

## CyberArk Shortlisted for Five Prestigious European Awards

February 15, 2012 5:19 PM ET

*CyberArk and two of its flagship solutions shortlisted at the 2012 SC Awards Europe and FStech Awards*

London - February 15, 2012 - CyberArk® Software, the leading global information security provider for protecting and managing critical applications, identities and sensitive information, today announced it has been shortlisted for five major European awards.

At the 2012 SC Awards Europe, CyberArk's™ Privileged Identity Management (PIM) Suite has been shortlisted for Best IAM Solution and Information Security Product of the Year, its Privileged Session Management (PSM) Suite has been shortlisted in the Best Remote Access category, while the two solutions together have been shortlisted for Best Security Management. As the European IT security industry's™ preeminent awards, the SC Awards showcase those solutions, services and professionals that are not just meeting the security challenges of today, but also the emerging threats of tomorrow.

Meanwhile, the FStech Awards, which recognise excellence and innovation in the field of information technology within the UK and EMEA financial services sectors, have shortlisted CyberArk in the coveted Technology Provider of the Year category. The prestigious event emphasises the importance of IT as a key driver in business and to acknowledge and reward IT specialists working within the sector.

“To be shortlisted five times by the SC Awards Europe and FStech Awards is a great achievement,” said Udi Mokady, President and CEO of CyberArk Software. “The fact that the categories recognise two of our flagship solutions, as well as the company itself, demonstrates our continued innovation and reaffirms our market-leading position in the privileged identity and privileged session management space. We now look forward to the awards ceremonies to see what the night brings.”

The FStech Awards ceremony takes place on Wednesday 28th March at the Lancaster London Hotel, while the SC Awards Europe ceremony will be held after the first day of Infosecurity Europe on Tuesday 24th April at the London Hilton on Park Lane.

### About CyberArk

CyberArk® Software is a global information security company that specializes in protecting and managing privileged users, sessions, applications and sensitive information to improve compliance, productivity and protect organizations against insider threats and advanced external threats. With its award-winning Privileged Identity Management, Sensitive Information Management and Privileged Session Management Suites, organizations can more effectively manage and govern data center access and activities, whether on-premise, off-premise or in the cloud, while demonstrating returns on security investments. CyberArk works with nearly 1000 customers, including more than 35 percent of the Fortune 100. Headquartered in Newton, Mass., CyberArk has offices and authorized partners in North America, Europe and Asia Pacific.
