CyberArk to Present on Security Connections Panel at McAfee FOCUS 2011

October 18, 2011 4:20 PM ET

Panel to Discuss the Power of Multi-Vendor Integrations in Today's Heterogeneous IT Environments, Including the Role of Privileged Identity Management to Improve Compliance and Risk Management

LAS VEGAS - McAfee FOCUS 2011 - Booth #106 - October 18, 2011 - CyberArk® Software, the leading global information security provider for protecting and managing critical applications, identities and sensitive information, today announced details of its participation at McAfee Focus 2011. In a panel discussion, CyberArk's Richard A. Weeks will join a number of top industry executives to discuss the role of privileged identity management in overall enterprise IT security and compliance initiatives and the benefits of technology integration with McAfee solutions. CyberArk (booth # 106) will demonstrate the advantages of its Privileged Identity Management Suite as an important element of a comprehensive compliance and risk management defense.

Who: Richard A. Weeks, vice president, business development, CyberArk Software

What: The panel, "Visibility and Velocity: The Power of Multi-Vendor Integrations," will include executives from CyberArk Software, Intel, NitroSecurity, McAfee and a joint CyberArk/McAfee customer. Weeks will focus on how to mitigate data breach risk by integrating CyberArk's Privileged Identity Management Suite with McAfee's ePolicy Orchestrator (ePO™) technology. Attendees will learn how the integration provides a realtime view of privileged account activity for SOC personnel, delivers event notifications for stakeholders, lowers the cost of ownership and improves the overall compliance and risk management profile.

When: Wednesday, October 19, 2011 at 2:30 p.m.

Where: The event will take place at the Venetian and the Palazzo Conference Center in Las Vegas. CyberArk's booth is #106, the panel discussion will be held in Lando 4301-4302, 4201-4202 - Level 4.
