The Notice contains instructions on how to access those documents over the internet. The Notice also contains instructions on how to request a paper copy of our proxy materials, including this proxy statement, our 2013 Annual Report, and a form of proxy card or voting instruction card. All stockholders who have previously requested a paper copy of our proxy materials will continue to receive a paper copy of the proxy materials by mail.

All stockholders are cordially invited to attend the meeting in person. However, to assure your representation at the meeting you are urged to complete, sign, date, and return the proxy card mailed or made available to you as soon as possible so that your shares can be voted at the Annual Meeting in accordance with your instructions. PROXY STATEMENT

July 15, 2013

Questions and Answers about the Annual Meeting and Voting

Why did I receive these proxy materials?

Pursuant to rules adopted by the Securities and Exchange Commission, or the SEC, we have elected to provide access to our proxy materials over the internet. Accordingly, we have sent you a Notice of Internet Availability of Proxy Materials, or the Notice, because the Board of Directors, or the Board, of NetScout Systems, Inc., a Delaware corporation, or NetScout, is soliciting your proxy to vote at the 2013 Annual Meeting of Shareholders, or the Annual Meeting, including at any adjournments or postponements of the meeting. All stockholders will have the ability to access the proxy materials on the website referred to in the Notice or request to receive a printed set of the proxy materials. Instructions on how to access the proxy materials over the internet or to request a printed copy may be found in the Notice. The proxy materials include the proxy statement, form of proxy, and 2013 Annual Report, which contains financial statements for the fiscal year ended March 31, 2013.

We intend to mail the Notice on or about July 15, 2013 to all stockholders of record entitled to vote at the Annual Meeting.

You are invited to attend the Annual Meeting on Monday, August 26, 2013 at 10:00 a.m. local time at NetScout Systems, Inc., 310 Littleton Road, Westford, Massachusetts 01886.

This Proxy Statement and the form of proxy were first mailed or made available to stockholders on or about July 15, 2013.

Will I receive any other proxy materials by mail?

We may send you a proxy card, along with a second Notice, on or after July 27, 2013.

What is the purpose of the Annual Meeting?

The purpose of the Annual Meeting is to:

- elect three Class II directors nominated by our Board to serve for three year terms or until their respective successors are elected and qualified;
- ratify the selection of PricewaterhouseCoopers LLP as our an independent registered public accounting firm for the fiscal year ending March 31, 2014;
- obtain advisory approval of the compensation of our named executive officers, as disclosed in this proxy statement in accordance with Securities and Exchange Commission, or SEC, rules; and
- conduct other business that properly comes before the Annual Meeting or any adjournment.

How does the Board recommend that I vote?

The Board recommends that you vote "FOR" each nominee to our Board, "FOR" the ratification of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending March 31, 2014, and "FOR" approval of the compensation of our named executive officers.

Who can vote?

Stockholders of record as of July 9, 2013, or the Record Date, may vote. As of July 9, 2013, 41,379,632 shares of our common stock were issued and outstanding. Holders of common stock are entitled to one vote per share on proposals presented at the Annual Meeting.

What is a stockholder of record?

A “stockholder of record” owns NetScout stock which is recorded on the books of our transfer agent, Computershare Shareowner Services. If you hold our stock through a bank, broker, or other intermediary, you are not a stockholder of record but instead hold the stock in “street name.” If your stock is held in a street name, the stockholder of record of your shares would be the bank, broker, or intermediary. If you are not a stockholder of record, we do not know that you are a stockholder or how many shares you own.

How do I vote my shares?

Stockholder of Record: Shares Registered in Your Name

If you are a stockholder of record, you may vote in person at the Annual Meeting or vote by proxy using a proxy card mailed to you. Whether or not you plan to attend the Annual Meeting, we urge you to vote by proxy to ensure your vote is counted. You may still attend the Annual Meeting and vote in person even if you have already voted by proxy. To vote using the proxy card, simply complete, sign and date the proxy card that may be delivered and return it promptly in the envelope provided. If you return your signed proxy card to us before the Annual Meeting, we will vote your shares as you direct.

Beneficial Owner: Shares Registered in the Name of Broker or Bank

If you are a beneficial owner of shares registered in the name of your broker, bank, or other agent, you should have received a Notice containing voting instructions from that organization rather than from us. Simply follow the voting instructions in the Notice to ensure that your vote is counted. To vote in person at the Annual Meeting, you must obtain a valid proxy from your broker, bank or other agent. Follow the instructions from your broker or bank included with these proxy materials, or contact your broker or bank to request a proxy form.

Our Board named Anil K. Singhal and Michael Szabados as attorneys-in-fact in the proxies. If your proxy has been properly executed and returned in time to be counted at the Annual Meeting, the shares represented by your proxy will be voted in accordance with your voting instructions. If you have returned a signed proxy but have not indicated your vote, your proxy will be voted “FOR” the nominees to our Board, “FOR” the ratification of the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending March 31, 2014, and “FOR” the advisory approval of the compensation of our named executive officers. Our Board knows of no other matters to be presented at the Annual Meeting. For other matters that may properly come before the Annual Meeting, the attorneys-in-fact will use their judgment in voting your shares.

May I change or revoke my proxy?

You may revoke your proxy before it is voted at the Annual Meeting. If you are a stockholder of record, you may do so by (1) filing a written notice of revocation (dated after the original proxy) with the Secretary of NetScout before the vote at the Annual Meeting, (2) completing a later dated proxy, including by internet or phone, and delivering it to the Secretary of NetScout before the vote at the Annual Meeting, or (3) attending the Annual Meeting and voting in person. You should send any written notice of revocation, to be delivered before the Annual Meeting, to NetScout Systems, Inc., 310 Littleton Road, Westford, MA 01886, Attention: Secretary. If you hold shares through a bank or brokerage firm, you must contact that bank or firm directly to revoke any prior voting instructions.

How is a quorum determined?

A quorum of stockholders is necessary to hold a valid meeting. A quorum will be present if a majority of the outstanding shares of our common stock entitled to vote at the Annual Meeting are present at the meeting in person or represented by proxy. On the Record Date, there were 41,379,632 shares outstanding and entitled to vote.

To determine a quorum, we include votes withheld from any nominee, abstentions, and broker “non-votes.” Broker “non-votes” occur when a beneficial owner of shares held in street name does not give instructions to the broker or nominee holding the shares as to how to vote on matters deemed “non-routine.” Generally, if shares are held in street name, the beneficial owner of the shares is entitled to give voting instructions to the broker or nominee holding the shares. If the beneficial owner does not provide voting instructions, the broker or nominee can still vote the shares with respect to matters that are considered to be “routine,” but not with respect to “non-routine” matters. Under the rules and interpretations of the New York Stock Exchange, which govern this issue regardless of the exchange on which a company is listed, “non-routine” matters are matters that may substantially affect the rights or privileges of stockholders, such as mergers, stockholder proposals, and the election of directors, even if they are not contested. Therefore, your broker will not be permitted to vote for directors on your behalf unless you provide them with specific voting instructions before the date of the Annual Meeting. The only routine matter included in this Proxy Statement is the ratification of our appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the year ending March 31, 2014.

Your shares will be counted towards the quorum only if you submit a valid proxy (or one is submitted on your behalf by your broker, bank, or other nominee) or if you vote in person at the meeting. If there is no quorum, the meeting may adjourn to another date.

What vote is required to approve each proposal and how are votes counted?

Proposal 1: Election of Directors: The nominees to serve as Class II directors who receive the most votes (also known as a “plurality” of the votes cast) will be elected. You may vote either FOR the nominee or WITHHOLD your vote from the nominee. Votes that are withheld will not be included in the vote tally for the election of the directors. Brokerage firms do not have authority to vote customers’ unvoted shares held by the firms in street name for the election of the director. As a result, any shares not voted by a customer will be treated as a broker non-vote. Such broker non-votes will have no effect on the results of this vote. If a nominee receives a greater number of votes “withheld” from his or her election than votes “for” such election, such nominee will submit his or her offer of resignation for consideration by our Nominating and Corporate Governance Committee in accordance with our majority vote policy discussed in more detail on page 15 of this proxy statement.

Proposal 2: Ratification of Appointment of Independent Registered Public Accounting Firm: The affirmative vote of a majority of the shares present or represented and voting on this proposal is required to ratify the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm with respect to the fiscal year ending March 31, 2014. Abstentions will be counted towards the vote total and will have the same effect as “Against” votes. Brokerage firms do have authority to vote customers’ unvoted shares held by the firms in street name on this proposal. If a broker does not exercise this authority, such broker non-votes will have no effect on the results of this vote. We are not required to obtain the approval of our stockholders to appoint PricewaterhouseCoopers LLP as our independent registered public accounting firm. However, if our stockholders do not ratify the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm for our fiscal year ending March 31, 2014, the Audit Committee of our Board will consider the results of this vote when selecting auditors in the future.

Proposal 3: Advisory Vote on Executive Compensation: The affirmative vote of a majority of the shares present or represented and voting on this proposal is required to approve the advisory vote on the compensation of our named executive officers. Abstentions will be counted towards the vote total and will have the same effect as “Against” votes. Brokerage firms do not have authority to vote customers’ unvoted shares held by the firms in street name on this proposal. As a result, any shares not voted by a customer will be treated as a broker non-vote. Such broker non-votes will have no effect on the results of this vote.

An automated system administered by our transfer agent tabulates the votes for each proposal above.

If you received a Notice of Internet Availability and would like to receive printed copies of the proxy materials, you should follow the instructions for requesting such materials set out in the Notice of Internet Availability.

Unless otherwise instructed, the proxy holders will vote the proxies received by them for the nominees named above.

**THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "FOR" THE
NOMINEES FOR DIRECTOR.**

PROPOSAL 2

RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of the Board has selected PricewaterhouseCoopers LLP to serve as our independent registered public accounting firm for the fiscal year ending March 31, 2014. PricewaterhouseCoopers LLP has served as our auditors since 1993. We expect that a member of PricewaterhouseCoopers LLP will attend the Annual Meeting, will have an opportunity to make a statement if so desired, and will be available to respond to appropriate questions from our stockholders. We are incorporated in Delaware, and Delaware law does not require the ratification of the Audit Committee's selection, but the Audit Committee will consider the results of this vote when selecting auditors in the future.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "FOR" THE RATIFICATION OF PRICEWATERHOUSECOOPERS LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM.

PROPOSAL 3

ADVISORY VOTE ON EXECUTIVE COMPENSATION

At the 2011 Annual Meeting, our stockholders indicated their preference that the Company solicit a non-binding advisory vote on the compensation of the Company's named executive officers, commonly referred to as a "say-on-pay vote," every year. The Board has adopted a policy that is consistent with that preference. In accordance with that policy, this year the Company is again asking the stockholders to approve, on an advisory basis, the compensation of the Company's named executive officers as disclosed in this proxy statement in accordance with SEC rules. This vote is not intended to address any specific item of compensation, but rather the overall compensation of the Company's named executive officers and the philosophy, policies and practices described in this proxy statement. At the 2012 Annual Meeting, pursuant to Section 14A of the Securities Exchange Act of 1934, as amended, we submitted a proposal to stockholders for a non-binding advisory vote to approve the compensation of our named executive officers as disclosed in our proxy statement for the 2012 Annual Meeting. Our stockholders approved this proposal with 96.7% of the total votes cast voting in favor.

The goal of Company's executive officer compensation program is to retain and reward highly qualified, talented leaders who create long term stockholder value. The program is designed to align management's interest with that of stockholders and motivate senior executives to increase our long-term growth and profitability while attempting to minimize risks that could result from compensation decisions. During the previous fiscal year, the Company reported revenue up 14% year over year in accordance with Generally Accepted Accounting Principles, or GAAP, and on a non-GAAP basis, and net income up year over year 25% on a GAAP basis and 19% on a non-GAAP basis. As described in this proxy statement, the Compensation Committee weighs the appropriate mix of compensation elements, including the allocation between cash and equity, for each executive officer to help achieve those objectives. The Company's Compensation Discussion and Analysis, or CD&A, contained in this proxy statement describes the Company's executive compensation program and the decisions made by the Compensation Committee in detail. As described more fully in the CD&A below, and in NetScout's press releases regarding annual and quarterly earnings and other communications, NetScout provides financial information using methods in addition to those prescribed by generally accepted accounting principles (GAAP). As discussed, management regularly uses supplemental non-GAAP financial measures internally to understand, plan, manage, and evaluate its business and to make operating decisions.

Accordingly, the Board is asking the stockholder to indicate their support for the compensation of the Company's named executive officers as described in this proxy statement by casting a non-binding advisory vote "FOR" the following resolution:

"RESOLVED, that the compensation paid to the Company's named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion is hereby APPROVED."

As an advisory vote, this proposal is not binding on the Board. Nevertheless, the views expressed by the stockholders, whether through this vote or otherwise, are important to management and the Board, and, accordingly, the Board and the Compensation Committee intend to consider the results of this vote in making determinations in the future regarding executive compensation arrangements.

**THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "FOR" THE
ADVISORY APPROVAL OF THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS.**

CORPORATE GOVERNANCE

Board Leadership Structure

The Board is currently chaired by the President and Chief Executive Officer of the Company, Mr. Singhal. The Board believes combining the position of Chief Executive Officer and Chairman is in the best interest of the Company and its stockholders. As one of the co-founders of the Company, Mr. Singhal provides extensive technology vision and leadership; historical knowledge of the Company, its customers, and solutions; and a deep understanding of the opportunities and challenges facing the Company today. Those attributes, together with his combined role, place him in the best position to ensure the Board and management act with a common purpose to execute the Company's strategic initiatives and business plans. To reinforce director independence and provide for leadership separate from the Chairman, the Company's Board appointed Mr. Egan as Lead Independent Director.

Director Independence

Our Board has determined that each of Messrs. DeMarines, Donahue, Egan, Hadzima, Mullarkey, and Pearse is independent within the meaning of the director independence standards of The NASDAQ Global Market, or NASDAQ, and the SEC. Furthermore, our Board has determined that each member of our Audit Committee, Compensation Committee, and Nominating and Corporate Governance Committee of our Board is independent within the meaning of the Company's, NASDAQ's, and the SEC's independence standards, as applicable. Mr. McGuigan resigned from our Board on August 21, 2012.

Executive Sessions of Independent Directors

Our Board holds executive sessions of the independent members of our Board following each regularly scheduled in-person meeting of our Board. The Lead Independent Director, currently Mr. Egan, chairs the executive sessions.

Policies Governing Director Nominations

Director Qualifications

Our Nominating Committee is responsible for reviewing with our Board the appropriate qualities, skills, and characteristics desired of Board members in the context of the needs of the business and current make-up of our Board. This assessment includes consideration of the following minimum qualifications that our Nominating Committee believes must be met by all directors:

- Directors must be individuals of the highest ethical character and integrity and share our values as reflected in our Code of Business Conduct;
- Directors must have reputations, both personal and professional, consistent with our image and reputation;
- Directors must be free of conflicts of interest that would interfere with the proper performance of the responsibilities of a director;
- Directors must have the ability to exercise sound business judgment;
- Directors must be willing and able to devote sufficient time to the affairs of the Company and be diligent in fulfilling the responsibilities of a director and/or committee member, as the case may be;
- Directors must have substantial business or professional experience and expertise and be able to offer meaningful and practical advice and guidance to our management based on that experience and expertise; and
- Directors must have a commitment to enhancing stockholder value.

The Nominating Committee also considers numerous other qualities, skills, and characteristics when evaluating director nominees, such as:

- An understanding of and experience in the network application/performance management solutions market, the market for networking solutions generally and related accounting, legal, finance, product, sales and/or marketing matters;
- Experience on other public or private company boards, unless a director otherwise provides complementary capabilities or qualifies as an “audit committee financial expert” under the rules of the SEC;
- Leadership experience with public companies or other major organizations; and
- Diversity of the Board, taking into account the business and professional experience, educational background, reputation, industry expertise across various market segments and technologies relevant to our business, as well as other relevant attributes of the candidates.

Board members are expected to prepare for, attend, and participate in Board meetings and meetings of committees on which they serve. In addition, directors must stay abreast of our business and markets.

Process for Identifying and Evaluating Director Nominees

The Board is responsible for nominating persons for election as directors of the Company. Our Board delegates the initial selection process to our Nominating Committee, with the expectation that other members of our Board, and of management, will take part in the process as appropriate.

Generally, the Nominating Committee identifies candidates for director nominees in consultation with management, through the use of search firms or other advisers, or through such other methods as our Nominating Committee deems to be helpful to identify candidates. Once candidates have been identified, our Nominating Committee confirms that the candidates meet all of the minimum qualifications for director nominees established by the Nominating Committee and set forth in the Corporate Governance Guidelines. The Nominating Committee may gather information about the candidates through interviews, questionnaires, background checks, or any other means that the Nominating Committee deems to be helpful in the evaluation process. The Nominating Committee then meets to discuss and evaluate the qualities and skills of each candidate in light of the criteria set forth above or established by the Nominating Committee from time to time, both on an individual basis and taking into account the overall composition and needs of our Board. Based on the results of the evaluation process, the Nominating Committee recommends candidates for our Board’s approval as director nominees for election to the Board. The Nominating Committee also recommends candidates for the Board’s appointment to the committees of our Board.

Stockholder Recommendations For Nominees As Directors and the Proposal of Other Business

Our Nominating Committee will consider recommendations for candidates for nominees as directors and proposals for business other than director nominations that are properly submitted by stockholders. Any recommendation of a nominee for the Board or any proposal for business other than director nominations by our stockholders with respect to our Annual Meeting of Stockholders for the fiscal year ended March 31, 2014, or the 2014 Annual Meeting, must be submitted in writing to our principal executive offices at 310 Littleton Road, Westford, Massachusetts 01886, attention: Secretary, and must be received by us and comply with the requirements set forth in the Company’s by-laws.

Any communication with respect to nominees as directors should (i) describe why the candidate meets the Board’s criteria described above; (ii) include the candidate’s and recommender’s names and addresses and provide biographical information about the recommended candidate that would be required to be disclosed in solicitations of proxies for election of directors; (iii) include the proposed nominee’s written consent to serve as a nominee, if nominated, and as a director, if elected; and (iv) contain any additional information otherwise required by Regulation 14A under the Exchange Act.

Any communication with respect to the proposal of business other than director nominations should include, among other matters required by our by-laws, a brief description of the business desired to be brought before the meeting, the reasons for conducting such business at the meeting and any material interest in such business of such stockholder or any stockholder associated person (as defined in our by-laws), if any, on whose behalf the proposal is made.

The requirements for stockholder director nominations and proposals other than director nominations appear in our by-laws. Only such individuals who are nominated in accordance with the procedures described above and in our by-laws will be eligible for election by stockholders as directors and only such business brought before the meeting in accordance with the procedures set forth above and in our by-laws will be conducted at a meeting of stockholders. We have not received any stockholder recommendations or nominations with respect to our Annual Meeting.

To be considered for inclusion in next year's proxy materials, your proposal must be submitted in writing to our principal executive offices at 310 Littleton Road, Westford, Massachusetts 01886, attention: Secretary, and must be received by us no later than March 17, 2014. Proposals must satisfy the procedures set forth in Rule 14a-8 under the Exchange Act.

If you wish to submit a proposal for the 2014 Annual Meeting but not have it included in next year's proxy materials for such meeting or wish to nominate a director, you must submit such proposal or nomination in writing to our principal executive offices at 310 Littleton Road, Westford, Massachusetts 01886, attention: Secretary, and such proposal or nomination must be received no earlier than the close of business of April 28, 2014 and no later than the close of business of May 28, 2014 and must satisfy the requirements described above and in our by-laws.

In order to curtail controversy as to the date on which a proposal was received by us, we suggest that you submit your proposals by registered mail, return receipt requested.

The Nominating and Corporate Governance Committee shall consider all of the relevant facts and circumstances and recommend to the Board the action to be taken with respect to such offer of resignation. The Board will then act on the Nominating and Corporate Governance Committee’s recommendation.

The Board's Role in Risk Oversight

The Board administers risk management and oversight through the Board as a whole, as well as through various Board committees that address risks inherent in their respective areas of oversight. The Board seeks to ensure that risk management principles are incorporated in the Company's strategic planning and management processes. This comprehensive approach is reflected in the reporting processes by which our management provides timely and comprehensive information to the Board to support the Board's role in oversight, approval, and decision-making.

The Board monitors the information it receives and requests from management and provides oversight and guidance to our senior management team concerning the assessment and management of risk. The Board approves the Company's high level goals, strategies and policies to set the tone and direction for appropriate risk taking within the business. The Board and its committees then emphasize this tone and direction in its oversight of management's implementation of the Company's goals, strategies and policies.

¹ The material in this report is not "soliciting material," is not deemed "filed" with the Commission and is not to be incorporated by reference in any filing of the Company under the Securities Act or the Exchange Act, other than the Company's Annual Report on Form 10-K, where it shall be deemed "furnished," whether made before or after the date hereof and irrespective of any general incorporation language in any such filing.

Our senior executives regularly attend meetings of the Board and its committees and provide the Board and its committees with reports regarding the Company's operations, strategies, and objectives, and the risks inherent within them. Board and committee meetings also provide a venue for directors to discuss issues with, request additional information from, and provide guidance to, senior management. In addition, our directors have direct access to senior management to discuss any matters of interest, including those related to risk. Those members of management most knowledgeable of the issues regularly attend Board and committee meetings to provide additional insight into items being discussed, including risk exposures.

The Board has delegated oversight for matters involving certain specific areas of risk exposure to its three principal committees. Each committee reports to the Board at regularly scheduled Board meetings, and more frequently if appropriate, with respect to the matters and risks for which the committee provides oversight. Each committee is also authorized and empowered to retain independent advisors as the committee deems appropriate to discharge its responsibilities under such committee's charter.

The Audit Committee oversees the integrity of our financial statements, reporting process and internal controls, the relationship with our independent registered public accounting firm, including their qualifications, independence and performance, and the Company's corporate finance matters, including its capital structure. The Audit Committee also provides oversight with respect to the Company's risk management process and litigation and compliance programs, discussing with management the Company's significant financial risk exposures, steps management has taken to monitor, control and report such exposures, and our policies with respect to risk assessment and risk management. The Audit Committee has also deliberated on enterprise risk management analysis.

Our Compensation Committee is responsible primarily for the design and oversight of the Company's executive compensation policies, plans and practices. A key objective of the Compensation Committee is to ensure that the Company's overall executive compensation program appropriately links pay to performance and aligns the interests of the Company's executives with our stockholders. The Compensation Committee also monitors the design and administration of the Company's overall incentive compensation programs to ensure that they include appropriate safeguards to avoid encouraging unnecessary or excessive risk taking by Company employees. Elements of our executive compensation program that mitigate excessive risk taking, such as our combination of short and long-term incentives, are described below under "Compensation Discussion and Analysis."

The Nominating Committee oversees risks related to our corporate governance, including Board and director performance, director succession, director education and the Company's Corporate Governance Guidelines and other governance documents. The Nominating Committee also oversees the Company's overall compliance program. The Nominating Committee has conducted Board-wide risk and compliance education.

Mr. Singhal’s future retirement benefit also includes a projected \$200,000 in payments for future health benefits. Both were fully vested in FY 2012.
- (4) Includes 401(k) contributions made by the Company on behalf of the Named Executive Officer. See the All Other Compensation Table below for additional information.
- (5) In the 2011 Fiscal Year Summary Compensation Table, the Company incorrectly reflected the value for the restricted stock unit awards granted during such fiscal year. The value previously reflected in the prior year’s table did not reflect the aggregate grant date fair value calculated in accordance with FASB ASC 718, disregarding adjustments for forfeitures. Instead, the prior year’s table reflected the amount of compensation expense recognized by the Company during such fiscal year in accordance with generally accepted accounting principles. This has been corrected in last year and this year’s Summary Compensation Table. The aggregate increase in reported value in fiscal year 2011 due to this correction was \$828,903 for Mr. Singhal, \$355,344 for Mr. Szabados, \$204,148 for Mr. Sommers, \$403,021 for Ms. Bua and \$181,863 for Mr. Downing.
- (6) The information presented for Mr. Downing under the “Non-Equity Incentive Plan Compensation” column consists of sales commissions and bonus for the fiscal years ended March 31, 2011, 2012 and 2013.

Option Awards. We did not make any option grants during the fiscal years ended March 31, 2011, 2012, or 2013 to any of our Named Executive Officers. Therefore, we have omitted this column.

Nonqualified Deferred Compensation Earnings. We currently do not provide a non-qualified defined contribution plan or other deferred compensation plan to any of our Named Executive Officers.

- (1) Actual non-equity incentive plan awards are made based on various factors including the Company's overall performance, as described more fully in the Compensation Discussion and Analysis. As described, the Company has not set prescribed maximum payments, and the possible award could exceed 100% of an individual's target if the Company exceeded its goals and the individual met or exceeded his goals. However, the Company expects that awards exceeding 100% would be rare.
- (2) Actual equity incentive plan awards are made based on various factors including the Company's overall performance, as described more fully in the Compensation Discussion and Analysis. As described, the Company has not set prescribed maximum awards.
- (3) Amounts shown represent the aggregate full grant date fair value calculated in accordance with FASB ASC 718, disregarding adjustments for forfeitures. The assumptions used to value these awards are set forth in Note 14 to our Annual Report on Form 10-K for the year ended March 31, 2013. The fair value shown above may not be indicative of the value realized on the date the options are exercised or the RSUs vest due to variability in the share price of our common stock .

During the fiscal year ended March 31, 2013, we did not make any "other stock awards" or "other option awards" and have therefore omitted those columns.

Non-employee directors are compensated \$36,000 annually for their services and do not receive any additional compensation for any regular Board meeting attended. The lead non-employee director receives an additional annual retainer of \$30,000. Non-employee directors currently receive \$10,000 annually for serving on the Audit Committee, \$8,000 annually for serving on the Compensation Committee, and \$6,000 annually for serving on the Nominating Committee. In addition, directors who are chairpersons of a particular committee are also given additional annual compensation of \$20,000 for the Audit Committee, and \$10,000 for the Compensation Committee, and \$8,000 for the Nominating Committee and \$6,000 for the Finance Committee. Finance Committee members receive \$1,000 for each meeting attended in person and \$800 for each meeting attended via telephone. Non-employee directors are also reimbursed for their reasonable out-of-pocket expenses incurred in attending meetings of the Board or of any committee and for attendance at approved director education programs.

Non-employee directors are granted annually equity-based awards in the form of restricted stock units and related cash amounts upon vesting to defray the corresponding tax liability as follows:

<u>Element</u>	<u>Role/Position</u>		
	<u>Lead Director</u>	<u>Chairperson</u>	<u>Other Directors</u>
Total value (RSU Grant and Cash Offset)	\$200,000	\$150,000	\$125,000

Cash Offset	\$ 80,000	\$ 60,000	\$ 50,000

These restricted stock unit awards vest 100% on the date of our annual meeting provided that during such year, such director attends at least 75%, collectively, of the meetings of the Board and any committee of the Board of which such director is a member. In the event that the foregoing attendance requirements are not met, then 100% of these restricted stock units will vest on the third anniversary of the date of grant. No other equity awards are given to our non-employee directors.

Stock Plans

1999 Stock Option and Incentive Plan. Our 1999 Stock Option and Incentive Plan, as amended, or the 1999 Stock Option Plan, was adopted by the Board in April 1999 and was approved by our stockholders in June 1999. The 1999 Stock Option Plan was replaced by our 2007 Plan effective September 12, 2007, and no further grants were made under the 1999 Stock Option Plan after such date. The 1999 Stock Option Plan provided for the grant of stock-based awards to our employees, officers and directors, consultants, or advisors. Under the 1999 Stock Option Plan, we could grant options that were intended to qualify as incentive stock options within the meaning of Section 422 of the Code, options not intended to qualify as incentive stock options, restricted stock, and other stock-based awards. Incentive stock options could be granted only to our employees. A total of 9,500,000 shares were reserved for issuance under the 1999 Stock Option Plan.

The 1999 Stock Option Plan is administered by our Compensation Committee. Payment of the exercise price of an award under the 1999 Stock Option Plan may be made in cash or, if approved by the Compensation Committee, shares of common stock, a combination of cash and stock, a promissory note or by any other method approved by the Compensation Committee. Unless otherwise permitted by the Compensation Committee, awards are not assignable or transferable except by will or the laws of descent and distribution and, during the participant’s lifetime, may be exercised only by the participant.

The 1999 Stock Option Plan provides, subject to certain conditions, that upon an acquisition of the Company, 25% of each unvested portion of any awards will accelerate and become exercisable, with the remaining 75% of each unvested portion to continue vesting throughout the term of such awards.

The Compensation Committee may, in its sole discretion, amend, modify or terminate any award granted or made under the 1999 Stock Option Plan, so long as such amendment, modification or termination would not materially and adversely affect the participant. The Compensation Committee may also provide that any option shall become immediately exercisable, in full or in part, or that any restricted stock granted under the 1999 Stock Option Plan shall be free of some or all restrictions.

As of the Record Date, options to purchase an aggregate of 118,850 shares of common stock at an average exercise price of \$6.62 per share were outstanding under the 1999 Stock Option Plan, and we had granted restricted stock units representing 1,015,899 shares of common stock, with no shares outstanding.

Amended and Restated 2007 Equity Incentive Plan. Our 2007 Plan was initially adopted by the Board in September 2007 and was initially approved by our stockholders at the September 12, 2007 annual meeting of stockholders. This plan was amended and restated in 2011, to, among other items, increase the number of shares available for issuance under the plan by 8,000,000 shares; the amendment and restatement was approved by our

stockholders at the September 7, 2011 annual meeting of stockholders. The 2007 Plan replaced the 1999 Stock Option Plan. The 2007 Plan allows us to grant restricted stock units, stock, stock options, and other equity interests to our and our subsidiaries' employees, officers, directors, consultants, and advisors. Under the 2007 Plan, we may grant options that are intended to qualify as incentive stock options within the meaning of Section 422 of the Code, options not intended to qualify as incentive stock options, restricted stock, and other stock-based awards. Incentive stock options may be granted only to our employees. The maximum number of shares as to which equity awards may be granted under the 2007 Plan as of the Record Date is 7,770,475 shares (subject to certain adjustments under the 2007 Plan), of which no more than 500,000 shares may be granted to any one person in one fiscal year.

The 2007 Plan is administered by our Compensation Committee. Subject to the provisions of the 2007 Plan, our Compensation Committee has the authority to select the persons to whom awards are granted and to determine the terms of each award, including the number of shares of common stock subject to the award.

Payment of the exercise price of an award may be made in cash or, if approved by the Compensation Committee, shares of common stock, a combination of cash and stock, a promissory note, or by any other method approved by the Compensation Committee. Unless otherwise permitted by the Compensation Committee, awards are not assignable or transferable except by will or the laws of descent and distribution and, during the participant's lifetime, may be exercised only by the participant.

The Compensation Committee may, in its sole discretion, amend, modify or terminate any award granted or made under the 2007 Plan, so long as such amendment, modification or termination would not materially and adversely affect the participant. The Compensation Committee may also provide that any option shall become immediately exercisable, in full or in part, or that any restricted stock granted under the 2007 Plan shall be free of some or all restrictions.

As of the Record Date, we had granted restricted stock units representing 5,067,806 shares of common stock, with 1,642,067 shares outstanding.

2011 Employee Stock Purchase Plan. The 2011 Employee Stock Purchase Plan, or the 2011 Purchase Plan was adopted by the Board in June 2011 and was approved by our stockholders at the September 7, 2011 annual meeting of stockholders. A total of 2,500,000 shares of common stock are reserved for issuance under the 2011 Purchase Plan. The 2011 Purchase Plan grants eligible employees the opportunity to purchase our common stock through payroll deductions.

Under the 2011 Purchase Plan, eligible enrolled employees may, during the offering period, purchase shares of common stock through payroll deductions, not to exceed 20% of an individual employee's compensation during the offering period. The purchase price per share during an offering period is determined by the Board at the beginning of the offering period, but may not be less than 85% of the lesser of the fair market value per share of our common stock on that purchase date or the fair market value per share of our common stock on the first day of the offering period. However, no employee is eligible to participate in the 2011 Purchase Plan if, immediately after the grant of purchase rights, the employee would own, directly or indirectly, stock possessing 5% or more of the total combined voting power or value of all classes of our stock, including any stock which such employee may purchase under all outstanding purchase rights and options. In addition, no employee may purchase more than \$25,000 worth of our common stock, valued at the time each purchase right is granted, for each calendar year during which those purchase rights are outstanding.

The Board administers the plan and retains the power to construe and interpret both the 2011 Purchase Plan and the purchase rights granted thereunder, including eligibility to participate and the particular provisions of each offering of rights. The Board, in its sole discretion, has the power to delegate administration of the 2011 Purchase Plan to a committee composed of one or more members of the Board.

As of the Record Date, 993,707 shares remain available for purchase under the 2011 Purchase Plan.

The following table sets forth securities authorized for issuance under our stock option plans as of fiscal year ended March 31, 2013:

Equity Compensation Plan Information

Total	2,025,148	\$6.63	7,602,328

Stock Ownership Policy

In 2010, the Compensation Committee approved a Stock Ownership Policy for certain of the Company's executive officers and directors. The Stock Ownership Policy states that within four years of the date the policy became effective, or within four years after becoming an executive officer or director, the executive officers and directors will be subject the following stock ownership requirements:

<u>Title</u>	<u>Ownership Guideline(1)</u>
Chief Executive Officer	4x annual base salary
Chief Operating Officer and Executive Vice Chairman	3x annual base salary
Section 16 Officers who are Senior Vice Presidents	2x annual base salary
Directors	3x annual board retainer

(1) The ownership guideline for each participant will be converted into a number of shares on the first day of each fiscal year based on the average closing price of a share of NetScout stock for the previous fiscal year.

The Compensation Committee is responsible for monitoring compliance with the guidelines. As of March 31, 2013, each officer and director had met the requirements of the Stock Ownership Policy. Shares that count toward the ownership target include all shares directly or beneficially owned by the director or executive officer, unvested restricted stock units granted under Company's plans (restricted stock units will be applied toward the ownership requirements based on the value of restricted stock units after taking into account any required share withholding), and shares purchased on the open market.

401(k) Plan

We maintain a 401(k) plan qualified under Section 401 of the Code. All of our employees who are at least 18 years of age and work at least 20 hours per week are eligible to participate in the 401(k) plan. Under the 401(k) plan, a participant may contribute a maximum of 80% of his or her pre-tax salary, commissions and bonuses through payroll deductions, up to the statutorily prescribed annual limit, which was \$17,000 (or \$22,500 for individuals at least 50 years of age) in calendar year 2012, to the 401(k) plan. At the discretion of our Board, we may make matching contributions to the 401(k) plan. During the plan year ended December 31, 2012, we matched 50% of employee contributions up to 6% of compensation. Employer contributions vest over four years at a rate of 25% per year of service. In addition, at the discretion of our Board, we may, but have not done so to date, make profit-sharing contributions to the 401(k) plan for all eligible employees.

Employment and Other Agreements

Mr. Singhal assumed the role of Chairman of our Board, effective January 19, 2007. In conjunction with his additional responsibilities, we entered into a new employment agreement with Mr. Singhal, which provides that he will receive an annual base salary of at least \$300,000. The employment agreement provides for a three-year term commencing January 19, 2007 with automatic one-year renewals. During the term of this agreement, Mr. Singhal will also be eligible to receive an annual bonus based on Company performance and individual objectives. The employment agreement is terminable at will by either party and provides that if we elect not to renew the agreement for any reason, or if Mr. Singhal's employment is terminated by us without due cause as defined in the agreement, by Mr. Singhal at any time following the consummation of a sale of the Company, or upon the death or disability of Mr. Singhal, Mr. Singhal, or his estate, is entitled to receive in a lump sum, a payment equal to the net present value of \$16,208 per month for seven years. If Mr. Singhal terminates his employment with us for any reason prior to the consummation of a sale of the Company, he is entitled to such lump sum payment for the period for which his severance benefits have vested (not to exceed seven years). Mr. Singhal will also receive continued health and dental benefits during such period. Mr. Singhal's employment agreement was amended in May 2012 to address technical requirements of Section 409A of the Internal Revenue Code of 1986, as amended.

We also entered into amended and restated severance agreements in May 2012 with our Named Executive Officers other than Mr. Singhal and Mr. Sommers, and in October 2012 we entered into an Executive Employment Transition Agreement with Mr. Sommers, each of which are described under the heading "Post Termination Compensation" in Compensation Discussion and Analysis below.

Each of these agreements was approved by a majority of our Board and by a majority of the disinterested members of our Board. All future transactions, if any, with our executive officers, directors, and affiliates will be approved in accordance with our related party transaction policy discussed below under "Transactions with Related Persons."

Potential Payments Upon Termination or Change of Control

The table below sets forth the estimated amount of payments and other benefits each Named Executive Officer would be entitled to receive upon the occurrence of the indicated event, assuming that the event occurred on March 31, 2013. The information is provided relative to the Named Executive Officer's termination or change of control arrangements as of the Record Date and assumes such arrangements were actually in effect as of March 31, 2013. The values relating to vesting of stock options and restricted stock unit awards are based upon a per share fair market value of our common stock of \$24.57 the closing price reported on the NASDAQ Global Market on March 28, 2013, the last trading day of the year ended March 31, 2013. Actual payments made at any future date will vary based on various factors including, salary and bonus levels, the vesting schedules of the various equity-based awards, and the price of our common stock at the time of termination or change of control. For purposes of the payments associated with a change of control set forth in following table, we have assumed

that the respective Named Executive Officer was terminated on March 31, 2013 and that such arrangements were actually in effect as of such date. Please refer to the heading “Post Termination Compensation” below in Compensation Discussion and Analysis for a discussion of the particular terms of the applicable termination or change or control arrangements reflected in the table below.

Any unvested equity-based awards are assumed to have accelerated as of March 28, 2013, the last trading day of the year ended March 31, 2013 with the fair market value of accelerated RSUs based on \$24.57, the closing price for our common stock on March 28, 2013, the last trading day of the year ended March 31, 2013.

Compensation Discussion and Analysis

Overview

The goal of NetScout's executive officer compensation program is to retain and reward highly qualified, talented leaders who create long term stockholder value. The program is designed to align management's interests with those of stockholders and to motivate senior executives to increase our long-term growth and profitability while minimizing risks that could result from compensation decisions. As described below, NetScout, acting through our Chief Executive Officer and Compensation Committee, weighs the appropriate mix of compensation elements, including the allocation between cash and equity, for each executive officer to help achieve those objectives.

Compensation Objectives

NetScout uses its compensation program to achieve the following objectives:

- To provide compensation opportunities that attract, motivate, and retain the best talent and highest caliber people possible to serve our customers and achieve our strategic objectives.
- To align management's interests with our success, by linking compensation and performance, based on the attainment of both Company goals and individual goals and by including long-term equity incentives.
- To increase our revenue, to increase our profitability, and accordingly to increase stockholder value.
- To foster an environment of teamwork and shared success among executives.

Compensation Policies

To achieve NetScout's compensation objectives, NetScout and the Compensation Committee have developed an executive compensation program comprising the following elements: cash compensation in the form of base salary and annual incentive cash bonuses, long-term incentive awards in the form of equity grants, and certain benefits. The Compensation Committee reviews the program over the course of several meetings each year to evaluate whether the program supports NetScout's long-term goals.

The Compensation Committee reviews the total mix of the elements of compensation, such as short-term versus long-term compensation and cash versus equity compensation, in light of NetScout's overall compensation goals. The Compensation Committee also takes into account NetScout's past financial performance and future goals, individual performance and experience, and overall compensation levels. With

respect to specific financial goals, which consist of revenue and profits targets, the Compensation Committee places greater emphasis on achieving those goals, but the Compensation Committee does not assign specific weights, formulas, or rankings to the factors. The Committee instead makes a determination of each executive's compensation based on consideration of all of these factors as well as the progress made with respect to NetScout's long-term goals and strategies. In addition, the Compensation Committee uses the following principles to guide its decisions regarding executive compensation:

Pay for Performance

Total compensation should reflect a "pay for performance" philosophy in which a substantial portion of executive compensation should be tied to the achievement of performance objectives of both NetScout and the individual. Payment on our short term incentive bonus awards are directly tied to the achievement of performance objectives and past performance by the executives is considered in determining the size of annual grants of long term incentive equity awards.

Alignment with Stockholders' Interests

Total compensation levels should include a component that reflects NetScout's overall performance through the use of equity-based awards in order to align executive officer and stockholder interests.

Internal Parity

To the extent practicable, and based on individual performance and position, base salaries and short- and long-term incentive targets for similarly-situated executives within NetScout should be comparable to avoid divisiveness and encourage teamwork, collaboration, and a cooperative working environment.

External Competitiveness

Executives' total compensation should be competitive with peer companies so that we can attract and retain high performing key executive talent. To achieve this goal within market ranges, our Compensation Committee, in consultation with our senior executives, periodically reviews the compensation practices of other companies in our peer group, as discussed in the "Third Party Data/Peer Group" section below.

Avoidance of Excessive Perquisites

Although we will consider certain perquisites that are common and appropriate for similarly-situated executives of public companies, as a general matter we intend to avoid the payment of excessive, unusual, or unnecessary perquisites to executives.

Elements of our Executive Compensation Program

A. Base salary

Although overall compensation levels for each of NetScout's executive officers, including the Chief Executive Officer, are generally set within the range of salaries that the Compensation Committee believes are paid to executive officers with comparable qualifications, experience, and responsibilities at similar companies, base salaries are generally set lower than those of executives at similar companies, consistent with the Company's compensation philosophy of pay for performance. The Compensation Committee, and the Board in the case of our Chief Executive Officer, exercises full discretion in setting base salary levels, subject to certain limits with respect to Mr. Singhal, whose base salary may not be reduced below \$300,000 without his consent under the terms of his employment agreement with NetScout. Salary decisions for NetScout's executive officers are generally made near the beginning of each fiscal year.

B. Short-term cash incentive

Short-term cash incentive goal and philosophy

Short-term incentive in the form of an annual cash bonus is intended to motivate executives to achieve both financial operating goals and the individual's annual performance goals which may include financial and non-financial objectives. The target amount for the annual bonus opportunity is established shortly after the outset of the fiscal year, and, consistent with our pay for performance approach, is intended to be at or above the median percentage offered to similarly-situated executives in the large company peer group used in connection with setting the bonus targets with respect to fiscal year 2013. Once the Company-wide bonus pool has been established, as described further below, executive officer bonuses are then determined based on attainment of individual goals, contribution to the company-wide goals, and other criteria as may be determined by the Compensation Committee, such as teamwork, ethical behavior, and adherence to our corporate values and policies.

Short-term cash incentive (bonus) accrual process

Bonuses are paid annually shortly after the end of the fiscal year to which they relate. Bonus pool accruals are made quarterly during the fiscal year, depending on NetScout's financial performance. Our non-GAAP revenue and non-GAAP EPS targets are usually expressed in ranges, and performance is measured based on being above, below, or within the ranges specified. Specifically, if NetScout has met its quarterly non-GAAP revenue and non-GAAP earnings per share, or EPS, targets, which means that our performance has been within the non-GAAP revenue and EPS ranges selected, the Company accrues funds with respect to that quarter in its company-wide bonus pool. However, if NetScout's performance is below the bottom of the ranges selected, no bonus funds would be accrued in that quarter resulting in a lower than targeted bonus pool for the year. Similarly, if performance is above the ranges selected, bonus funds accrued in that quarter could exceed 100% of target, resulting in the annual targeted bonus pool exceeding 100%. The total amount of the annual Company-wide bonus pool available after the end of each fiscal year is based on the sum of the bonus compensation accrued each quarter within such fiscal year. Given that our non-GAAP revenue and non-GAAP EPS targets are generally expressed in ranges and given that our accruals are not formulaic (for financial performance above the bottom of the ranges), our quarterly bonus accrual can require subjective adjustments based on our performance after considering primarily the degree of achievement of targets as well as other factors such as seasonality and changes in business conditions.

As an example of how the Company accrues bonuses, if we did not meet the bottom of the range for our financial targets in the first quarter of our fiscal year but met the targets each of the following three quarters, no bonus amounts would accrue for the first quarter, bonus amounts would accrue for the next three quarters, and the resulting total available pool would be 75% of the eligible bonus amount, subject to discretionary adjustments as discussed. As a result, it is possible for an individual to meet his or her individual annual performance goals including those related to full year financial results but still not receive a full bonus because quarterly accruals were less than 100% of the quarterly bonus accrual target. In this way, each executive shares the objective of meeting the Company's financial performance targets. As noted also, if we exceeded the top of the range for our financial targets in a quarter, bonus amounts for that quarter could be accrued over 100%, and assuming on target performance in the other three quarters the annual accrual could exceed 100%. As a result, assuming the individual met his or her individual performance goals, that person could receive an annual bonus greater than 100% eligible target.

GAAP vs. non-GAAP measures

As disclosed in NetScout's press releases regarding annual and quarterly earnings and other communications, NetScout provides financial information using methods in addition to those prescribed by generally accepted accounting principles (GAAP), such as non-GAAP revenue, income from operations, and net income and net income per diluted share. Non-GAAP revenue eliminates the GAAP effects of acquisitions by

adding back revenue related to deferred revenue revaluation. Non-GAAP net income includes the foregoing adjustment and also removes inventory fair value adjustments, expenses related to the amortization of acquired intangible assets, stock-based compensation, restructuring, certain expenses relating to acquisitions including compensation for post-combination services and business development charges, as well as early extinguishment of debt, net of related income tax effects. Non-GAAP diluted net income per share also excludes these expenses as well as the related impact of all these adjustments on the provision for income taxes. Management regularly uses supplemental non-GAAP financial measures internally to understand, plan, manage, and evaluate its business and to make operating decisions. Throughout this Compensation Discussion and Analysis section, reference to revenue and EPS targets will be deemed to refer to non-GAAP measures.

Fiscal Year 2013 Bonus Accrual

For fiscal year 2013, the Board established bonus accruals that were expected to range from 50% to 100% of target each quarter, but could have equaled zero percent if the bottom of the range of the financial performance goals were not reached. In light of the then current economic outlook and the significant revenue growth required to achieve the 100% accrual level, the Compensation Committee believed at the time that the bonus accruals at 100% were difficult, but not impossible, to achieve. NetScout's fiscal year 2013 full year bonus accrual for all employees, including executives, was 118%, above the full year full bonus target, primarily because the Company substantially met its revenue targets and exceeded its EPS targets.

C. Long-term incentive

The Compensation Committee believes that NetScout's equity incentive program is an important element of our overall compensation program as it contributes to the goal of attracting and retaining highly qualified individuals who can contribute to our success and helps to align the interests of management and stockholders. Toward that end, the Compensation Committee, which administers the 2007 Plan, has determined that grants, in the form of restricted stock units, should be concentrated, with high performing and high potential individuals receiving the bulk of the grants. In addition to an executive's past performance, NetScout's desire to retain an individual is of paramount importance in the determination of stock-based grants. The Committee also refers to internal guidelines in determining the equity grants to officers. In developing the guidelines, revised most recently in 2011, the Compensation Committee considered prior practice and its own assessment of reasonable grant amounts. The guidelines are considered as just one part of the mix of information used to determine equity awards. We believe that long-term awards also help manage risk by vesting a longer-term stake in the success of the Company. To further our long term incentive goals even more, the Compensation Committee approved in 2010 a Stock Ownership Policy for certain executive officers and directors, as described in this proxy statement under "Stock Ownership Policy."

D. Benefits/Perquisites

We seek to provide perquisites that are common and appropriate for similarly-situated executives of public companies, including health insurance and NetScout's 401(k) Plan. Executive officers are also eligible for life insurance policies that provide for three times cash compensation (salary and bonus) up to a \$1.5 million cap with evidence of insurability, which differs from the two times salary and bonus and \$500,000 cap available to non-sales employees and two times salary and commission and \$750,000 cap available to sales employees. Mr. Singhal is entitled to other benefits discussed below.

Executive Compensation Review and Process

General

The Compensation Committee meets at least four times annually to coincide with regularly scheduled Board meetings and usually holds several additional meetings during the year. The Compensation Committee met eight times during the fiscal year ended March 31, 2013. Each year, the Committee reviews compensation objectives

and practices in connection with the annual review and approval of executive officer compensation. Our Chief Executive Officer often participates in discussions and deliberations regarding the compensation of our executive officers. However, the Compensation Committee exercises complete discretion and has ultimate authority with respect to executive compensation matters, except in the case of the compensation of the Chief Executive Officer, which is approved by the full Board after receiving a recommendation from the Compensation Committee. The Chief Executive Officer assists the Compensation Committee in providing recommendations with respect to executives other than the Chief Executive Officer. The other executives do not play a role in determining their compensation, other than in discussing their performance with the Chief Executive Officer and the Chief Operating Officer, who makes his own recommendations to the Chief Executive Officer for the Chief Executive Officer's consideration. The Chief Operating Officer has no role in determining his own compensation, other than providing the Chief Executive Officer with an assessment of his own performance. Our Chief Executive Officer is not present and does not participate in discussions or deliberations regarding his own compensation, performance, or objectives, whether at Compensation Committee or Board meetings.

Use of Compensation Consultants

Historically, NetScout has not engaged compensation consultants to advise on executive compensation matters. In April 2013, our Compensation Committee engaged Pearl Meyer & Partners, an independent compensation consulting firm, to review and develop a new peer group and to collect compensation information pertaining to executive compensation matters. In May 2013, the Compensation Committee adopted a new peer group, based on information provided by the compensation consultant, but the Committee did not rely on the new peer group data related to executive compensation in making decisions about fiscal year 2013 compensation for named executive officers. Nor did adoption of a new peer group influence the base salary or target bonus with respect to the 2014 fiscal year. However, our Compensation Committee is expected to consider the new peer group companies in next year's executive compensation process. The Compensation Committee may also continue to work with Pearl Meyer or another compensation consultant during fiscal year 2014 to analyze our compensation practices and consider modifications to our compensation practices with respect to the future years. For fiscal year 2013, the process that the Compensation Committee followed, similar to prior years, is described immediately below.

Compensation Decision Processes

Evaluation of executive performance

The Compensation Committee reviews annually, over a series of meetings, the performance and compensation of each of our executive officers, including the Chief Executive Officer. The Compensation Committee takes into account NetScout's financial performance and future expectations, individual performance and experience, and overall compensation levels. The Compensation Committee has not typically assigned specific weights, formulas, or rankings to these factors, but instead makes a determination based on consideration of all of these factors as well as the progress made with respect to NetScout's long-term goals and strategies, except that the Compensation Committee does place greater emphasis on the achievement of the Company's overall corporate financial targets in making its determinations and considers those financial targets as shared objectives for all executives.

Although overall compensation levels for each of NetScout's executive officers, including the Chief Executive Officer, are generally set within the range of salaries that the Compensation Committee believes are paid to executive officers with comparable qualifications, experience, and responsibilities at similar companies, base salaries are set lower than those of executives at similar companies. Consistent with the Company's compensation philosophy of pay for performance, executive officers' total compensation mix provides for a significant bonus incentive component which, upon achievement, makes total compensation comparable to compensation paid to executives at similar companies. Typically, base salary levels for each of NetScout's executive officers, other than the Chief Executive Officer, are determined after considering the evaluations and recommendations made by the Chief Executive Officer, who applies his own judgment in making compensation

recommendations after reviewing our performance, the performance of the executive officer against corporate and individual goals, the executive's career with the Company, the amounts of current and long-term compensation, and special circumstances such as strategic alliances or acquisitions.

With respect to short term cash incentive compensation, generally the corporate level performance goals consist of Board-approved non-GAAP revenue and non-GAAP EPS targets. The Chief Executive Officer and the other named executive officers are eligible for bonuses only after NetScout meets or exceeds company-wide revenue and EPS targets, except for Mr. Downing whose short term cash incentive compensation consists of both commissions based on sales and a bonus component. If NetScout meets or exceeds the targets, the Chief Executive Officer and other named executive officers are eligible for bonuses, but the amounts are then based on attainment of individual goals, contribution to the company-wide goals, and other criteria that may be established by the Compensation Committee, such as teamwork, ethical behavior and adherence to our corporate values and policies. For fiscal year 2013, as has been past practice, each executive officer shares revenue and EPS targets as a common management objective, via the bonus accrual mechanism described previously.

Establishing performance goals for the next fiscal year

The corporate level performance goals and the individual performance goals are set shortly after the beginning of each fiscal year. Discussions of next year's goals begin during the fourth quarter of the current fiscal year, in conjunction with management's development of a proposed strategic and operating plans and budget for the next fiscal year. The Compensation Committee endeavors to establish goals for executive officers consistent with NetScout's strategic plan, financial goals, and operating budget for the year. Accordingly, the Compensation Committee generally has the expectation that we will achieve our corporate level goals for the year. In addition, the Chief Executive Officer works with each executive officer to establish individual annual performance goals and then presents proposed goals for each executive officer to the Compensation Committee for review and evaluation. The Compensation Committee or the Board provides advice and comments on the individual executive goals and approves the goals with any requested changes. Individual executive performance goals are not established or scored in as rigid a manner as the overall corporate level performance goals. The Compensation Committee believes that the Chief Executive Officer is in the best position to evaluate the day to day performance of the executives who report to him and to the Chief Operating Officer, and the Compensation Committee believes that deference to the Chief Executive Officer's evaluation of such executives and his related recommendations is generally appropriate.

When establishing stock-based grant levels for executive officers and other employees, the Compensation Committee considers the existing levels of stock ownership, previous equity grants, vesting schedules of previously granted restricted stock units, options and other stock-based awards, and the current stock price. The Compensation Committee annually reviews, with the use of tally sheets, stock-based grants to executive officers and considers the level of outstanding awards as a factor in its determinations with respect to overall compensation for each of the executive officers and the effectiveness of additional awards or other forms of compensation in achieving NetScout's compensation goals.

NetScout intends to make equity awards to executive officers at their appointment and then annually, depending upon performance. During the fiscal year ended March 31, 2013 the Committee approved equity grants to the named executive officers in an amount equal to 97,268 shares in the aggregate, as further discussed below.

Performance Goal Achievement for Fiscal Year 2013

Corporate level achievement

Corporate level goals generally consist of revenue and EPS targets, on a non-GAAP basis, as approved by the Board of Directors. Each named executive officer is measured based on these shared performance objectives. Such information is extremely confidential and disclosure of the same could cause competitive harm to NetScout. Please refer to the previous discussion under "Fiscal Year 2013 Bonus Accrual."

Individual level achievement

The individual goals for the fiscal year ended March 31, 2013 were adopted at the beginning of the 2013 fiscal year and are set forth below with respect to each applicable officer, other than Mr. Sommers for the reasons expressed below. To the extent individual goals include revenue, EPS, bookings, or other financial metrics, strategically sensitive information, or specific technical product information, the data has been omitted given their confidential nature.

The following lists the individual performance goals, along with the conclusions reached by the Compensation Committee and the Board, in the case of the Chief Executive Officer's, regarding achievement of fiscal year 2013 individual goals:

Implement cost awareness and resource efficiency by end of Q1. Propose alternatives during Q2, design and forecast efficiencies for FY '14 planning cycle. (25%)	Achieved

Ms. Bua became Senior Vice President of the Company in May 2013. Mr. Sommers ceased being an executive officer of the Company as of March 31, 2013, but his operational responsibilities were significantly reduced mid-year. Given that change, Mr. Sommers' bonus was not determined based on his individual fiscal year 2013 goals, but rather was determined by giving significant weight to the financial performance goals shared by all named executive officers, as well as other criteria typically used by the Compensation Committee in assessing contributions, such as teamwork, ethical behavior, and adherence to our corporate values and policies. Mr. Sommers remains employed with the Company in a non-executive level position in accordance with the terms of his Executive Employment Transition Agreement with the Company dated October 19, 2012.

For those goals that are capable of direct measurement the Compensation Committee considers the percentage of goal achievement taking into account developments during the year, including both internal and external factors affecting the Company. For goals that are qualitative in nature or are not as susceptible to financial or numerical measurement, the Compensation Committee relies primarily on its judgment, knowledge of the business, and information obtained through interactions with management throughout the year. The Compensation Committee views the compensation determination process as an important opportunity to engage in strategic discussions with the Chief Executive Officer on the appropriate factors and criteria that should be focused on for the attainment of long-term stockholder value.

Third Party Data/Peer Group

NetScout uses third party executive pay survey databases and peer group data (historically, collected by the Company itself) to assist in compensation decisions. NetScout and the Compensation Committee believe the data are helpful but consider such information as part of a range of factors in determining appropriate compensation levels. Generally, the data are used to confirm that NetScout executives are paid competitively. The comparison is intended to inform the Compensation Committee's discussion, but it is not intended to determine compensation in any formulaic way. The Compensation Committee looks to the peer data to ensure that NetScout is paying compensation that is appropriate to accomplish its objectives. As noted above, the Compensation Committee recently engaged Pearl Meyer, an independent third party consultant to assist with the review and development of the peer company group. During that process, the Compensation Committee adjusted the peer group and increased the number of peer companies against which it benchmarks compensation. The old and new peer group are shown below. As has been the case in prior years, the Compensation Committee concluded that the prior peer group data and third party survey data confirmed that overall compensation for NetScout's executive officers at full plan achievement is generally competitive with that paid to executive officers at similar companies. The new peer group data will be used to analyze our compensation practices and consider modifications to our compensation practices with respect to future years.

Historically, the set of publicly traded peer companies has been determined and periodically reevaluated based on revenue, net income, number of employees, and similar industry/related technology. These companies have naturally fallen into two groups. Thus, for comparison purposes we have reviewed compensation data for a group of small companies and for a group of larger companies, because the Company competes with both groups for employees and because there had been few direct comparison companies at the Company's current size. Those peer companies include the following, divided into companies that are smaller than NetScout based on revenue, net income, and number of employees and companies that are larger than NetScout based on the same criteria:

Prior Peer Group

Smaller Companies

Acme Packet, Inc.
Ixia
OPNET Technologies, Inc.
Solar Winds, Inc.

Larger Companies

Blue Coat Systems, Inc.
Quest Software, Inc.
Red Hat, Inc.
Riverbed Technology, Inc.
Tekelec
Tibco Software, Inc.

New Peer Group

For fiscal year 2014, Pearl Meyer recommended and the Compensation Committee approved a new peer group for executive compensation purposes. Due to the Company's growth, recent acquisitions, and global nature of the business, the Compensation Committee wanted to review in a more systematic way the previous peer group, which the Company had periodically assessed and adjusted from time to time. The new peer group is intended to reflect NetScout's market for executive talent, and the selection criteria included similar industry/related technology and company size, as measured by annual revenue and market capitalization. The revenue and market capitalizations of the peer group companies generally fit within a range of 1/3-3 times that of NetScout. The new peer group consists of the following companies:

Accelrys, Inc.
BroadSoft, Inc.
Calix, Inc.
CommVault Systems, Inc.
Interactive Intelligence Group, Inc.

Ixia
MicroStrategy, Inc.
Riverbed Technology, Inc.
SolarWinds, Inc.
Sourcefire, Inc.
Synchronoss Technologies, Inc.
TIBCO Software, Inc.
Tyler Technologies, Inc.
Websense, Inc.

Recent Compensation Decisions With Respect To Our Named Executive Officers

In May 2013, the Compensation Committee and the Board, with respect to Mr. Singhal based on the recommendations of the Compensation Committee, approved fiscal year 2013 bonuses, fiscal year 2014 base salary rates, and fiscal year 2014 bonus targets for each of our named executive officers, including Mr. Singhal.

Chief Executive Officer Compensation

Base Salary. Although our fiscal 2013 financial performance was strong and the Company was successful in many areas, Mr. Singhal requested that he not receive, and he was not granted, a base salary increase for the fiscal year ending March 31, 2014. This is the sixth consecutive year in which the Compensation Committee, Board, and Mr. Singhal have reviewed together and determined, for the reasons stated and because of his significant share ownership position, that Mr. Singhal's base compensation would not increase. Mr. Singhal's current base salary is \$325,000 per year. Mr. Singhal entered into an employment agreement dated as of January 3, 2007, as amended, with a three-year term that automatically renews each year unless either party elects to terminate the agreement. The agreement provides for an annual base salary of at least \$300,000, which base may be increased as determined by the Compensation Committee and approved by the Board and an annual bonus determined by the Compensation Committee in consultation with Mr. Singhal and also subject to Board approval.

Fiscal 2013 Bonus Amount. NetScout substantially achieved its quarterly and annual revenue targets and exceeded its quarterly and annual EPS targets set at the beginning of the year, leading to a full year bonus accrual of 118% as described in "Fiscal Year 2013 Bonus Accrual" above.

The Compensation Committee considered the amount of incentive compensation that should be paid to the Chief Executive Officer based on consideration of a number of factors that it deemed relevant to Mr. Singhal's performance in fiscal year 2013. In determining Mr. Singhal's bonus, the Compensation Committee considered NetScout's financial performance and Mr. Singhal's non-financial individual goal achievement, experience, and responsibility. The Committee considered the level of the company-wide bonus accrual, in light of the positive results achieved in several areas including year over year non-GAAP revenue increase of 14% and non-GAAP net income increase of 19%. The Committee also noted product revenue increase of 18% for the year, non-GAAP operating margin levels of 25%, and the closing of two acquisitions, among other achievements over the year.

Following review of NetScout's overall performance and Mr. Singhal's attainment of individual objectives, the Committee recommended to the Board that Mr. Singhal be granted a bonus at 118% of his full year \$600,000 target bonus, which matched the overall percentage of the Company-wide accrued bonus pool. Mr. Singhal's fiscal year 2013 bonus was \$709,321.

Fiscal 2014 Bonus Amount. As noted, NetScout typically puts greater weight toward executives' short term cash incentive compensation compared to base salary. In May 2013 the Board approved, based on the recommendation of the Compensation Committee, a fiscal year 2014 target bonus for Mr. Singhal of \$626,000. This bonus opportunity is an increase from the prior year bonus opportunity, reflecting a 2.8% increase for on

target earnings, or OTE (base salary and bonus combined), assuming achievement of corporate and individual goals. In order to be awarded a bonus for fiscal year 2014 NetScout would have to achieve the non-GAAP revenue and EPS targets set by the Board, the terms of which are not disclosed because they represent confidential information, the disclosure of which would result in harm to our ability to compete. The bonus accruals are expected to range from 50% to 100% of target each quarter, but could be zero if the bottom of the range of the financial performance goals are not reached, and, conversely, could exceed 100% if performance warranted it.

If NetScout meets or exceeds the company-wide performance goals, the Chief Executive Officer bonus with respect to the 2014 fiscal year will be based upon the attainment of the following individual goals:

- Identify and deploy appropriate additions and changes to our four year strategy in response to our experience in the first year of implementation
- Extend our service provider market leadership by bringing to market certain specified technologies
- Drive NetScout's strategy to successfully transition from the NPM to the NPM+APM space

Fiscal Years 2013 and 2014 Equity Awards. NetScout intends to make equity awards to executive officers at their appointment and then every year, depending upon performance. During the fiscal year ended March 31, 2013 the Committee approved equity grants to the named executive officers, including the Chief Executive Officer, in an amount equal to 97,268 shares in the aggregate, with a grant to Mr. Singhal of 41,391 restricted stock units, or RSUs. All grants are made pursuant to the 2007 Plan and vest as follows: 25% on the first anniversary of the date of grant with the balance vesting in equal quarterly increments over the following three years. The Committee has not, to date, approved awards to the executive officers for fiscal year 2014.

The fiscal year 2013 equity awards to the executive officers including the Chief Executive Officer were determined based on numerous factors including existing levels of stock ownership, previous equity grants, vesting schedules, current stock price, place in overall compensation mix, and effectiveness of different elements of compensation in achieving the Company's compensation goals. Allocations were limited by the total annual equity pool available for award to all employees including executive officers, pursuant to a Board-approved limit set as a percentage of shares outstanding the precise number of which is considered confidential. The Committee also referred to internal guidelines for equity grants to officers. In developing the guidelines, revised most recently in 2011, the Compensation Committee considered prior practice and its own assessment of reasonable grant amounts, but it also reviewed peer company practices and a commercially available 2010 survey of high technology companies (Radford). The guidelines are considered as just one part of the mix of information used to determine equity awards.

Based on the factors described above, the fiscal year 2013 equity awards for each named executive officer, including Mr. Singhal, represented a percentage of the eligible equity amount provided by the guidelines (approximately the same percentage was used for each named executive officer) and resulted in the total set out in the Grants of Plan-Based Awards in Fiscal Year 2013 table above.

Other Named Executive Officers' Compensation

Fiscal Year 2013 Base Salary. Messrs. Szabados, Sommers, and Downing were not granted a base salary increase for the fiscal year ending March 31, 2013. Effective April 24, 2012, the Compensation Committee approved an increase in Ms. Bua's base salary from \$200,000 to \$240,000 in light of her becoming Chief Financial Officer. The base salary information for all officers can be found in the Summary Compensation Table.

Fiscal 2013 Bonus Amount. In determining the bonus amounts for executive officers, in addition to the considerations set out in "Fiscal Year 2013 Bonus Accrual" above, the Compensation Committee considered NetScout's financial performance and each officer's non-financial individual goal achievement, experience, and

responsibility. The Committee recognized the success over the full year and the positive results achieved in several areas including year over year non-GAAP revenue increase of 14%, and non-GAAP net income increase of 19%. The Committee also noted the product revenue increase of 18% for the year, non-GAAP operating margin levels of 25%, and the closing of two acquisitions, among other achievements over the year.

Following review of NetScout's overall performance, accrual of the annual corporate-wide bonus pool at 118% of target, and the extent of each officer's attainment of individual objectives, the Compensation Committee granted bonuses to Mr. Szabados at 118% of full year target, Mr. Sommers at 118% of full year target, Mr. Downing at 106% of full year target, and Ms. Bua at 118% of full year target. The total bonus amounts for all Named Executive Officers are provided in the Summary Compensation Table. The Committee made bonus awards within a relatively narrow range but in the case of Mr. Downing the Committee also gave consideration to the commission component of his compensation and his not fully achieving his new business bookings objective due in large part to weak government sector performance and underperformance in certain geographies due in part to macroeconomic factors. The Compensation Committee believed this allocation was appropriate given the roughly comparable performances by such executive officers, mainly within a narrow range to avoid divisiveness and encourage teamwork, collaboration, and a cooperative working environment. With respect to Mr. Sommers, the Committee considered the recommendation to award him a bonus at 118% of target, a percentage similar to other named executive officers. Mr. Sommers ceased being an executive officer of the Company as of March 31, 2013, but his operational responsibilities were significantly reduced mid-year. Given that change, Mr. Sommers' bonus was not determined based on his individual fiscal year 2013 goals, but rather was determined by giving significant weight to the financial performance goals shared by all named executive officers, as well as other criteria typically used by the Compensation Committee in assessing contributions, such as teamwork, ethical behavior, and adherence to our corporate values and policies. The Committee recommended to the Board Mr. Sommers' fiscal year 2013 bonus at 118% of target and the Board reviewed and approved that award.

In the past, Mr. Downing's compensation, compared to other named executive officers' compensation, was weighted more heavily toward incentive cash compensation based on achievement of sales targets, with a smaller bonus component tied to the Company's performance and his individual performance than was applicable to the other executive officers. For fiscal year 2013, as it had done the year before, the Compensation Committee adjusted the balance between Mr. Downing's commission-based incentive and corporate bonus incentive to put even more weight on the corporate bonus incentive to emphasize the corporate goals that Mr. Downing was expected to achieve. Mr. Downing's sales targets for fiscal year 2013 represent confidential information, the disclosure of which would result in harm to our ability to compete. For fiscal year 2013, with respect to the corporate bonus incentive, based on review of his individual performance, the Compensation Committee granted a bonus to Mr. Downing at 106% of target.

Fiscal 2014 Base Salary. The NetScout base salaries for the Named Executive Officers remained the same for the Named Executive Officers except that Ms. Bua's base salary increased from \$240,000 to \$265,000 as part of her promotion to Senior Vice President, and Mr. Sommers' salary had been reduced, as of April 1, 2013, by 50% to \$132,500 as part of his agreement executed in October 2012.

Fiscal 2014 Bonus Amount. NetScout puts great weight toward executives' short term cash incentive compensation compared to base salary. In May 2013, the Compensation Committee approved fiscal year 2014 target bonuses with a \$15,000 increase for Mr. Szabados to \$275,000, a \$25,000 increase for Mr. Downing's commission target, and a \$25,000 increase to Ms. Bua's bonus target, while also recommending and with the Board approving a promotion from Vice President to Senior Vice President in addition to her Chief Financial Officer and Treasurer positions. In order for executive officers to be awarded a bonus for fiscal year 2014, NetScout has to achieve the non-GAAP revenue and non-GAAP EPS goals set by the Board within the approved ranges, the terms of which are not disclosed because they represent confidential information, the disclosure of which would result in harm to our ability to compete. The bonus accruals are expected to range from 50% to 100% of target each quarter, but could be zero if the bottom of the range of the financial performance metrics are

not reached. Each executive explicitly shares the non-GAAP revenue and EPS objectives. If NetScout meets or exceeds the company-wide performance targets, Messrs. Szabados and Downing and Ms. Bua’s bonus amounts will be based upon the attainment of the individual goals discussed below:

Michael Szabados (COO)

Drive NetScout’s entry into the APM market

Drive rapid nGeniusONE adoption in the installed base

Increase NetScout’s market perception as a recognized leader in both the enterprise IT Operations Management market and the Service Provider service assurance market.

Fully integrate the recent acquisitions and streamline their operations within the NetScout organization within the specified timetables.

Research the feasibility and or need to conduct an Employee Engagement Survey to measure the NetScout employee comprehension of certain matters.

John Downing (SVP Worldwide Sales)

Achieve undisclosed bookings targets during fiscal year 2014, with specified dollar targets and specified renewal bookings. Achieve overall sales productivity growth of a certain percentage.

Build a sales organization capable of new business bookings in excess of a specified amount in the following two years of the strategic plan.

Drive the growth of the PFS portfolio from current levels to a specified amount.

Jean Bua (CFO)

Develop metrics and story to measure progress and communicate success on the NPM-APM growth stage to shareholders.

Continue the improvement in back office efficiency through workflow simplification and increased interdepartmental collaboration, principally focusing on two specified key areas.

Develop “best practices” in operational controls, educate and implement within the applicable functions in three specified key areas. Assess and develop strategies to optimize NetScout’s global tax position.

Fiscal 2013 Equity Award. In August 2012, the Compensation Committee approved grants to Ms. Bua and Messrs. Szabados, Sommers, and Downing of RSUs equal to the following shares of our common stock pursuant to our 2007 Plan:

<u>Name</u>	<u>RSU Grant (shares)</u>
Michael Szabados	24,834
David P. Sommers	8,278
Jean Bua	8,278
John W. Downing	14,487

For all of the above grants, the RSUs vest as follows: 25% vests on the first anniversary of the date of grant, and the balance vest in equal quarterly installments over the next three years. The Compensation Committee

believed that the foregoing annual grants were appropriate in furtherance of our philosophy that total executive compensation should be more heavily weighted toward long-term incentive compensation to ensure that the interests of our executives are aligned with those of our stockholders and that the additional grant to Mr. Sommers was warranted in light of his changed role. In addition, the Compensation Committee felt it was important to ensure that Ms. Bua and Messrs. Szabados, Sommers and Downing have a significant ongoing equity stake in NetScout so that each has appropriate incentives and has long-term interests are aligned with those of our stockholders.

Other Benefits

NetScout also maintains various broad-based employee benefit plans. Executive officers participate in these plans on the same terms as eligible, non-executive employees, subject to legal limits on the amounts that may be contributed or paid to executive officers under these plans. One exception to this broad-based eligibility is that executive officers at the vice president level and above are eligible for life insurance policies that provide for three times cash compensation (salary and bonus) up to a \$1.5 million cap with evidence of insurability, which differs from the two times salary and bonus and \$500,000 cap available to non-sales employees and two times salary and commission and \$750,000 cap available to sales employees. The company also offers a 401(k) plan that allows all employees to invest in a wide array of funds on a pre-tax basis. The 401(k) plan allows employees to put aside the lesser of 80% of their eligible compensation or \$17,000 (or \$22,500 for individuals at least 50 years of age) for calendar year 2012. NetScout matches 50% of each employee's contribution up to 6% of such employee's annual salary. The matching amount vests 25% per year over four years. After four years of service, the employee match is 100% vested. Employees are eligible to participate on the 401(k) plan on date of hire.

Under his current employment agreement, Mr. Singhal is entitled to the following benefits: disability insurance of no less than 100% of base salary, paid vacation, group life insurance not to exceed \$1.5 million, and NetScout's generally available medical, dental, and vision plans as well as any other benefits generally available to senior executives of NetScout. In addition, NetScout will reimburse Mr. Singhal for tax and estate planning and for leasing and maintaining a car.

Post-Termination Compensation

Mr. Singhal's employment agreement provides that if any of the following three events occur (1) NetScout terminates Mr. Singhal's employment for any reason other than due cause (as defined in the agreement), (2) Mr. Singhal terminates his employment for any reason at any time following the consummation of a sale of NetScout, or (3) upon the death or disability of Mr. Singhal, then Mr. Singhal, or his estate, is entitled to receive in a lump sum, a payment equal to the net present value of \$16,208 per month for a period of seven years. If Mr. Singhal terminates his employment with NetScout for any reason prior to the consummation of a sale of NetScout, he is entitled to such lump sum payment for the period for which his severance benefits have vested (not to exceed seven years). Mr. Singhal will also receive continued health and dental benefits during such period. Mr. Singhal's severance benefits, including health and dental benefits, are fully vested, and the Company has projected its future payments for this unfunded obligation at approximately \$1.6 million in the aggregate. Mr. Singhal's employment agreement was amended in May 2012 to update certain provisions with respect to the application of Section 409A of the Internal Revenue Code of 1986, as amended, or the Code, but such amendment did not affect any of the provisions described above.

In May 2012, NetScout entered into amended and restated severance agreements with its Named Executive Officers, other than its Chief Executive Officer. These agreements are intended to help NetScout retain key executives and to reinforce the continued attention and dedication of management in event of a change of control and to provide protection so that such executives can act in the best interests of NetScout without distraction.

For each of the Named Executive Officers (other than Mr. Sommers), the amended and restated severance agreements provide certain payments in the event that such officer is terminated without cause (as defined in the applicable agreement) or resigns for good reason (as defined in the applicable agreement) at any time prior to a

change in control of NetScout (as defined in the applicable agreement) or within one year thereafter. In such event, such officer will receive 12 months of his or her then current salary, and, if such termination occurs after a change of control, such officer will also receive a prorated amount of his maximum annual target bonus, based on the months elapsed in such year that in any event will not be less than 50% of his or her maximum annual target bonus and accelerated vesting of any outstanding unvested equity awards under the 2007 Plan, or any successor thereto, that would have vested or become exercisable within one year of such termination.

With respect to the severance agreement with Mr. Downing, if such termination occurs after a change of control, such payments will also include accrued but unpaid sales commissions plus a prorated amount of his maximum target sales commissions (without double counting for previously paid commissions) that in any event will not be less than 50% of his maximum target sales commissions.

Each of the amended and restated severance agreements listed above contain a one year initial term with one year automatic renewal terms unless NetScout or the respective executive officer elects not to renew the agreement.

The agreements also contain forfeiture provisions requiring repayment of severance amounts if it is ultimately determined that the executive officer committed certain prohibited conduct while employed by NetScout or materially breached any of the officer's agreements with NetScout.

In October 2012, Mr. Sommers entered into an agreement with the Company that provides that in the event that his employment is terminated without cause (as defined in his agreement) or he resigns for good reason (as defined in his agreement), then, subject to certain conditions, Mr. Sommers will be entitled to receive his base salary through March 31, 2015 (the end of the term of the agreement), his equity incentive awards shall vest in full and he will be receive an amount equal to the payments due under COBRA to maintain his health insurance until the end of the term of the agreement or if earlier, the date on which he obtains substantially equivalent health insurance coverage from a third party.

Regulatory Requirements

Tax Deductibility of Executive Compensation

Under Section 162(m) of the Internal Revenue Code NetScout cannot deduct, for federal income tax purposes, compensation in excess of \$1,000,000 paid to certain executive officers. This deduction limit does not apply to compensation that constitutes "qualified performance-based compensation" within the meaning of Section 162(m) of the Code and the regulations promulgated thereunder.

Other Key Regulations Affecting Compensation Plans

Post-termination compensation is designed to minimize the effect of additional taxes imposed by Section 409A of the Code.

Management of Risk

Following review and discussion, the Compensation Committee believes that any risks arising from our compensation policies and practices for our employees will not have a material adverse effect on NetScout. In addition, the Compensation Committee believes that the mix and design of the elements of executive compensation do not encourage management to assume excessive risks. The considerations which led the Compensation Committee to this conclusion include the following:

- We provide executives with a reasonable base salary. We believe these base salary levels mitigate risk-taking behavior by providing reasonable predictability in the level of income earned by each executive and alleviating pressure on executives to focus exclusively on stock price performance to the detriment of other important business metrics.

- We use a mixture of compensation elements that is intended to discourage short-term risk taking. Further, the executive team overall has a long tenure and significant experience, enabling it to deal with business cycles.
- Short term incentives in the form of annual performance bonus payouts are generally capped at 100% of the target amount, unless the Compensation Committee or the Board determines that extraordinary performance warrants a higher payout, which the Compensation Committee believes mitigates the likelihood that our executives will take excessive risks.
- Equity incentive awards are generally granted annually and generally vest over four years, so executives have a significant amount of unvested awards that could decrease significantly in value if our business is not managed for the long-term. As noted, there are Stock Holding Guidelines designed to reinforce that long-term view.
- We have a robust system of internal controls and a comprehensive compliance program, which includes extensive training of all employees, which we believe promotes a culture of ethical behavior and compliance, as well as an appropriate attitude toward risk-taking. The Compensation Committee retains discretion to adjust compensation based on adherence to our values and compliance with programs, among other things.

Conclusion

NetScout's compensation objectives, its evaluation process, and its work in cooperation with the Compensation Committee are designed to motivate and fairly reward executive officers while supporting the Company's goals for growth and increasing profitability. The Compensation Committee intends to continue the policy of linking executive compensation to corporate performance, both financial and strategic, with its goal of increasing stockholder value over time.

Report of Compensation Committee of the Board of Directors²

The Compensation Committee has reviewed the Compensation Discussion and Analysis portion of this proxy statement and discussed such section with management. Based on its review and discussions and its ongoing involvement with executive compensation matters, the Compensation Committee recommended to the Board that the CD&A portion of this proxy statement be included in NetScout's proxy statement and incorporated into NetScout's Annual Report on Form 10-K for the fiscal year ended March 31, 2013. This report is provided by the following independent directors, who comprise the Compensation Committee:

Joseph G. Hadzima, Chair
 Victor A. DeMarines
 Robert E. Donahue
 Stephen G. Pearse

Compensation Committee Interlocks and Insider Participation

Neither Mr. Hadzima, Mr. DeMarines, Mr. Donahue, nor Mr. Pearse was, during the past fiscal year, an officer or employee of the Company or any of our subsidiaries, was formerly an officer of the Company or any of our subsidiaries, or had any relationship with us requiring disclosure herein. During the past fiscal year, none of our executive officers served as:

- a member of the compensation committee (or other board committee performing equivalent functions or, in the absence of any such committee, the entire board of directors) of another entity, of whose executive officers served on our Compensation Committee;

² The material in this report is not "soliciting material," is furnished to, but not deemed "filed" with, the SEC and is not deemed to be incorporated by reference in any filing of the Company under the Exchange Act, other than the Company's Annual Report on Form 10-K, where it shall be deemed to be "furnished," whether made before or after the date hereof and irrespective of any general incorporation language in any such filing.

- a director of another entity, one of whose executive officers served on our Compensation Committee; or
- a member of the compensation committee (or other board committee performing equivalent functions or, in the absence of any such committee, the entire board of directors) of another entity, one of whose executive officers served as one of our directors.

Transactions with Related Persons

The Company has a written policy with respect to “Related Persons Transactions.” Except as specifically provided below, all “Related Person Transactions” require approval or ratification by either our Audit Committee (provided that the transaction involves terms comparable to terms that could be obtained from unrelated third parties), the majority of independent members of our Board, or, in the case of transactions that involve compensation, our Compensation Committee or a majority of our Board. Like other company policies, our Policy with respect to Related Person Transactions is managed on a day to day basis by our management team, including our General Counsel, and to the extent necessary, related matters are discussed with our Board (or a committee thereof) or our outside counsel.

For NetScout, a “Related Person Transaction” is broadly defined as any transaction between NetScout and any Related Person (as defined below), including any transactions requiring disclosure under Item 404 of Regulation S-K under the Exchange Act, unless such transaction is available to all of our employees generally or if such transaction, when aggregated with any other transactions with such person during such fiscal year, involves less than \$5,000.

A “Related Person” means:

- a director or executive officer of NetScout, as well as any nominee for director proposed to be elected at the next annual meeting of stockholders;
- a stockholder owning in excess of five percent of NetScout (or its controlled affiliates);
- an immediate family member of the persons listed in Nos. i and ii above (“immediate family” as defined under Item 404 of Regulation S-K under the Securities Exchange Act of 1934); and
- an entity which is owned or controlled by someone listed in i, ii or iii above, or an entity in which someone listed in i, ii or iii above has a substantial ownership interest or control of such entity.

Our Board has determined that our Audit Committee is generally best suited to review and approve Related Person Transactions. If Audit Committee approval is not possible (because it involves terms that are not comparable to terms that could be obtained from unrelated third parties or because of logistical difficulties), or if a transaction involves compensation, such approval may be obtained as provided in the first paragraph of this response. Such Related Person Transactions may be presented for approval or preliminarily entered into by our management subject to ratification by the applicable committee or our Board, provided that if ratification does not occur, our management is obliged to take all reasonable efforts to cancel or annul such transaction. Transactions with Related Persons other than our management cannot be entered into on a preliminary basis.

In determining whether or not to approve a Related Person Transaction, the applicable committee or our Board will also consider whether such transaction would affect the status of a member of our Board as an “independent director” as promulgated by the Securities and Exchange Commission, the Financial Industry Regulatory Authority, any exchange upon which our securities are traded, or any governmental or regulatory body exercising authority over us. If the result of any such Related Person Transaction is that a majority of our Board would no longer be deemed to be “independent directors” then such transaction will not be approved. Other than as described under “Employment and Other Agreements” and “Post Termination Compensation” above, the Company is not party to any Related Person Transactions with respect to the fiscal year ended March 31, 2013.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our directors, executive officers, and holders of more than 10% of our common stock, or collectively, Reporting Persons, to file with the SEC initial reports of ownership and reports of changes in ownership of our common stock. Such persons are required by SEC regulations to furnish us with copies of all such filings. Based on our review of the copies of such filings received by us with respect to the fiscal year ended March 31, 2013 and written representations from certain Reporting Persons, we believe that all Section 16(a) filing requirements were complied with on a timely basis during the fiscal year ended March 31, 2013.

Policy on Audit Committee Pre-approval of Audit and Non-Audit Services

Our Audit Committee has implemented procedures under our Audit Committee Pre-Approval Policy for Audit and Non-Audit Services, or the Pre-Approval Policy, to ensure that all audit and permitted non-audit services provided to us are pre-approved by the Audit Committee. Specifically, the Audit Committee pre-approves the use of our independent registered public accounting firm for specific audit and non-audit services within approved monetary limits. If a proposed service has not been pre-approved pursuant to the Pre-Approval Policy, then it must be specifically pre-approved by our Audit Committee before it may be provided by our independent registered public accounting firm. Any pre-approved services exceeding the pre-approved monetary limits require specific approval by our Audit Committee. The Audit Committee delegated authority to management to approve expense items up to \$50,000 provided all such amounts are reported to the Audit Committee. All of the audit-related, tax, and all other services provided by our independent registered public accounting firm in fiscal years 2013 and 2012 were approved by the Audit Committee by means of specific pre-approvals or pursuant to the procedures contained in the Pre-Approval Policy. All non-audit services provided in fiscal years 2013 and 2012 were reviewed with our Audit Committee, which concluded that the provision of such services by our independent registered public accounting firm was compatible with the maintenance of that firm's independence in the conduct of its auditing functions.

Solicitation by our officers and employees may also be made of some stockholders in person or by mail, telephone, or telegraph following the original solicitation. We may retain a proxy solicitation firm to assist in the solicitation of proxies. We will bear all reasonable solicitation fees and expenses if such a proxy solicitation firm is retained.
