

Consensus Cloud Solutions and Olah Healthcare Technology Announce Partnership

Leading Healthcare Technology Providers Join Forces to Modernize Data Exchange and Access to Patient Health Information

LOS ANGELES, CA - September 17, 2024 – [Consensus Cloud Solutions, Inc.](#) (NASDAQ: CCSI) a global leader of digital cloud fax technology and trusted provider of interoperability solutions, announces a strategic partnership with Olah Healthcare Technology, a leader in legacy data archiving services and solutions.

This collaboration unites two industry leaders with a shared goal of simplifying the transition from outdated legacy systems to modern, cloud-based technology. Olah will empower its healthcare customers to migrate from inefficient on-premise faxing to Consensus' leading cloud fax platform, [eFax Corporate](#)[®], enabling a more streamlined and compliant data retention strategy. This mutually beneficial partnership not only strengthens Consensus' position as a trusted provider of cloud fax for healthcare but also offers expanded market reach, heightened brand visibility, and new revenue opportunities for both organizations.

eFax Corporate is a highly secure, reliable, and low-cost alternative to traditional fax machines and can be easily integrated into existing applications and workflows. [Olah](#) helps its customers decommission and consolidate outdated systems in favor of a cloud-based data archiving solution. Simultaneously migrating its customers to eFax Corporate during this transition facilitates the incorporation of faxed data into a health system's comprehensive data archiving platform.

“We’re thrilled to partner with Consensus to offer our customers a streamlined transition from on-premise faxing to a cloud-based solution that supports seamless, simple, and secure fax archiving,” said Chad Hill, Chief Executive Officer at Olah Healthcare Technology.

“This collaboration enables us to maximize cost-savings for our users while enhancing overall data management and accessibility”.

Bill French, Senior Director of Partnerships at Consensus adds, “This exciting partnership presents a significant avenue for growth as we introduce eFax to Olah’s extensive healthcare customer base. Fax communication continues to be a vital means of exchanging patient information, however, organizations still utilizing on-premise and paper-based fax solutions don’t have an efficient way to store or access that data. By combining our secure cloud faxing solution with Olah’s expertise in data archiving, healthcare organizations can further streamline their workflows, improve interoperability, and ensure robust data security.”
