- Adjusted Net Income per diluted share of \$0.44.
- Net income from continuing operations of \$178.2 million, or a margin of 18.9%.
- Adjusted EBITDA of \$211.4 million, or a margin of 22.5%.
- Increasing 2026 guidance.

Gates Industrial Corporation Ltd. (NYSE:GTES), a leading global provider of application-specific fluid power and power transmission solutions, today reported results for the second quarter ended June 27, 2026.

Ivo Jurek, Gates Industrial's Chief Executive Officer, commented, "We delivered a strong second quarter, exceeding expectations. We generated record sales and EPS and experienced improving order momentum globally. We believe we are in solid position to capitalize on strengthening industrial demand."

Jurek continued, "We have raised our 2026 guidance for sales, profitability and adjusted earnings per share. We anticipate higher sales growth in the second half of 2026 relative to our initial guidance. Our balance sheet is strong and our capital allocation optionality is significant. I am grateful to our global Gates teams for their dedication and commitment to delivering on our strategic priorities."

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. In some cases, you can identify these forward-looking statements by the use of words such as “outlook,” “believes,” “expects,” “potential,” “continues,” “may,” “will,” “should,” “could,” “seeks,” “predicts,” “intends,” “trends,” “plans,” “estimates,” “anticipates” or the negative version of these words or other comparable words. These statements include, but are not limited to, statements related to expectations regarding the performance of the Company’s business and financial results, our ability to capitalize on demand, anticipated sales growth, our capital allocation optionality and statements regarding our outlook for 2026. Such forward-looking statements are subject to various risks and uncertainties, including, among others, U.S. policies, actions or legislation (including the imposition of tariffs), economic, political and other risks associated with international operations (including as a result of the ongoing conflicts in the Middle East and their impact on supply chains, such as reduced availability of certain of our production materials and increased supply costs, and economic conditions), availability of raw materials or other manufacturing inputs at favorable prices in sufficient quantities, or at a given time, changes in our relationships with, or the financial condition, performance, purchasing power or inventory levels of, of key channel partners, dependence on the continued operation of our manufacturing facilities, supply chains, distribution systems and information technology systems, our ability to forecast demand or meet significant increases in demand and market acceptance of new product introductions and innovations. Additional factors that could cause the Company’s results to differ materially from those described in the forward-looking statements can be found under the section entitled “Risk Factors” of the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2025, filed with the Securities and Exchange Commission (the “SEC”), and Quarterly Report on Form 10-Q for the quarter ended June 27, 2026, which is expected to be filed with the SEC on or about the date of this press release, as such factors may be updated from time to time in the Company’s periodic filings with the SEC, which are accessible on the SEC’s website at www.sec.gov. Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these statements. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in the Company’s filings with the SEC. The Company undertakes no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise, except as required by law.

Non-GAAP Financial Measures

This press release includes certain non-GAAP financial measures, which management believes are useful to investors, securities analysts and other interested parties. Management uses Adjusted EBITDA as its key profitability measure. This is a non-GAAP measure that represents EBITDA before certain items that impact comparison of the performance of our business either period-over-period or with other businesses. We use Adjusted EBITDA as our measure of segment profitability to assess the performance of our businesses, and it is used for consolidated Gates as well because we believe it is important to consider our total profitability on a basis that is consistent with that of our operating segments. Adjusted EBITDA margin is Adjusted EBITDA for a particular period expressed as a percentage of net sales for that period.

Management uses Adjusted Net Income as an additional measure of profitability. Adjusted Net Income is a non-GAAP measure that represents net income attributable to shareholders before certain items that impact comparison of the performance of our business, either period-over-period or with other businesses. Beginning with the three months ended June 29, 2024, we revised our definition of Adjusted Net Income to adjust for discrete tax items, which are significant, unusual or infrequently occurring tax items. We have revised the prior period amounts to conform to our current period presentation.

Management uses Adjusted Gross Profit as an additional measure of operating performance. Adjusted Gross Profit is a non-GAAP measure that represents gross profit before certain items that impact the comparability of our results, such as restructuring costs and inventory adjustments, specific to the remeasurement of certain inventories on a Last-in-First-out (“LIFO”) basis. Adjusted Gross Profit margin is Adjusted Gross Profit expressed as a percentage of sales. We use Adjusted Gross Profit and Adjusted Gross Profit margin because it provides insight into the underlying profitability of our core operations by excluding items that are not indicative of ongoing business performance.

Core sales is a non-GAAP measure that represents net sales for the period excluding the impacts of movements in average currency exchange rates and the first-year impacts of acquisitions and disposals, when applicable. Core sales growth is the change in core sales expressed as a percentage of prior period net sales. We present core sales growth because it allows for a meaningful comparison of year-over-year performance without the volatility caused by foreign currency gains or losses, or the incomparability that would be caused by the impact of an acquisition or disposal.

Management uses Free Cash Flow to measure cash generation. Free Cash Flow is a non-GAAP measure that represents net cash provided by operations less capital expenditures. Free Cash Flow Conversion is a measure of Free Cash Flow expressed as a percentage of Adjusted Net Income. We use this metric as a measure of the success of our business in converting Adjusted Net Income into cash.

These non-GAAP financial measures should be considered only as supplemental to, and not as superior to, financial measures prepared in accordance with GAAP. Please see below for a reconciliation of historical non-GAAP financial measures to the most directly comparable financial measures prepared in accordance with GAAP.
