

## CyberArk to Address Privilege Connection in Advanced Attacks at HP Protect

September 16, 2013 12:37 PM ET

*CMO John Worrall to Deconstruct Recent Security Incidents and Address the Need for Privileged Account Security in Breakout Session*

Washington, D.C. â€“ HP Protect 2013 â€“ September 16, 2013 â€“ CyberArk, the company securing the heart of the enterprise, today announced that CMO John Worrall will host a breakout session focused on privileged-based security breaches during [HP Protect](#) in Washington, D.C. September 16-19. In his session, â€œThe Privileged Pathway: Avoid an APT by Locking Down the Road Most Traveled,â€ Worrall will walk participants through recent high profile attacks to demonstrate how attackers target privileged accounts to gain broad access to enterprise systems.

**Who:** John Worrall, CMO, CyberArk

### **What: The Privileged Pathway: Avoid an APT by Locking Down the Road Most Traveled**

According to a recent [report from CyberSheath](#), the compromise of privileged accounts was a crucial factor in 100 percent of Advanced Persistent Threats (APTs). Yet, as weâ€™ve seen in countless headlines over the past few months, the management and monitoring of these accounts continues to be neglected. In this breakout session, John Worrall of CyberArk will deconstruct recent attacks to demonstrate the commonly traveled â€œprivileged pathway.â€

Attendees will walk away with an understanding of how these privileged accounts can be identified, isolated and monitored to mitigate threats and protect corporate data within their organizations. As part of this discussion, Worrall will demonstrate how the combination of CyberArkâ€™s privileged session management technologies and the HP ArcSight Security Intelligence platform allows organizations to greatly reduce the risk of internal security breaches and external cyber-attacks, shorten forensics time when an incident occurs, and help meet compliance requirements for monitoring privileged activity and access control.

**When:** Wednesday, September 18 at 2:30 p.m.

**Where:** Jefferson East, The Washington Hilton, 1919 Connecticut Avenue, NW, Washington, D.C.
