### **General Motors Names Jack Cooper Transport a 2021 Supplier of the Year**

KANSAS CITY, Mo – On March 17, 2022, General Motors recognized Jack Cooper Transport as a 2021 Supplier of the Year at its 30<sup>th</sup> annual Supplier of the Year awards ceremony in Phoenix, Arizona.

GM's Supplier of the Year award recognizes global suppliers that distinguish themselves by exceeding GM's requirements, in turn providing GM customers with innovative technologies and among the highest quality in the automotive industry. This year, GM recognized suppliers from 16 countries with the Supplier of the Year distinction.

This is the 3rd time Jack Cooper Transport has received the award in the last decade.

Sarah Riggs Amico, Jack Cooper's Executive Chairperson, commented: "We are the largest motor vehicle carrier with a unionized workforce in the North American market. Getting this recognition from GM is a testimony to the quality of our service — which is the direct result of the skill and dedication of our workforce—and the longevity of our partnership. Jack Cooper is proud of our ninety-four-year record of service as a GM supplier. This award reflects the extraordinary efforts of an extraordinary team that has navigated a challenging supply chain disruption to deliver for our customers.

The timing of the award—as we celebrate Women's History Month—could not be more symbolic as Jack Cooper is also the only women-owned trucking company serving the car-haul industry in America with a certification from the Women's Business Enterprise National Council. We are proud to be the trailblazers in the industry while recognized for the quality of our enterprise."

"This year's Supplier of the Year event was special not only because it's the 30th anniversary of the program, but because it provided us with the opportunity to recognize our suppliers for persevering through one of the most challenging years the industry has ever faced," said Shilpan Amin, GM vice president, Global Purchasing and Supply Chain. "These top suppliers showed resilience and reinforced their commitment to pursuing sustainability and innovation. Through our strong relationships and collaboration, GM and our suppliers are poised to build a brighter future for generations to come."

A global cross functional team selected the 2021 Supplier of the Year winners based on performance criteria in Product Purchasing, Global Purchasing and Manufacturing Services, Customer Care and Aftersales and Logistics.
