MGM Resorts International Announces Adoption Of \$1.0 Billion Share Repurchase Program

9/5/2017

LAS VEGAS, Sept. 5, 2017 /PRNewswire/ -- MGM Resorts International (the "Company" or "MGM Resorts") (NYSE:MGM) today announced that its board of directors has adopted a \$1.0 billion stock repurchase program.

"Our new share repurchase program, along with the initiation of our quarterly dividend earlier this year, clearly highlights the board and management team's firm belief in our strategic plan – the successful execution of our long-term growth prospects, our disciplined capital allocation strategy, and our ongoing commitment to maximize sustained value for our shareholders," said Jim Murren, Chairman and CEO of MGM Resorts.

Under the stock repurchase program, which is designed to return value to the Company's shareholders, the Company may repurchase shares from time to time in the open market or in privately negotiated agreements. Repurchases of common stock may also be made under a Rule 10b5-1 plan, which would permit common stock to be repurchased when the Company might otherwise be precluded from doing so under insider trading laws. The timing, volume and nature of stock repurchases will be at the sole discretion of management, dependent on market conditions, applicable securities laws, and other factors, and may be suspended or discontinued at any time.

Mr. Murren continued, "Today's concurrent announcements related to the MGM National Harbor transaction and the resulting liquidity at MGM Resorts continue to demonstrate the power of our business model and create avenues for balance sheet enhancement and sensible capital allocation."

"The Company's consistently strong operating performance and cash flow generation coupled with a healthy balance sheet, continue to position us well to prudently return capital to shareholders," said Dan D'Arrigo, Chief Financial Officer of MGM Resorts. "Through our share purchase program, we intend to maintain a balanced and efficient approach, with the flexibility for strategic deployment of cash as opportunities arise in the future."
