

Livent Corporation Political Contributions Policy

Livent Corporation's Code of Ethics and Business Conduct (Code) provides corporate governance, control, oversight, and procedural guidance for Livent corporate contributions to political candidates and causes. The Code is available on the company's website and applies to all of the company's employees, officers, and directors, as well as its agents when appropriate. Under the Code, approval of any Livent Corporation contribution rests with the FMC business unit or department requesting the contribution and Livent's general counsel.
