

Carlisle Launches "Made with America" Video Celebrating America's 250th Anniversary

SCOTTSDALE, ARIZONA, August 5, 2026 - Carlisle Companies Incorporated (NYSE:CSL) today launched "Made with America," a video celebrating America's 250th anniversary and Carlisle's own 109-year history as an American manufacturer contributing to the nation's storied growth and resilience.

Since its founding in 1917, Carlisle has contributed to American innovation, strengthened infrastructure, created jobs, and delivered long-term value while helping power the nation's growth. Throughout its history, Carlisle pioneered building-envelope industry firsts, including the 1961 installation of Sure-Seal® single-ply EPDM membrane on the rotunda roof at O'Hare International Airport, marking the first use of a protective rubber membrane to waterproof a commercial roof.

"Carlisle's commitment to growth in America began with our founding in 1917, and for more than a century we've grown in step with the people building our country," said Chris Koch, Chair, President and Chief Executive Officer. "As we celebrate the nation's 250th anniversary, we honor that shared story and the people who continue to write it."

"Made with America" brings Carlisle's American Story of Growth to life through four defining themes:

- **American Innovation:** Carlisle has a long history of building-envelope innovations that set new standards for durability, energy efficiency, and ease of installation, helping lower lifecycle costs and extend the life of structures across America.
- **American Infrastructure:** From schools and hospitals to manufacturing plants, warehouses, office buildings, and data centers, Carlisle's roofing, insulation, waterproofing, and building-envelope systems help protect the buildings and facilities Americans rely on every day.
- **American Jobs:** Carlisle employs nearly 5,000 professionals across 80 U.S. locations and has issued four broad-based employee stock option grants since 2009, giving employees a direct stake in the company's success. A \$125 million R&D center expansion currently under construction will add more than 100 high-paying jobs for PhDs, scientists and engineers.
- **American Value Creation:** Carlisle will issue its 50th consecutive annual dividend increase, a milestone reflecting strong cash generation and a commitment to disciplined capital allocation. Through recessions, market cycles, and its transformation into a pure-play building products company, Carlisle has maintained the financial strength needed to invest in growth, innovation, and shareholder returns.

"Made with America" will run across Carlisle's digital and social channels, at company facilities, and in select media placements over the coming year.

The video and additional information about Carlisle's American Story of Growth can be found at www.carlisle.com.

About Carlisle Companies Incorporated

Carlisle Companies Incorporated is a leading supplier of innovative building envelope products and solutions for more energy efficient buildings. Through its building products businesses – Carlisle Construction Materials ("CCM") and Carlisle Weatherproofing Technologies ("CWT") – and family of leading brands, Carlisle delivers innovative, labor reducing and environmentally responsible products and solutions to customers through the Carlisle Experience. Carlisle is committed to generating superior shareholder returns and maintaining a balanced capital deployment approach, including investments in our businesses, strategic acquisitions, share repurchases and continued dividend increases. Leveraging its culture of continuous improvement as embodied in the Carlisle Operating System ("COS"), Carlisle has committed to achieving net-zero greenhouse gas emissions by 2050.

Forward-Looking Statements

This press release contains forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, about our expectations, plans, objectives, future financial performance and other matters that are not historical facts. You can identify these forward-looking statements by our use of words such as "anticipate," "believe," "continues," "estimate," "expect," "forecast," "foresee," "intends," "may," "plans," "project," "pursue," "should," "will" and similar expressions. We cannot guarantee that any forward-looking statement will be realized, although we believe that we have been prudent in our plans, estimates and assumptions. Such statements are made based on known events and circumstances at the time of publication and, as such, are subject in the future to unforeseen risks and uncertainties and to assumptions that may prove to be inaccurate. It is possible that our future performance may differ materially from current expectations expressed in, or implied by, these forward-looking statements due to a variety of factors, including:

- increasing price and product/service competition by foreign and domestic competitors, including new entrants;
- significant reliance on our key customers;
- damage to, or prolonged disruption of, our manufacturing facilities;
- technological developments and changes;
- the ability to continue to introduce competitive new products and services on a timely, cost-effective basis;
- our mix of products/services;
- increases in raw material costs that cannot be recovered in product pricing;
- domestic and foreign governmental and public policy changes including environmental and industry regulations;
- the ability of our customers to maintain appropriate labor levels under U.S. immigration laws, policies and practices;
- the ability to meet our goals relating to our intended reduction of greenhouse gas emissions, including our net zero commitments;
- threats associated with, and efforts to combat, terrorism;
- protection and validity of patent and other intellectual property rights;
- the identification of strategic acquisition targets and our successful completion of any transaction and integration of our strategic acquisitions;
- the cyclical nature of our businesses;
- the impact of information technology, cybersecurity, artificial intelligence or data security breaches at our businesses or third parties;

- the outcome of pending and future litigation, including product liability claims, and governmental proceedings;
- general industry and market conditions and growth rates, the condition of the financial and credit markets and general domestic and international economic conditions, including inflation, interest rate and currency exchange rate fluctuations, and tariffs;
- any conflict in the international arena, including the Russian invasion of Ukraine and war in the Middle East; and
- the other factors discussed in the reports we file with, or furnish to, the Securities and Exchange Commission from time to time

Any forward-looking statement speaks only as of the date on which that statement is made, and we undertake no duty to update any forward-looking statement to reflect events or circumstances, including unanticipated events, after the date on which that statement is made, unless otherwise required by law. New factors emerge from time to time, and it is not possible for us to predict all of those factors, nor can we assess the impact of each of those factors on the business.
