Safe Harbor Statement

Forward-Looking Statements

All statements, other than statements of historical fact included in this release are forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995. These statements include, but are not limited to, any statement that may predict, forecast, indicate or imply future results, performance, achievements or events. Forward-looking statements can generally be identified by phrases such as “believes,” “expects,” “potential,” “continues,” “may,” “should,” “seeks,” “predicts,” “anticipates,” “intends,” “projects,” “estimates,” “plans,” “could,” “designed,” “should be,” and other similar expressions that denote expectations of future or conditional events rather than statements of fact. Forward-looking statements also may relate to strategies, plans and objectives for, and potential results of, future operations, financial results, financial condition, business prospects, growth strategy and liquidity, and are based upon financial data, market assumptions and management’s current business plans and beliefs or current estimates of future results or trends available only as of the time the statements are made, which may become out of date or incomplete. Forward looking statements are inherently uncertain, and investors must recognize that events could differ significantly from our expectations. These statements include, but may not be limited to, the statements under “Business Outlook,” our expectations regarding our tax rate, our expectations regarding the integration of the A&S businesses and the impact of such acquisition on our business, including our expectations regarding achieving anticipated synergies, our expectations regarding delevering our business and our ability to delever our business, our expectations regarding growth opportunities and our ability to drive growth, changes in how we calculate certain non-GAAP measures, expectations regarding improvements in the macro economic environment and outlooks in China and Germany, our expectations regarding our ability to serve our customers and deliver value for our shareholders, our expectations regarding continued sales, earnings and free cash flow growth in 2019 and the Company’s guidance for full year 2019.

In addition to the risks and uncertainties noted in this release, there are certain factors that could cause actual results to differ materially from those anticipated by some of the statements made. These include: (1) competitive pressures, (2) changes in political and economic conditions in the United States and abroad and the cyclical nature of our markets, (3) loss of distributors, (4) the ability to develop new products and respond to customer needs, (5) risks associated with international operations, including currency risks, and the effects of tariffs and other trade actions taken by the United States and other countries (6) accuracy of estimated forecasts of OEM customers and the impact of the current global economic environment on our customers, (7) risks associated with a disruption to our supply chain, (8) fluctuations in the costs of raw materials used in our products, (9) product liability claims, (10) work stoppages and other labor issues, (11) changes in employment, environmental, tax and other laws and changes in the enforcement of laws, (12) loss of key management and other personnel, (13) risks associated with compliance with environmental laws, (14) the ability to successfully execute, manage and integrate key acquisitions and mergers, (15) failure to obtain or protect intellectual property rights, (16) risks associated with impairment of goodwill or intangibles assets, (17) failure of operating equipment or information technology infrastructure, (18) risks associated with our debt leverage, (19) risks associated with restrictions contained in the agreements governing the Notes and the Altra Credit Facilities, (20) risks associated with compliance with tax laws, (21) risks associated with the global recession and volatility and disruption in the global financial markets, (22) risks associated with implementation of our ERP system, (23) risks associated with the Svendborg, Stromag, and A&S acquisitions and integration and other acquisitions, (24) risks associated with certain minimum purchase agreements we have with suppliers, (25) risks related to our relationships with strategic partners, (26) our ability to offset increased commodity and labor costs with increased prices, (27) risks associated with our exposure to variable interest rates and foreign currency exchange rates, (28) risks associated with interest rate swap contracts, (29) risks associated with our exposure to renewable energy markets, (30) risks related to regulations regarding conflict minerals, (31) risks related to restructuring and plant consolidations, (32) risks related to our acquisition of A&S, including (a) the possibility that we may be unable to achieve expected synergies and operating efficiencies in connection with the proposed transaction within the expected time-frames or at all and to successfully integrate A&S, (b) expected or targeted future financial and operating performance and results, (c) operating costs, customer loss and business disruption (including, without limitation, difficulties in maintain relationships with employees, customers, clients or suppliers) being greater than expected following the transaction, (d) our ability to retain key executives and employees, (e) slowdowns or downturns in economic conditions generally and in the markets in which the A&S businesses participate specifically, (f) lower than expected investments and capital expenditures in equipment that utilizes components produced by us or A&S, (g) lower than expected demand for our or A&S’s repair and replacement businesses, (h) our ability to successfully integrate the merged assets and the associated technology and achieve operational efficiencies, (i) the integration of A&S being more difficult, time-consuming or costly than expected, (j) the inability to undertake certain corporate actions that otherwise could be advantageous to comply with certain tax covenants, (k) potential unknown liabilities and unforeseen expenses related to the acquisition and (l) the impact on our internal controls and compliance with the regulatory requirements under the Sarbanes-Oxley Act of 2002, (33) the risk associated with the UK vote to leave the European Union, (34) Altra’s ability to achieve the efficiencies, savings and other benefits anticipated from its cost reduction, margin improvement, restructuring, plant consolidation and other business optimization initiatives, (35) the risks associated with transitioning from LIBOR to a replacement alternative reference rate, and (36) other risks, uncertainties and other factors described in the Company’s quarterly reports on Form 10-Q and annual reports on Form 10-K and in the Company’s other filings with the U.S. Securities and Exchange Commission (SEC) or in materials incorporated therein by reference. Except as required by applicable law, Altra does not intend to, update or alter its forward-looking statements, whether as a result of new information, future events or otherwise

*Discussion of Non-GAAP Measures

The non-GAAP financial measures used in this release are utilized by management in comparing our operating performance on a consistent basis. We believe that these financial measures are appropriate to enhance the overall understanding of our underlying operating performance trends compared to historical and prospective periods and our peers. We believe that these measures provide important supplemental information to management and investors regarding financial and business trends relating to the Company's financial condition and results of operations as well as insight into the compliance with our debt covenants. Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information calculated in accordance with GAAP. Investors are encouraged to review the reconciliation of these non-GAAP measures to their most directly comparable GAAP financial measures. A reconciliation of non-GAAP financial measures presented above to our GAAP results has been provided in the financial tables included in this press release.

Organic Sales

Organic sales in this release excludes the impact of foreign currency translation.

Non-GAAP Net Income, Non-GAAP income from operations, Non-GAAP Diluted earnings per share and Non-GAAP operating income margin

Non-GAAP net income, non-GAAP income from operations and non-GAAP diluted earnings per share exclude acquisition related amortization, acquisition related costs, restructuring costs and other income or charges that management does not consider to be directly related to the Company's core operating performance. Non-GAAP diluted earnings per share is calculated by dividing non-GAAP net income by GAAP weighted average shares outstanding (diluted). Non-GAAP operating income margin is calculated by dividing Non-GAAP income from operations by GAAP Net Sales.

Non-GAAP adjusted EBITDA

Adjusted EBITDA represents earnings before interest, taxes, depreciation, amortization, acquisition related costs, restructuring costs, stock-based compensation and other income or charges that management does not consider to be directly related to the Company's core operating performance.

Non-GAAP Free cash flow

Non-GAAP free cash flow is calculated by deducting purchases of property, plant and equipment from net cash flows from operating activities.

Non-GAAP operating working capital

Non-GAAP operating working capital is calculated by deducting accounts payable from net trade receivables plus inventories.

Net Debt

Net debt is calculated by subtracting cash from total debt.

* Based upon management's estimate of A&S's financial results for the second quarter and third quarter of 2018. A&S's actual historical results have not yet been subject to an audit and cannot be verified at this point in time. Moreover, the non-GAAP adjusted EBITDA of A&S for the second and third quarter of 2018 cannot be reconciled to the corresponding audited GAAP measure because no such measure is available to management. Nonetheless, management believes that an estimate of A&S's Non-GAAP adjusted EBITDA is important to the Company's investors because it provides an estimated indication of the Company's potential ability to service debt and incur additional leverage, if any.
