

Cyber-Ark Signs DLT Solutions as Distributor and GSA Partner

March 31, 2009 10:14 PM ET

Now federal, state and local agencies have access to Cyber-Ark products through the GSA and Cooperative Purchasing Program

Newton, MA - 31st March 2009 - Cyber-Ark Software, the global information security leader in providing solutions for protecting and connecting enterprises, has completed a distribution agreement with DLT Solutions, Inc. Cyber-Ark offers both a Privileged Identity Management Suite of products for securing and controlling administrative and application accounts, and the Highly Sensitive information Management Suite for enterprise class Managed File Transfer and collaboration solutions. Based on Cyber-Ark's patented Digital Vaulting® Technology, these product offerings expand DLT Solutions' existing information security solution set, which includes the Oracle® Identity Management Suite.

"As a leading Oracle reseller in the public sector, DLT works hard to give our government and higher education customers the best data security possible, realizing their unique compliance goals," said Rick Marcotte, president and CEO of DLT Solutions. "Adding Cyber-Ark allows us to expand on our enterprise data security foundations with an Identity Management solution tailored for each agency's specific needs, built on a combination of Oracle and Cyber-Ark products."

The distribution agreement includes all of Cyber-Ark's award-winning products, which will be made available on DLT's GSA Schedule, DLT GS-35F-4543G.

Also included is a bundled Identity Management enterprise solution consisting of products from Cyber-Ark and Oracle, coupled with design and deployment services from DLT. This unique, integrated offering is the first of its kind in the public sector. The combined solution offers a fully integrated, comprehensive Oracle Identity Management and Cyber-Ark PIM Suite solution for complex environments.

"Cyber-Ark is privileged to partner with DLT Solutions, a proven leader in the federal, state and local government IT industry," said Richard A. Weeks, vice president of Business and Channel Development at Cyber-Ark Software. "The DLT team understands the value of integrating complementary partner technologies into solutions which create a more complete security offering for both government and higher education customers."

Both Cyber-Ark Software and DLT Solutions are members of the Oracle PartnerNetwork.

About Cyber-Ark

Cyber-Ark® Software is a global information security company that specializes in protecting highly-sensitive enterprise data, restricted user accounts and passwords to improve compliance, productivity and protect organizations against insider threats. With its award-winning Privileged Identity Management (PIM) and Highly-Sensitive Information Management software, systems and network administrators can more effectively manage and govern application access while demonstrating returns on security investments to the C-suite. Cyber-Ark works with 500 global customers, including more than 35 percent of the Fortune 50. Headquartered in Newton, Mass., Cyber-Ark has offices and authorized partners in North America, Europe and Asia Pacific. For more information, visit www.cyberark.com.

About DLT Solutions, Inc.

Founded in 1991, DLT Solutions, Inc. delivers best-of-class technology solutions to federal, state and municipal governments and businesses from its headquarters in Herndon, Va. To achieve that mission, DLT has tightly integrated itself with some of the most prominent IT software and hardware manufacturers in the world including Autodesk, NetApp, Oracle, Quest Software, Red Hat and Symantec, among others. With its product portfolio, multiple procurement vehicles and award-winning track record, DLT confidently supports public sector clients in the technology

implementation required to achieve their agency missions. DLT was recently honored as number one in the Term Software License category in the GSA IT Catalog of Top IT Contractors on GSA Schedule 70.
