

Renewed, Reliable and Resilient

September Investor Meetings

PINNACLE WEST
CAPITAL CORPORATION

Forward Looking Statements

This presentation contains forward-looking statements based on current expectations, including statements regarding our earnings guidance and financial outlook and goals. These forward-looking statements are often identified by words such as "estimate," "predict," "may," "believe," "plan," "expect," "require," "intend," "assume," "project," "anticipate," "goal," "seek," "strategy," "likely," "should," "will," "could," and similar words. Because actual results may differ materially from expectations, we caution you not to place undue reliance on these statements. A number of factors could cause future results to differ materially from historical results, or from outcomes currently expected or sought by Pinnacle West or APS. These factors include, but are not limited to: uncertainties associated with the current and future economic environment, including economic growth rates, labor market conditions, tariffs, inflation, supply chain delays, increased expenses, volatile capital markets, or other unpredictable effects; current and future economic conditions in Arizona, such as the housing market and overall business and regulatory environment; our ability to manage capital expenditures and operations and maintenance costs while maintaining reliability and customer service levels; the direct or indirect effect on our facilities or business from cybersecurity threats or occurrences; variations in demand for electricity, including those due to weather, seasonality (including large increases in ambient temperatures), the general economy or social conditions, customer, and sales growth (or decline), the effects of energy conservation measures and distributed generation, and technological advancements; the potential effects of climate change on our electric system, including as a result of weather extremes such as prolonged drought and high temperature variations in the area where APS conducts its business; power plant and transmission system performance and outages; competition in retail and wholesale power markets; regulatory and judicial decisions, developments, and proceedings; new legislation, ballot initiatives and regulation or interpretations of existing legislation or regulations, including those relating to tax, environmental requirements, regulatory and energy policy, nuclear plant operations and potential deregulation of retail electric markets; fuel and water supply availability; our ability to achieve timely and adequate rate recovery of our costs through our rates and adjustor recovery mechanisms, including returns on and of debt and equity capital investment; the ability of APS to meet renewable energy and energy efficiency mandates and recover related costs; the ability of APS to achieve its clean energy goal to be carbon-neutral by 2050 and, if this goal is achieved, the impact of such achievement on APS, its customers, and its business, financial condition, and results of operations; risks inherent in the operation of nuclear facilities, including spent fuel disposal uncertainty; data security breaches, terrorist attack, physical attack, severe storms, or other catastrophic events, such as fires, explosions, pandemic health events or similar occurrences; the development of new technologies which may affect electric sales or delivery, including as a result of delays in the development and application of new technologies; the cost of debt, including increased cost as a result of rising interest rates, and equity capital and our ability to access capital markets when required; environmental, economic, and other concerns surrounding coal-fired generation, including regulation of greenhouse gas emissions; volatile fuel and purchased power costs; the investment performance of the assets of our nuclear decommissioning trust, captive insurance cell, coal mine reclamation escrow, pension, and other postretirement benefit plans and the resulting impact on future funding requirements; the liquidity of wholesale power markets and the use of derivative contracts in our business; potential shortfalls in insurance coverage; new accounting requirements or new interpretations of existing requirements; generation, transmission and distribution facilities and system conditions and operating costs; our ability to meet the anticipated future need for additional generation and associated transmission facilities in our region; the willingness or ability of counterparties, power plant participants and power plant landowners to meet contractual or other obligations or extend the rights for continued power plant operations; and restrictions on dividends or other provisions in our credit agreements and ACC orders. These and other factors are discussed in the most recent Pinnacle West/APS Form 10-K along with other public filings with the Securities and Exchange Commission, which you should review carefully before placing any reliance on our financial statements, disclosures or earnings outlook. Neither Pinnacle West nor APS assumes any obligation to update these statements, even if our internal estimates change, except as required by law.

In this presentation, references to net income and earnings per share (EPS) refer to amounts attributable to common shareholders.

Company Profile

PINNACLE WEST
CAPITAL CORPORATION

Arizona's largest electric company

Service Territory

As of December 31, 2024.

Key facts as of Dec. 31, 2024

Consolidated assets	\$26B
Market cap	\$9.64B
Generating capacity owned or leased (year end)	6.5GW
Customers	1.4M
Current % from clean energy	54%
Retail sales mix (Residential/Non-Residential)	52%/48%

Growth Outlook & Energy Future

PINNACLE WEST
CAPITAL CORPORATION

Arizona continues to be an attractive service territory with strong customer growth

Arizona economy continues to be robust and attractive

- Phoenix housing is affordable compared to major cities in the region
- U.S. Census ranked Maricopa County third among U.S. counties for growth
- Phoenix is ranked #1 out of 15 top growth markets for manufacturing by Newmark Group, a global real estate firm
- Arizona State University ranked #1 in Innovation for 10th straight year by U.S. News and World Report
- Phoenix remains #1 as best positioned industrial real estate market by Commercial Café Report

¹ National average from 2024 Itron Annual Energy Survey Report.

Best-in-class service territory supports high tech growth and economic development

Arizona is an attractive location for business growth

- **Infrastructure** — close proximity to major markets in the West with accessibility by rail or truck
- **Weather predictability** — low propensity for natural disasters and greatest solar irradiance in America
- **Workforce availability** — three major universities graduating a skilled labor force
- **Affordability** — business friendly policies and regulation

Large C&I customers as a growth driver

- Accounts for 3%-5% of the 4%-6% long-term weather normalized sales growth¹ guidance
- Amplifier effect for jobs and surrounding communities leading to residential growth
- Proposed rate design modifications including direct assignment of generation costs to ensure growth pays for growth

¹ Forecasted guidance range through 2027.

Arizona's commercial and industrial growth is diverse

Source: Arizona Commerce Authority

We have an improved regulatory environment

Improvements at the Arizona Corporation Commission

- Balanced, constructive and more consistent outcomes, including improved ROE to APS
- Approval of Formula Rate Policy Statement
- Reaffirmation of Rate Case Settlement Policy
- Continued support of adjustor mechanisms to improve cost recovery, including SRB

Commitments by the Company

- Sustain investment in customer experience improvements
- Continue to find alignment with regulators and work with stakeholders on common issues
- Advocate for reduced regulatory lag
- Focus on customer affordability

SRB will expand our capacity to self-build generation to meet customer need with reduced lag

System Reliability Benefit Surcharge Key Features

- Projects that compete on cost and reliability from All-Source Request for Proposals
- Determines prudence of new generation between general rate cases
- Included in rates approximately 180 days after in service with Commission approval
- Recovery at prevailing WACC less 100bps until future rate case
- Traditional AFUDC treatment until asset is in service

Continued Progress on Potential SRB Opportunities

<u>Proposed Project</u>	<u>MWs</u>	<u>Est. In-Service</u>	<u>Status</u>
Sundance Expansion	90	2026	In Construction
Ironwood Solar	168	2026	In Construction
Redhawk Expansion	397	2028	Contracted

Agave BESS project removed and included as post-test year plant in 2025 rate case E-01345A-25-0105.

Transmission expansion will drive increased capital investment

We are focused on maintaining customer affordability

APS rates have remained well below the rate of inflation

Maintaining Affordability

- **Disciplined cost management:** Process improvements and preventative maintenance to reduce operating costs
- **Customer growth:** Long-term goal of declining O&M per MWh as service territory grows
- **Customer Programs:** Innovative customer programs to help customers save energy and money
- **Balanced long-term capital plan:** Infrastructure investments designed to maintain reliability and spread costs
- **Stakeholder engagement:** working with partners to ensure reliability, affordability, and recovery through appropriate rate design

Future Financial Outlook

PINNACLE WEST
CAPITAL CORPORATION

Our investor goals going forward

1. Long-term EPS growth of 5%-7% off original 2024 midpoint, supporting competitive total shareholder return
2. Optimized capital plan to reliably serve growing service territory, driving strong rate base growth and supported by SRB
3. Managing a healthy capital structure with accretive equity to support investment
4. Declining O&M per MWh with focus on customer affordability
5. Competitive shareholder dividend
6. Solid balance sheet and credit ratings

Long-term outlook potential remains solid

EPS Growth off original 2024 midpoint¹

¹ Long-term EPS growth target based on the Company's current weather normalized compound annual growth rate projections from 2024-2028.

Potential drivers for more consistent and timely cost recovery

- Reduction of regulatory lag including formula rates
- Rate case cadence and potential settlement of future rate cases
- Continued support of adjustor mechanisms
- Continued economic development driving sales and customer growth
- Continued cost management

Capital plan to support reliability and continued growth within our service territory

Source: 2025-2027 as disclosed in the First Quarter 2025 Form 10-Q

Rate Base growing within our service territory

Current Approved Rate Base and Test Year Detail

	ACC	FERC
Rate Effective Date	03/08/2024	06/01/2025
Test Year Ended	6/30/2022 ¹	12/31/2024
Equity Layer	51.93%	52.28%
Allowed ROE	9.55%	10.75%
Rate Base	\$10.36B ²	\$2.47B

Generation spend through System Reliability Benefit Surcharge and transmission spend expected to total ~40% of tracked capital from 2024-2027 and help reduce regulatory lag

¹ Adjusted to include post-test year plant in service through 06/30/2023.

² Rate Base excludes \$215M approved through Joint Resolution in Case No. E-01345A-19-0236.

End-of-Year Rate Base and Growth Guidance¹

¹ Guidance excludes CWIP amounts of \$1.7B in 2023 and \$3.0B-\$3.5B in 2027.

² Derived from APS annual update of formula transmission service rates.

³ Represents unadjusted ACC jurisdictional rate base consistent with regulatory filings.

Optimized financing plan to support balanced capital structure

2025-2027 Financing Plan

¹ Cash from operations is net of shareholder dividends.

² APS and PNW debt issuance is net of maturities.

Funding Strategy

- External equity to support balanced APS capital structure and expanded, accretive capital investment
 - Equity needs < prior targeted 40% of new capital
- Financing plan consistent with balance sheet targets
- In May 2025 PNW issued \$800M unsecured bonds; proceeds used to pay off \$500M PNW 2025 maturity and \$300M APS 2025 maturity

Completed Equity

Feb. 2024 Forward Sale	Priced	Settled
Dec. 2024 Partial Settlement	\$725M	\$345M
Forward ATM Program (\$900M)	Priced	Settled
ATM Program	\$100M	\$0

ATM program: PNW may sell up to \$900M of common stock

We are focused on cost control and customer affordability

Operations & Maintenance Guidance

- Reduced year-over-year core O&M excluding planned outages
- Planned major outage in Q1 at Four Corners Unit 4
- Lean culture and declining O&M per MWh goal

O&M Guidance
(millions)

Long term goal remains declining O&M per MWh

¹ O&M amounts, as adjusted, exclude RES/DSM of \$141M and include planned outage amounts of \$70M in 2024.

We have a proven dividend growth track record¹

Dividend Targets

- Long-term dividend growth
- Attractive dividend yield
- Managing long-term dividend payout ratio into sustained 65-75%

¹ Future dividends are subject to declaration at Board of Directors' discretion.

We are focused on maintaining healthy credit ratings to support affordable growth¹

	Corporate Ratings	Senior Unsecured Ratings	Short-Term Ratings	Outlook
APS				
Moody's	Baa1	Baa1	P-2	Stable
S&P	BBB+	BBB+	A-2	Stable
Fitch	BBB+	A-	F2	Stable
Pinnacle West				
Moody's	Baa2	Baa2	P-2	Stable
S&P	BBB+	BBB	A-2	Stable
Fitch	BBB	BBB	F3	Stable

Balance Sheet Targets

- Solid investment-grade credit ratings
- APS equity layer >50%
- PNW FFO/Debt range of 14%-16%

¹ We are disclosing credit ratings to enhance understanding of our sources of liquidity and the effects of our ratings on our costs of funds. Ratings are as of July 28, 2025.

Debt maturity profile shows well managed and stable financing plan

As of June 30, 2025

We have a stable foundation with solid execution going forward

- Service territory is one of the fastest growing in the nation with a diverse customer base
- Improved regulatory environment with focus on reducing regulatory lag
- Strong customer centric strategy focused on reliability and customer experience
- Proven track record of efficient O&M practices and focus on customer affordability
- Solid balance sheet and well managed financing plan
- Attractive financial growth profile building off original 2024 midpoint

2025 Rate Case

PINNACLE WEST
CAPITAL CORPORATION

2025 APS rate case application

Overview of rate request (\$ in millions) key components

Rate Base Growth	\$208
12 months Post-test Year Plant	\$82
Fair Value Increment	\$101
WACC (7.63%)	\$129
Other (Base fuel, depreciation study, etc.)	<u>\$143</u>
Total Revenue Requirement	\$662
Adjustor Transfers	<u>\$(82)</u>
Net Revenue Increase	\$580
Customer Net Revenue Impact on Day 1	13.99%

Additional details

- APS has requested rates become effective in the second half of 2026
- Docket number: E-01345A-25-0105
- Additional details, including filing, can be found at <http://www.pinnaclewest.com/investors>

Numbers may not foot due to rounding.

2025 APS rate case application

Overview of rate request (\$ in millions) key components	
Test Year Ended December 31, 2024	
Total Rate Base - Adjusted	\$15.3B
ACC Rate Base - Adjusted	\$12.5B
Embedded Long-Term Cost of Debt	4.26%
Allowed Return on Equity	10.70%
ROE Band for Formula Rate	+/- 20bps
Capital Structure	
Long-Term Debt	47.65%
Common Equity	52.35%
Base Fuel Rate (¢/kWh)	4.3881¢/kWh
Post-Test Year Plant period	12 months
Proposed rate design modifications	
• Direct assignment of generation costs to ensure extra high load factor customers pay for the resources they require • Align rates with costs to move classes closer to their cost of service which supports small and medium sized businesses • Ensure growth pays for growth and offers significant customer protections	

2025 APS rate case application

Formula Rate Adjustment Mechanism (FRAM) proposal

- Historic test year, with authorized ROE and capital structure approved in most recent rate case
- Inclusion of 12 months projected plant
- System Reliability Benefit costs transferred into each formula reset
- No rate adjustment if actual ROE falls within +/- 20 bps of authorized ROE
- Revenue surplus/deficiency allocated based on ACC jurisdictional cost of service results

FRAM proposed schedule

ACC filing of Annual Update	On or before July 31
Last day for data requests and to submit informal challenge(s)	August 12
Last day for Company responses to informal challenge(s)	August 26
Informal challenge(s) resolution deadline	August 31
Rate effective date	First September billing cycle
Last day for data requests and to submit formal challenge(s)	September 22
Last day for Company responses to formal challenge(s)	October 6
Staff Report (if no hearing)	October 31
Commission Decision	December 1

Residential PV Applications

Monthly data equals applications received minus cancelled applications. As of June 30, 2025, approximately 188,955 residential grid-tied solar photovoltaic (PV) systems have been installed in APS’s service territory, totaling approximately 1,696 MWdc of installed capacity. Excludes APS Solar Partner Program, APS Solar Communities, and Flagstaff Community Partnership Program.

Note: www.arizonagoessolar.org logs total residential application volume, including cancellations.

Renewable Energy & Demand Side Management expenses¹

¹ Renewable Energy and Demand Side Management expenses are substantially offset by adjustment mechanisms.

2025 gross margin effects of weather

2025 Total Weather Impact: \$12 Million

All periods recalculated to current 10-year rolling average (2014 – 2023). Numbers may not foot due to rounding.

Wildfire Mitigation

Our current practices are comprehensive and multi-faceted:

 Vegetation management • Comprehensive right-of-way clearance on maintained cycles • Defensible space around poles (DSAP) • Hazard tree program	 Grid hardening investments • Ongoing distribution system upgrades • Mesh pole wrapping • Expulsion limiting fuses • Steel poles (if truck accessible)	 Asset inspection • Enhanced line patrols • Technology deployments • Drone use • Infra-red scans	 Monitoring and awareness • Dedicated team of meteorologists • Advanced fire modeling software • Cameras and weather stations • Federal & state agency partnerships	 Operational mitigations • Non-reclosing strategy • Public outreach program • Red Flag Warning protocols • Public Safety Power Shutoff (PSPS)
 Internal: 18-person fire mitigation department engages across entire APS organization to plan and implement initiatives External: Member of multiple fire mitigation industry associations			 Independent third-party reviews of APS wildfire mitigation plan
