Keysight Technologies Appoints Liz Morali as Head of Investor Relations

2026-01-06

SANTA ROSA, Calif.--(BUSINESS WIRE)-- **Keysight Technologies, Inc.** (NYSE: KEYS) today announced the appointment of Liz Morali as head of Investor Relations. Morali will lead engagement with Keysight's global investor and analyst community and support clear, consistent communication of the company's strategy, performance, and long-term growth opportunities.

"Liz brings deep expertise in investor relations, capital markets, and executive communications, along with a strong understanding of the technology and semiconductor landscape," said Neil Dougherty, Chief Financial Officer, Keysight. "She is a seasoned advisor and has a proven ability to build strong relationships with investors while elevating the clarity, discipline, and effectiveness of investor communications. We are pleased to welcome Liz to Keysight."

Morali most recently served as vice president of Investor Relations at Applied Materials, where she led the company's global IR program and advised senior leadership on earnings strategy, disclosures, capital markets activity, and shareholder engagement. During her tenure, she expanded and diversified the shareholder base, strengthened relationships across the buy-side and sell-side community, and modernized core IR processes to improve speed, clarity, and cross-functional collaboration.

Over the course of her career, Morali has developed extensive expertise in leading comprehensive IR programs, supporting complex capital markets transactions, and shaping long-term investor messaging across multiple global technology companies.

About Keysight Technologies

At Keysight (NYSE: KEYS), we inspire and empower innovators to bring world-changing technologies to life. As an S&P 500 company, we're delivering market-leading design, emulation, and test solutions to help engineers develop and deploy faster, with less risk, throughout the entire product life cycle. We're a global innovation partner enabling customers in communications, industrial automation, aerospace and defense, automotive, semiconductor, and general electronics markets to accelerate innovation to connect and secure the world.
