nVent Alliance with MAPEI

10/24/2019

LONDON--(BUSINESS WIRE)-- nVent Electric plc (NYSE:NVT) ("nVent"), a global leader in electrical connection and protection solutions, is pleased to announce an alliance with MAPEI, a global leader in the manufacture of mortars, grouts, adhesives and chemicals for the building industry. Utilizing the premium electric floor heating technologies offered under the nVent NUHEAT brand, nVent and MAPEI are working together to create **MAPEI Mapeheat with Technology from nVent NUHEAT** for the Canadian flooring channel.

Starting in late November, select Canadian flooring channel distributors can begin purchasing Mapeheat products from MAPEI and enjoy the same quality, functionality, assortment and purchase price as established by nVent NUHEAT.

nVent Vice President of Building and Infrastructure Solutions Marty Lee, stated, "nVent and the nVent NUHEAT team are excited about this alliance with MAPEI. Both nVent and MAPEI have cultures that emphasize innovation, service and excellent warranty support. This program promises to deliver great value and peace of mind for our growing base of wholesalers, professional installers and end-users. We look forward to delighting our mutual customers with the results of this alliance."

"MAPEI takes pride in our commitment to continuously serve and support customers with the best quality and the most advanced and complete range of systems and services," said Marco Roma, General Manager of MAPEI Inc. "The launch of Mapeheat, in alliance with such an innovative and highly recognized manufacturer as nVent, is another step toward the further consolidation of our position as the leading brand and vendor of choice for the Canadian construction industry."

"This alliance will generate many exciting opportunities. nVent and MAPEI's shared insights into the needs and desires of customers and contractors will lead to better products, enhanced services and improved technical

solutions with compelling value,” stated Wally Lo, nVent Product Manager for Floor Heating in North America.
