FORWARD-LOOKING STATEMENTS

Statements in this presentation that are not historical facts are forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995 and involve risks and/or uncertainties, including those described in the Company’s public filings with the Securities and Exchange Commission. The Company has based forward-looking statements on management’s current expectations and assumptions and not on historical facts. Examples of these statements include, but are not limited to, the Company’s expectations regarding the closing of the sale of The Mirage and Gold Strike Tunica (collectively, the “Transactions”) and any expected benefits to be received from the Transactions. Additional forward-looking statements also include statements related to the Company’s financial outlook (including expectations regarding its liquidity position, long term cost savings and corporate expense), the continued impact of the COVID-19 pandemic on the Company’s operations, expectations regarding the impact of macroeconomic trends on the Company’s business, the Company’s ability to execute on its strategic pillars, the Company’s ability to return value to shareholders (including the timing and amount of any share repurchases or dividends), expectations regarding the development of an integrated resort in Japan and in New York, the positioning of BetMGM as a leader in sports betting and iGaming (including BetMGM’s expected growth in new and existing jurisdictions and projected market share) and expectations regarding the outcome of the public tender for a new gaming concession in Macau. These forward-looking statements involve a number of risks and uncertainties. Among the important factors that could cause actual results to differ materially from those indicated in such forward-looking statements include the continued impact of the COVID-19 pandemic, effects of economic and other conditions in the markets in which the Company operates and competition with other destination travel locations throughout the United States and the world, the design, timing and costs of expansion projects, risks relating to international operations, permits, licenses, financings, approvals and other contingencies in connection with growth in new or existing jurisdictions and additional risks and uncertainties described in the Company’s Form 10-K, Form 10-Q and Form 8-K reports (including all amendments to those reports). In providing forward-looking statements, the Company is not undertaking any duty or obligation to update these statements publicly as a result of new information, future events or otherwise, except as required by law. If the Company updates one or more forward-looking statements, no inference should be drawn that it will make additional updates with respect to those other forward-looking statements.

MARKET AND INDUSTRY DATA

This presentation also contains estimates and information concerning the Company’s industry that are based on industry publications, reports and peer company public filings. This information involves a number of assumptions and limitations, and you are cautioned not to rely on or give undue weight to this information. The Company has not independently verified the accuracy or completeness of the data contained in these industry publications, reports or filings. The industry in which we operate is subject to a high degree of uncertainty and risk due to a variety of factors, including those described in the "Risk Factors" section of the Company’s public filings with the SEC. Third party logos and brands included in this presentation are the property of their respective owners and are included for informational purposes only.

NOTE REGARDING PRESENTATION OF NON-GAAP FINANCIAL MEASURES

This presentation includes certain “non-GAAP financial measures” as defined in Regulation G under the Securities Exchange Act of 1934, as amended. Schedules that reconcile the non-GAAP financial measures to the most directly comparable financial measures calculated and presented in accordance with Generally Accepted Accounting Principles in the United States are included herein or in the Company’s earnings releases that have been furnished with the SEC and are available on our website at www.mgmresorts.com.

In this presentation we also present 2019 Adjusted Property EBITDA for The Mirage, which is calculated as 2019 reported Adjusted Property EBITDA less rent of $90 million. Schedules that reconcile The Mirage Adjusted Property EBITDA to the most directly comparable financial measure calculated and presented in accordance with GAAP are available in the Company’s earnings release, dated February 12, 2020, that was furnished with the SEC and our available on our website at www.mgmresorts.com.

IMPORTANT NOTE REGARDING BETMGF FINANCIAL AND OTHER INFORMATION

This presentation includes certain financial and other information related to BetMGM and the industry in which BetMGM operates, which is jointly owned by the Company and Entain plc. This information was obtained from BetMGM management and while the Company believes such information to be reliable and accurate, the Company has not independently verified it and does not make any representation as to its accuracy. BetMGM financial information is not prepared in accordance with GAAP. If BetMGM presented these financial measures in accordance with GAAP, then BetMGM would present the revenues associated with its Nevada digital and retail sports betting operations differently, until such time as BetMGM is directly licensed as a Nevada gaming operator. Currently under GAAP, its calculation of net revenue would be on a basis net of operating costs, such that the GAAP reported net revenue would be lower than the net revenue reported herein, with net income remaining the same. BetMGM projected net revenue from operations and target EBITDA margins are also based on significant assumptions regarding the extension of current market trends in the states where BetMGM currently operates as well as assumptions regarding BetMGM’s expansion into new jurisdictions. These assumptions are subject to significant risks and uncertainty and as a result investors are cautioned not to place undue reliance on such statements as a prediction of BetMGM’s actual results. See “Forward-looking Statements” above.

1. The total of “VIP gross table games win”, “main floor gross table games win” and “slot machine gross win” is different to the casino revenue because casino revenue is reported net of commissions and certain sales incentives including the allocation of casino revenue to hotel rooms, food and beverage and other revenue for services provided to casino customers on a complimentary basis.
3. Due to social distancing measures as a result of the COVID-19 pandemic, the slot machines were operated at a reduced capacity.
