

MGM Grand Marks Major Milestone in "Grand Renovation" with Completion of \$160 Million Room and Suite Remodel

9/27/2012

LAS VEGAS, Sept. 27, 2012 /PRNewswire/ -- MGM Grand, Las Vegas' ultimate entertainment destination, announced today the completion of its \$160 million room and suite remodel in the hotel's main tower, marking a major milestone in the resort's "Grand Renovation."

The remodel, which began in October 2011, includes 3,570 Grand King and Queen guest rooms and 642 suites of varying types including the stunning Skyline Terrace and Skyline Marquee Suites.

"Our newly redesigned accommodations set the stage for an incredible experience at MGM Grand and the positive response we've been receiving from our guests is extraordinary," said Scott Sibella, president and COO of MGM Grand. "MGM Grand is home to The Strip's finest entertainment and dining options; these stunning new rooms and suites complete the Las Vegas resort experience."

Created by the talented team at MGM Resorts International Design, the remodeled Grand King and Grand Queen guest rooms showcase a stylish combination of interior finishes and accents, creating a modern sensibility with an inviting ambiance. For guests seeking additional space for entertaining and relaxing, a variety of newly redesigned one and two-bedroom suites are available, several of which feature expansive outdoor terraces with sweeping views of the famed Las Vegas Strip.

In keeping with MGM Grand's commitment to sustainability, the newly remodeled rooms and suites incorporate environmentally responsible elements including LED lighting; improved thermostats and solar shades to better manage temperature and guest comfort; upgraded faucets and showers; and bath amenities that are 100 percent biodegradable.

MGM Grand also recently announced the STAY WELL collection featuring 42 rooms and suites designed for guests looking to take their wellness lifestyle "on the road" when traveling. Each room will include more than a dozen features designed to enhance and improve the hotel experience from wake-up light therapy that reverses jetlag to shower water infused with Vitamin C to promote healthy hair and skin. The rooms are available for reservation now and will be ready for guests in late October.

MGM Grand's evolution continues into 2013 with the highly anticipated opening of Hakkasan Las Vegas Restaurant and Nightclub, an upscale dining experience combined with multiple nightlife components from Angel Management Group, one of Las Vegas' preeminent nightclub operators. Located where the iconic Studio 54 stood for 14 years, the venue will deliver an innovative concept evolving beyond Hakkasan's original restaurant model, incorporating the best of dining and nightlife to create an unimaginable experience that will revolutionize the Las Vegas market. Hakkasan is scheduled to open spring 2013.
