Allworx Receives Two 2015 INTERNET TELEPHONY Product of the Year Awards

Allworx View(TM) and Allworx Interact(TM) Recognized for Industry Innovation

ROCHESTER, N.Y., March 10, 2015 (GLOBE NEWSWIRE) -- Allworx Corp., a Windstream (Nasdaq:WIN) company, announced today that TMC, a global, integrated media company, has named Allworx View™ and Allworx Interact™ as recipients of 201 INTERNET TELEPHONY Product of the Year Awards.

Allworx View provides browser-based real-time dashboards and historical reports for Allworx VoIP communication systems to help Small and Medium-sized Businesses (SMBs) manage telecom resources and make fact-based decisions. Real-time dashboards include configurable display of detailed metrics on calls, queues and agents, all designed to improve customer experience and agent productivity. Historical reports include call details, call totals, lines in use, queue summary, agent summary and history - and can be easily exported, saved, shared or auto-scheduled.

Allworx Interact Professional is the next-generation PC-based call management solution that combines an intuitive, configurable desktop user interface with the power of the Allworx handset to improve employee productivity. Interact Professional's dockable windows allow users to see current and parked calls, call history, others on active calls and their presence status. Interact Professional also provides a dial-pad and access to contacts in the Allworx server directory, as well as Microsoft Outlook, one-click dialing, one-click call transfers and one-click call recording.

Both Allworx View and Allworx Interact support single or multi-site Allworx systems.

"We are honored to be recognized by TMC year after year for delivering innovative VoIP communication solutions," said Chris Hasenauer, vice president and general manager of Allworx. "We built Allworx View and Allworx Interact to be easy to use and work seamlessly with existing Allworx systems. This is particularly important to SMBs because, more than anyone else, they need a VoIP system that is quick to install and easy to use at an affordable price point."

"It gives me great pleasure to recognize Allworx with two 2015 Product of the Year Awards," said Rich Tehrani, CEO, TMC. "In the opinion of our distinguished judges, Allworx View and Allworx Interact have both proven to be among the best communications and technology solutions available on the market. Allworx is a strong player in the SMB space and their product portfolio is highly regarded."

The winners of the 2015 INTERNET TELEPHONY Product of the Year are featured in the 2015 January/February issue of *INTERNET TELEPHONY* magazine and online at www.itmag.com.
