Forward-looking statements

Except for the historical information contained herein, certain matters in this presentation including, but not limited to, statements as to NVIDIA AI now being ready for every enterprise are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements and any other forward-looking statements that go beyond historical facts that are made in this presentation are subject to risks and uncertainties that may cause actual results to differ materially. Important factors that could cause actual results to differ materially include: global economic conditions; our reliance on third parties to manufacture, assemble, package and test our products; the impact of technological development and competition; development of new products and technologies or enhancements to our existing product and technologies; market acceptance of our products or our partners’ products; design, manufacturing or software defects; changes in consumer preferences and demands; changes in industry standards and interfaces; unexpected loss of performance of our products or technologies when integrated into systems and other factors.

NVIDIA has based these forward-looking statements largely on its current expectations and projections about future events and trends that it believes may affect its financial condition, results of operations, business strategy, short-term and long-term business operations and objectives, and financial needs. These forward-looking statements are subject to a number of risks and uncertainties, and you should not rely upon the forward-looking statements as predictions of future events. The future events and trends discussed in this presentation may not occur and actual results could differ materially and adversely from those anticipated or implied in the forward-looking statements. Although NVIDIA believes that the expectations reflected in the forward-looking statements are reasonable, the company cannot guarantee that future results, levels of activity, performance, achievements or events and circumstances reflected in the forward-looking statements will occur. Except as required by law, NVIDIA disclaims any obligation to update these forward-looking statements to reflect future events or circumstances. For a complete discussion of factors that could materially affect our financial results and operations, please refer to the reports we file from time to time with the SEC, including our Annual Report on Form 10-K and quarterly reports on Form 10-Q. Copies of reports we file with the SEC are posted on our website and are available from NVIDIA without charge.
NVIDIA AI ENTERPRISE, THE RUNTIME OF AI

NVIDIA AI Enterprise

- AI and Data Science Tools and Frameworks
  - TensorFlow
  - PyTorch
  - NVIDIA TensorRT
  - NVIDIA Triton Inference Server

- Cloud-Native Deployment
  - NVIDIA GPU Operator
  - NVIDIA Network Operator

- Infrastructure Optimization
  - NVIDIA vGPU
  - NVIDIA Magnum IO
  - NVIDIA CUDA-X AI

VMware vSphere with Tanzu

- Accelerated Mainstream Servers
  - NVIDIA SmartNIC / DPU
  - NVIDIA GPU

NVIDIA Enterprise Support

Data Scientist/Developer/AI Researcher

IT Administrator
# NVIDIA AI is Now Ready for Every Enterprise

## Frameworks
- NVIDIA Metropolis: Smart Cities
- NVIDIA Clara: Healthcare
- NVIDIA Riva: Conversational AI
- NVIDIA Merlin: Recommenders
- NVIDIA Maxine: Video Conferencing
- NVIDIA Issac: Robotics
- NVIDIA Morpheus: Cybersecurity

## Software
- NVIDIA RAPIDS: Data Science
- NVIDIA TAO: AI Frameworks
- NVIDIA Triton: Inference Server
- NVIDIA Base Command
- NVIDIA Fleet Command

## Hardware
- NVIDIA DGX
- NVIDIA HGX
- NVIDIA EGX
- NVIDIA GPUs
- NVIDIA BlueField DPUs

## Partners
- NVIDIA AI Enterprise
- VMware
- Cloudera
- Domino
- NVIDIA AI LaunchPad
- Equinix
- NetApp
- Dell Technologies
AT THE START OF 2020...
