

Glacier Credit Card Trust®

June 2019

Disclaimer

The information that follows is a presentation of general background information about Glacier Credit Card Trust (“**Glacier**”), Canadian Tire Bank (“**CTB**”) and Canadian Tire Corporation, Limited (“**CTC**”) as of the date of this presentation. It is information in summary form and does not purport to be complete. Some of the information in this presentation has not been audited and no representation or warranty, express or implied, is made concerning, and no reliance should be placed on, the accuracy, fairness, completeness, correctness, sufficiency or usefulness of the information presented herein.

Under no circumstances shall the information presented herein constitute an offer, invitation or solicitation of an offer to buy any notes of Glacier (the “**Notes**”). Neither this presentation nor anything contained herein shall form the basis of any contract or commitment whatsoever. Prior to making any offer to subscribe for or purchase any Notes, a prospective purchaser should review the base shelf prospectus (in respect of asset-backed medium term notes (“**term ABS**”)) or the information memorandum (in respect of asset-backed commercial paper (“**ABCP**”)) of Glacier and complete its own independent investigation of the Notes and the pool of credit card receivables supporting the Notes (the “**Securitized Pool**”). Investors should not subscribe for or purchase any Notes except on the basis of the information contained or referred to in the base shelf prospectus or information memorandum of Glacier, as applicable. None of Glacier, CTB or CTC has any obligation to inform you of when information herein is out of date or may change, nor are Glacier, CTB or CTC obligated to provide updated information to you on the Notes or the Securitized Pool.

The Notes may not be suitable for all investors. None of Glacier, CTB or CTC is responsible for the lawfulness or appropriateness of the purchase of Notes by a prospective purchaser with regard to any law, regulation or policy applicable to it.

Disclaimer (cont'd)

By accepting this document you acknowledge that (a) Glacier, CTB and CTC are not in the business of providing (and you are not relying on Glacier, CTB or CTC for) legal, tax or accounting advice, (b) there may be legal, tax, accounting and other risks associated with a purchase of the Notes, and (c) you should receive (and rely on) separate and qualified legal, tax and accounting advice in respect of any purchase of Notes.

The Notes will not represent interests in or obligations of CTB, CTC, Computershare Trust Company of Canada (other than its capacity as trustee of Glacier), BNY Trust Company of Canada, any underwriters or selling agents of the Notes, any liquidity providers in respect of the ABCP, Bank of Montreal as paying agent for the ABCP, the beneficiary of Glacier or any affiliates thereof and none of these entities has represented or undertaken that the credit card receivables in the Securitized Pool (the “**Receivables**”) will realize their face value or any part thereof and, accordingly, neither Glacier nor its creditors will have any claim against any of these entities for any deficiency arising in any realization of the Receivables. Purchasers of Notes will not have any recourse to any ownership interests in the Securitized Pool or any enhancement in respect thereof other than the related series of ownership interest in the Securitized Pool and enhancement supporting the related series of Notes. Glacier is not a trust company and does not carry on or intend to carry on the business of a trust company. None of the Notes, the Receivables or any ownership interests in the Securitized Pool are “deposits” within the meaning of the *Canada Deposit Insurance Corporation Act* (Canada) and are not insured or guaranteed by CTB, CTC, Computershare Trust Company of Canada, BNY Trust Company of Canada, the underwriters or selling agents of the Notes, Bank of Montreal as paying agent for the ABCP, the liquidity providers in respect of the ABCP, the beneficiary of Glacier or any affiliates thereof, or the Canada Deposit Insurance Corporation (“**CDIC**”) or any other governmental agency or instrumentality.

All dollar amounts in this presentation are in Canadian dollars.

Investment Highlights

[Overview of Canadian Tire and Canadian Tire Bank](#)

[Glacier Credit Card Trust and the Securitized Pool of Receivables](#)

[CTB's Credit Risk Management](#)

[Appendix: Subordinated Term ABS Notes](#)

Investment Highlights

- **Strong Credit Card Program Securing Glacier's Notes**

- CTB has a strong credit management team and sophisticated proprietary credit risk management systems to develop, evaluate and implement credit risk strategies
 - A proven track record through various economic cycles since the 1960s
 - 11.5% - 12.5% credit enhancement is provided for the AAA-rated senior term ABS Notes and the R-1(high)/F1+ rated ABCP Notes
 - 5.5% credit enhancement is provided for the A-rated subordinated term ABS Notes
 - The healthy excess spread/margin on the Securitized Pool has ensured that there has never been an amortization event
 - Currently 13.4%¹ as funding, unemployment and write-off rates all continue to remain historically low

- **CTB retains risk on each series of Glacier Notes issued**

- ~50% of the credit enhancement for the senior term ABS Notes is in the form of CTB first loss risk retention
- 100% of the credit enhancement for the ABCP and subordinated term ABS Notes is in the form of CTB first loss risk retention

- **Ratings from 3 credit rating agencies**

- DBRS and S&P rate the Series 2014-1, 2015-1, 2017-1 and 2019-1 term ABS Notes (AAA(sf) for the senior notes and A(sf) for the subordinated notes, except the subordinated notes for Series 2014-1 are rated A(high)(sf)/A+(sf) due to higher enhancement)
- DBRS and Fitch rate the Series 1997-1 ABCP Notes (R-1(high)(sf)/F1+(sf)) and the Series 2018-1 term ABS Notes (AAA(sf)/AAAsf for the senior notes and A(sf)/Asf for the subordinated notes)

Investment Highlights (cont'd)

• Strong Brand Recognition

- Canadian Tire is a leading brand in Canadian retail
 - Consolidated comparable sales were up 2.2% in 2018 and up 6.1% in Q1 2019, notwithstanding increased eCommerce competition
 - eCommerce offerings, including click and collect and home delivery, are receiving exceptional customer satisfaction scores
- CTC's iconic loyalty program, My Canadian Tire Money®, is now primarily digital (“eCTM”) through CTB's Mastercard credit cards and CTC's loyalty card. The program was further strengthened in 2018 with the launch of the Triangle™ Rewards program:
 - A no fee and industry leading loyalty credit card that enables members to collect eCTM whenever the card is used and to redeem the eCTM at most of CTC's banners. eCTM is collected at a higher rate depending on the type of card and the place of purchase (e.g. at CTC's stores and gas bars, at participating Husky gas stations and on grocery store purchases)
 - Canada's fastest growing credit card and loyalty offering - ~7.1%¹ growth in CTB's overall credit card receivables since Triangle™ Rewards was announced
 - More information on the Triangle™ Rewards program is available at: <https://triangle.com> and https://s22.q4cdn.com/405442328/files/doc_presentations/en/2019/Triangle_InvestorDeck_FINAL_Q4-2018.pdf

Investment Highlights (cont'd)

- **Glacier has been a regular issuer of both term ABS and ABCP since the mid-1990s**
 - Currently the 6th largest Canadian issuer of credit card receivables backed term ABS with \$2.7B¹ of Notes outstanding
 - All issuances have been offered in the Canadian market to a longstanding diversified base of investors
 - Only single-seller ABCP issuer in Canada with \$297M¹ of Notes currently outstanding
- **Strong support from Canada's five largest banks**
 - The Bank of Nova Scotia ("**Scotiabank**") owns a 20% interest in CTB's parent and provides CTB with \$2.25B in committed credit facilities that currently expire in October 2021
 - All participate in the syndicated \$300 million committed liquidity facility backstopping Glacier's ABCP that currently expires in August 2021
 - All participate as selling agents for Glacier's term ABS and ABCP issuances

CTC's Organizational Structure

Glacier is a special purpose entity whose sole purpose is to purchase undivided co-ownership interests in a revolving pool of credit card receivables owing under selected Triangle and Canadian Tire-branded Mastercard credit card accounts and Canadian Tire credit card accounts and to provide income to the beneficiary of the trust

CTC's Business Segments

Retail Segment

Canadian Tire¹ (est. 1922)

- One of Canada's most trusted and iconic brands
- Market leader across core categories
- 503 Dealer-operated stores located across Canada in superior real estate locations under the Canadian Tire banner
- Continues to innovate with exciting merchandise strategies, great new Owned Brands and market-leading programs

SportChek¹ (est. 1974 acq. 2011)

- Canada's largest sporting goods retailer
- 404 stores located across Canada under the banners SportChek, Sport Experts, Atmosphere, National Sports, Sports Rousseau, L'Entrepôt du Hockey and Hockey Experts
- Strong relationships with national vendor brands
- CTC's digital lab and testing ground

Mark's¹ (est. 1977 acq. 2001)

- Focused on developing durable, high-quality and comfortable apparel and footwear for industrial and casual use
- 385 stores located across Canada under the banners Mark's, Mark's Work Warehouse and L'Équipeur (Quebec)
- Strong owned brands with complementing exclusive and national brands

Petroleum¹ (est. 1958)

- One of Canada's largest independent retailers of gasoline
- 297 retailer-operated gas bars and convenience stores located across Canada under the names Canadian Tire and Gas+ with the majority co-located with a Canadian Tire store

PartSource (est. 1999)

- 88 specialty automotive hard parts stores located in 5 Canadian provinces
- Caters to medium to heavy "do it yourselfers", automotive enthusiasts and commercial installers
- Supplies auto parts to Canadian Tire stores in small to midsize markets

Helly Hansen (est. 1877 acq. 2018)

- Based in Oslo, Norway
- Product sales in over 40 countries
- Global leader in technical performance products within its core categories of sailing, skiing, mountain, urban, rainwear and workwear
- Wholesale, store network and ship-to-home eCommerce fulfilment capabilities globally

Financial Services¹ (est. 1960s)

- Markets Triangle and Canadian Tire-branded Mastercard credit cards
- \$6.1B in gross average credit card receivables
- 2.1M active credit card accounts
- Extensive customer data and strong analytics capabilities
- Best-in-class Canadian-based call centers
- Owned 20% by Scotiabank

CT REIT (est. 2013)

- Geographically diversified portfolio of 342 properties totaling ~26.5M ft² of gross leasable area
- Cash flow predictability and reliable monthly distributions
- CTC is CT REIT's largest tenant occupying 94.4% of total gross leasable area
- CTC owns ~76% CT REIT with remainder listed on the TSX (CRT.UN)

Store and credit card numbers are as at March 30, 2019. CT REIT numbers are as at December 31, 2018.

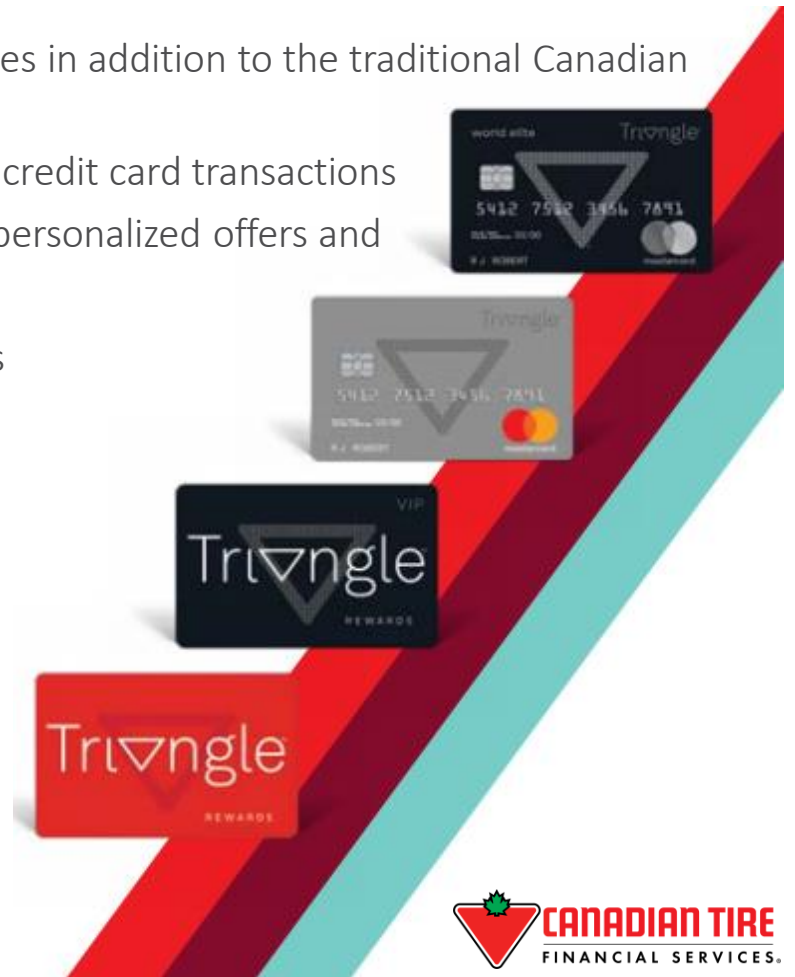

¹ Participant in the Triangle Rewards loyalty program

One Company serving One Customer

- In April 2018, Canadian Tire evolved its iconic loyalty program, Canadian Tire Money®, with the introduction of Triangle Rewards™
 - Allows customers to collect and redeem digital Canadian Tire Money at more places¹
 - Allows CTB to originate new credit card accounts cheaply in SportChek and Mark's stores in addition to the traditional Canadian Tire store channel
 - Expands CTB's analytics capabilities through purchase data coming from more stores / credit card transactions
 - CTB now provides all of CTC's retail businesses with SKU level customer data to allow personalized offers and content
- Starting in 2017, CTB enhanced its in-store-financing program in CTC's core retail banners

Tri△ngle

Canadian Tire Bank History

1960s - Midland Shoppers Credit Limited, a small financial services firm offering third-party credit card processing for local retailers, began adding Canadian Tire stores to its client list

1968 - Midland became a wholly-owned subsidiary of CTC and was renamed Canadian Tire Acceptance Limited (“**CTAL**”). CTAL issued the Canadian Tire credit card which can only be used at Canadian Tire stores and gas bars. CTAL was later renamed Canadian Tire Financial Services Limited (“**CTFS**”) and then Canadian Tire Services Limited

1995 - CTFS became the first non-deposit taking financial institution worldwide to launch a Mastercard credit card. Canadian Tire Receivables Trust (“**CTRT**”) was established to fund the ensuing growth in credit card receivables through both senior and subordinated term ABS and ABCP Notes

2003 - CTB, a federally chartered Schedule I bank, was established; CTFS’ credit card operations were transferred into CTB; and the name of CTRT was changed to Glacier Credit Card Trust

2007 - CTB added non-redeemable, CDIC eligible deposits as a source of funding

2014 - 20% of the Financial Services business was sold to Scotiabank, which also provided CTB with \$2.25B in committed credit facilities which currently expire in October 2021

2018 - Canadian Tire’s loyalty and credit card program was enhanced by enabling members to collect and redeem My Canadian Tire Money® across most of CTC’s retail banners. The name of the program was changed to Triangle™ Rewards and most of CTB’s credit cards are now called the Triangle™ Mastercard

Canadian Tire Bank (CTB)

Canadian Federally Regulated Schedule I Chartered Bank

- CTB is an 80%-owned indirect subsidiary of CTC
- CTB is primarily engaged in:
 - advancing credit to holders of the credit cards that it issues
 - managing the related credit card accounts and receivables (including acting as the “**Servicer**” of the Securitized Pool of Receivables)
 - administering Glacier (the “**Administrator**”)
 - offering deposit products to customers to fund its credit card receivables

Overall Credit Card Portfolio

- 2.1M¹ active credit card accounts with a \$6.1B¹ gross average receivables balance
- Substantially all of the accounts are Mastercard credit cards with the remainder being legacy Canadian Tire credit cards

Competitive Advantages

- The strength of the Canadian Tire brand and the deep loyalty that customers have towards it
- Triangle Rewards™ / My Canadian Tire Money® is one of Canada’s most beloved loyalty programs
- A low cost and consistent credit card origination channel through CTC’s stores
- Numerous marketing channels (e.g. in-store, flyer, online)
- Sophisticated credit risk management systems and personnel
- Strategic use of data (e.g. using customer purchasing pattern data from CTC’s stores for predicting risk, creating proprietary models, etc.)
- Best-in-class Canadian-based call centers

CTB's Funding and Liquidity

Objective: Maintain multiple diversified funding channels and appropriate liquidity to mitigate risk at a reasonable cost while reducing refinancing and interest rate risk

Multiple Funding Channels¹

- **49%** of total funding is in **Glacier Notes**
 - **43%** of total funding is in **Term ABS Notes** (~5 year terms at issuance, 2.6 year weighted average remaining term to maturity)
 - **6%** of total funding is in **ABCP** (\$300M liquidity backstop currently expires in August 2021)
- **51%** of total funding is in **CDIC Eligible Deposits**
 - **41%** of total funding is deposits in non-redeemable broker and retail guaranteed investment certificates ("**GICs**") (mostly 5 year terms at issuance, 2.6 year weighted average remaining term to maturity)
 - **10%** of total funding is deposits in retail high-interest savings accounts ("**HIS**") and tax-free savings accounts ("**TFSA**")
 - These deposit funding channels were ramped up when the Canadian securitization market was disrupted in 2007-09 as most depositors view these deposits as a safe haven due to the CDIC insurance
- Short-term **intercompany loans** or draws under the **Scotiabank credit facilities** are also used during the year

CTB's Funding and Liquidity (cont'd)

Reduces refinancing and interest rate risk:

- 84% of the funding is laddered over 5 years and is non-redeemable
- Only 10% is demand deposits
- Active interest rate hedger

CTB has access to \$2.25B of committed credit facilities from Scotiabank

- The facilities consist of:
 - a \$250M revolving line of credit
 - a \$500M Glacier Note purchase facility (“NPF”), and
 - a \$1.5B Glacier NPF
- Current expiry for all facilities is October 2021

[Investment Highlights](#)

[Overview of Canadian Tire and Canadian Tire Bank](#)

Glacier Credit Card Trust and the Securitized Pool of Receivables

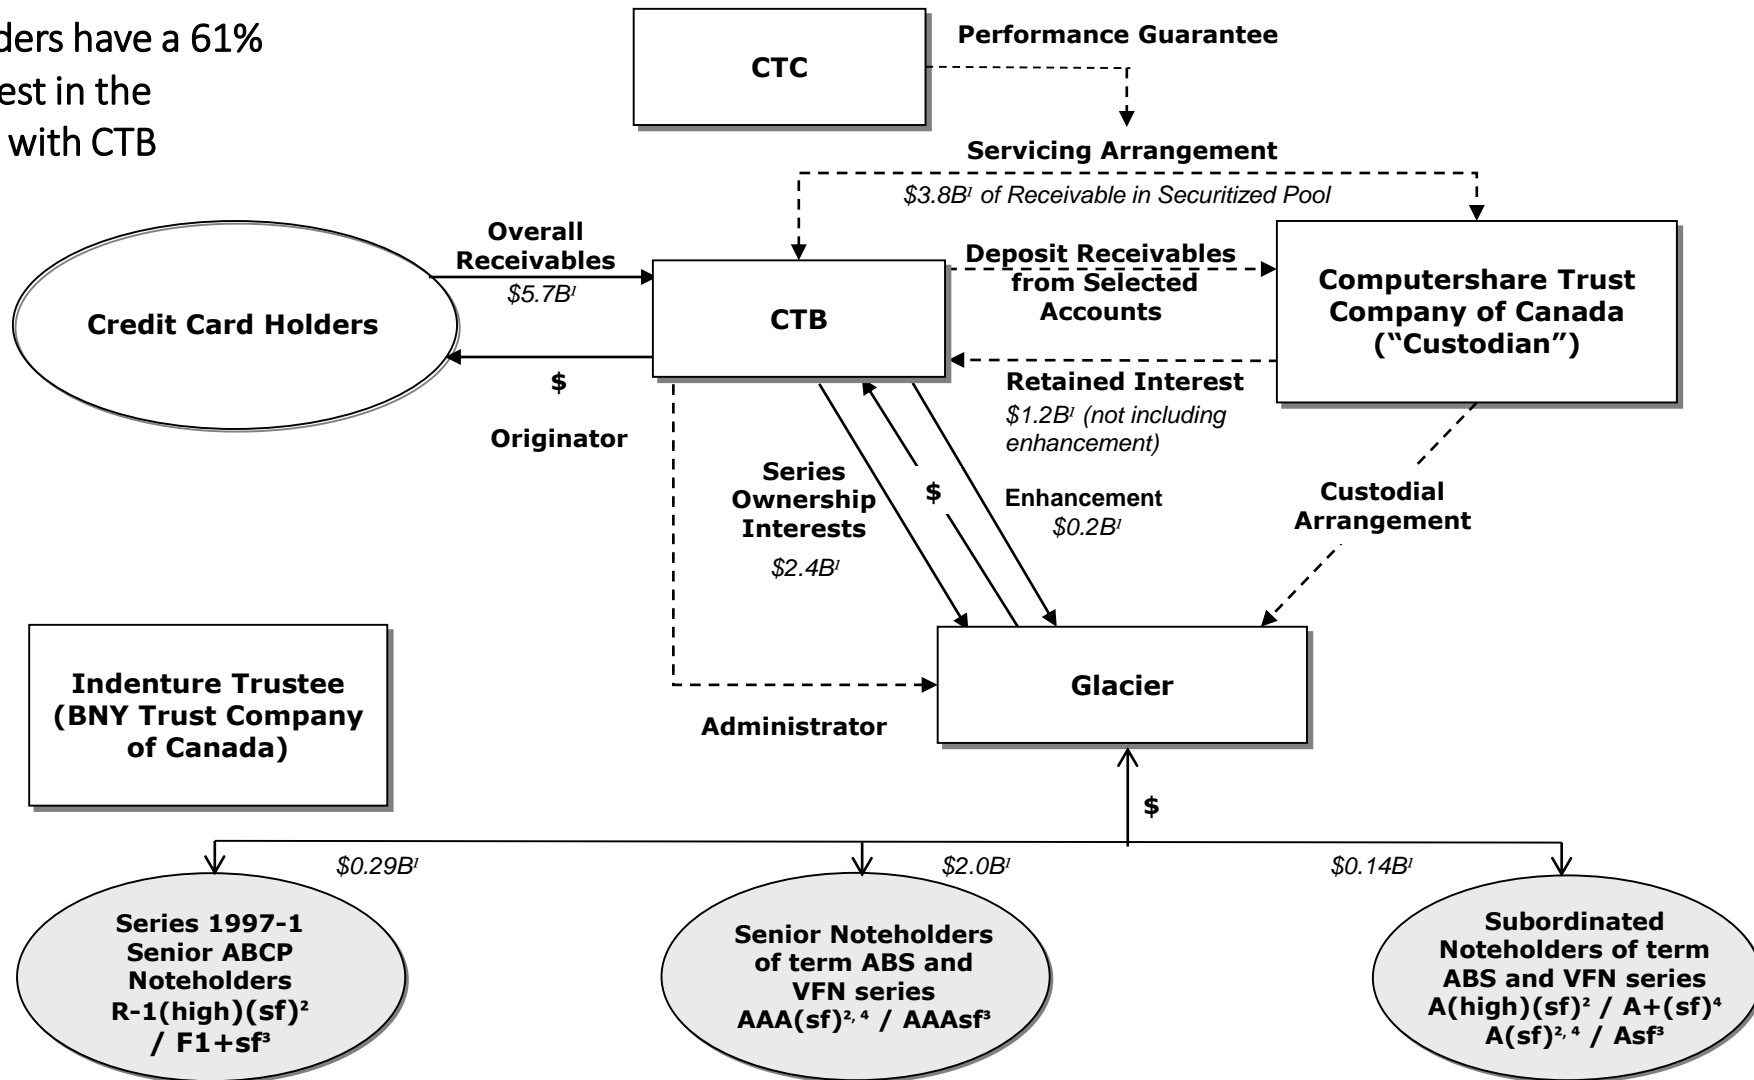

[CTB's Credit Risk Management](#)

[Appendix: Subordinated Term ABS Notes](#)

Glacier Structure

Glacier noteholders have a 61% ownership interest in the Securitized Pool with CTB owning 39%¹

¹ As at March 31, 2019. "B" = billions

² DBRS ³ Fitch ⁴ S&P

Pools of Credit Card Receivables

- Because Glacier provides 49% of CTB’s total funding, not all of the credit card receivables generated by CTB are securitized. There are two pools of credit card receivables:

	Pools of Credit Card Receivables (as at Mar. 31, 2019)	Total Receivables ¹ (\$000s)	% of Total	CTB's Ownership	Glacier's Ownership
Newly originated accounts →	Unsecuritized Pool	1,962,446	34%	100%	0%
Selected Accounts →	Securitized Pool	3,786,045	66%	36% ²	64%
	Total	5,748,491			

- All new credit card accounts originated by CTB start in the “Unsecuritized Pool”
- Certain selected eligible accounts in the Unsecuritized Pool are periodically transferred by CTB into the Securitized Pool (e.g. to offset attrition), becoming “Selected Accounts”
- Historically CTB has not moved Selected Accounts back into the Unsecuritized Pool, although the Pooling and Servicing Agreement (the “PSA”) does allow for this as long as certain conditions are met (e.g. random selection, required pool balance is maintained, RAC, etc.)
- Glacier purchases undivided co-ownership interests in the revolving Securitized Pool of Receivables from CTB, which retains an ownership interest in the Securitized Pool (the “Retained Interest”). A portion of CTB’s Retained Interest in the Securitized Pool serves as first loss risk retention credit enhancement for the Notes

¹ Pool balances do not include deferred receivables originated through in-store financing offers

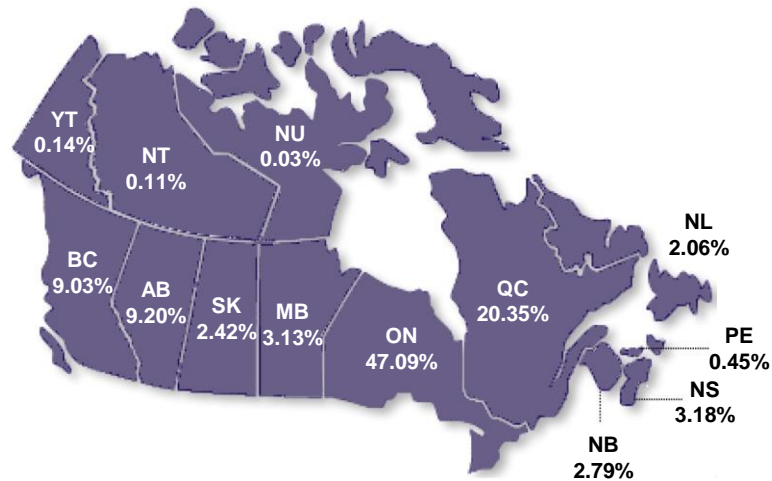

² \$172M of CTB’s Retained Interest in the Securitized Pool represents first loss risk retention credit enhancement provided to Glacier’s series of co-ownership interests in the Securitized Pool

Securitized Pool Composition

• Distribution of Outstanding Receivables Balances

- The Selected Accounts are well-seasoned and geographically diversified across Canada in alignment with the location of CTC's stores and economic activity
- Since 2007 when CTC added deposits into its funding mix, CTB has not added eligible accounts to the Securitized Pool unless they have some seasoning in the Unsecuritized Pool
- Substantially all of the Receivables are now generated under Mastercard credit card accounts, with the remainder being legacy Canadian Tire retail credit cards

Geographic Distribution¹

Account Age¹

Total	3,659,648	100.00%	\$3,786,045	100.00%

5 Year Securitized Pool Performance

- The write-off and delinquency rates have trended lower primarily as a result of favourable macroeconomic conditions, effective credit risk management and the seasoning of the Securitized Pool
- The collection rate is expected to stabilize. The YTD 2019 collection rate is 0.4% lower than over the same period prior year.
- Yield has remained stable

¹ Is calculated as the annual average of each monthly net write-off rate, which is calculated as the total gross write-off amount on the Selected Accounts during the month, less the total recoveries on Selected Accounts during the month, annualized, and divided by the monthly average Receivables balance where the monthly average Receivables balance is the average of the amount of Receivables owing on Selected Accounts at the beginning of the month and the amount of Receivables owing on Selected Accounts at the end of the month (the "Monthly Average Receivables Balance")

² Is calculated as the annual average of each monthly delinquency rate, which is the percentage of outstanding Receivables on the Selected Accounts that are >30 days delinquent

³ Is calculated as the annual average of each monthly yield which is calculated as the total credit charges and interchange earned in the month on Selected Accounts, annualized, and divided by the Monthly Average Receivables Balance,

⁴ Is calculated as the annual average of each monthly collection rate, which is calculated as the total collections on the Selected Accounts during the month divided by the Monthly Average Receivables Balance

⁵ YTD numbers as at April 30, 2019.

Outstanding Glacier Notes

- Glacier finances its purchases of co-ownership interests in the Securitized Pool of Receivables through direct issuances of multiple types of Notes. As at June 12, 2019, Glacier had 7 outstanding series of Notes totaling \$3.0B:

Glacier Outstanding Series	Amount Outstanding (\$millions) ¹	Limit (\$millions) ²	Interest Rate ³	Remaining Term (in years)	Expected / Actual Repayment Date
Series 2014-1 (term ABS)	500		2.60%	0.3	20-Sep-19
Series 2015-1 (term ABS)	500		2.31%	1.3	20-Sep-20
Series 2017-1 (term ABS)	560		2.13%	3.3	20-Sep-22
Series 2018-1 (term ABS)	584		3.20%	4.3	20-Sep-23
Series 2019-1 (term ABS)	560		2.35%	5.0	6-Jun-24
Total Term ABS	2,704		2.53%	2.9	
Series 1997-1 (ABCP)	297	300	2.18%		< 1 year ⁵
Series 2016-A (VFNs)	0 ⁴	500	n/a		by Oct. 2021
Total Variable Series	297	800			
Total Term ABS and Variable Series	3,000				

Footnotes:

- ¹ Includes the total of the senior and subordinated Notes
- ² The limit for the ABCP is the committed amount provided by the syndicate of liquidity lenders in the liquidity facility and for the VFNs is the committed amount provided by Scotiabank for the NPF that is funded by Series 2016-A
- ³ The weighted average interest rate on the senior and subordinated term ABS Notes
- ⁴ There is a nominal balance to maintain the series' co-ownership interest
- ⁵ Although the ABCP Notes have terms < 1 year, the liquidity facility currently expires in August 2021

- Series 2016-A senior and subordinated variable funding Notes (“VFNs”) have been issued privately to Scotiabank under the \$500M NPF. CTB maintains a sufficient Securitized Pool Receivables balance to fully utilize this NPF, if required
- If required, the additional \$1.5B available under the other NPF would be issued privately to Scotiabank under one or more new series

Credit Enhancement for Glacier Notes

- Glacier's term ABS series Notes have credit enhancement in the form of:
 - A-rated Subordinated Notes enhance the AAA-rated Senior Notes, and
 - CTB first loss risk retention enhances both the Senior Notes and the Subordinated Notes
- All of the credit enhancement for the R-1(high)/F1+ rated ABCP Notes is in the form of CTB first loss risk retention
- The healthy excess spread/margin on the Securitized Pool has ensured that there has never been an amortization event
- Credit enhancement levels are determined with the rating agencies at the time of Note issuance based on the Securitized Pool performance metrics relative to such rating agencies' stress test models. The senior term ABS and ABCP Notes each have the highest credit rating, with the ABCP also having the highest rating modifier for ABCP

Glacier's Securitized Pool Performance Metrics and Credit Enhancement as Compared to Other Canadian Credit Card ABS Issuers

- During the 2007-09 financial crisis, the volatility of the write-off rate for Glacier's Securitized Pool was in almost all cases less than half that of the other Canadian credit card ABS issuers' (the "Other Credit Card ABS Issuers") receivables pools (the "Other Pools") demonstrating CTB's strong credit risk management competencies
- Glacier's Notes have a higher credit enhancement % versus the Other Credit Card ABS Issuers due to consistently higher write-off rates and lower collection rates versus the Other Pools reflecting the demographic of the cardholders that currently represent the

Credit Card ABS Issuer ¹	Glacier	Other Pools	Canadian II	Cards II	Eagle	Evergreen	Golden	Master II	Trillium II
Seller	CTB	Overall	NB	CIBC	PCB	TD	RBC	BMO	BNS

Credit Enhancement – A	5.50%	2.42%	2.75%	n/a	3.50%	2.50%	2.0%	n/a	3.00%

¹ The full names of the Other Credit Card ABS Issuers are: Canadian Credit Card Trust II (Canadian II); CARDS II Trust (Cards II); Eagle Credit Card Trust (Eagle); Evergreen Credit Card Trust (Evergreen); Golden Credit Card Trust (Golden); Master Credit Card Trust II (Master II); and Trillium Credit Card Trust II (Trillium II)

² For the Other Pools, the numbers are sourced from DBRS' April 30, 2019 Monthly Canadian ABS Report and have not been verified by Glacier or CTB. For the overall column, the pool size is the average, the pool performance and volatility numbers are pool weighted averages and the credit enhancement numbers are debt weighted averages

³ Three month average performance as of April 30, 2019

⁴ For Glacier, varies by series due primarily to conditions at the time of Note issuance. Some or all of this enhancement represents a portion of CTB's Retained Interest in the Securitized Pool of Receivables. For Other Credit Card ABS Issuers, the value provided is from the most recent issuance of term ABS with fixed rate senior notes

CTB's Credit Risk Management

[Appendix: Subordinated Term ABS Notes](#)

CTB's Credit Risk Organizational Structure

- CTB has a strong credit management team and sophisticated proprietary credit risk management models and processes
- The mandate of Credit Risk is to balance the pursuit of shorter term financial targets with a longer term goal of higher quality receivables and lower portfolio volatility
- This is accomplished by:
 - CTB uses sophisticated statistical techniques to analyze historical performance in order to identify characteristics that are predictive of future customer behaviour (including the use of purchase data from CTC's stores)
 - utilizing sophisticated technologies to develop, evaluate and implement credit risk strategies
 - interpreting and evolving current strategies into more effective solutions for the future

CTB's Early Stage Customer Management

Customer acquisition is only the beginning of CTB's growth strategy

New Account Acquisition

- Most new accounts are acquired in Canadian Tire, SportChek and Mark's stores and online
- CTB uses a variety of models and data, including credit bureau data, to adjudicate credit for the customer while in the store or online
 - determine which applicants to extend credit to, how much credit to extend (limit) and at what interest rate (pricing)
 - initial limits start as low as \$200 – small limits will be increased regularly if the cardholder demonstrates early good credit behaviour
 - develops and tests new strategies, methods and tools for improved adjudication policies on an ongoing basis

Account Acquisition Strategy

- The approval decision is based more on willingness to pay and less on ability to pay
- The limit decision is based more on ability to pay and less on willingness to pay

CTB's Account Management

Every account is continually monitored to manage risk and maximize profitability

- Account management strategies are dynamic and based on an account's:
 - Credit scores (varieties include: Credit Bureau, insolvency, behaviour, CTB's proprietary Fusion, debt service ratio and revenue)
 - Credit limit utilization
 - Past due status
- The scores are generally re-calculated for most active cardholders on a monthly billing cycle basis to ensure decisions are made using the most accurate and up-to-date information available. Scores are re-calculated nightly on all delinquent customers.
- Sophisticated adaptive control software (TRIAD) is used to develop, test and deploy account management strategies
- Account Management focuses on several key areas:

Key Areas	Action
Credit Limits	Reviewed monthly for increases and decreases
Cash Limits	Reviewed monthly for increases and decreases
Authorizations	Monitor PAD and transaction type
Performance Based Pricing	Reviewed monthly for increases and decreases
Payment Withholding	Withhold open to buy from high NSF accounts
Card Reissue	Length of time to issue cards
Pre-Delinquency	Monitor high risk accounts in good standing
Early Stage Collections	Monitor accounts not in good standing

CTB's Modeling and Analytics

Modeling and analytics combines the art of strategy development with the science of analytics to predict customer behaviour

- Credit risk models are the foundation on which risk and marketing strategies are developed
- Utilizes sophisticated statistical techniques to analyze historical performance in order to identify characteristics that are predictive of future customer behaviour (including the use of purchase data from CTC's stores)¹
- The following sources of data are used in creating models:
 - Credit Bureau data
 - Internal data
 - Behaviour data
 - Delinquency history
 - Payment history
 - Balance growth / utilization
 - Call Center data
 - Transactional data
 - SKU level and MCC data
- CTB has created over 350 proprietary scorecard models including:
 - Risk models
 - Fraud models
 - Attrition scores
 - Acquisition scores
 - Marketing models
 - Revenue models
 - Income models
 - Propensity to purchase models

CTB's Late Stage Customer Management

CTB develops, tests and implements analytically based collection strategies across lending portfolios to maximize the effectiveness of the collection process

- CTB's Ontario-based call centres are integral to balancing loss reduction with striving to maintain delinquent cardholders as CTC customers
- The collection strategies reduce CTB's net write-off rate and increase overall collection results by balancing loss reduction against operating expenses
- Collection scores and customer scores are re-calculated on all delinquent customers on a nightly billing cycle basis to ensure decisions are made using the most accurate information available
- Sophisticated analytics are used to develop, test and deploy collection prioritization strategies including:
 - short message service (SMS) / email / online collection tactics
 - skip tracing techniques
 - payment programs/offers
 - agency assignments & fees

CTB's Fraud Prevention Strategy

- **Mandate**

- To develop strategies and operational solutions to manage financial losses and related customer attrition resulting from fraud

- **Differentiators**

- Industry leading fraud loss rates
- A team and culture that balances loss mitigation with customer treatment to protect the Canadian Tire brand
- A dynamic infrastructure that enables customer differentiated treatments
- Champions of continuous technology and process innovation for fraud detection, onboarding and authentication

Appendix: Subordinated Term ABS Notes

Appendix: Subordinated Term ABS Notes

- Glacier offers Subordinated Notes on each of its term ABS issuances
 - In recent years, Subordinated Note offerings have ranged in size from \$27.5M to \$38M, representing 5.5% - 7.0% of the total Series Notes

Glacier Outstanding Series	Subordinated Note % of Total Series Notes Outstanding	Subordinated Note Amount Outstanding (\$M)	Subordinated Note Credit Enhancement (CTB Risk Retention)	Subordinated Note Credit Ratings
Series 2014-1 (term ABS)	5.5%	27.5	7.0% ¹	A(high)(sf) ² / A+(sf) ⁴
Series 2015-1 (term ABS)	7.0%	35.0	5.5%	A(sf) ² / A(sf) ⁴
Series 2017-1 (term ABS)	6.5%	36.4	5.5%	A(sf) ² / A(sf) ⁴
Series 2018-1 (term ABS)	6.5%	38.0	5.5%	A(sf) ² / A(sf) ³
Series 2019-1 (term ABS)	6.5%	36.4	5.5%	A(sf) ² / A(sf) ⁴
Total		173.3		

- During the Revolving Period or, if applicable, during an Amortization Period, holders of the Subordinated Notes are paid interest after interest is paid to the holders of the Senior Notes
- On the Expected Repayment Date or, if applicable, during an Amortization Period, holders of the Subordinated Notes are paid principal after principal has been paid in full to the holders of the Senior Notes
- A-rated Subordinated Notes benefit from
 - 5.5% credit enhancement in the form of CTB first loss risk retention
 - A well seasoned Securitized Pool of Selected Account exhibiting historically low net-write off and delinquency rates and a historically high collection rate
 - A healthy excess spread/margin (currently 13.4%⁵) has ensured that there has never been an amortization event

¹ Series 2014-1 credit enhancement increased from 5.5% to 7.0% in 2015 as a result of CTB implementing the market standard minimum monthly payment requirement which led to a temporary downward trend in collection rates

² DBRS ³ Fitch ⁴ S&P ⁵ 3 month weighted average of Glacier's term ABS Notes outstanding as at April 30, 2019 – weighting is based on Note balances

Appendix: Subordinated Term ABS Notes (cont'd)

- Rated credit card receivables backed notes pass stringent stress tests that include a reduction in the base case yield and collection rates and an increase in the base case net write-off rate
- The variables stressed for A-rated notes are the same as those used to stress AAA-rated notes with the biggest difference being that the stressed assumptions are not as severe for an A rating
- Glacier's 2018-1 Subordinated Notes were rated 'A(sf)' by both DBRS and Fitch and Glacier's 2019-1 Subordinated Notes were rated 'A(sf)' by both DBRS and S&P

	Yield	Collection Rate	Write-off Rate
<u>Selected Accounts' Performance as at April 30, 2019</u>
