

CyberArk Expands Its Presence in the CIS with Partner SOFTPROM

July 23, 2013 12:56 PM ET

Kyiv, Ukraine - CyberArk Software has announced its expansion in the CIS countries with a new partnership agreement with Ukrainian distributor SOFTPROM. SOFTPROM will provide distribution and promotion of CyberArk products across all of the CIS countries, with the exception of Russia.

As determined in the partnership agreement, SOFTPROM will sell and promote commercial versions of CyberArk products through its reselling network, which now includes more than 1,000 companies in the CIS.

SOFTPROM will incorporate Cyber Ark's full Privileged Identity Management, Privileged Session Management and Sensitive Information Management suites into its solutions portfolio.

PRIVILEGED IDENTITY MANAGEMENT (PIM) SUITE

CyberArk's PIM Suite is an enterprise class, unified policy-based solution for securing, managing, automatically changing and monitoring all activities associated with privileged accounts and activities associated with data centre management whether on-premise or in the cloud.

PRIVILEGED SESSION MANAGEMENT (PSM) SUITE

CyberArk's PSM Suite is a zero-footprint solution that isolates, controls and records any privileged access and activity on sensitive servers, databases or virtual environments with an integrated solution.

SENSITIVE INFORMATION MANAGEMENT (SIM) SUITE

CyberArk's SIM Suite manages and protects sensitive files whether being shared within the organisation or being sent to external parties through the CyberArk Inter-Business Vault

"It's an extremely exciting time for us to be expanding and developing our partner network in this region. Over the coming months, we will be working closely with SOFTPROM to determine an effective sales process, and we're confident that thanks to SOFTPROM's experience and expertise and the skills of our resellers, this partnership will open up exciting new opportunities in the CIS countries bringing a new level of market awareness for our solutions." said Bogdan Tobol, CyberArk regional manager, Russia and CIS.

"We're very excited to become a CyberArk distributor," said Igor Zaychenko, Head of Department of IT Security Solutions, SOFTPROM. "CyberArk's industry-leading solutions are a great addition to our IT security solutions and give us a competitive edge and enable us to be better prepared to meet the emerging security needs of our customers."

About Cyber-Ark

CyberArk® Software is a global information security company that specializes in protecting and managing privileged users, sessions, applications and sensitive information to improve compliance, productivity and protect organisations against insider threats and advanced external threats. With its award-winning [Privileged Identity Management](#), [Privileged Session Management](#) and [Sensitive Information Management](#) Suites, organisations can more effectively manage and govern data centre access and activities, whether on-premise, off-premise or in the cloud, while demonstrating returns on security investments. CyberArk works with more than 1,300 customers, including more than 40 percent of the Fortune 100. Headquartered in Newton, Mass., CyberArk has offices and authorized partners in North America, Europe and Asia Pacific. For more information, please visit www.cyberark.com.
