CyberArk to Discuss Signatures of Advanced Attacks on Energy Companies at the API Cybersecurity Conference

November 9, 2015 8:31 AM ET

Attendees to Learn How to Reduce Risks Posed by Unsecured Privileged Accounts and Better Protect Intellectual Property and Critical Infrastructure

NEWTON, Mass.--(BUSINESS WIRE)--Nov. 9, 2015-- CyberArk (NASDAQ: CYBR), the company that protects organizations from cyber attacks that have made their way inside the network perimeter, today announced details of its participation at the 10th Annual American Petroleum Institute (API) Cybersecurity Conference & Expo, taking place November 10-11 in Houston.

CyberArk will present a session with Mandiant, a FireEye company, focused on how the theft and exploitation of privileged accounts and credentials have emerged as the flashpoint for cyber attacks, and how energy companies, including those in the oil and natural gas industry, can mitigate related cyber security risks. CyberArk is a Gold Sponsor of the event and will exhibit at booth #32.

Who: Michael Marino, vice president, solutions engineers of the Americas, CyberArk will present along with Robert Wallace, director, security consulting services, Mandiant, a FireEye Company in a session moderated by Simon Tong, global IT security manager, Schlumberger.

What: Cyber attacks on the energy industry have become more malicious, sophisticated and difficult to detect. Cyber criminals are increasingly targeting oil and natural gas companies to steal intellectual property, sabotage business, and in some cases, disrupt production.

The session, "Combating Increasingly Sophisticated Cyber Attacks: Limiting Lateral Movement and Containing Threats," will detail how the exploitation of privileged accounts and credentials have emerged as a signature for advanced attacks, and why limiting privileged account exposure is critical to securing against cyber threats.

When: Wednesday, November 11, 2015 at 12:30 p.m. CT

Where: The Westin Houston, Memorial City, 945 Gessner Road, Houston, Texas

The API is the only national trade association that represents all aspects of America's oil and natural gas industry.

About CyberArk
CyberArk is the only security company focused on eliminating the most advanced cyber threats; those that use insider privileges to attack the heart of the enterprise. Dedicated to stopping attacks before they stop business, CyberArk proactively secures against cyber threats before attacks can escalate and do irreparable damage. The company is trusted by the world's leading companies – including 40 percent of the Fortune 100 and 17 of the world's top 20 banks – to protect their highest value information assets, infrastructure and applications. A global company, CyberArk is headquartered in Petach Tikvah, Israel, with U.S. headquarters located in Newton, Mass. The company also has offices throughout EMEA and Asia-Pacific.
