Investor Presentation

September 2022

Forward Looking Statements

This presentation contains forward-looking statements based on current expectations, including statements regarding our earnings guidance and financial outlook and goals. These forward-looking statements are often identified by words such as “estimate,” “predict,” “may,” “believe,” “plan,” “expect,” “require,” “intend,” “assume,” “project,” "anticipate," "goal," "seek," "strategy," "likely," "should," "will," "could," and similar words. Because actual results may differ materially from expectations, we caution you not to place undue reliance on these statements. A number of factors could cause future results to differ materially from historical results, or from outcomes currently expected or sought by Pinnacle West or APS. These factors include, but are not limited to: the potential effects of the continued COVID-19 pandemic, including, but not limited to, demand for energy, economic growth, our employees and contractors, vaccine mandates, supply chain, expenses, inflation, capital markets, capital projects, operations and maintenance activities, uncollectable accounts, liquidity, cash flows, or other unpredictable events; our ability to manage capital expenditures and operations and maintenance costs while maintaining reliability and customer service levels; variations in demand for electricity, including those due to weather, seasonality (including large increases in ambient temperatures), the general economy or social conditions, customer and sales growth (or decline), the effects of energy conservation measures and distributed generation, and technological advancements; the potential effects of climate change on our electric system, including as a result of weather extremes such as prolonged drought and high temperature variations in the area where APS conducts its business; power plant and transmission system performance and outages; competition in retail and wholesale power markets; regulatory and judicial decisions, developments and proceedings; new legislation, ballot initiatives and regulation or interpretations of existing legislation or regulations, including those relating to environmental requirements, regulatory and energy policy, nuclear plant operations and potential deregulation of retail electric markets; fuel and water supply availability; our ability to achieve timely and adequate rate recovery of our costs through our rates and adjustor recovery mechanisms, including returns on and of debt and equity capital investments; our ability to meet renewable energy and energy efficiency mandates and recover related costs; the ability of APS to achieve its clean energy goals (including a goal by 2050 of 100% clean, carbon-free electricity) and, if these goals are achieved, the impact of such achievement on APS, its customers, and its business, financial condition and results of operations; risks inherent in the operation of nuclear facilities, including spent fuel disposal uncertainty; current and future economic conditions in Arizona, including in real estate markets; the direct or indirect effect on our facilities or business from cybersecurity threats or intrusions, data security breaches, war, acts of war, international sanctions, terrorist attack, physical attack, severe storms, or other catastrophic events, such as fires, explosions, pandemic health events, or similar occurrences; the development of new technologies which may affect electric sales or delivery; the cost of debt and equity capital and the ability to access capital markets when required; general economic conditions, including inflation rates, monetary fluctuations and supply chain constraints; environmental, economic and other concerns surrounding coal-fired generation, including regulation of greenhouse gas emissions; volatile fuel and purchased power costs; the investment performance of the assets of our nuclear decommissioning trust, pension, and other postretirement benefit plans and the resulting impact on future funding requirements; the liquidity of wholesale power markets and the use of derivative contracts in our business; potential shortfalls in insurance coverage; new accounting requirements or new interpretations of existing requirements; generation, transmission and distribution facility and system conditions and operating costs; the ability to meet the anticipated future need for additional generation and associated transmission facilities in our region; the willingness or ability of our counterparties, power plant participants and power plant land-owners to meet contractual or other obligations or extend the rights for continued power plant operations; and restrictions on dividends or other provisions in our credit agreements and ACC orders. These and other factors are discussed in Risk Factors described in Part I, Item 1A of the Pinnacle West/APS Annual Report on Form 10-K for the fiscal year ended December 31, 2021 and in Part II, Item 1A of the Pinnacle West/APS Quarterly Report on Form 10-Q for the quarter ended March 31, 2022, which you should review carefully before placing any reliance on our financial statements, disclosures or earnings outlook. Neither Pinnacle West nor APS assumes any obligation to update these statements, even if our internal estimates change, except as required by law.

In this presentation, references to net income and earnings per share (EPS) refer to amounts attributable to common shareholders.

Navigating Short-Term Challenges. Longer-Term, A Powerful Growth Story

Why We Are Optimistic About the Future

Key Reasons

1. Solid long-term performance record
2. Robust economic growth in Arizona and our service territory
3. A clear plan for a clean energy transition
4. Ability to navigate the regulatory environment over time
5. Strong commitment to execute strategy

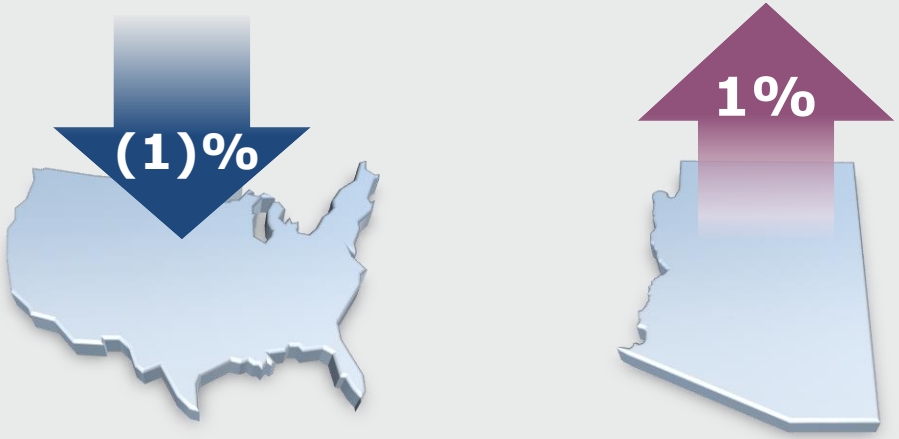

Last 10 Years: Strong Performance Track Record

PINNACLE WEST
CAPITAL CORPORATION

Arizona remains among the fastest growing states in the U.S.

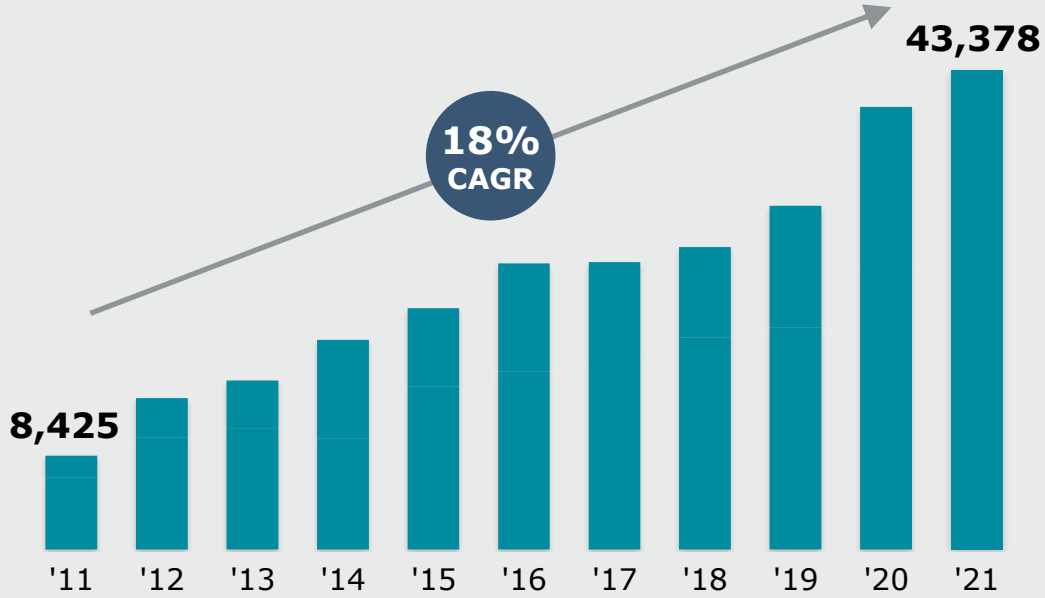

Annual Employment Growth Last Three Years[1]

[1] 2019-2021

Steady Housing Growth[2]

Single Family & Multifamily Housing Permits
Maricopa County

[2] Maricopa County population 4.5M, 62% of state population

PINNACLE WEST
CAPITAL CORPORATION

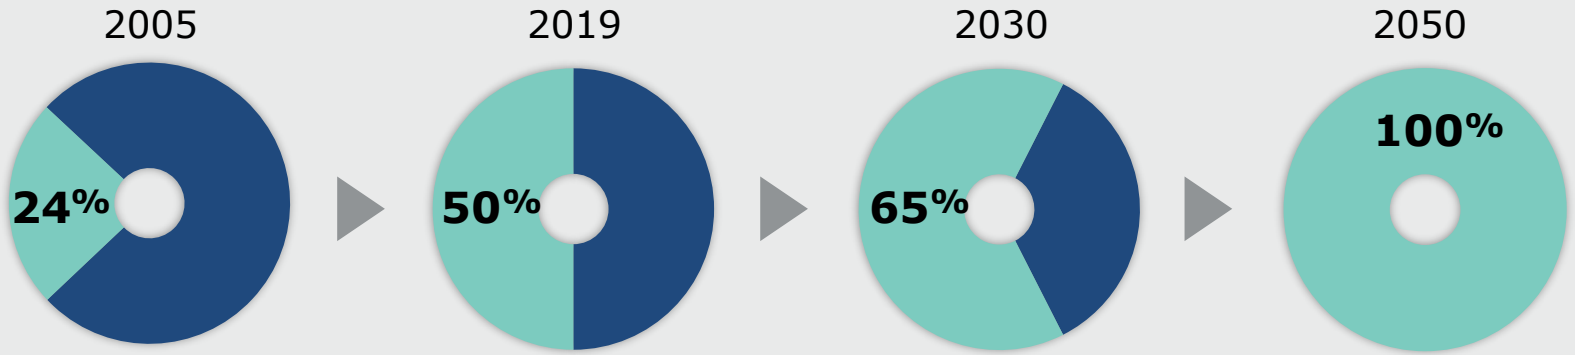

A clear plan for clean energy transition

Progress Towards Meeting Clean Energy Commitment[1]

- Contracted for nearly 1,600 MW of clean energy and storage to be in service for APS customers by end of 2024
- Issued All-Source RFP which seeks 1,000 – 1,500 MWs of resources, including up to 600 – 800 MWs of renewable resources to be in service from 2025 – 2027
- Charted course for healthy mix of APS-owned and third party-owned assets, to be continued through future planned RFPs

Pathway

[1] Since January 2020

PINNACLE WEST CAPITAL CORPORATION

Best-in-class service territory supports high tech growth and economic development

Our Approach: Focus on Four Main Areas

- Business attraction and expansion
- Community development
- Entrepreneurial support
- Infrastructure support

Supports Influx of Manufacturing and Data Centers – Examples

- **Taiwan Semiconductor**
  Began building $12B factory
- **Chang Chun Petrochemical**
  Building 250k sq ft facility
- **Williams-Sonoma**
  Leased 1.2M sq ft facility
- **Nestle USA**
  Building 625k sq ft facility
- **KORE Power**
  Building 1M sq facility
- **Kohler Co.**
  Building 1M sq ft facility

Data centers are projected to create up to 640 MW of capacity needs by 2035

We Will Pursue Improvements in the Regulatory Environment

- ✓ Appealing last rate case to clarify the prudency standard in Arizona
- ✓ Filing a new rate case to reduce regulatory lag and improve the ROE
- ✓ Work with stakeholders on common issues including reducing regulatory lag and improving customer experience
- ✓ Continue to find alignment with the regulators
- ✓ Focus on customer affordability

We Have Embraced a Customer-Centric Strategy

Deliver exceptional customer service

Ensure superior reliability and operating performance, anchored in safety

Make intelligent and clean investments to support a growing Arizona

Preserve strong financial health while sustaining customer affordability

PINNACLE WEST CAPITAL CORPORATION

Navigating Short-Term Challenges. Longer-Term, A Powerful Growth Story

1

Company Profile
- Solid Foundation

2

Growth Outlook
Remains Strong

3

Customer Initiatives
and ESG Leadership

4

Financial Outlook
- Sets Clear Expectations

Bringing the Residential Customer into the Advanced Economy

Initiatives

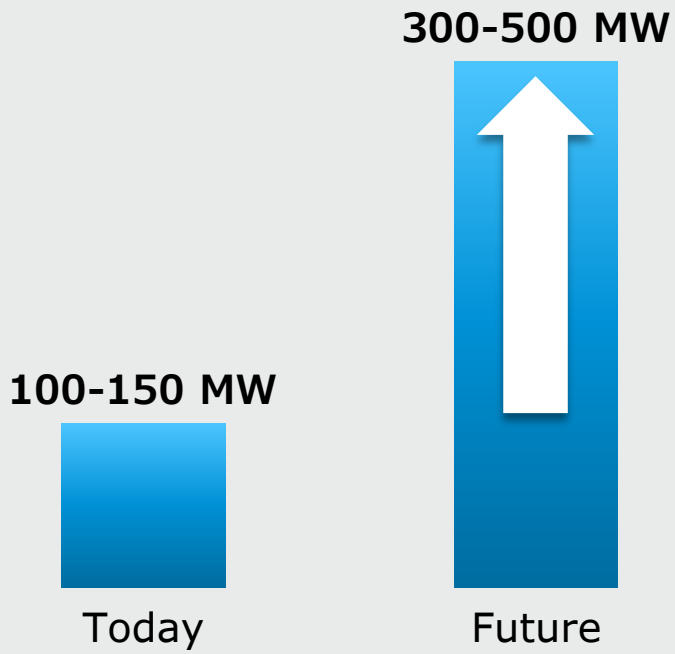

- Award-winning program to promote installation of advanced smart thermostats
  - reduces demand during peak load window
- Super off-peak electric vehicle charging rate equivalent to ~30¢ per gallon gasoline

Potential Impact

Demand Savings During Peak Afternoon Window

PINNACLE WEST CAPITAL CORPORATION

Customer Driven Initiatives Underway – A Few Examples

Take Charge AZ

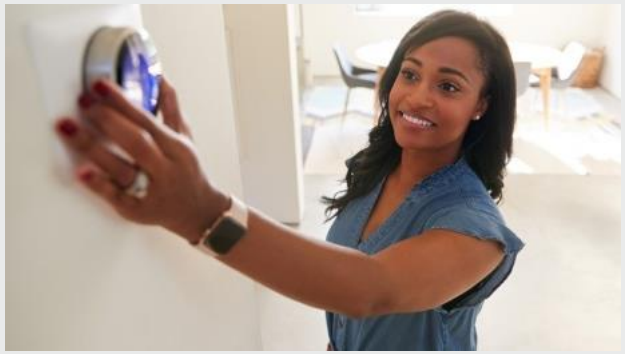

- Pilot program to encourage electric vehicle adoption by installing charging stations
- Installed more than 250 chargers in 2021

Customer Advisory Board

- Gathers direct insight from residential customers
- Identify customer concerns to shape solutions

Energy Efficiency

- Demand response programs to reward shift of energy usage to lower-cost times
  - smart thermostats
  - residential battery systems
  - grid-interactive water heaters

Leading ESG Practices Guide Our Approach – Snapshot

Environmental

- One of two North American electric utility to achieve CDP Leadership scores for Water and Climate[1]
- MSCI ESG "AA" rating[2]
- Reduced carbon by 32% since 2005 and retired over 1,000 MW of coal

Social

- Launched new diversity, equity and inclusion strategy
- 44% of new hires ethnically or racially diverse
- Commitment to support Coal Community Transition Plan

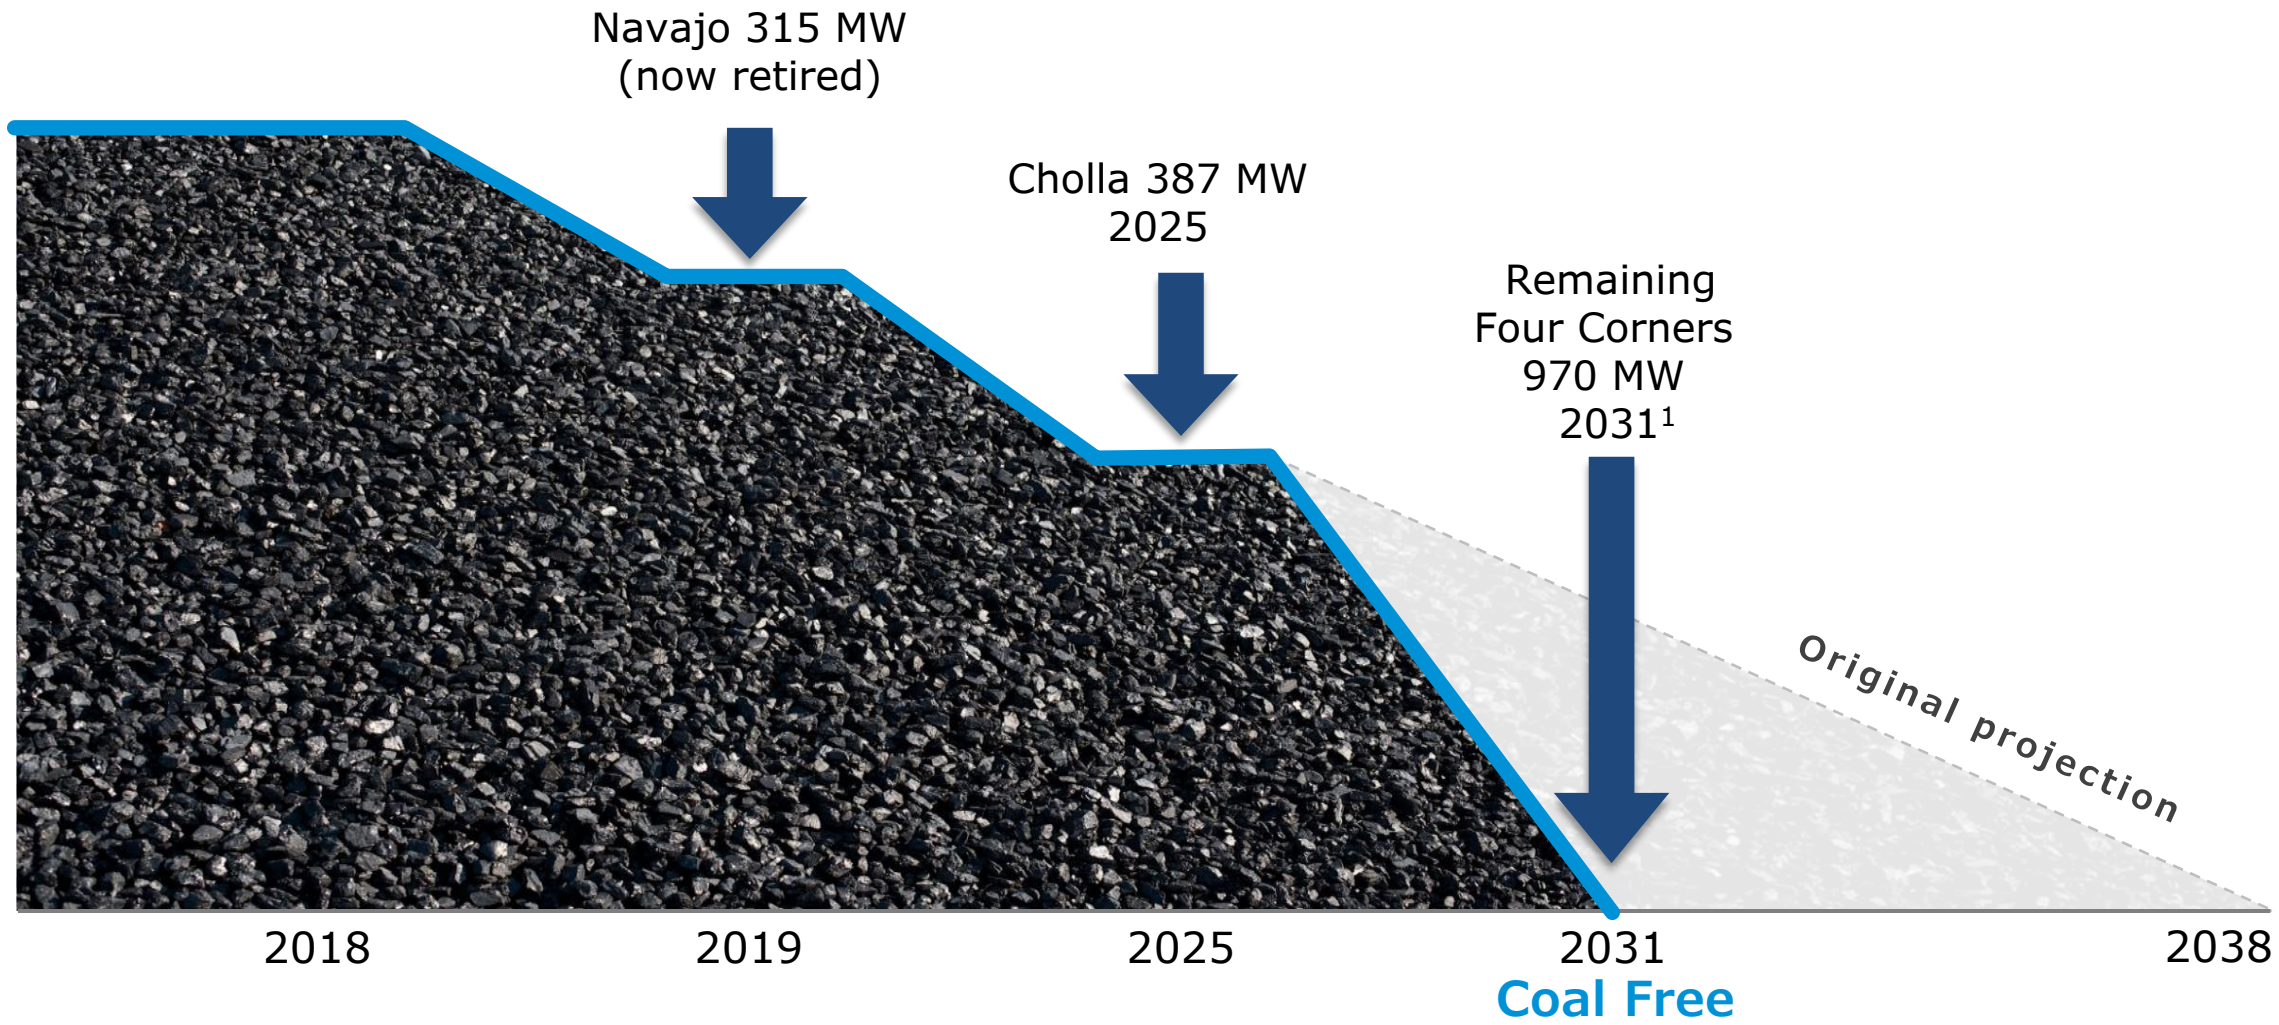

Governance

- 36% of independent directors gender or ethnically diverse
- ESG executive council
- Board oversight of strategy and risk

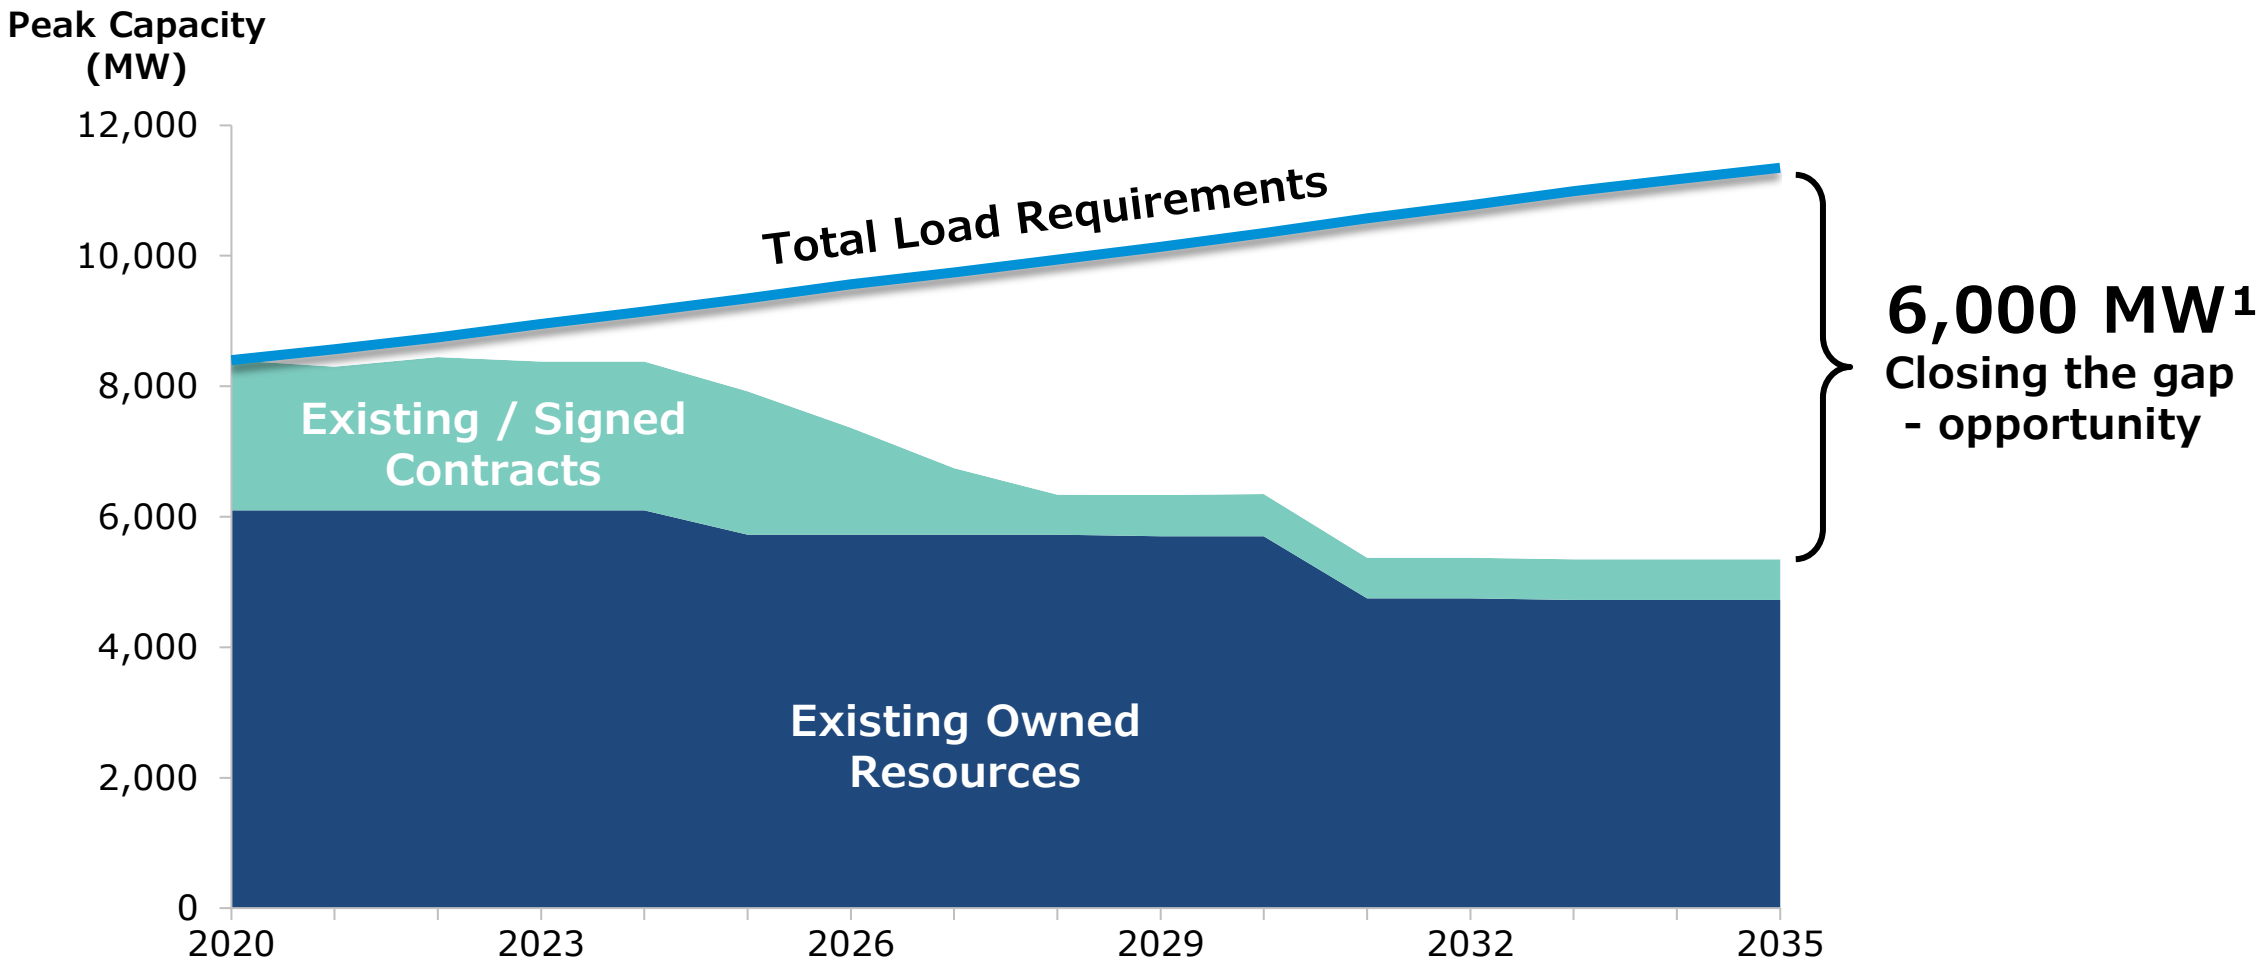

[1] Pinnacle West is only one of two North American electric utility companies to achieve leadership scores in both climate change and water security out of the 140-plus electric utilities that were scored through CDP's questionnaires in 2021, with nearly 12,000 companies being scored in total.
[2] Report dated April 27, 2021.

Coal Exit Strategy – 7 Years Earlier than Originally Projected

[1]Starting in 2023 and subject to the necessary approvals, Four Corners will have the option to move to a seasonal operating schedule that could further reduce annual carbon emissions at Four Corners by an estimated 20-25%.

Coal Exit and Expiring Purchase Contracts Will Create a 6,000 MW Supply-Demand Gap by 2035

[1] Will need more additions than 6,000 MW due to new resources being paired to meet reliability requirements (i.e., solar with storage requires 100 MW solar plus 100 MW of storage).

Key New Energy Sources to Achieve Goals

Initiatives

- Solar generation
- Wind generation
- Gas as a bridge fuel
- Demand-side management
- Energy storage solutions
- Innovation

Resource Mix Change[1]

	Today		2035
Coal	**16%**	→	**0%**
Gas	**29%**	→	**6%-17%**
Nuclear	**25%**	→	**16%**
Purchased	**5%**	→	**11%**
Renewable/ DSM	**25%**	→	**56%-67%**

2022 EPS guidance

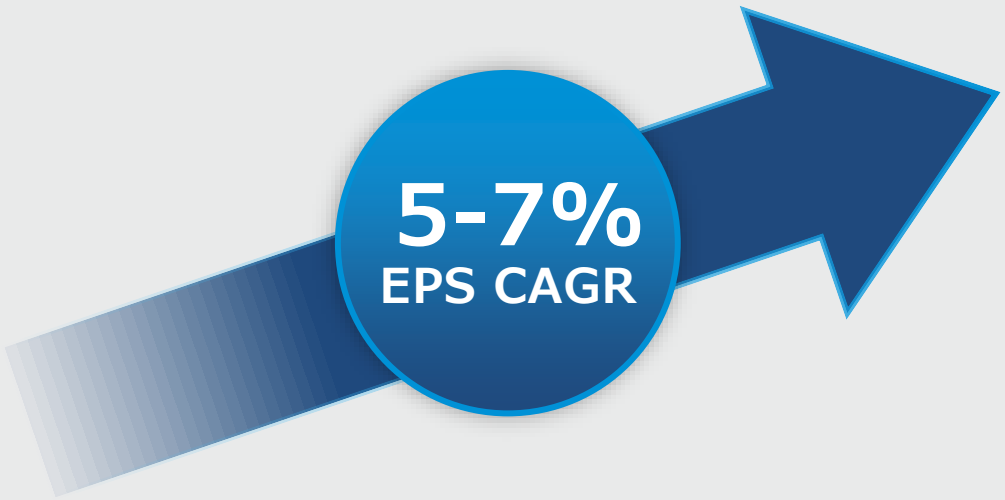

Key Factors and Assumptions as of August 3, 2022	2022
Adjusted gross margin (operating revenues, net of fuel and purchased power expenses, x/RES,DSM,CCT)	$2.52 – $2.55 billion
• Retail customer growth about 1.5-2.5%	
• Weather-normalized retail electricity sales volume 1.5-2.5% higher compared to prior year ○ Includes 0.5-1.5% contribution to sales growth of new large manufacturing facilities and several large data centers	
• Assumes normal weather for full-year forecast	
Adjusted operating and maintenance (O&M x/RES,DSM,CCT)	$820 – $840 million
Other operating expenses (depreciation and amortization, and taxes other than income taxes)	$987 – $998 million
Other income (pension and other post-retirement non-service credits, other income and other expense)	$62 – $66 million
Interest expense, net of allowance for borrowed and equity funds used during construction (Total AFUDC ~$64 million)	$214 – $232 million
Net income attributable to noncontrolling interests	$17 million
Effective tax rate	13.5%
Average diluted common shares outstanding	113.5 million
EPS Guidance	$3.90 – $4.10

What Investors Can Expect From Us Moving Forward

1	**Strong EPS growth off 2022**
2	**Managing capital plan to support customer growth, reliability and clean transition**
3	**Steady rate base growth**
4	**Limiting equity dilution**
5	**Declining O&M per MWh**
6	**Dividend growth commitment**
7	**Optimize our balance sheet in support of investment**

Projected 5-7% EPS Growth Off 2022[1]

Long-Term Outlook

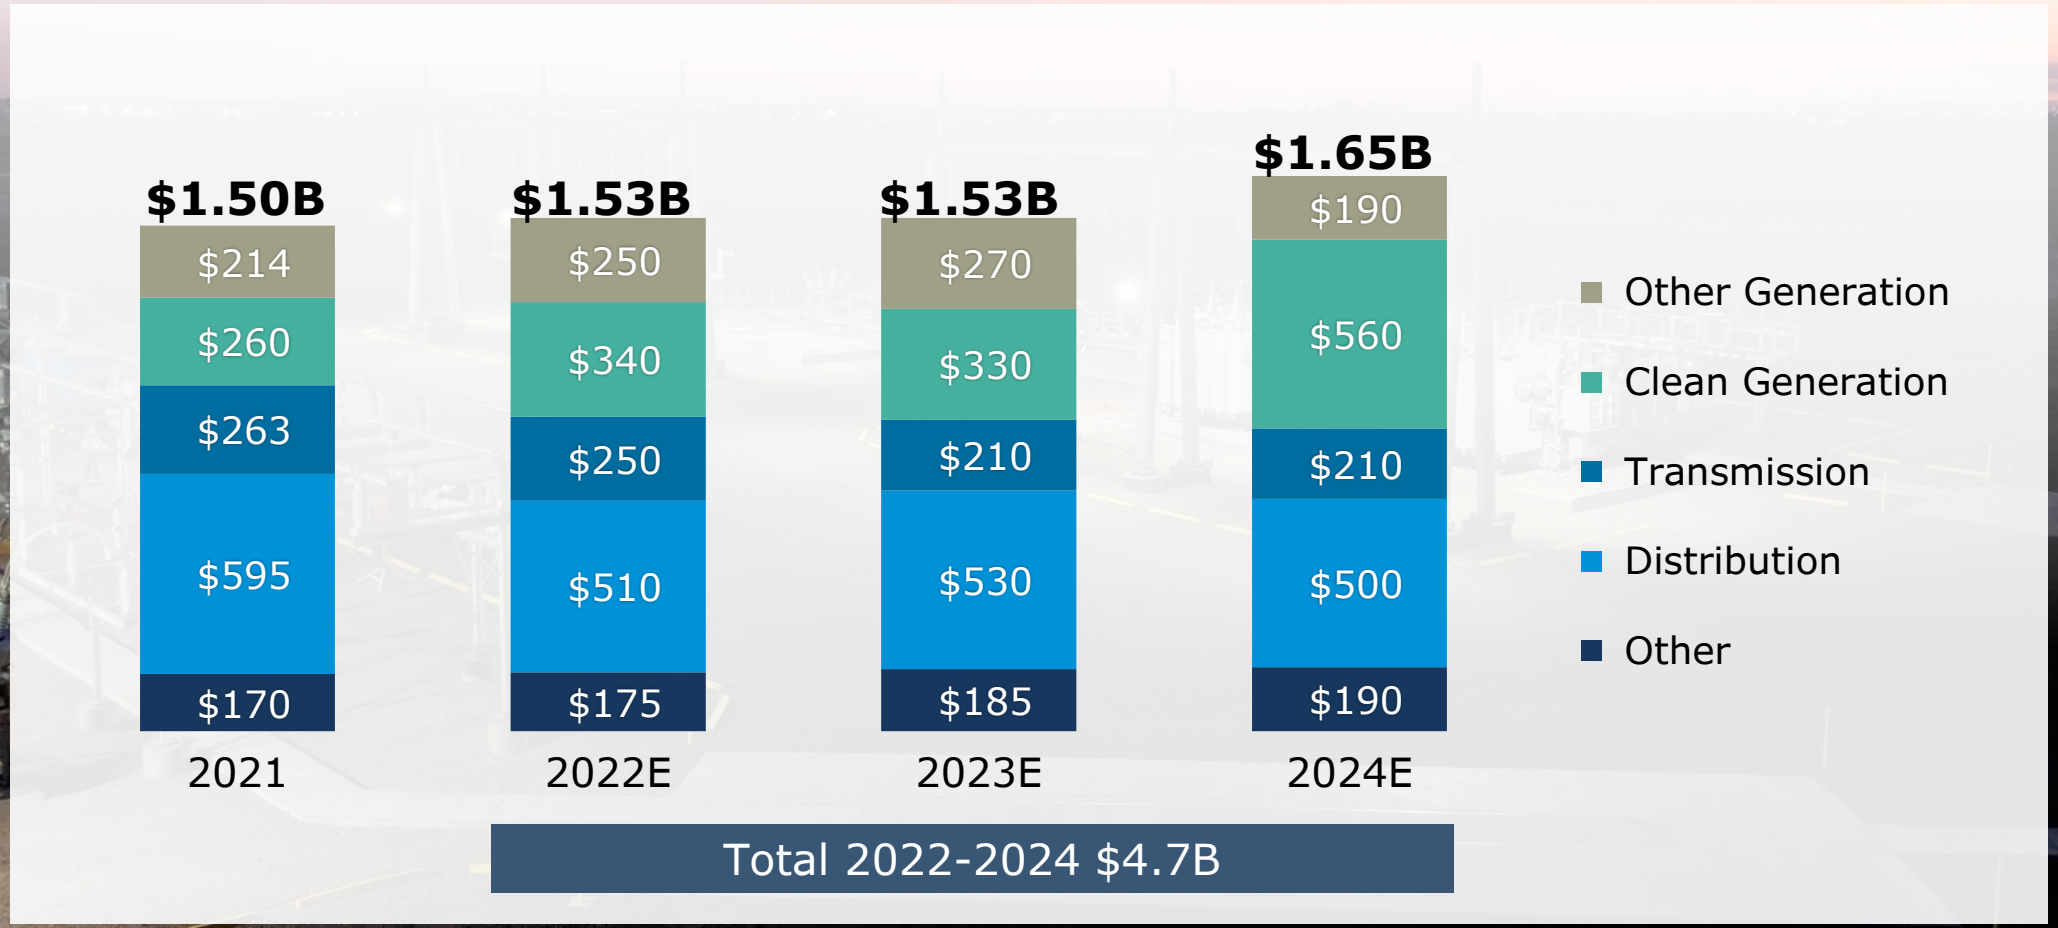

Long-Term Upside Potential

- Remainder of SCRs in rates
- Acceleration of clean energy transition
- Economic Development driving sales and customer growth
- Continued cost management
- Reduction of regulatory lag

[1] Amounts provided are the Company's current 5-year compound annual growth rate projections

Managed capital plan to support customer growth, reliability, and clean transition

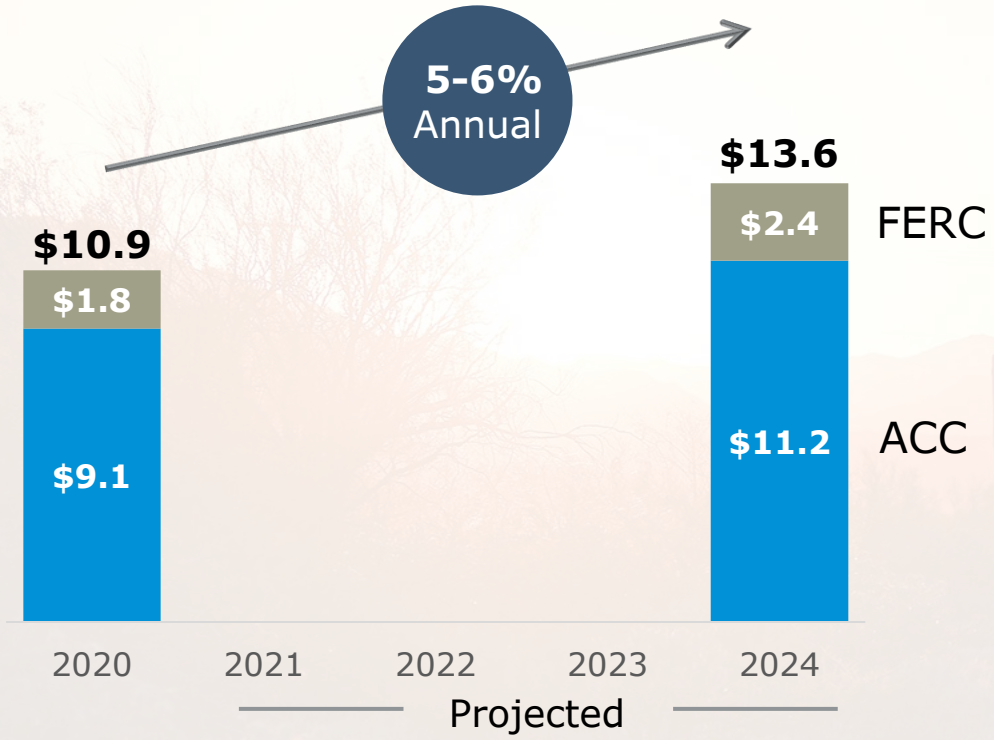

2022–2024 as disclosed in the Second Quarter 2022 Form 10-Q.

PINNACLE WEST CAPITAL CORPORATION

Steady rate base growth

APS Rate Base Growth Guidance

Year-End

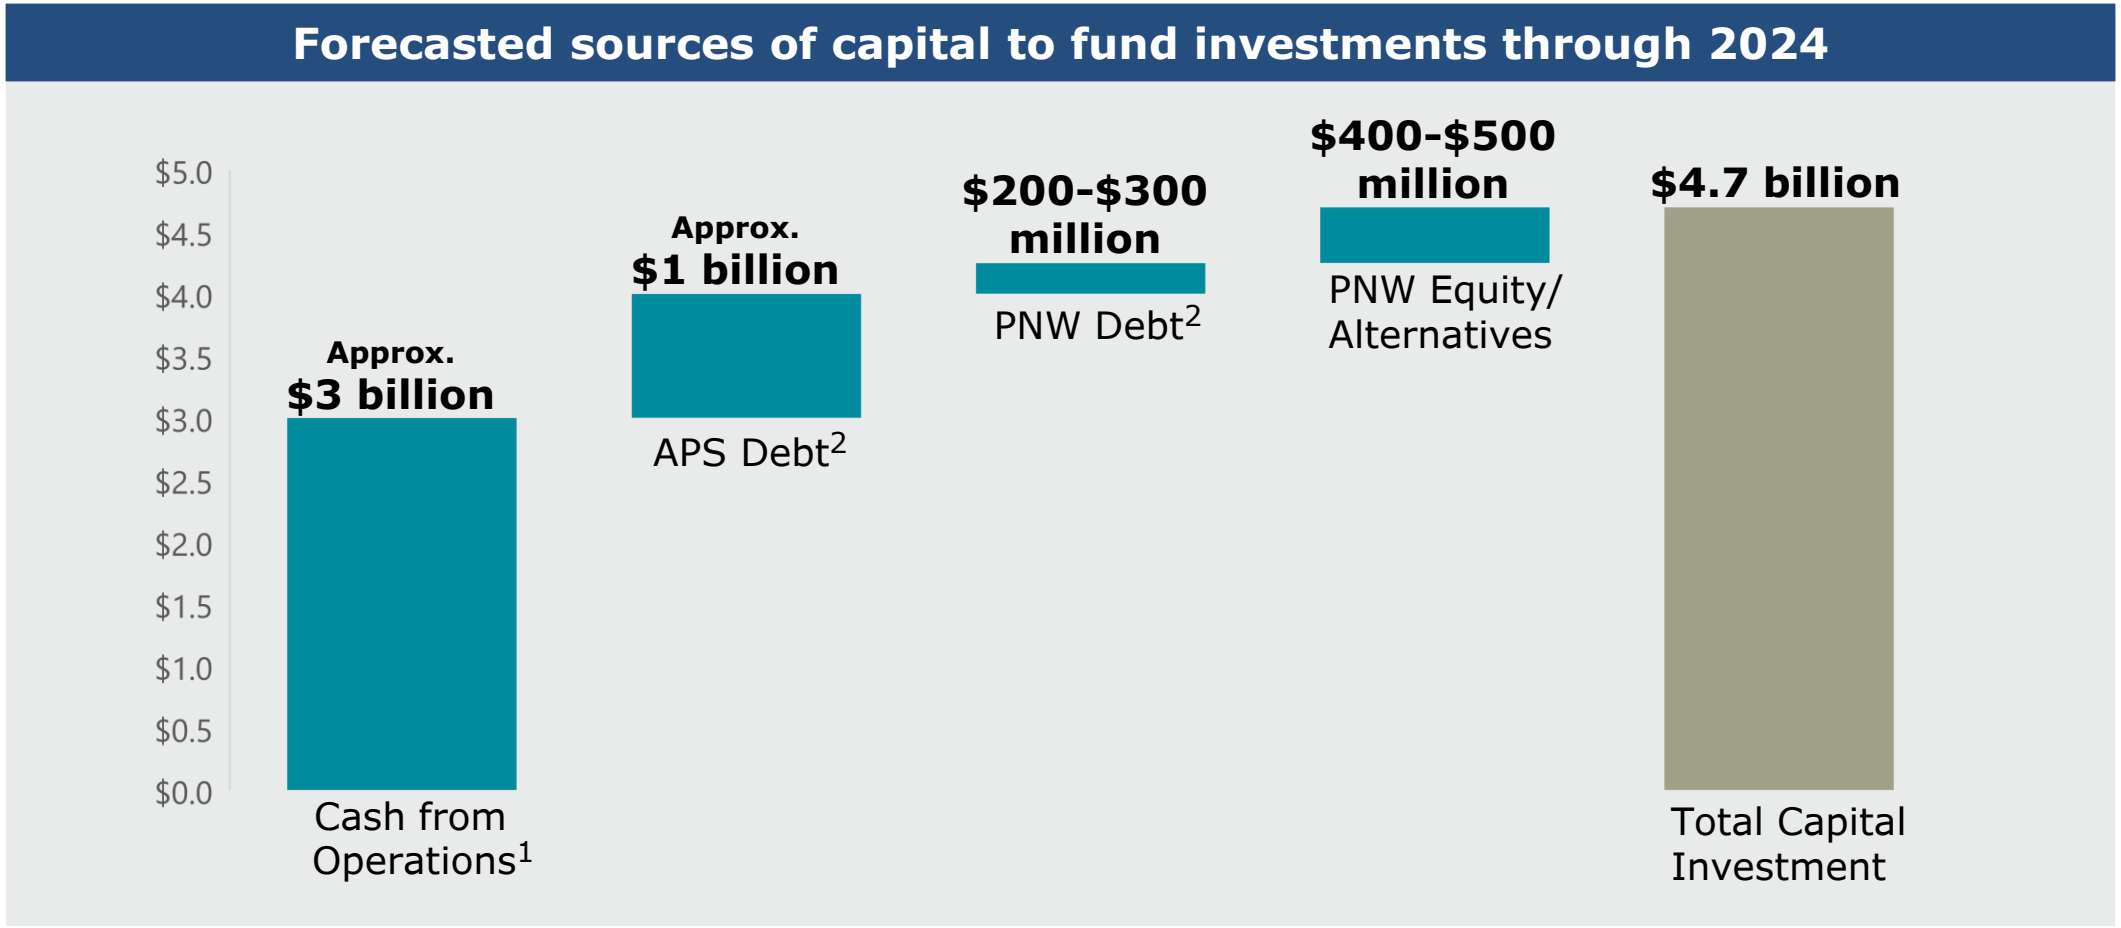

Rate base $ in billions, rounded

Total Approved Rate Base

	ACC	FERC
Rate Effective Date	12/01/2021	6/1/2022
Test Year Ended	06/30/2019[1]	12/31/2021
Rate Base	$8.6B	$1.9B
Equity Layer	54.7%	51.3%
Allowed ROE	8.7%	10.75%

[1] Adjusted to include post test-year plant in service through 06/30/2020

No plans to issue equity before end of next rate case

[1] Cash from operations is net of shareholder dividends.
[2] APS and PNW debt issuance is net of maturities.

PINNACLE WEST CAPITAL CORPORATION

Our goal is flat total O&M and declining O&M per MWh

O&M per MWh

$29/MWh

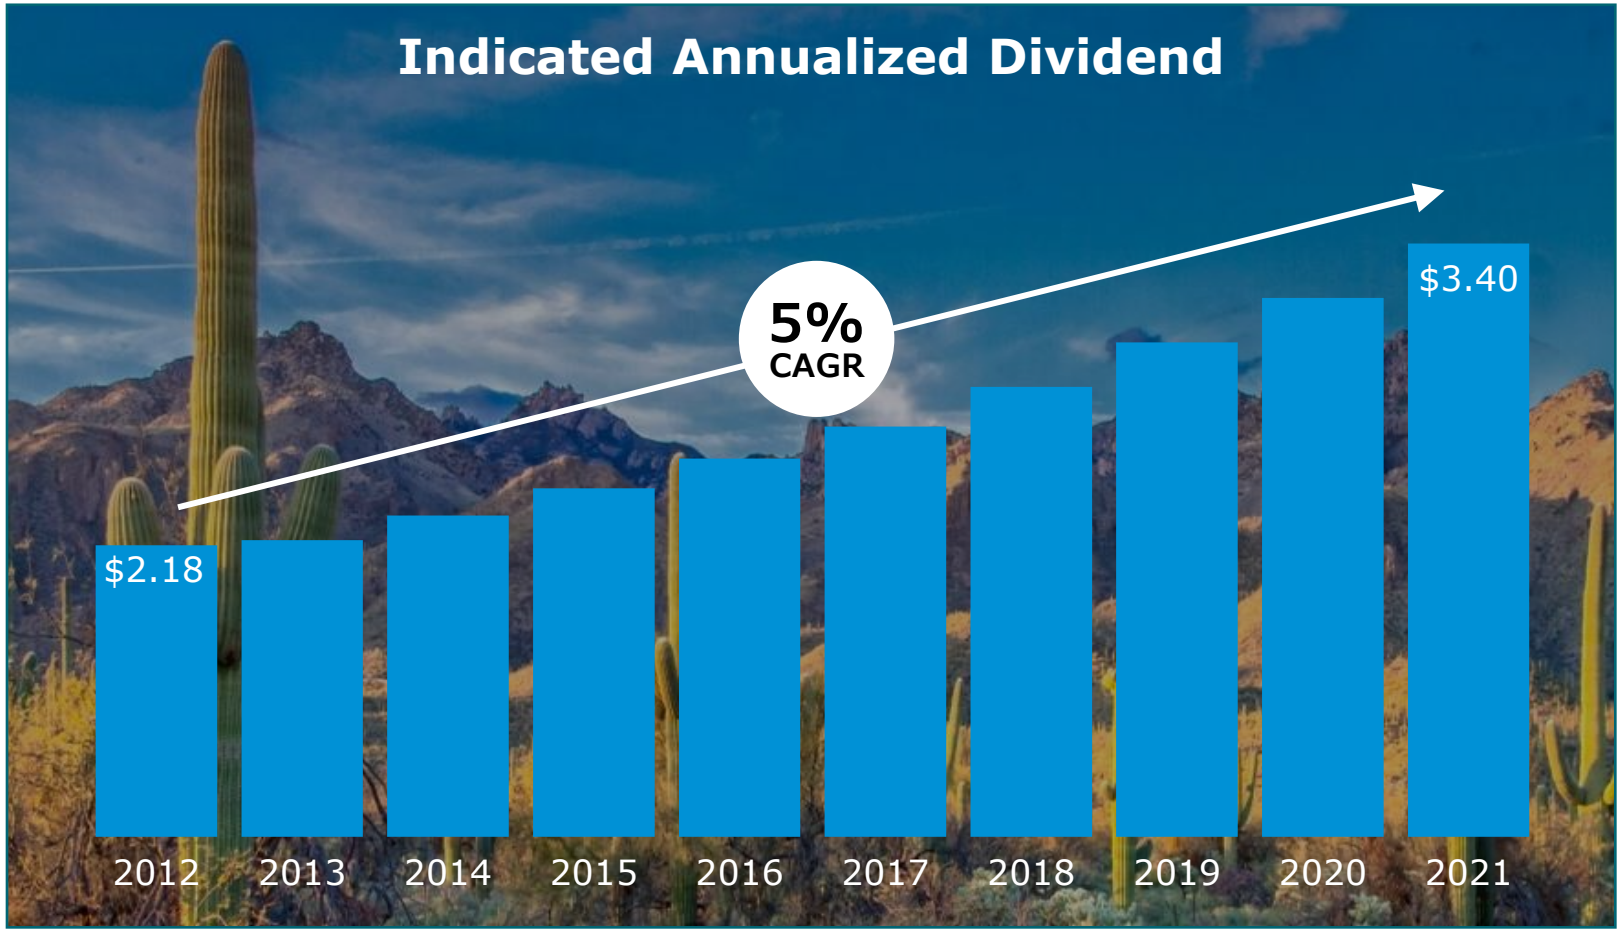

2021 2022 2023 2024

Total O&M[1]
2021: $865M
2022: $820M-$840M

[1] Total O&M amounts exclude RES/DSM, and include planned outage amounts of $54M in 2021 and $40M-$50M in 2022.

PINNACLE WEST CAPITAL CORPORATION

Continue Our Track Record of Consistent Dividend Growth[1]
