens Service and Training Centers Across Europe and Australia**

*Continues momentum and focus on customers*

LONDON-- nVent Electric plc (NYSE:NVT) (“nVent”), a global leader in electrical connection and protection solutions, today announced the opening and expansion of service and training centers across Europe (EU) and Australia. These new centers – located in Jonkoping, Sweden, Straubenhardt, Germany, Sydney, Australia and Sheffield, United Kingdom – provide hands-on and application training with nVent CADDY, ERICO, ERIFLEX, GARDNER BENDER, HOFFMAN, ILSCO and SCHROFF products for its customers and partners.

“The development of these service and training centers help us align with our customers’ needs, supporting nVent’s overall transformation and growth journey,” said Robert van der Kolk, President, EMEA and APAC at nVent. “We are accelerating our impact across EMEA and APAC by bringing our products closer to our customers.”

The opening of these new centers strengthens nVent’s commitment to its customers across key verticals including data centers, power utilities and industrial. These spaces support nVent’s customers, key partners and end users, presenting the opportunity to demonstrate new product offerings, participate in hands-on training and host impactful conversations about the applications for current and future projects. Additionally, nVent showcases its ability to innovate and customize its products to align with customers’ needs.

### **nVent Service Center in Sweden**

nVent recently opened its new service center in Jönköping, Sweden, offering express customization services and Design to Manufacturing (DTM) Software. This software has new tools and live demos featuring the connection with machines to create holes, cutouts and assembly. This exhibition area allows customers to experience the DTM platform firsthand with the PWA6000 wiring assistant and full ergonomic product range. The center is located in nVent’s operating warehouse to allow customers to experience its serviceability, inventory and capabilities.

### **nVent Training Center in Australia**

At this new training center in Sydney, Australia, customers, contractors, channel partners and end users can experience nVent’s products firsthand in the showroom. This center offers training for specific applications and helps its customers evaluate the time-saving benefits of its nVent CADDY and nVent ILSCO products. This new space has an increased warehousing

capacity and increased production to meet the growing demand for electrical connections products.

### **nVent Experience Center in Germany**

At nVent's Straubenhardt, Germany site, nVent's refreshed experience center is designed to deliver immersive, hands-on experiences for its customers and partners. Straubenhardt features a dedicated product showcase and now can host up to 100 guests. nVent regularly updates this space with the newest technology to display its latest product innovations, support hybrid events, workshops and strategic engagements.

### **nVent Service Center in United Kingdom**

nVent opened a new service center in Sheffield, United Kingdom, delivering localized service excellence through its panel shop automation solutions including its DTM software. This center brings nVent products closer to its customers, helping them achieve cost savings and operational efficiency in panel assembly.

### **About nVent**

nVent is a leading global provider of electrical connection and protection solutions. We believe our inventive electrical solutions enable safer systems and ensure a more secure world. We design, manufacture, market, install and service high performance products and solutions that connect and protect some of the world's most sensitive equipment, buildings and critical processes. We offer a comprehensive range of systems protection and electrical connections solutions across industry-leading brands that are recognized globally for quality, reliability and innovation. Our principal office is in London and our management office in the United States is in Minneapolis. Our robust portfolio of leading electrical product brands dates back more than 100 years and includes nVent CADDY, ERICO, HOFFMAN, ILSCO, SCHROFF and TRACHTE.
