### Consensus Cloud Solutions to Demonstrate How AI-Powered Fax Solutions Bridge Healthcare's Digital Divide at ViVE 2025

*Visit Booth #1610 to Learn How eFax® and Clarity are Supporting Intelligent Healthcare Communication and Advancing Health Equity*

LOS ANGELES, CA – February 11, 2025 – [Consensus Cloud Solutions, Inc.](#) (NASDAQ: CCSI), a leading provider of digital cloud fax and interoperability solutions, will be showcasing its innovative AI-powered faxing solutions at the ViVE 2025 conference in Nashville, TN, from February 16-19. Visit booth #1610 to learn how Consensus technology empowers healthcare organizations to overcome the challenges of unstructured data to achieve seamless interoperability and improve care delivery.

“AI is a game-changer for healthcare communication,” said Jeffrey Sullivan, Chief Technology Officer at Consensus Cloud Solutions. “By applying AI to digital fax, we’re enabling healthcare organizations to extract valuable insights from unstructured documents such as faxes, PDFs and handwritten notes. This not only streamlines workflows and improves efficiency but also bridges the gap between providers with varying levels of technological sophistication, promoting tech equity, health equity, and ensuring quality care.”

When seamless data exchange is hindered by technology gaps, healthcare stakeholders face communication breakdowns that can impact patient satisfaction, health outcomes, and revenue.

#### **Consensus will be showcasing two key solutions at ViVE to help overcome these challenges:**

- [eFax Corporate®](#): the industry-leading, fully-cloud based fax solution, providing secure, reliable, and HIPAA compliant faxing for healthcare organizations of all sizes.
- [Consensus Clarity](#): an AI-powered intelligent data extraction tool that transforms fax workflows, increases productivity, and accelerates patient care.
