

## CyberArk Appoints IT Security Executive Nick Baglin as VP of Sales, EMEA

June 20, 2012 4:38 PM ET

### *Former HP Enterprise Security Services Global Sales Director Joins CyberArk Management Team*

NEWTON, Mass. and LONDON - June 20, 2012 - CyberArk® Software, the leading global information security provider for protecting and managing critical applications, identities and sensitive information, today announced that Nick Baglin has joined the company as vice president of sales, EMEA. As part of the CyberArk management team, Baglin will be responsible for driving continued European sales growth, as well as managing the company's expanding regional operations.

CyberArk's solutions enable its customers to proactively protect their organizations against insider threats and advanced external threats. The company experienced more than 30 percent year over year revenue growth in 2011, and now has more than 1,000 global enterprise customers.

"As customer demand for CyberArk solutions accelerates, we continue to add exceptional, experienced talent to our management team," said Udi Mokady, president and CEO of CyberArk. "Nick has an impressive track record of selling enterprise security solutions in all of the European markets, and building and managing successful direct and channel sales organizations. His deep experience will be invaluable as CyberArk seeks to maximize opportunities in the EMEA market and expand the company's strong customer base."

Before joining CyberArk, Baglin was global sales director at HP Enterprise Security Services. In this position, which he held for three years, Baglin was responsible for approximately 90 sales personnel and driving hyper-revenue growth. Prior to HP's acquisition of Vistorm, he had also worked for the latter company for more than seven years.

"It is very exciting to be joining CyberArk at what is such a pivotal time for the security industry," said Baglin. "I am looking forward to working with the EMEA team and CyberArk's channel partners to accelerate sales growth and extend the company's commercial presence in Europe."

### **About CyberArk**

CyberArk® Software is a global information security company that specializes in protecting and managing privileged users, sessions, applications and sensitive information to improve compliance, productivity and protect organizations against insider threats and advanced external threats. With its award-winning Privileged Identity Management, Sensitive Information Management and Privileged Session Management Suites, organizations can more effectively manage and govern data center access and activities, whether on-premise, off-premise or in the cloud, while demonstrating returns on security investments. CyberArk works with nearly 1000 customers, including more than 35 percent of the Fortune 100. Headquartered in Newton, Mass., CyberArk has offices and authorized partners in North America, Europe and Asia Pacific.
